Local nonprofit organizations have provided potable water to Flint residents. MSP/EMHSD GIS staff is supporting county and local GIS staff by consolidating data from local sources into comprehensive databases and providing mapping services to support incident analysis and forecasting. Data and maps regarding the location of water pipes, affected schools, filter distribution locations, water monitoring results, and predictive blood lead levels for affected areas will be made available with demographics.
Before December 16, 2015, $9.35 million was provided by the State of Michigan and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While the source water has been switched back to DWSD, water in the City of Flint is still not safe to drink, unless specifically filtered.

On January 6, 2016, Governor Snyder declared a State of Emergency for the City of Flint and Genesee County. Genesee County requested the Governor's declaration on January 5, 2016, following the declaration of a State of Emergency in the county in response to the presence of lead in the public water supply and the detection of elevated blood lead levels exceeding governmental standards.

MSP/EMHSD GIS Section Update

Accomplished Today:
- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:
- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

### Incident Response/Recovery Priorities/Objectives

1. Activate the State Recovery Task Force
2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
3. Obtain and maintain situational awareness and common operating picture of all activities.
4. Establish SEOC operational period and hours of operations.
5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
6. Develop a comprehensive GIS strategy.
7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local

agencies.
9. Provide technical assistance to the local Damage Assessment process.
10. Establish a Joint Information Center (JIC) and develop a public information strategy.
11. Monitor MI CIMS for resource requests and address as appropriate.
12. Establish and disseminate cost center information for the incident.

## Local Damage Summary

**Public Damage Totals**

**Private Damage Totals**

**Damage Assessment Summary**

## Agency Summaries

**Joint Information Center / Public Information Officer**

The Joint Information Center (JIC) was operational at 1 p.m. on Jan. 6 and operational from 8 a.m. to 5 p.m. on Jan. 7. State agencies at the JIC included the Departments of Licensing and Regulatory Affairs, Health and Human Services, Agriculture and Rural Development, Environmental Quality, and Michigan State Police.

During the 8 a.m. to 5 p.m. operational period, Gov. Rick Snyder held a press availability with Flint Mayor Karen Weaver. In addition, a round-table press briefing occurred at 1 p.m. at the 4000 Collins Road facility.

Objectives included:

- Oversaw and managed the state of Michigan public information duties due to emergency declaration.
- Held a 4 p.m. conference call with Genesee County PIO Sheriff Robert Pickell and city of Flint PIO Lead Sean Kammer.

Information Gathering
- Created media monitoring reports about the disaster as needed.
- Crafted talking points about the ongoing disaster, including a better description of the emergency declaration process.

• Crafted social media posts about state efforts underway during the disaster recovery process.
• Created graphics for social media efforts.

Information Dissemination
• Answered phones and manage media inquiries in regards to the Flint Water situation.
• Worked to establish a GovDelivery account; post link of website to sign up.
• Finalized details, media invite list and host a media roundtable.

External Affairs
• Worked on planing a conference call between command staff and affected state legislators and congressional Jan. 8, 2015.

Administrative
• Worked on filling staffing for the next operational period.

Logistics
• Worked on fixing email accounts.
• Worked to established a location with Genesee County and the city of Flint for a Unified Joint Information Center by the end of the week.
• Established a conference call line for the media roundtable.

**Agriculture and Rural Development (MDARD)**

Two areas MDARD is monitoring:
1). Water usage in food processing, food retail, and food service (restaurants). Guidance document has been available since October; MDARD surveyed food processors in October and did not find issues.
2). Water consumption by pets / animals. There has been some evidence of lead toxicity in dogs, and there has been guidance about pets & water included in the Q & A.
Jan 7th 2016 4pm update:
MDARD and Genesee Local Health Dept. agreed to move guidance on water to a regulatory requirement. New language (after JIC approval) will be going out to retail food establishments and restaurants with follow up inspections and sampling. Planning will continue on logistics for sampling.
Animals - call into the Genesee County Animal Control Shelter not yet returned; will try again tomorrow.

**American Red Cross (ARC)**

The MSP/EMHSD planners asked the American Red Cross to brainstorm and come up with possible ways in which MI-VOAD, the Red Cross and other NGOs might be able to assist in the response and recovery phases of the Flint Water Contamination. We are working on this and calling upon Red Cross colleagues to contribute to it. We've briefed Red Cross Regional and Divisional management on this incident. The Red Cross will provide situational awareness regarding the services related to the water contamination that individual NGOs are providing to Flint residents.

**Civil Rights (MDCR)**

*Monitor and support agencies with issues surrounding outreach and engagement of marginalized populations within the City of Flint impacted by the current water crisis.*

**Corrections (MDOC)**

Approximately staff members are working in the affected area. Potable water has been provided to the offices in the affected area since the beginning of this situation and will continue to be provided. This water is available for people working there and those that have been required to go the office. We will continue to monitor this situation for any developing issues.

**Environmental Quality (MDEQ)**

The Michigan Department of Environmental Quality (DEQ) staff continue to conduct testing in the Flint Schools.

**Human Services (MDHS)**

*Summary for both Health & Human Services*
Participated in 9:30 State Agency briefing.
Attended Recovery Task Force / Recovery Branch meeting.
Coordinating between CHECC and JIC.
Local MDHHS staff active in local EOC.
Participated in MDHHS 12:30 Flint Water Lead Project call
Gathering information on water filter acquisition, distribution, installation, life span and replacement.
Providing update to Executives
CHECC remains at Level 1 Activation - Normal Operations

**Licensing and Regulatory Affairs (LARA)**

*LARA upgraded to a mandatory department for this incident*

Attached is a Point of Contact (POC) List

*Attached is a Work Report indicating what work LARA has done today in City of Flint*

**National Weather Service (NWS)**

Jim Maczko from NWS Grand Rapids participating in morning SEOC briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac.

**Natural Resources (MDNR)**

MDNR is fully participating in all SEOC activities. Situational awareness is being maintained and the department stands ready to assist as needed.

**Services to the Aging (OSA)**

Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the Genesee County Health Department and MDHHS, has helped organize local meetings and distribute water and water filters. VAAA is an access point for receiving calls from homebound seniors who are not able to pick up water filters or need assistance installing water filters. VAAA reports they continue to receive calls from seniors who need assistance.

VAAA has distributed 2 bottles of water with each home delivered meal to each HDM client within the City of Flint. Water. VAAA also provided water to homebound seniors who needed water to prepare food as they had limited support to pick up bottled water. Congregate meal participants also have access to water and filters as needed. Once water filters were installed, VAAA discontinued including water with home delivered meals.

VAAA also contacted the Grandparents Raising Grandchildren program to ensure that they were aware of educational efforts and confirm the program had received water filters to distribute to program participants.

**State Police (MSP)**

Insp. Bolger is monitoring the incident via MICIMS and participating in State Agency Briefings.

**Supreme Court**

January 6, 2015:
08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

**Technology, Management and Budget (MDTMB)**

*Provided update to management on morning briefing.*
DTMB tasked with finding co-location site for the Joint Information Center within the Flint State Office Building. DTMB conference room is available to be used for the JIC with a media meeting room also available. DTMB Network and Telecommunications Division working on installation of additional telephone and data lines.

**Incident Related Images**

# Damage Assessment and Emergency Status Report

## Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

### Operational Period

| | |
|---|---|
| **Operational Period Begin:** | 01/19/2016 08:00:00 |
| **Operational Period End:** | 01/26/2016 08:00:00 |
| **Situation Report No.** | 16 |
| **SEOC Status:** | Full |
| **SEOC Hours of Operation Begin:** | 01/21/2016 08:00:00 |
| **SEOC Hours of Operation End:** | 01/21/2016 20:00:00 |

### Executive Summary

SEOC Update:
Accomplished today (January 21):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public Information Control.

- Logistics
o Worked with *FEMA/DHHS on warehouse tracking status/strategy.*
o Coordinated resources and needs with donations management.
o Coordinated additional resources and tasks for new weekend volunteers (500 each day).
o Working with Red Cross to provide food bank delivery resources.
o Ordering and projecting future orders of water resources and commodities.
o Working on local business commodity supply plan.
o Coordinated filter/cartridge donation list.
o Worked with MDTMB for more iPads, more vests, and more door hangers for weekend volunteer surge.
o Worked with the JIC and GOV to establish a business resource submission tab on www.helpforflint.com
o Worked with MDOT to resolve safety issues at PODs

- JIC
o Media requests today concerning where the state is with its mission to provide water filters and resources to citizens.
o JIC messaging will be that we have geographically covered the entire city once and are working to double back and make contact with all missed residents.

- Recovery Branch
o Continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday
o Confirmed team typing for Flint Water Resource Teams

o Data is for 1/21/16 as of 5:00 pm:
o Total homes visited.
  36,179 (total).
  5,409 (today).
o Water Cases.
  105,091 (total).
  10,403 (today).
o Replacement Cartridges.
  189,428 (total).
  1,039 (today).
o Faucet Filters.
  79,571 (total).
  2,356 (today).

- Planning Section.
o Published Sit Rep # 16.
o Worked with GIS to roll out updated map, created coordinated revised script for field teams.
o Participated in daily SEOC briefings and distribution process conference call.
o Participated in development of phase strategy roll out.

- Operations Section.
o Facilitated daily SEOC briefing and local EOC call.
o Continued to develop phased canvassing roll out.
o Request put in for MDOT to address traffic issues at POD Fire Station's #6 and #3.

o Warehouse Numbers as of 1800:
  Water (cases).
- 94,500.
  Filters (faucet).
- 34,284.
  Replacement cartridges.
- 141,562.
  Filters (pitcher).

• 0.
Test Kits.
• 0.

o PODs (1700 1/20 – 1600 1/21)
*Water (cases).*
• 10,978.
Filters (faucet).
• 1,153.
Replacement Cartridges.
• 445.
Filters (pitcher).
• 0.
Test kits.
• 801.

• Finance Section.
o Working with state agencies and local EM to obtain category B costs incurred since April 25, 2014.
o Continuing to compile costs incurred by state agencies for all activities related to event since activation.
o Meet with FEMA Public Assistance staff to discuss current status.
o Work on reference document for state agency financial staff for reporting of related incident costs.

• GIS Branch Updates.
• Updated the Field Team Support maps to develop grid system.
• Provided updated map of vulnerable populations for the MDCH.
• Provided list of vulnerable individuals to local EOC through local EOC situation unit leader.
• Released V3 of the field data collection app with new form data for second round of home visits.
• Updated Flint Water Response Team activity map for distribution by the JIC.
• Provided data for the Recovery Branch on the Field Teams Activity.
• Cross referenced health facilities and adult foster care to identify facilities in the affected area.
• Provided list of franchise customers beyond City of Flint limits to Public Safety Branch.
• MSHDA was provided a map of active water subscribers in the area.
• Provided updated lead data to U of M Flint and coordinated with FEMA GIS to complete lead service line mapping.
• Updated operational dashboard for field team activity (still need to provide updated dashboard for PODS).
• FEMA Logistics recommended inventory management be integrated into the dashboards and GIS web-developers are actively researching a strategy to accomplish this.

DTMB:
• Process additional resource requests for warehouse commodities, supplies for volunteer teams for the weekend, and space for water samples.
• Provided FEMA staff with access cards, office space, and parking for Flint office building.
• Additional vehicles being delivered to support the canvassing effort.

DHHS-CH
• Dr. Nicole Lurie from HHS was at the CHECC and SEOC today to explain the US DHHS transition.
• Disaster distress helpline is up and running this afternoon, messaging will be going out through JIC.
• *Worked with GIS to map the medically dependent persons.*
• Conference call held with the CHECC, SAMHSA, and local HD on DBH.

DEQ
• Working to increase staffing levels at the DEQ testing lab to process samples more efficiently.
• Working on increasing resources for testing kits.

Local EOC Update:
• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify recycling plans and potential volunteer utilization.
• Developed SitRep #10.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

## Incident Response/Recovery Priorities/Objectives

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy and process.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Maintain GIS strategy.
8. *Maintain coordination between partner agencies and organizations to include FEMA IMAT.*
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

## Emergency Declarations

**Local Declarations**
**Jurisdiction(s): Date/Time:**
Genesee County, Public Health Emergency, 10/01/2015

## Weather Conditions

**Watches/Warnings**

**Upcoming Forecast**
Forecast Update for Flint, MI - January 21
*o Cold continues through the weekend, though not as cold as the beginning of the week*
o On and off light snow possible Thursday (January 21) and Friday (January 22). No significant accumulation expected.
Temperatures will remain below 25 degrees though at least Thursday night (January 21) and possibly longer, with slightly warmer weather expected over the weekend. Above freezing temperatures may not occur again until early next week.

Wind Chill values not as hazardous Thursday (January 21) through Sunday (January 24). Risk for frostbite is low unless exposure time for the individual is several hours in length with the person engaging in little to no activity.

**Other**

**Private Damage Totals**
**Damage Assessment Summary**

## Agency Summaries

***Joint Information Center / Public Information Officer***

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Jan. 21.

State agencies at the JIC included the Governor's Office, Michigan State Police, Michigan Economic Development Corporation, Michigan Community Service Commission and Departments of Environmental Quality, Health and Human Services, Agriculture and Rural Development, Licensing and Regulatory Affairs, Military and Veterans Affairs, and Treasury. The Federal Emergency Management Agency, Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:
• Finalized an Official Statement about testing bottled water for lead. Recently, there were concerns raised about the possibility of lead being in the bottled water that is being given to residents of Flint. The statement was provided to ABC12 who contacted the JIC and also to 211 to use when asked.
• Created a media monitoring report and looked for misinformation. Called to request a correction to a Detroit Free Press headline that included WRTs were completing their work; headline was amended to indicate the mission is ongoing. Several media calls on this topic were received and answered today.
• Added the following content to www.michigan.gov/flintwater: link to www.helpforflint.com; water donation drive guidelines; Disaster Distress Helpline; and photos from National Guard door-to-door teams.
• Media hotline staff answered over 30 emails and phone calls.
• Updated internal and general talking points about the ongoing Flint water emergency.
• Continued routing public information materials for approval, including communications from MDE, MDARD, MDEQ, and MDHHS.
• JIC is planning to issue the nightly activity news release with water activity map around 6 p.m.
• MSP F/Lt. Dave Kaiser is scheduled for in-studio interview with ABC 12 tonight to share tonight's activity news release. It is expected to air during 11 p.m. newscast and again during tomorrow's morning newscast.
• MSP Sgt. Bruce Payne assisted the Detroit Free Press and Fox 2 Detroit in obtaining B-roll of the water response teams. F/Lt. Kaiser did a standup with WXYZ about water response team progress.

**Agriculture and Rural Development (MDARD)**

Thursday, Jan. 21 - MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants)

that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and we have scheduled 28 appointments to collect water samples.

Additional activities today: 1) completed Resource Request for MDARD to send two laboratory personnel to help out at the MDEQ Laboratory. 2). working on inquiry that came through OPS regarding messages for what to do if you have pets. Existing documents on the flintwater website contain guidance; we are evaluating need for a stand alone document.

**American Red Cross (ARC)**

The American Red Cross continued assembly of water test kits today at ARC headquarters. More than 10,000 water test kits were assembled over the last 2 days.
We deployed and supported teams for neighborhood canvassing (Water Response). We expect to field teams on Friday.
We supplied lunches for all of the event-based volunteers.
The volunteer reception center (VRC) was in full operation Thursday. 59 volunteers were processed today. The VRC will be in operation on Friday from 9am to 4pm.
We continued to provide warehouse and inventory management.
A total of 93 Red Cross volunteers were active on this operation today.

**Civil Rights (MDCR)**

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Also monitoring media and coverage of rallies and events. Have briefed senior leadership and are working to assist JIC with messaging/engagement in underserved communities.

**Community Health (MDCH)**

The CHECC remains activated at Level 2, and communications have been maintained between the SEOC and CHECC.

RADM Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.

Held a conference call this morning with SAMHSA and the local Community Mental Health agency to discuss coordination. Technical assistance from SAMSHA was offered to CMH if requested. The National Disaster Distress Hotline is operational and listed on the Flint Water website.

Addresses for medically dependent individuals was provided to GIS and maps were produced indicating whether or not they have been reached by the Water Response Teams. Additional information from logistics is necessary to determine whether these individuals were contacted by the "hot shot" operations for special requests to receive assets.

Contacted the GCHD regarding the status of reaching-out to restaurants in the affected area. Coordination was discussed with MDARD as to the plan or process for ensuring that restaurants receive the resources that they may potentially need (i.e. filters, filter cartridges, etc.). Additional coordination and planning is necessary. GCHD Emergency Preparedness Coordinator provided a point of contact from their Environmental Health Division for MDARD to reach out to.

**Corrections (MDOC)**

The MDOC has scheduled the following resources to be dedicated to the Flint Water Response Team on Thursday, January 21, 2016:

) - MDOC employees

- MDOC SAI prisoners

(3) - 15 passenger vans

(2) - 12 passenger vans

(4) – 10 passenger vans

(1) – 8 passenger van

(2) – 6 passenger vans

(1)- Regular Cab Pickup

(1) – F-250 Pickup

(5) – Box Trucks

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

All vehicles drivers have 800 MHz Radio Operability

The MDOC has scheduled the following resources to be dedicated to the Flint Water Response Team on Friday, January 22, 2016:

- MDOC employees

- MDOC SAI prisoners

(3) - 15 passenger vans

(2) - 12 passenger vans

(4) – 10 passenger vans

(1) – 8 passenger van

(2) – 6 passenger vans

(1)- Regular Cab Pickup

(1) – F-250 Pickup

(5) – Box Trucks

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

All vehicles drivers have 800 MHz Radio Operability

You will be receiving updated information as we progress with the operation.

Please feel free to contact Brent Travelbee, Mike Farmer or Todd Bechler with specific questions or concerns regarding SEOC operations.

**Education (MDE)**

MDE is monitoring the situation and coordinating as necessary with other state agencies.

Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.

The State Superintendent sent notice to school districts, public school academies, and non-public schools on donation and volunteer opportunities related to the Flint water crises.

***Environmental Quality (MDEQ)***

The Department of Environmental Quality (DEQ) completed the following activities today:

• Tracked test bottle orders and facilitated transport to/from warehouse and American Red Cross Headquarters.

• Commercial drinking water samples related to the total dissolved solids meter concern were analyzed with a non-detect result for Lead and Copper. We transmitted results to Joint Information Center and Genesee County Emergency Operations Center.

• Conducted conference call with MDEQ, Department of Technology, Management and Budget, and Emergency Management and Homeland Security Division (EMHSD) finance and discussed documentation needed, and develop more efficient ordering process for laboratory supplies.

• Coordinated plan for pickup of samples by the Department of Corrections at Points of Distribution, City Hall and Water Treatment Plant and delivery to the DEQ Lab. This plan will commence tomorrow, January 21.

• Requested updated sample results from DEQ lab for plotting on map by EMHSD Geographic Information System staff.

**Human Services (MDHS)**

Completed a request that was transferred to us from DTMB to secure a conference room on 2nd floor of Flint State Office building to be used by the JIC on Friday, January 22nd from 13:00-15:00. Point of Contact will be Ms. Mel Brown from the JIC.

Made contact with the MDHHS Points of Distribution sites for status on their inventory of supplies. Confirmed their plan to replenish their supplies.

CHECC continues to maintain a Level 2 Activation

**Licensing and Regulatory Affairs (LARA)**

LARA has provided 2 MIOSHA employee's to help DEQ with laboratory analysis of incoming water samples.

Freeman School testing will occur this weekend with DEQ and LARA staff. Additional mapping at schools has continued with scheduling of facilities.

LARA Bureau of Community and Health Services has completed surveys for Child Care, Adult Foster Care, and Health facilities. Verification of responses by GIS has been completed. Assessment of needs will begin.

LARA Executive Team has been updated.

**Military and Veterans Affairs (DMVA)**

Last 24 hours:
Distributed water, water filters, water test kits and collected water samples for analysis at five points of distribution. Coordinated efforts with Genesee County EOC and Joint Information Center. In-Processed 33 Soldiers to augment distribution operations at 1800 S. outer Dirve, Saginaw, MI on 17 January 2016 at 1300. Conducted lodging and operations orientation following in-processing. Total of 67 Soldiers on State Active Duty on 17 January 2016. All PODS received pallet jacks for off-loading water palfets. Coordination between FEMA and Selfridge Air Base (SANGB) taking place. Exact terms of agreement of FEMA using SANGB for staging operations have not been identified at this time.

Total of 67 Soldiers on State Active Duty:
1 at Genesee County EOC
1 at Joint Information Center
32 at PODS
33 Soldiers In-processing

Next 48 hours:
Distribute water, water filters, and water test kits and collect water samples for analysis at five points of distribution. Coordinate efforts with Genesee County EOC and Joint Information Center. Relieve Red Cross at PODS, assuming their role of distributing filters. Total of 67 Soldiers on State Active Duty on 17 January 2016. Additional Soldiers will conduct first full day of distribution operation on 18 January 2016. Continue coordination between FEMA and SANGB, a 0800 meeting will be conducted on 18JAN16.

Micheal Shook
CPT, IN, USA
989-763-4256

**National Weather Service (NWS)**

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac. Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Hand off to NWS Detroit for morning conference call weather forecast in progress. Estimated date when NWS Detroit will begin morning SEOC briefings and MICIMS posts is Tuesday, January 26.

**Natural Resources (MDNR)**

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

**Services to the Aging (OSA)**

Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.

As of Friday, January 15th, VAAA and MDHHS-Adult Protective Services (APS) has provided AASA with over 2,000 addresses of homebound, frail, or otherwise at-risk seniors living in Flint. AASA has in turn forward these addresses to MSP-GIS to overlay their heat map and for local follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

Prior to the State Declaration of Emergency, Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the GCARD, Genesee County Health Department and MDHHS, participated in the local ad-hoc response by helping organize local meetings and distributed water and water filters to VAAA Home Delivered Meal recipients. VAAA was also an I&A access point for receiving calls from homebound seniors who are not able to pick up water filters or needed assistance installing water filters. VAAA referred seniors needing filters to GCARD for follow-up. Because VAAA is a known and trusted local resource for older adults in Genesee County, they continues to receive calls from seniors needing access to water and filters.

**State Police (MSP)**

MSP and GCSD supported 18 National Guard staffed teams that were out today and there were 10 Red Cross teams. 6353 homes were visited today.

The MSP/National Guard teams are not currently tooled to conduct on-demand services and are singularly focused on reaching all areas of the City of Flint with our Water Response Team assets for phase 2 operations by Sunday, January 24th.

The Genesee County Emergency Manager is able to intake all on-demand requests and forward them to the appropriate personnel for response.
Chris DeVriendt
Genesee County Emergency Management
cdevriendt@co.genesee.mi.us
810-627-8893

Further, we are not currently equipped to take in volunteers to work on our teams. All volunteers should be directed to the American Red Cross.

MSP SEOC staff submitted a request to logistics for asking for MING to provid[illegible]yber trained personnel to support Michigan State Police Michigan Cyber Command Center at the MC3 located on the 3rd Floor of State Police Headquarters beginning on 1/21/16 for [illegible] days with possibility of extension, or until mission complete. Mission is to coordinate, advise, and assist with cyber defense efforts related to the Flint water crisis.

**Supreme Court**

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

**Technology, Management and Budget (MDTMB)**

DTMB Mail Services has drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Six (6) drivers on Friday, January 22 and three (3) drivers on Saturday, January 23.

DTMB assisted in procuring 72 truck loads of water, 8 trucks per day until Wednesday, January 20.
121 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
Provided 650 credentialing badges for volunteers.
Four temporary fuel cards were provided to the MSP officers driving rented U-Haul trucks obtained to assist water response teams.

Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits.
Procured 500 rain ponchos for volunteers hand warmers and a 40 yard dumpster for use at the warehouse.
Providing printing needs for agencies on water related material as needed.
Providing server monitoring of MiCIMS servers.
Wireless router and printer was provided for FEMA staff at the SEOC.
Acquired a Verizon Wireless booster for the Clio Road warehouse as well as an armed security officer.
Provided 2 cell phones to DHHS Michigan Community Service Commission for donation management.
Contacted Penske Truck Rental and acquired 30 donated trucks for use through Friday for water response teams.
Provided 2 portable bathrooms for use at the Clio warehouse.
Coordinated installation of DirectTV in the Flint State Office Building for the Joint Information Center.
Working to set up 3 rooms in the Flint State Office Building for FEMA to use.
Provided 13 passenger vans to assist with transporting of Water Response Teams.
Procured 200 safety vests for water response teams.
Provided office space and parking to FEMA staff on the Flint State Office Building 5th Floor.
Provided 10 contractor access cards for FEMA staff.

**Transportation (MDOT)**

MDOT is providing traffic measures at Pierson Rd. Fire Station 6:
-2 portable changeable message boards on eastbound and westbound Pierson Rd.
-50 grabbers traffic cones (narrow reflective cones)

# Damage Assessment and Emergency Status Report

## Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

### Operational Period

| | |
|---|---|
| **Operational Period Begin:** | 01/19/2016 08:00:00 |
| **Operational Period End:** | 01/26/2016 08:00:00 |
| **Situation Report No.** | 15 |
| **SEOC Status:** | Full |
| **SEOC Hours of Operation Begin:** | 01/20/2016 08:00:00 |
| **SEOC Hours of Operation End:** | 01/20/2016 20:00:00 |

### Executive Summary

SEOC Update:
Accomplished today (January 20):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public Information Control.

- Logistics
o Worked with FEMA/DHHS on filter tracking status/strategy.
o Coordinated resources and needs with donations management.
o Working with Red Cross to provide food bank delivery resources.
o Continuing inventory monitoring and hot shots tracking.
o Projecting future orders of water resources and commodities.
o Worked with MDARD for approval to move their food establishment water testing/staging/sampling to Flint water plant from DHHS facility.
o Worked with JIC and Governors office to establish a business resource submission tab on www.helpforflint.com

- JIC
o News release sent from Governor's office about the appeal to the President of the disaster declaration.
o SEOC media advisory sent about additional National Guard presence.
o Congressional call was held today at 1430.

- Recovery Branch
o Continued coordination with Red Cross on volunteers and the Michigan National Guard for Thursday and Friday.
o Confirmed team typing for Flint Water Resource Teams.
o Data is for 1/20/16 as of 5:00 pm:
o Total homes visited.
  29,317 (total).
  3,395 (today).
o Door Hangers.
  11,333 (total).
  1,482 (today).
o Water Cases.
  7,162 (total).
  1,059 (today).
o Replacement Cartridges.
  4,084 (total).
  289 (today).
o Faucet Filters.
  8,467 (total).
  1,073 (today).

- Planning Section.
o Published Sit Rep #15.
o Incorporated outstanding data from Red Cross, warehouse, and hotshots into daily total.
o Worked with the Red Cross to get them online version of data reporting.
o Participated in daily SEOC briefings and distribution process conference call.

- Operations Section
o Facilitated daily SEOC briefing and local EOC call.
o Continued to develop and finalize Phase 2 canvassing roll out.
o Held logistics meeting in reference to National Guard deployment.

o Warehouse Numbers as of 1800 (new inventory system in place at 0800):
  Water (cases).
- 49,716.
  Filters (faucet).
- 35,505.
  Replacement cartridges.
- 141,562.
  Filters (pitcher).
- 0.

Test Kits.
- 744.

o PODs (1700 1/19 – 1600 1/20)
Water (cases)
- 9598.
Filters (faucet)
- 1566.
Replacement Cartridges
- 555.
Filters (pitcher)
- 14.
Test kits
- 857.

- Finance Section.
o Provided information requested from Donations Management regarding the treatment of donations made to the donor – tax receipts.
o Conference call with DEQ and DTMB to discuss items procured for the City of Flint.
o Request financial information from MDOC and MDHHS.
o Continued to work on and revise the spend plan for the incident.
- GIS Branch Updates.
- Revamped daily planning maps for Field Teams to refine operational areas and begin preparations for phase II team deployments.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- Configured an interface with AGOL to allow MDARD to live update food and water establishment statuses as it relates to the incident.
- Coordinated with Flint City GIS to gather total counts for buildings and units per parcel.
- Built a data entry tool and deployed to the documentation unit for paper forms from field teams.
- Met with FEMA GIS Coordinator, Scott Bailey. He will be granted access to the GIS viewers to prepare maps for federal partners.
- Built plan to revamp dashboards used in SEOC to accommodate large volumes of traffic and ensure stability.
- Received task for updating app for Phase II of team deployments.
- Fixed accounts for iPad's that were failing in the field and brought them back online.
- Coordination continued with U of M Flint.

DTMB:
- Process additional resource requests for warehouse commodities, workspace for FEMA in Flint, space for water samples.
- Working on securing space in the flint office building for FEMA staff.
- Additional vehicles being delivered to support the canvassing effort.

DHHS-CH
- Dr. Nicole Lurie from HHS ASPR was in Flint this afternoon and will be at the CHECC and SEOC tomorrow.
- Volunteer Reception Center was highlighted on the MI Volunteer Registry page.
- Conference call held with the CHECC, SAMHSA, and local HD on DBH hotline.

DEQ
- Bottles for test kits delivered today and transferred to ARC for assembly.
- Issue with TDS meter being resolved and bottled water has been tested to confirm there is no lead in water.

MDOE
- The State of Michigan operated School of the Blind water tested 28 ppb for lead.
o The DOE has installed filters and has distributed bottled water.
o The DOE is working to replace fixtures in the facility.

Local EOC Update:
- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Developed SitRep #10.
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

## Incident Response/Recovery Priorities/Objectives

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy and process.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Maintain GIS strategy.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

## Emergency Declarations

**Local Declarations**

**Jurisdiction(s): Date/Time:**

Genesee County, Public Health Emergency, 10/01/2015
City of Flint, Declaration of State of Emergency, 12/15/2015
Genesee County, Declaration of State of Emergency, 01/04/2016
Genesee County, Request for Governor's Emergency/Disaster Declaration, 01/04/2016

**State Declarations**
**Jurisdiction(s): Date/Time:**
Declaration of Emergency for the City of Flint and the County of Genesee, 01/05/2016

**Federal Declarations**
**Jurisdiction: Date/Time:**
Declaration of Emergency for Michigan Contaminated Water (EM-3375), 1/16/2016

## Weather Conditions

**Watches/Warnings**

**Upcoming Forecast**
Forecast Update for Flint, MI - January 20

- Cold through Thursday (January 21)
- Slightly warmer Friday (January 22) through Sunday (January 24), temperatures still below freezing
- On and off light snow possible Wednesday (January 20). Up to an inch of accumulation possible.

Temperatures will remain below 25 degrees though at least Thursday night (January 21) and possibly longer. Low temperatures Wednesday night will be in the teens above zero. Above freezing temperatures may not occur again until early next week.

Wind chill values not as hazardous Wednesday (January 20) through Sunday (January 24). Risk for frostbite from exposure is low unless exposure time for the individual is several hours in length.

## Local Damage Summary

**Public Damage Totals**
**Private Damage Totals**
**Damage Assessment Summary**

## Agency Summaries

**Joint Information Center / Public Information Officer**

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Jan. 20.

*State agencies at the JIC included the Governor's Office, Michigan State Police, and Departments of Environmental Quality, Health* and Human Services, Licensing and Regulatory Affairs, Insurance and Financial Services, Agriculture and Rural Development, Military and Veterans Affairs, and Michigan Community Service Commission. The Federal Emergency Management Agency, Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:
- Issued a news release with updated water resource activity at 8:30 a.m.
- Issued media advisory and news release at 11 a.m. about the Michigan National Guard's increase in support and change in mission.
- Held a media availability as National Guard members began going door-to-door. NBC 25, ABC 12, and WOOD 8 attended.
- Drafted talking points for Captain Kelenske for the 2:30 p.m. Congressional/Legislative briefing conference call.
- Created media monitoring report and looked for misinformation, especially about donations as we had heard there was incorrect information being reported. No misinformation was found.
- Media hotline staff answered over 20 emails and phone calls. Received three calls from individuals offering products or services.
- Drafted guidelines for water donation drives.
- *Continued routing public information materials for approval, including communications from MDE, MDARD, MDEQ, LARA, and* MDHHS.
- Asked MDCR PIO to determine if messaging is needed regarding concerns from undocumented citizens; this was an issue raised by MDCR in morning SEOC briefing. They are reviewing it internally and will contact the JIC if messaging is needed.
- Governor's Communications Office issued a news release at 2:30 p.m. regarding the federal disaster appeal letter.
- JIC is planning to issue the nightly activity news release around 6 p.m., and will include the activity map if previous issues are sorted out.
- MSP F/Lt. Dave Kaiser will do an in-studio interview with NBC 25 tonight to share tonight's activity news release. It is expected to air during 11 p.m. newscast and again during tomorrow's morning newscast.
- For situational awareness only – The JIC was made aware that Sanjay Goupta of CNN will be conducting an interview tomorrow with Dr. Mona Hanna-Attisha at the Flint Farmers Market. We are not coordinating this interview and we are unsure of the time.

**Agriculture and Rural Development (MDARD)**

Wednesday, Jan. 20, provided Recovery Branch Director (Brianna Briggs at EMHSD) background on possible state and federal programs related to supporting the food and agriculture system and nutrition to assist with long term recovery.

MDARD staff has been working with GIS to develop a map overlay of the restaurants in the Flint area with a list received from Genesee County.

Per MDARD Ops Chief we have asked to move water sample staging location because current location does not offer security for supplies. Requesting same location as the sample drop off location (Flint Water Plant, 4500 N Dort Hwy, 48505 (810) 787-6538)

The FDA Detroit District Office Emergency Management Coordinator Lisa Joseph has contacted MDARD asking for whatever materials, flyers, etc. that have been sent out to day care providers/schools regarding preparing food safely and mixing formula for infants. Spoke with DHHS, Education, and LARA reps. and provided the referral websites included on a draft flyer being prepared for distribution.

MDARD Veterinarian Dr. Schalow is updating the veterinary spreadsheet to include all (as many as we can find) veterinary clinics in Genesee County. She will call additional clinics to update them on AID activities and provide basic information about the Flint water situation and resources for filters and water testing. So far, we have determined only one veterinary clinic on Flint water (Eascor Animal Hospital). Dr. Schalow also contacted Genesee County Animal Control Officer Paul Wallace for an update. Per Dr. Schalow, "Director Wallace states that, to the best of his knowledge there are no doggy daycares, dog parks, pet shops, kennel licensees, animal shelters, or animal rescues in the City of Flint (that would be on Flint water) so he is not conducting any activities at this time."

Livestock – to date we have found no livestock in Flint.

Discussion with LARA SEOC rep regarding locations for MDARD Sample Collection and questions being asked to establishments

Talked with MDEQ SEOC rep regarding disposal of any bottled water that would require disposal if it tests positive for lead.

Spoke with Michelle Kuzera working from the Genesee County EOC asking if MDARD was going to provide something to the restaurants to display after they have been assessed by MDARD. Spoke to Sandra Walker MDARD Food & Dairy Division. She indicated they have been in discussions with Genesee County Health Department to develop a list or something like that to be posted on the Flint water website to indicate those restaurants that have been assessed and found in licensing compliance. Still working on the issue of providing them something that declares them "safe." Shared that back with Michelle at Genesee County EOC.

**American Red Cross (ARC)**

The American Red Cross continued assembly of water test kits today at ARC headquarters.
We deployed and supported 11 teams for neighborhood canvassing (Water Response).
We supplied lunches for all of the Water Response Teams today, and will feed all of the teams again tomorrow.
The volunteer reception center (VRC) was in full operation Wednesday. 69 volunteers were processed today. The VRC will be in operation on Thursday.
We continued to support the warehouse efforts.
A total of 75 Red Cross volunteers were active on this operation today.

**Civil Rights (MDCR)**

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Also monitoring media and coverage of rallies and events.

**Community Health (MDCH)**

The CHECC remains activated at level 2, and communications have been maintained between the SEOC and CHECC.

Dr. Nicole Lurie, Assistant Secretary for Preparedness and Response, US DHHS has arrived in MI and is meeting with the Governor this afternoon. Dr. Lurie will be meeting with the MDHHS Director, Nick Lyon; MDHHS Chief Medical Executive, Dr. Eden Wells, and other MDHHS leaders tomorrow morning. She will then meet with the CHECC and will follow with a briefing at the SEOC by Captain Kelenske. Following the SEOC briefing, she will be escorted to Flint. It is anticipated that she will provide some local one on one media interviews as she tours various sites in Flint.

Additional Federal partners have also arrived in MI, including Anthony Voirin, the Region V ASPR representative for MI; CDC representatives from the Agency for Toxic Substances and Disease Registry (ATSDR) and National Center for Environmental Health (NCEH).

The National Disaster Distress Helpline has been activated to support the Disaster Behavioral Health response. A phone conference was conducted today to connect Genesee County Community Mental Health with the helpline.

The CHECC continues to operate a phone bank to answer questions related to lead or legionella referred from 2-1-1. This is in response to a request from Genesee County Health Department.

Addresses for individuals who are dependent on medical equipment in the home, were provided to the SEOC GIS section to ensure that all of the at-risk individuals in this population have received the resources that are being provided by the Flint Water Response Teams in the door to door campaign.

**Corrections (MDOC)**

Good Evening All,

The efforts continue to ramp up, we are carrying all of our current resources forward through Sunday, January 24, 2016 at 1700

hours.

If you have been extended through Tuesday, January 26, 2016 please continue to provide requested resources through that date. Additionally, we have added an SAI prisoner work crew to the efforts. I will contact all of the stakeholders tomorrow and confirm resources for the upcoming weekend.

The National Guard have multiplied the force in this effort and will increase our ability to carry the mission forward.

Please do not share this information outside of our department. Thank you again for all of your help and efforts, you are making a difference!

The MDOC has the following resources dedicated to the Flint Water Response Team on Wednesday, January 20, 2016:

- MDOC employees

(3) - 15 passenger vans

(2) - 12 passenger vans

(4) – 10 passenger vans

(1) – 8 passenger van

(2) – 6 passenger vans

(1)- Regular Cab Pickup

(1) – F-250 Pickup

(5) – Box Trucks

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

All vehicles drivers have 800 MHz Radio Operability

The MDOC has scheduled the following resources to be dedicated to the Flint Water Response Team on Thursday, January 21, 2016:

- MDOC employees

- MDOC SAI prisoners

(3) - 15 passenger vans

(2) - 12 passenger vans

(4) – 10 passenger vans

(1) – 8 passenger van

(2) – 6 passenger vans

(1)- Regular Cab Pickup

(1) – F-250 Pickup

(5) – Box Trucks

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

All vehicles drivers have 800 MHz Radio Operability

If you have any questions regarding this evenings report, please contact Mike Farmer at 517-614-6902.

Mike Farmer on duty at the SEOC today.

OPERATIONAL PERIOD UPDATE: The new operational period is extended through Tuesday, January 26, 2016 at 0800 hours.

All Requests for vehicles, personnel and warehouse equipment have been filled and continue to be on site to assist with water distribution. Director Washington is providing full support to our assistance efforts.

We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility.

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner. All MDOC resources have reported today, Wednesday, January 20, 2016 as requested.

We are building up additional resources for Thursday, January, 21, 2016. Additional vans will be needed for Water Resource Teams. We are working with DTMB to secure additional Fleet vehicles as well as reach out to facilities and parole/probation offices.

The MDOC has the following resources dedicated to the Flint Water Response Team on Wednesday, January 20, 2016:

- MDOC employees

(3) - 15 passenger vans

(2) - 12 passenger vans

(4) – 10 passenger vans

(1) – 8 passenger van

2 – 6 passenger vans

1- Regular Cab Pickup

**Education (MDE)**

MDE is monitoring the situation and coordinating as necessary with other state agencies.

Stevens Hall, a residential dormitory for the Michigan School for the Deaf, showed a level of 28 parts per billion in a water analysis. Limit is 15 parts per billion. The dormitory is a leased facility. Water testing results were reported to the administration on 1/19/16. . Test result is in MiCIMS.

**Environmental Quality (MDEQ)**

The Department of Environmental Quality (DEQ) completed the following activities today:

• Tracked test bottle orders and facilitated transport to/from warehouse and American Red Cross Headquarters.

• Commercial drinking water samples related to the total dissolved solids meter concern were analyzed with a non-detect result for Lead and Copper. We transmitted results to Joint Information Center and Genesee County Emergency Operations Center.

• Conducted conference call with MDEQ, Department of Technology, Management and Budget, and Emergency Management and Homeland Security Division (EMHSD) finance and discussed documentation needed, and develop more efficient ordering process for laboratory supplies.

• Coordinated plan for pickup of samples by the Department of Corrections at Points of Distribution, City Hall and Water Treatment Plant and delivery to the DEQ Lab. This plan will commence tomorrow, January 21.

• Requested updated sample results from DEQ lab for plotting on map by EMHSD Geographic Information System staff.

**Human Services (MDHS)**

Had conference call with local MDHHS Director for Genesee Co. Genesee Co MDHHS is taking a targeted approach for their foster care and adult foster care homes. They are calling every single one, inquiring if they have water and filter, then following up with an actual home visit to verify. All this gets documented in the case file.

Arranged for inventory to be taken between GCCARD and warehouse.
Provided donated goods resource contact info to several requesters.
Confirmed single point of contact back to 211 with information requests from them.
Updated resource request for pitchers.

CHECC continues to maintain a Level 2 Activation

**Licensing and Regulatory Affairs (LARA)**

Freeman School testing will occur this weekend with DEQ and LARA staff. Additional mapping at schools has continued with scheduling of facilities.

LARA Bureau of Community and Health Services has completed surveys for Child Care, Adult Foster Care, and Health facilities. Verification of responses by GIS is ongoing. Assessment of needs will begin.

Executive Team participated in various meetings regarding funding and has been updated.

**Military and Veterans Affairs (DMVA)**

Last 24 hours:
Distributed water, water filters, water test kits and collected water samples for analysis at five points of distribution. Coordinated efforts with Genesee County EOC and Joint Information Center. In-Processed 33 Soldiers to augment distribution operations at 1800 S. outer Dirve, Saginaw, MI on 17 January 2016 at 1300. Conducted lodging and operations orientation following in-processing. Total of 67 Soldiers on State Active Duty on 17 January 2016. All PODS received pallet jacks for off-loading water pallets. Coordination between FEMA and Selfridge Air Base (SANGB) taking place. Exact terms of agreement of FEMA using SANGB for staging operations have not been identified at this time.

Total of  Soldiers on State Active Duty:
at Genesee County EOC
at Joint Information Center
at PODS
Soldiers In-processing

Next 48 hours:
Distribute water, water filters, and water test kits and collect water samples for analysis at five points of distribution. Coordinate efforts with Genesee County EOC and Joint Information Center. Relieve Red Cross at PODS, assuming their role of distributing filters. Total of  Soldiers on State Active Duty on 17 January 2016. Additional Soldiers will conduct first full day of distribution operation on 18 January 2016. Continue coordination between FEMA and SANGB, a 0800 meeting will be conducted on 18JAN16.

Micheal Shook
CPT, IN, USA

**National Weather Service (NWS)**

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac. Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Hand off to NWS Detroit for morning conference call weather forecast in progress. Estimated date when NWS Detroit will begin morning SEOC briefings and MICIMS posts is Tuesday, January 26.

**Natural Resources (MDNR)**

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

**Services to the Aging (OSA)**

Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.

As of Friday, January 15th, VAAA and MDHHS-Adult Protective Services (APS) has provided AASA with over 2,000 addresses of homebound, frail, or otherwise at-risk seniors living in Flint. AASA has in turn forward these addresses to MSP-GIS to overlay their heat map and for local follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:

(810) 239-7671
(810) 239-8869 fax

Prior to the State Declaration of Emergency, Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the GCARD, Genesee County Health Department and MDHHS, participated in the local ad-hoc response by helping organize local meetings and distributed water and water filters to VAAA Home Delivered Meal recipients. VAAA was also an I&A access point for receiving calls from homebound seniors who are not able to pick up water filters or needed assistance installing water filters. VAAA referred seniors needing filters to GCARD for follow-up. Because VAAA is a known and trusted local resource for older adults in Genesee County, they continues to receive calls from seniors needing access to water and filters.

**State Police (MSP)**

MSP and GCSD supported National Guard staffed teams that were out today and there were 10 Red Cross teams. 3,372 homes were visited today.

A request has been submitted to logistics for 200 newspaper delivery bags to assist the water response teams in carrying packages.

Lt. Dehner has requested to get the target maps for the next day before 6:00 pm each day. This will give the field team leadership time to get the maps printed and coordinated and make assignments. This request has been submitted to GIS for action.

Water Resource Teams hours of operations will change to 1000-1800 beginning on 1/21/16.

**Supreme Court**

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

**Technology, Management and Budget (MDTMB)**

DTMB Mail Services has drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Five (5) drivers on are available on Wednesday, January 20, six (6) drivers on Thursday, January 21 & Friday, January 22 and three (3) drivers on Saturday, January 23.

DTMB assisted in procuring 72 truck loads of water, 8 trucks per day until Wednesday, January 20.
91 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
Provided 650 credentialing badges for volunteers.
Four temporary fuel cards were provided to the MSP officers driving rented U-Haul trucks obtained to assist water response teams.

Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits.
Procured 500 rain ponchos for volunteers hand warmers and a 40 yard dumpster for use at the warehouse.
Providing printing needs for agencies on water related material as needed.
Providing server monitoring of MiCIMS servers.
Wireless router and printer was provided for FEMA staff at the SEOC.
Acquired a Verizon Wireless booster for the Clio Road warehouse as well as an armed security officer.
Provided 2 cell phones to DHHS Michigan Community Service Commission for donation management.
Contacted Penske Truck Rental and acquired 23 donated trucks for use through Friday for water response teams.
Provided 2 portable bathrooms for use at the Clio warehouse.
Coordinated installation of DirectTV in the Flint State Office Building for the Joint Information Center.
Working to set up 3 rooms in the Flint State Office Building for FEMA to use.
Provided 13 passenger vans to assist with transporting of Water Response Teams.

**Transportation (MDOT)**

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

# Damage Assessment and Emergency Status Report

## Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

### Operational Period

| | |
|---|---|
| **Operational Period Begin:** | 01/19/2016 08:00:00 |
| **Operational Period End:** | 01/26/2016 08:00:00 |
| **Situation Report No.** | 14 |
| **SEOC Status:** | Full |
| **SEOC Hours of Operation Begin:** | 01/19/2016 08:00:00 |
| **SEOC Hours of Operation End:** | 01/19/2016 20:00:00 |

### Executive Summary

SEOC Update:
Accomplished today (January 19):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public Information Control.

- Logistics
o Worked with FEMA to order water and filter cartridges.
o Worked with DHHS to order filter pitchers for distribution.
o Coordinated resources and needs with donations management.
o Working with Red Cross to provide relief teams for warehouse manager.
o Continuing inventory monitoring and hot shots tracking.
o Projecting future orders of water resources and commodities.

- JIC
o Shared water activity map with Media last night and this evening.
o Issued news release concerning donations.
o Worked with FEMA external affairs to schedule Legislative and Congressional call for tomorrow.
o Comcast has put filter installation video on the On Demand section.

- Recovery Branch
o Continued coordination with Red Cross on volunteers and the Michigan National Guard for Wednesday and Thursday.
o Confirmed team typing for Flint Water Resource Teams.
o Sent out 5 type 3 and 10 types 5 teams to canvass today.

o Data is for 1/19/16 as of 5:00 pm:
o Total homes visited.
  22,129 (total).
  2,715 (today).
o Door Hangers.
  9,851 (total).
  1,163 (today).
o Water Cases.
  6,103 (total).
  789 (today).
o Replacement Cartridges.
  3,795 (total).
  322 (today).
o Faucet Filters.
  7,394 (total).
  730 (today).

- Planning Section.
o Published Sit Rep #14.
o Incorporated outstanding data from Red Cross, warehouse, and hotshots into daily total.
o Updated staff assignments for the Planning group.
o Identified staff to assist with data entry of daily Red Cross field team worksheets.
o Worked with FEMA to clarify data reporting method and schedule.
o Participated in daily SEOC briefings and distribution process conference calls.

- Operations Section
o Facilitated daily SEOC briefing calls.
o Held logistics meeting with FEMA in reference to resources available and need for ordering.
o Held logistics meeting in reference to National Guard deployment.
o 71 American Red Cross Volunteer active across incident today.

o Warehouse Numbers:
  Whole warehouse being inventoried, numbers will be available at 0800 tomorrow morning.
o Point of Distribution (as of 6 pm)
  Contacts.

- 1,822.
  Water (cases)
- 9,559.
  Filters (faucet)
- 1,409.
  Replacement Cartridges
- 534.
  Filters (pitcher)
- 89.
  Test kits
- 1,127.

- Finance Section.
o Continue to revamp spending plan and cost tracking.
o Work with FEMA to determine costs for possible reimbursement for Flint emergency.
o Meet with FEMA IMAT about Public Assistance.

- GIS Branch Updates.
- Revamped daily planning maps for Field Teams to refine operational areas and begin preparations for phase II team deployments.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- Configured an interface with AGOL to allow MDARD to live update food and water establishment statuses as it relates to the incident.
- Coordinated with Flint City GIS to gather total counts for buildings and units per parcel.
- Built a data entry tool and deployed to the documentation unit for paper forms from field teams.
- Met with FEMA GIS Coordinator, Scott Bailey. He will be granted access to the GIS viewers to prepare maps for federal partners.
- Built plan to revamp dashboards used in SEOC to accommodate large volumes of traffic and ensure stability.
- Received tasker for updating app for Phase II of team deployments.
- Fixed accounts for iPad's that were failing in the field and brought them back online.
- Coordination continued with U of M Flint.

DTMB:
- Drivers have been extended through Saturday to support the canvassing efforts.
- Working on securing space in the flint office building for FEMA staff.
- Additional vehicles being delivered to support the canvassing effort.

DHHS-CH
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint.
- Discussed with SAMSA to talk about grants available and the DBH hotline.
- Ordered EPA pamphlets concerning nutrition plan for distribution.

DEQ
- 7,200 sample bottles delivered today and 7,200 more coming in tomorrow.
- 14,000 sample bottles will be delivered tomorrow.

Local EOC Update:
- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
- Developed SitRep #9.
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

## Incident Response/Recovery Priorities/Objectives

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy and process.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Maintain GIS strategy.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

## Agency Summaries

### Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Jan. 19.

*State agencies at the JIC today included the Michigan State Police, and Departments of Licensing and Regulatory Affairs,* Insurance and Financial Services, Agriculture and Rural Development, Michigan Economic Development Corporation, and Michigan Community Service Commission. The Genesee County Sheriff's Office was also present.

Tasks accomplished:
• Pushed the 1/18 water activity map on social media.
• Issued news release #09 regarding donations.
• Posted social media content regarding donations.
• Worked with FEMA External Affairs to organize a congressional/legislative conference call for tomorrow at 2:30 p.m.
• Updated daily internal talking points and general talking points.
• Confirmed the water filter video is now on available on Comcast On-Demand. The public service announcement began running *Monday, Jan. 18., although it may* take a couple of days for all cable boxes to receive the updated content.
• Monitored news media and social media for trends and misinformation. No corrections to news stories were required.
o Topics being covered included:
  Democratic debate mention by Hillary Clinton
  Flint as Governor Snyder's Hurricane Katrina
  Class-action lawsuits filed today against the state
  State of the State speculation – Flint water plan
  President Obama possibly meeting with Flint Mayor in D.C. today

• Drafted a news release with the nightly water activity numbers – however, a decision was made in consultation with the Governor's Communications Office that this release will be held until 8:30 a.m. tomorrow (1/20) so as not to conflict with the *numbers the Governor gives during his 7 p.m. State of the State address tonight.*

### Agriculture and Rural Development (MDARD)

Tuesday Jan 19, updated and planned for MDARD FDD ICS sampling team and environmental assessment of the food and food service establishments in the Flint water distribution zone. Including location of training for the team and staging area for the sampling supplies and return of collected samples collocated at the Genesee Co. EOC. MDARD FDD ICS sampling team will be starting to do evaluations Wednesday afternoon. Additionally, we may start collecting water samples Thursday morning depending upon requests for samples from Food and Food Service establishments.

*Resolved question about one of the locations in USA Herds with a Flint address appears to be in an area served by City water;* though the premise is listed as inactive in our database, the firm was visited and found to inactive with no animals on site.

Continued coordination with the FDA Detroit District office for food establishments with joint jurisdiction in the Flint water distribution area.

**American Red Cross (ARC)**

The American Red Cross resumed assembly of water test kits today at ARC headquarters.
We deployed and supported teams for neighborhood canvassing (Water Response).
We supplied lunches for all of the Water Response Teams today, and will feed all of the teams again tomorrow.
The volunteer reception center (VRC) was in full operation Tuesday. 31 volunteers were processed today. The VRC will be in operation on Wednesday.
We continued warehouse and inventory management efforts.
A total of 71 Red Cross volunteers were active on this operation today.

**Civil Rights (MDCR)**

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Also monitoring media and coverage of rallies and events.

**Community Health (MDCH)**

White House press release identified the Department of Health and Human Services (DHHS) as the lead for the federal government response to the public health crisis in Flint. This means that HHS will, in collaboration with FEMA, will identify and mobilize the capabilities of the rest of the federal partners – including the Small Business Administration, the Environmental Protection Agency (EPA), and the Departments of Housing and Urban Development (HUD), Education and Agriculture (USDA) -- that are already working to help residents in Flint.

The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure. HHS will have a team on the ground in Flint this week. The team will be led by Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR). Dr. Lurie will begin engaging with state and local officials today and will travel to Flint tomorrow (1/20/16).

In order to fully leverage the Department's strengths, the HHS team will include HHS Acting Assistant Secretary for Health Dr. Karen DeSalvo, whose office manages the President's Task Force on Environmental Health and Safety Risks to Children, and who will be the primary interface with state and local public health officials. Two U.S. Public Health Service Commissioned Corps officers will also help with the day-to-day responsibilities in Flint.

Confirmed with MDHHS PIO and Tom Page (Executive Director for 2-1-1) that two new websites (helpforflint.com and Flintkids.org) will be announced during the State of the State Address this evening, instructing individuals interested in volunteering or making a donation to go to those links to do so. Also, confirmed that the Governor's Office and 2-1-1 are prepared to accept an influx of calls as a result of the Governor's State of the State Address.

Updated resource request for EPA pamphlets, to include an order for an additional 3,000 in Spanish. Communicated this with logistics. Shipment locations and POC were confirmed with SEOC logistics. EPA confirmed that the shipment would be sent ASAP.

Commander Seligman, from SAMHSA, contacted MDHHS and confirmed the establishment of a Disaster Distress Helpline, which has been approved by the JIC. SAMHSA will issue the press release. This was communicated to the JIC and MDHHS PIOs. A conference call was held this afternoon with SAMHSA, CHECC DBH SMEs, and MDHHS EMCs to discuss getting the Disaster Distress Hotline up and running. Another call will be scheduled before the end of the week to discuss additional details before going "live." Genesee County Community Mental Health will also participate in this call.

The CHECC provided statistics depicting that the WebMD Medscape communication sent last week reached +64,000 healthcare providers in addition to +16,000 medical doctors, for a total of +80,000 recipients. This information was also provided to the MDHHS PIO.

Followed-up with LHD EPC regarding an inquiry received from the LEOC indicating that a family had been evicted from their home due to the children having high blood lead levels. The GCHD EPC was instructed to reach-out to the family in order to ensure, first and foremost, that if the children do have high blood lead levels that they receive the care and case management that is required. Secondly, to work with the local Health and Human Services office for housing assistance. The EPC was asked to contact the MDHHS EMC if this approach is unsuccessful, in order to close the loop.

CHECC provided a message on the MI-Volunteer Registry website that encourages registrants to volunteer to support Flint Water Response efforts taking place this week and into the weekend.

**Corrections (MDOC)**

Brent Travelbee, Mike Farmer and Todd Bechler on duty at the SEOC today.

OPERATIONAL PERIOD UPDATE: The new operational period is extended through Tuesday, January 26, 2016 at 0800 hours.

All previous requests for vehicles, personnel and warehouse equipment have been filled and continue to be on site to assist with water distribution. Director Washington is providing full support to our assistance efforts.

We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility.

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner. All MDOC resources have reported today, Tuesday, January 19, 2016 as requested.

We are building up additional resources for Wednesday, January, 20, 2016. Additional vans will be needed for Water Resource Teams. We are working with DTMB to secure additional Fleet vehicles as well as reach out to facilities and parole/probation offices.

MDOC RESOURCES DEPLOYED: Tuesday, January 19, 2016

Vehicles with Drivers

(2) – 18' Box Trucks
(4) – 20' Box Trucks
(1) - 24' Box Trucks

Box Trucks have power lift gates

(1) – F250 Pick Up Quad Cab with Cap

(1) – 5 Passenger Handicapped Capable Van

(1) – 15 Passenger Van with 10' Enclosed Trailer

(1) – Pick-up Truck

(6) – 10/15 Passenger Vans

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks (This includes one that is broken and will be returning to Ionia tomorrow night for repair)

(7) – Hand Pallet Jacks

(6) 6-10 Passenger Vans

All vehicles drivers have 800 MHz Radio Operability

Staffing

There will be 22 staff members on site 21 drivers and an assistant for the Red Cross Transportation Van (w/trailer).

**Education (MDE)**

MDE is monitoring the situation and coordinating as necessary with other state agencies.

English Language Learners report from Flint Public School District (Flint Community Schools). Results show 338 total with 83% Spanish speakers; 6% Arabic; all others report less than 1%.

**Environmental Quality (MDEQ)**

The Department of Environmental Quality (DEQ) completed the following activities today:
- *Facilitated logistics for Michigan Department of Agriculture and Rural Development food establishment inspectors to meet at the local Emergency Operations Center and provide for water test kits for their use.*
- Facilitated logistics for bottle delivery and water test kit assembly.
- Coordination with ZeroWater, the Joint Information Center, State Emergency Operations Center staff and Michigan 2-1-1 for clarification for on Total Dissolved Solids meters.
- Coordinated sampling plan with local Emergency Operations Center and DEQ Drinking Water Laboratory for donated drinking water testing.
- Provided write up for definition of NSF/ANSI 53 certification and process to Operations Section Chief and Planning Section.

**Human Services (MDHS)**

Assist Logistics on obtaining model numbers and additional information regarding the Zero brand 23 cup and 8 cup water pitchers.

Zero 23 cup pitcher-- Model #ZD-018
Zero 8 cup pitcher-- Model #ZD-013D

Completed the delivery of two cell phones for MCSC to assist with their donation management processes.

Identified 2 conference rooms at Flint Stat Office Building for FEMA to use if they wish.

CHECC continues to maintain a Level 2 Activation

**Licensing and Regulatory Affairs (LARA)**

Updated the LARA Executive Team.

The final two bubblers arrived at a Flint area Home Depot. They were picked up by LARA staff and successfully installed at the Freeman School today (1/19/16). LARA will now coordinate with DEQ to conduct water re-testing at Freeman Elementary.

LARA is continuing to work with DEQ to establish a schedule, for the next several weekends, to complete school water testing.

LARA / MIOSHA communicating with DEQ on possible use of MIOSHA lab and staffing.

**Military and Veterans Affairs (DMVA)**

Last 24 hours:
Distributed water, water filters, water test kits and collected water samples for analysis at five points of distribution. Coordinated efforts with Genesee County EOC and Joint Information Center. In-Processed Soldiers to augment distribution operations at 1800 S. outer Dirve Saginaw, MI on 17 January 2016 at 1300. Conducted lodging and operations orientation following in-processing. Total o Soldiers on State Active Duty on 17 January 2016. All PODS received pallet jacks for off-loading water pallets. Coordination between FEMA and Selfridge Air Base (SANGB) taking place. Exact terms of agreement of FEMA using SANGB *for staging operations have not been identified at this time.*

Total of Soldiers on State Active Duty:
at Genesee County EOC
at Joint Information Center
at PODS
Soldiers In-processing

Next 48 hours:
Distribute water, water filters, and water test kits and collect water samples for analysis at five points of distribution. Coordinate efforts with Genesee County EOC and Joint Information Center. Relieve Red Cross at PODS, assuming their role of distributing filters. Total of Soldiers on State Active Duty on 17 January 2016. Additional Soldiers will conduct first full day of distribution operation on 18 January 2016. Continue coordination between FEMA and SANGB, a 0800 meeting will be conducted on 18JAN16.

Micheal Shook
CPT, IN, USA

**National Weather Service (NWS)**

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac. *Participation in afternoon SEOC briefings is planned only if significant* changes in the forecast occur.

Hand off to NWS Detroit for morning conference call weather forecast in progress. Estimated date when NWS Detroit will begin morning SEOC briefings and MICIMS posts is Tuesday, January 26.

**Natural Resources (MDNR)**

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

**Services to the Aging (OSA)**

Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.

As of Friday, January 15th, VAAA and MDHHS-Adult Protective Services (APS) has provided AASA with over 2,000 addresses of homebound, frail, or otherwise at-risk seniors living in Flint. AASA has in turn forward these addresses to MSP-GIS to overlay their heat map and for local follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

Prior to the State Declaration of Emergency, Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local *community agencies such as the GCARD, Genesee County Health Department and MDHHS, participated in the local ad-hoc* response by helping organize local meetings and distributed water and water filters to VAAA Home Delivered Meal recipients. VAAA was also an I&A access point for receiving calls from homebound seniors who are not able to pick up water filters or needed assistance installing water filters. VAAA referred seniors needing filters to GCARD for follow-up. Because VAAA is a known and trusted local resource for older adults in Genesee County, they continues to receive calls from seniors needing access to water and filters.

**State Police (MSP)**

We had police agency teams that were deployed today with 11 Red Cross teams. 2770 homes have been visited today.

National Guard members will be at the Warehouse at 0830 on 1/20/16. Contact was made with Lt. Dehner with the request to

have patrol cars with troopers or deputies report to the Warehouse at 4315 N. Clio Road, Flint, at 0830 on 1/26/16.

Lt. Dehner has been advised that the SEOC is considering changing the hours of operation for the Water Resource Teams to 1000-1800 beginning on 1/21/16. Working with the recovery branch to coordinate logistics for this adjustment.

**MSP-SEOC-MDSP has submitted a MiCIMS resource request to GIS for this. The resource request number is SEOC – 8951057
Resource request is for the following:
Please prepare a GIS Map for Water Response Team use with the following layers:
Ward/Precinct
"Homes Visited" Resource delivered
Homes Visited, but "No Answer"

**Supreme Court**

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

**Technology, Management and Budget (MDTMB)**

DTMB Mail Services has drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Five (5) drivers on are available on Wednesday, January 20, six (6) drivers on Thursday, January 21 & Friday, January 22 and three (3) drivers on Saturday, January 23.

DTMB assisted in procuring 72 truck loads of water, 8 trucks per day until Wednesday, January 20.
91 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
Provided 650 credentialing badges for volunteers and 4 temporary fuel cards for the MSP officers driving rented U-Haul trucks.
Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits.
Procured 500 rain ponchos for volunteers and a 40 yard dumpster for use at the warehouse.
Providing printing needs for agencies for volunteers to distribute to city residents.
Provided armed security for Clio Rd. warehouse.
Providing server monitoring of MiCIMS servers.

o POD trash issue is being resolved and new removal system is in place.
o Submitted a request to MDOT for reflective vests for volunteers.
o Submitted request for hand warmers for volunteers.
- JIC
o Governor's office issued a news release announcing the presidential emergency declaration approval.
o Answered media calls about the state's resource distribution and activity efforts to date.
o Updated daily talking points to include the state's activity efforts to date and the Presidential emergency declaration.
o Coordinating with FEMA External Affairs to plan a Congressional call on January 17, in additional to a legislative call regarding the Presidential emergency declaration. Preparing talking points for the Congressional and legislative conference calls.
o Issued a news release with today's activity for the water resource sites and water distribution teams, as well as the increase in National Guard personnel.
- Recovery Branch
o Worked to ramp up team activities for tomorrow.
o Continued coordination with Red Cross on volunteers for Monday.
o Data is for 1/17/16 as of 5:00 pm.
Water Response Teams TOTALS 1/17/2016
Occupied Homes 8,871 2799
Vacant Homes 2,954 790
Unknown 4,523 1374
Total Homes Visited 16,348 4963
Resources Provided
Door Hangers 6,369 1982
Water - Cases 3,595 1510
Water - Gallons (Jugs) 98 1
Filters-Faucet 4,572 1558
Replacement Filter 2,938 897
Filter Pitchers 35 6
Water test kits 854 434
Total Resources Dispersed 18,461
Future sample test site 914 460

- Planning Section
o Lead morning and afternoon state agency conference call.
o Coordinated logistics of resource tracking.
o Developed projections based off of reporting and trend analysis.
o Published Sit Rep # 12.
o Participated in distribution process meetings.

- Operations Section
o Conducted SEOC Briefings.
o Worked with local EOC to fix trash issue at the stations.
o 89 American Red Cross volunteers are active across operation today.
o Warehouse Numbers:
Clio St Warehouse (approximate current stock)
- Replacement Cartridges.
o 62,048

• Filters (faucet)
o 57,097
• Water (cases)
o 31,920
• Testing Kits
o 11,053
o Point of Distribution (as of 7 pm)
Contacts
• 741
Water (cases)
• 4809
Filters (faucet)
• 938
Replacement Cartridges
• 306
Filters (pitcher)
• 10
Test kits
• 1105
• Finance Section.
o Working on verifying correct entry of EMHSD staff overtime in DCDS.
o Continuing to work on developing spend plan.

• GIS Branch Updates.
o Determined that 40% of the registered 29,994 active water subscribers have received filters.
o Developed a Flint Water Response Team progress map for public distribution.
o Produced a city of Flint infrastructure map for FEMA IMAT.
o Developed planning maps for the Recovery Branch.

DTMB:
• Clio Rd Warehouse security setup today.
• Warehouse technology issues addressed and resources will be supplied by tomorrow.

DHHS-CH
• Put together a timeline of activities for DHHS response.
• Letter sent to JIC on blood lead analyzers for pediatricians.
• Coordinated with DOE on potential grant for children impacted by traumatic events.

DEQ
• Working on the test kit production.
• Working to transition ordering to FEMA if needed.

Local EOC Update:
• Facilitated activation of Genesee County/Genesee Health System MOU for mental health services.
• Coordinated supplies for U of M flint Distribution.
• Coordinated trash pickup at Fire Station PODs with Liaison Officer.
• Developed Sit Rep #7.
• Coordinated hotshot deliveries of supplies to special locations.

## Incident Response/Recovery Priorities/Objectives

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Develop an approved GIS strategy.
8. Maintain coordination between partner agencies and organizations.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

## Emergency Declarations

## Local Damage Summary

**Public Damage Totals**
**Private Damage Totals**
**Damage Assessment Summary**

## Agency Summaries

**Joint Information Center / Public Information Officer**

The Joint Information Center (JIC) was operational in Flint from 8 a.m. to 10 p.m. on Jan. 17.

State agencies at the JIC included the Governor's Office, Departments of Health and Human Services, Agriculture and Rural Development, and Technology and Management and Budget, Natural Resources, Environmental Quality, Licensing and Regulatory Affairs, Military and Veterans Affairs and Michigan State Police. The Genesee County Sheriff's Office was also present.

Tasks accomplished:
- Helped arrange a legislative and congressional conference call to give updates on state and FEMA efforts.
- *Provided talking points for Captain Kelenske for the legislative and congressional phone call.*
- Provided talking points for attendees on congressional/legislative call so they can share updates with their constituents.
- Arranged a media availability at the Clio Road warehouse for media to have the opportunity to tour the warehouse to get photos and video of where water resources for Flint residents are being housed and distributed. Event attended by F/Lt. Dave Kaiser, ARC Warehouse Manager, and Capt. Tafoya of GCSD.
- Provided printed instructions to 211 for installing a water filter.
- Created a section called Federal Declaration Requests on the Flint Water Website to house the emergency declaration and associated letters.
- Updated the Lead in the Body FAQ/fact sheet on the website to focus more on lead in the water.
- Planning to send out nightly news release with updated information about today's activity.
- At the request of 211, arranged for a PIO from the Community Service Commission to be in the JIC this week.

**Agriculture and Rural Development (MDARD)**

Saturday Jan 16th update:

Primary activities today: coordination with FDA Detroit District on their and MDARD's upcoming activities related to food, inquiry into a possible animal facility requiring follow up; draft of a document outlining federal resources that may be available to assist with broader recovery issues.

**American Red Cross (ARC)**

Today was the last day the American Red Cross supplied staffing at the fire station POD's supporting the National Guard mission.
The assembly of water test kits at ARC headquarters was postponed until product is available.
We deployed and supported 10 teams (30 volunteers) for neighborhood canvassing (Water Response). 10-14 teams are planned for tomorrow.
We supplied lunches for all 20 of the Water Response Teams today, and will feed all of the teams again tomorrow.
The volunteer reception center (VRC) was in full operation today. 42 volunteers were processed today. The VRC will be in operation on Monday.
We continued warehouse and inventory management efforts.

A total of 89 Red Cross volunteers were active in today's efforts.

**Civil Rights (MDCR)**

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC activities. Also monitoring media and coverage of rallies and events.

**Community Health (MDCH)**

To support and provide information to the CHECC Disaster Behavioral Health planning lead, MDE was inquired regarding potential application for the "Project School Emergency Response to Violence," (SERV) grant. Follow-up was received from Louis Burgess who indicated that information will be gathered by MDE regarding this grant to determine the applicability and feasibility.

Provided MDHHS PIOs with drafted letter developed by the CHECC and reviewed/approved by Dr. Wells, Dr. Johnson, and April Swartout, for approval from the JIC to be signed and sent to GCHD. This letter serves to encourage Genesee County pediatricians to accept and use portable lead analyzers being offered to them by the GCHD. This letter was approved by the JIC this afternoon, pending minor edits. The final version of the letter will be provided to the SEOC State Director for approval before sending to GCHD.

Provided a MDHHS timeline of Flint Water-related activities, to date, to the Operations Section Chief as requested. This timeline included both health and human services statistics such as water and filter orders, number of blood lead tests conducted, and data on the number of elevated blood lead levels reported in children (categorized by age) in Flint.

Coordinated with the JIC and CHECC on nutritional information available online, as well as the possibility of activating the Disaster Distress 24/7 helpline through SAMHSA. These two projects are a work-in-progress to be further facilitated by the subject matter experts working on them later in the week.

**Corrections (MDOC)**

Brent Travelbee and Todd Bechler on duty SEOC today. All previous requests for vehicles, personnel and warehouse equipment have been filled and continue to be on site to assist with water distribution; additional request's today for re-allocation of hand jacks, a replacement electric jack, an additional box truck and 2 more transportation vans have either been filled or are in progress set for Monday morning delivery. MDOC Director Heidi Washington is providing full support to our assistance efforts. We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility.

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner. All MDOC resources will be reporting tomorrow Sunday January 17, 2016 as requested.

MDOC RESOURCES PENDING DEPLOYMENT: Monday, January 18, 2016

Vehicles with Drivers

(2) – 18' Box Trucks
(4) – 20' Box Trucks
(2) - 24' Box Trucks
(1) - 30' Box Truck (Lift gate broken but truck still on site, DTMB repairing)

Box Trucks have power lift gates

(1) – F250 Pick Up Quad Cab with Cap
(1) – 5 Passenger Handicapped Capable Van

(1) – 15 Passenger Van with 10' Enclosed Trailer
(1) – Pick-up Truck

(6) – 10/15 Passenger Vans

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks (This includes one that is broken and will be returning to Ionia tomorrow night for repair)

(7) – Hand Pallet Jacks

(5) 6-10 Passenger Vans

All vehicles drivers have 800 MHz Radio Operability

Staffing

There will be staff members on site drivers and an assistant for the Red Cross Transportation Van (w/trailer).

**Education (MDE)**

MDE is monitoring the situation and coordinating as necessary with other state agencies.

**Environmental Quality (MDEQ)**

The Department of Environmental Quality (DEQ) completed the following activities today:
- Identified MDEQ employee George Krisztian to attend the Tuesday Flint health briefing.
- Coordinated one 24' trailer or truck to be delivered to the ARC HQ in Flint. This will be used to store water test kits once assembled by the ARC. Duration of request was 7 days.
- Participated in SEOC activities to include the daily state agency briefing and the Distribution Process meetings.
- Provided support for possible transition of test-kit provision to FEMA
- Initiated expedited delivery of sample bottles already on order.

**Human Services (MDHS)**

Updated MDHHS Budget / Finance of FEMA intention of assuming water filter device procurement.

Provided FEMA OPs and Logs requested information on current water filtration device orders and inventories.

Met with FEMA VAL. Exchanged contact information, provided some SA and supplied contact information between FEMA VAL and MCSC in Flint.

Staying in communication with 211, addressing human service concerns and delivery of resources to the elderly and disabled.

Review and provide regular 211 updates to SEOC Ops.

CHECC continues to maintain a Level 2 Activation

**Licensing and Regulatory Affairs (LARA)**

Two bubblers that were supposed to be overnighted and delivered to a Flint area Home Depot did not arrive. Without these bubblers the Freeman School faucet replacement pilot cannot be completed; Install could possibly be finished on 1/18 if parts arrive.

LARA is currently working with DEQ to create a schedule for LARA's Plumbing Division to help DEQ with testing of additional schools in the Flint area.

LARA Bureau of Community and Health Services is in contact with licensed facilities to ensure they are receiving appropriate assistance if needed. LARA is continuing to receive information on the facilities to determine the appropriate actions needed.

**Military and Veterans Affairs (DMVA)**

Last 24 hours:
Distributed water, water filters, water test kits and collected water samples for analysis at five points of distribution. Coordinated efforts with Genesee County EOC and Joint Information Center. In-Processed Soldiers to augment distribution operations at 1800 S. outer Dirve, Saginaw, MI on 17 January 2016 at 1300. Conducted lodging and operations orientation following in-processing. Total of Soldiers on State Active Duty on 17 January 2016. All PODS received pallet jacks for off-loading water pallets. Coordination between FEMA and Selfridge Air Base (SANGB) taking place. Exact terms of agreement of FEMA using SANGB for staging operations have not been identified at this time.

Total of Soldiers on State Active Duty:
- at Genesee County EOC
- at Joint Information Center
- at PODS
- Soldiers In-processing

Next 48 hours:
Distribute water, water filters, and water test kits and collect water samples for analysis at five points of distribution. Coordinate efforts with Genesee County EOC and Joint Information Center. Relieve Red Cross at PODS, assuming their role of distributing filters. Total of Soldiers on State Active Duty on 17 January 2016. Additional Soldiers will conduct first full day of distribution operation on 18 Januafy 2016. Continue coordination between FEMA and SANGB, a 0800 meeting will be conducted on 18JAN16.

Micheal Shook
CPT, IN, USA

**National Weather Service (NWS)**

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac. Participation in afternoon SEOC briefings in planned only if significant changes in the forecast occur.

NWS support beyond this weekend being coordinated between NWS Grand Rapids and NWS Detroit. Hand off to NWS Detroit for morning conference call weather forecast likely before the end of January.

**Natural Resources (MDNR)**

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

***Services to the Aging (OSA)***

Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the Genesee County Health Department and MDHHS, has helped organize local meetings and distribute water and water filters. VAAA is an access point for receiving calls from homebound seniors who are not able to pick up water filters or need assistance installing water filters. VAAA reports they continue to receive calls from seniors who need assistance.

Contact info for VAAA Executive Director is:

Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

VAAA has distributed 2 bottles of water with each home delivered meal to each HDM client within the City of Flint. Water. VAAA also provided water to homebound seniors who needed water to prepare food as they had limited support to pick up bottled water. Congregate meal participants also have access to water and filters as needed. Once water filters were installed, VAAA discontinued including water with home delivered meals.

VAAA also contacted the Grandparents Raising Grandchildren program to ensure that they were aware of educational efforts and confirm the program had received water filters to distribute to program participants.

On 1/11/16 AASA forwarded to MSP/GIS over 1,400+ NAPIS addresses of Flint seniors who received in-home services in FY15. The NAPIS file was sent encrypted and did not include client names. The NAPIS file included 1,029 HDM, 138 CM, and 30 CCS clients.

VAAA continues to operate as a call center and referral point for area seniors concerned about their drinking water. They've noticed this week that seniors who've had filters installed are beginning to request bottled water again.

AASA's State LTC Ombudsman has checked in with the local Ombudsman in Flint. Local Ombudsman reports Flint area nursing homes have been taking precautions using bottled water for cooking and drinking. The local Ombudsman remains concern about Nursing Homes' long term need to replace old facility plumbing that may be leaching lead.

**State Police (MSP)**

Teams have been distributing water all day. 4968 homes have been visited today.

5:59 p.m. Lt. Young advised today, Sunday, Jan 17, 2016 - total team members made up teams which consisted of 104 volunteers to include 22 DHHS, 69 Non volunteers (Paid Personnel) which included 11 drivers from Dean Trailways MDOC personnel, MSP and GCSO.

We have 114 state of Michigan employee volunteers scheduled for Sunday Jan 17th and 139 scheduled for Monday Jan 18th.

**Supreme Court**

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

**Technology, Management and Budget (MDTMB)**

Provided management briefing and information on emergency declaration.

DTMB Mail Services has seven drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Drivers have agreed to work through the end of day Tuesday, January 19.

*DTMB assisted in procuring 72 truck loads of water, 8 trucks per day until Wednesday, January 20.*
60 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
Provided 450 credentialing badges for volunteers and 4 temporary fuel cards for the MSP officers driving rented U-Haul trucks.
Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits.
Procured 500 rain ponchos for volunteers and a 40 yard dumpster for use at the warehouse.
Providing printing needs for agencies for volunteers to distribute to city residents.
Provided armed security for Clio Rd. warehouse.
*Providing server monitoring of MiCIMS servers.*
Provided wireless router and printer for FEMA staff at SEOC.
Verizon Wireless booster will be onsite at Clio Rd. warehouse on Monday, January 18 by 2:00pm.

Procuring hand warmers for Water Response Teams.

**Transportation (MDOT)**

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

**Incident Related Images**

**Flint Water Response Team Activity**

# Damage Assessment and Emergency Status Report

## Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

### Operational Period

| | |
|---|---|
| **Operational Period Begin:** | 01/19/2016 08:00:00 |
| **Operational Period End:** | 01/26/2016 08:00:00 |
| **Situation Report No.** | 13 |
| **SEOC Status:** | Full |
| **SEOC Hours of Operation Begin:** | 01/18/2016 08:00:00 |
| **SEOC Hours of Operation End:** | 01/18/2016 20:00:00 |

### Executive Summary

SEOC Update:
Accomplished today (January 18):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public Information Control.

- Logistics:
o Secured email and phone booster for warehouse.
o Worked with FEMA to order water and filter cartridges.
o Worked with DHHS to order filter pitchers for distribution.
o Meetings with FEMA and ARC
o Coordinated resources and needs with donations management.
o Working with Red Cross to provide relief teams for warehouse manager.
o Continuing inventory monitoring and hot shots tracking.
o Projecting future orders of water resources and commodities.

- JIC:
o ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
o Media availability conducted today at 3pm at the VRC.
o News release with daily numbers released this evening.
o Social media covered state and local volunteers in the field today.
o FEMA external affairs in JIC today.

- Recovery Branch:
o Sent out 12 type 3 and 10 type 5 teams to canvass today.
o Data is for 1/18/16 as of 5:00 pm:
o Total homes visited
  11,841 (total)
  5,040 (today)
o Door Hangers
  8,452 (total)
  2,083 (today)
o Water Cases
  5,008 (total)
  1,411 (today)
o Replacement Cartridges
  3,468 (total)
  529 (today)
o Faucet Filters
  6,441 (total)
  1,866 (today)

- Planning Section:
o Lead morning and afternoon state agency conference call.
o Coordinated logistics of resource tracking.
o Developed projections based off of reporting and trend analysis.
o Published Sit Rep # 13.
o Published IAP #6
o Participated in distribution process meetings.
o Participated and facilitated tactics meeting.

- Operations Section:
o Resource request sent for MIANG assistance to deliver water, filters, test kits, and replacement filters to residents.
o Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
o Arabic version of the palm card was reviewed and approved by command.
o 62 American Red Cross Volunteer active across incident today.

o Warehouse Numbers:
  Clio St Warehouse (6pm inventory)
- Replacement Cartridges.

o 60,636
- Filters (faucet)
o 70,855
- Water (cases)
o 149,760
- Testing Kits
o 800
o Point of Distribution (as of 6 pm)
Contacts
- 1249
Water (cases)
- 8355
Filters (faucet)
- 1388
Replacement Cartridges
- 378
Filters (pitcher)
- 53
Test kits
- 1773

- Finance Section:
o Assisting MIANG with hotel logistics for possible deployment to Flint.
o Continue developing spend plans.
o Work with FEMA to determine costs for possible reimbursement for Flint emergency.
o Meet with FEMA IMAT about Public Assistance.

- GIS Branch Updates:
o Continued producing maps of lead service lines (40% complete with primary effected area)
o Developed a map of comparative activity for the JIC from pre-response to post-response.
o Established metrics to measure percent completion of resource distribution. The following two are from today:
o Active Water Subscribers confirmed as Having a Filter: 13164 of 29994 total subscribers (44% coverage)
o Total parcels confirmed as having a filter: 15364.
o Multi-tenant home status: Cannot be completed now, planned to be researched and established tomorrow.
o Fixed data from apps and paper copies of field team reports and PODS.

DTMB:
- Additional 30 iPads will be sent to the teams for tomorrow.
- 2 cell phones procured for DHHS donations management.
- Working to secure space in Flint for FEMA staff.
- 2 port-a-johns procured for warehouse staff.

DHHS-CH:
- The CDC Agency for Toxic Substances and Disease Registry (ATSDR) will deploy to Michigan.
- Continue to work on items for procurement of DBH.

DEQ:
- 7200 sample bottles scheduled for delivery tomorrow.
- Pushed up delivery of 20,000 bottles to meet demands.

Local EOC Update:
- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

## Incident Response/Recovery Priorities/Objectives

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy and process.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Maintain GIS strategy.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

## *Local Damage Summary*

**Public Damage Totals**
**Private Damage Totals**
**Damage Assessment Summary**

## Agency Summaries

**Joint Information Center / Public Information Officer**

The Joint Information Center (JIC) was operational in Flint from 8 a.m. to 8 p.m. on Jan. 18.

State agencies at the JIC included the Governor's Office, Departments of Health and Human Services, Agriculture and Rural Development, and Technology and Management and Budget, Natural Resources, Environmental Quality, Licensing and Regulatory Affairs, Military and Veterans Affairs and Michigan State Police. The Genesee County Sheriff's Office was also present.

Tasks Completed:

- Updated internal talking points to include updated information and activity.
- Arranged a media availability event at the Volunteer Reception Center located at the American Red Cross office on Grand Traverse St. Event. The event was staffed by the United Way of Genesee County, the Michigan Community Service Commission and the American Red Cross of East Central Bay-Michigan.
- Sent out a news release for the American Red Cross about volunteer efforts.
- Arranged to have a section for a photo gallery on the Flint water website.
- Updated the ICS204 form.
- Sent an email to the State PIOs for staffing the JIC for this weekend through next week.
- Planning to send out nightly news release with updated information about today's activity. The release will also include the flint water response team activity map.

**Agriculture and Rural Development (MDARD)**

Monday Jan 18th update: monitoring mode; planning for field activities this coming week.

**American Red Cross (ARC)**

The assembly of water test kits at ARC headquarters was postponed until product is available.
We deployed and supported 10 teams for neighborhood canvassing (Water Response). 10-14 teams are planned for tomorrow.
We supplied lunches for all of the Water Response Teams today, and will feed all of the teams again tomorrow.
The volunteer reception center (VRC) was in full operation today. The VRC will be in operation on Tuesday.
We continued warehouse and inventory management efforts.

**Civil Rights (MDCR)**

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC activities.

Also monitoring media and coverage of rallies and events.

**Community Health (MDCH)**

Communications have been maintained between the SEOC and the CHECC, which remains activated at a level 2.

The CHECC was notified that the CDC Agency for Toxic Substances & Disease Registry will have a team of 3-5 people in MI as early as Wednesday this week. This team is coming to MI to provide technical assistance as part of their regular mission. Details are still being worked out with the MDHHS Division of Environmental Health. FEMA and SEOC Incident Command have been made aware.

The CHECC provided an update from the Midwest Kidney Network (ERSD Network 11. "At this time, no dialysis related ramifications have been identified or reported to Network 11" for this at-risk population. The information was shared with LARA as the licensing agency for dialysis centers.

EMpower data has been received which identifies individuals who are dependent on electrical medical equipment in the home. The data is being cleaned for redundancies and will be able to be compared with other data sets to ensure that those at-risk individuals are not missed by the Flint Water Resource Teams that are distributing resources door to door.

The CHECC continues to work with the Behavioral Health and Developmental Disabilities Administration (BHDDA) to address behavioral health needs associated with this incident in collaboration with CMH and SAMHSA.

**Corrections (MDOC)**

Brent Travelbee and Todd Bechler on duty SEOC today. All previous requests for vehicles, personnel and warehouse equipment have been filled and continue to be on site to assist with water distribution; additional request's today for re-allocation of hand jacks, a replacement electric jack, an additional box truck and 2 more transportation vans have either been filled or are in progress set for Monday morning delivery. MDOC Director Heidi Washington is providing full support to our assistance efforts. We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility.

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner. All MDOC resources will be reporting tomorrow Sunday January 17, 2016 as requested.

MDOC RESOURCES PENDING DEPLOYMENT: Monday, January 18, 2016

Vehicles with Drivers

(2) – 18' Box Trucks
(4) – 20' Box Trucks
(2) - 24' Box Trucks
(1) - 30' Box Truck (Lift gate broken but truck still on site, DTMB repairing)

Box Trucks have power lift gates

(1) – F250 Pick Up Quad Cab with Cap
(1) – 5 Passenger Handicapped Capable Van

(1) – 15 Passenger Van with 10' Enclosed Trailer
(1) – Pick-up Truck

(6) – 10/15 Passenger Vans

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks (This includes one that is broken and will be returning to Ionia tomorrow night for repair)

(7) – Hand Pallet Jacks

(5) 6-10 Passenger Vans

All vehicles drivers have 800 MHz Radio Operability

Staffing

There will be staff members on site drivers and an assistant for the Red Cross Transportation Van (w/trailer).

**Education (MDE)**

MDE is monitoring the situation and coordinating as necessary with other state agencies.

English Language Learners report from Flint Public School District (Flint Community Schools). Results show 338 total with 83% Spanish speakers; 6% Arabic; all others report less than 1%.

***Environmental Quality (MDEQ)***

The Department of Environmental Quality (DEQ) completed the following activities today:
• Another 21,600 bottles for test kits ordered. This totals 50,400 bottles expected to ship in variable allotment beginning tomorrow.
• Participated in SEOC activities to include the daily state agency briefing and the Distribution Process meetings.
• Responded to 211 calls regarding ZeroWater, TDS Meter testing of canned water and facilitated pick up of cans and resupply of bottle water to concerned parties.

**Human Services (MDHS)**

Looking for availability of Zero Water pitchers per resource request.
Received two cell phones for MCSC to assist with their donation management processes.
Looking to provide a conference room at MDHHS Clio Rd for MDARD inspector training on Wednesday.

CHECC continues to maintain a Level 2 Activation

**Licensing and Regulatory Affairs (LARA)**

Updated the LARA Executive Team.

DTMB reordered two additional bubbler for the Freeman Elementary faucet replacement pilot project. These bubblers are expected to arrive tomorrow (Tuesday, Jan. 19). LARA will then coordinate with Freeman Elementary to finish the construction work. After that work is complete, LARA will coordinate with DEQ to conduct water re-testing at Freeman Elementary.

LARA is continuing to work with DEQ to establish a schedule, for the next several weekends, to complete school water testing.

LARA communicated with the DEQ LARA's resource availability to assist with water testing.

**Military and Veterans Affairs (DMVA)**

Last 24 hours:
Distributed water, water filters, water test kits and collected water samples for analysis at five points of distribution. Coordinated efforts with Genesee County EOC and Joint Information Center. In-Processed 33 Soldiers to augment distribution operations at 1800 S. outer Dirve, Saginaw, MI on 17 January 2016 at 1300. Conducted lodging and operations orientation following in-processing. Total of Soldiers on State Active Duty on 17 January 2016. All PODS received pallet jacks for off-loading water pallets. Coordination between FEMA and Selfridge Air Base (SANGB) taking place. Exact terms of agreement of FEMA using SANGB for staging operations have not been identified at this time.

Total of 7 Soldiers on State Active Duty:
t Genesee County EOC
t Joint Information Center
at PODS
Soldiers In-processing

Next 48 hours:
Distribute water, water filters, and water test kits and collect water samples for analysis at five points of distribution. Coordinate efforts with Genesee County EOC and Joint Information Center. Relieve Red Cross at PODS, assuming their role of distributing filters. Total of Soldiers on State Active Duty on 17 January 2016. Additional Soldiers will conduct first full day of distribution operation on 18 January 2016. Continue coordination between FEMA and SANGB, a 0800 meeting will be conducted on 18JAN16.

Micheal Shook
CPT IN, USA

**National Weather Service (NWS)**

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac. Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

NWS support beyond this weekend being coordinated between NWS Grand Rapids and NWS Detroit. Hand off to NWS Detroit for morning conference call weather forecast likely before the end of January.

**Natural Resources (MDNR)**

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

**Services to the Aging (OSA)**

Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the Genesee County

Health Department and MDHHS, has helped organize local meetings and distribute water and water filters. VAAA is an access point for receiving calls from homebound seniors who are not able to pick up water filters or need assistance installing water filters. VAAA reports they continue to receive calls from seniors who need assistance.

Contact info for VAAA Executive Director is:

Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

VAAA has distributed 2 bottles of water with each home delivered meal to each HDM client within the City of Flint. Water. VAAA also provided water to homebound seniors who needed water to prepare food as they had limited support to pick up bottled water. Congregate meal participants also have access to water and filters as needed. Once water filters were installed, VAAA discontinued including water with home delivered meals.

VAAA also contacted the Grandparents Raising Grandchildren program to ensure that they were aware of educational efforts and confirm the program had received water filters to distribute to program participants.

On 1/11/16 AASA forwarded to MSP/GIS over 1,400+ NAPIS addresses of Flint seniors who received in-home services in FY15. The NAPIS file was sent encrypted and did not include client names. The NAPIS file included 1,029 HDM, 138 CM, and 30 CCS clients.

VAAA continues to operate as a call center and referral point for area seniors concerned about their drinking water. They've noticed this week that seniors who've had filters installed are beginning to request bottled water again.

AASA's State LTC Ombudsman has checked in with the local Ombudsman in Flint. Local Ombudsman reports Flint area nursing homes have been taking precautions using bottled water for cooking and drinking. The local Ombudsman remains concern about Nursing Homes' long term need to replace old facility plumbing that may be leaching lead.

**State Police (MSP)**

Teams have been distributing water all day. 5075 homes have been visited today.

12:43 p.m. - The SEOC may be requesting additional Troopers/County or Local Officers along with marked patrol vehicles to assist with the Door to Door Operations with the National Guard starting tomorrow (1-19-16). The SEOC is still waiting for the Governor to approve the use of National Guard personnel.

5:13 p.m.- The Governor has approved the use of the National Guard for the Door to Door Operations in Flint. The Local EOC was advised to proceed with the planning process for obtaining the additional Troopers/County and or Local Officers with marked patrol vehicles to assist the National Guard. As stated below, they plan on deploying teams on Wednesday 1-20-16.

There will be National Guard personnel arriving on Wednesday (1-20-16). of the National Guard personnel will be boots on the ground assisting with the Door to Door Operations and will be National Guard Command Officers. Upon arrival the National Guard personnel will report to the local EOC for briefing and will be deployed into the field using *Michigan Department of Corrections transport vehicles.*

The ICS 208 was created for 1-19-16 thru 1-26-16 to include updated weather information provided by the National Weather Service.

We had Teams that were deployed today, utilizing 16 trucks (four were utilized for replenishing the team trucks) 110 volunteers, of which 103 were confirmed to be State Agency volunteers.

**Supreme Court**

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

**Technology, Management and Budget (MDTMB)**

Provided management briefing and information on emergency declaration.

DTMB Mail Services has seven drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Drivers have agreed to work through the end of day Tuesday, January 19.

DTMB assisted in procuring 72 truck loads of water, 8 trucks per day until Wednesday, January 20.
91 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
Provided 450 credentialing badges for volunteers and 4 temporary fuel cards for the MSP officers driving rented U-Haul trucks.
Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits.
Procured 500 rain ponchos for volunteers and a 40 yard dumpster for use at the warehouse.
Providing printing needs for agencies for volunteers to distribute to city residents.
*Provided armed security for Clio Rd. warehouse.*
Providing server monitoring of MiCIMS servers.
Provided wireless router and printer for FEMA staff at SEOC.
Acquired a Verizon Wireless booster for the Clio Road warehouse.
Procured hand warmers for Water Response Teams.
Provided 2 cell phones to DHHS Michigan Community Service Commission to your for donation management.
Contacted Penske Truck Rental and acquired 23 donated trucks for use through Friday for water response teams.
Provided 2 portable bathrooms for use at the Clio warehouse.

**Transportation (MDOT)**

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

# Damage Assessment and Emergency Status Report

## Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

### Operational Period

| | |
|---|---|
| **Operational Period Begin:** | 01/06/2016 08:00:00 |
| **Operational Period End:** | 01/08/2016 17:00:00 |
| **Situation Report No.** | 3 |
| **SEOC Status:** | |
| **SEOC Hours of Operation Begin:** | 01/8/2016 08:00:00 |
| **SEOC Hours of Operation End:** | 01/8/2016 17:00:00 |

### Executive Summary

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Officer.

On October 1, 2015 the Genesee County Health Department declared a Public Health Emergency due to the elevated blood lead levels in citizens. In response to this the City of Flint declared a local State of Emergency on December 15, 2015 and activated their Emergency Operations Center.

To mitigate the effects of the new source of water on the infrastructure in the City of Flint, the city switched back to DWSD water on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is now treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone.

MDHHS has increased surveillance of blood lead levels in children and is addressing water issues in environmental investigations to identify lead sources in the environment of affected children and provide health education and information to residents, health care providers, and daycare/educational institutions.

Local nonprofit organizations have provided potable water to Flint residents. MSP/EMHSD GIS staff is supporting county and local GIS staff by consolidating data from local sources into comprehensive databases and providing mapping services to support incident analysis and forecasting. Data and maps regarding the location of water pipes, affected schools, filter distribution locations, water monitoring results, and predictive blood lead levels for affected areas will be made available with demographics.
Before December 16, 2015, $9.35 million was provided by the State of Michigan and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While the source water has been switched back to DWSD, water in the City of Flint is still not safe to drink, unless specifically filtered.

On January 5, 2016, Governor Snyder declared a State of Emergency for the City of Flint and Genesee County. Genesee County requested the Governor's declaration on January 5, 2016, following the declaration of a State of Emergency in the county in response to the presence of lead in the public water supply and the detection of elevated blood lead levels exceeding governmental standards.

Since the declaration by the Governor on January 5th, the State Emergency Operations Center (SEOC) has been fully activated and working with local and state agencies to ensure a coordinated response to the incident. Since the activation, the SEOC has activated command staff, state agency EMC's, and implemented the Recovery Branch under the Operations Section.

SEOC Update:
Accomplished today (January 8):
- Recovery Branch is working to develop a enhanced method for outreach to all individuals.
- DHHS is working to develop a method for distribution of water.
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Held first legislative call today.
- JIC continued to develop messaging and has implemented a co-located JIC in the City of Flint.
- SEOC staff provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed 3 EMHSD/SEOC liaisons to assist the local EOC.
- Worked on developing incident objectives for the next operational period.
- FEMA Liaison Officers are on site at the SEOC and are assisting and providing technical expertise as needed.

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Provide resources.
- Public Information Control.

MSP/EMHSD GIS Section Updates
Accomplished Today (January 8):
- Produced Water Point of Distribution Map (POD).

• Produced Filter Point of Distribution Map (POD).
• Met with Genesee County Emergency Manager to discuss POD locations, and hours of operation. He will also be sending us data on new facilities serving as POD's with hours of operations.
• Attempted to geocode list of properties that have received a water filtration system. Geocoding encountered a problem due to original database format. We continue to clean up the database.
• Attempted to get data on the zip codes; local contact has not yet responded.
• Met with GIS from Flint to discuss data and methods.
• U of M contacted us to set up a meeting on how best to proceed with digitizing water lines
• Received account from City of Flint for their ArcGIS online.

Tasks for Tomorrow (January 9):
• Finalize updated list on water filter distributions map.
• Update Water and Filter POD's with updated information from Genesee County Emergency Manager.
• Establish time to meet with U of M.
• Finalize water filter distributions map.
• Finalize plan for data distribution methods.

Volunteer and Donations Management:
• SEOC staff, Local EOC, and local organizations had a call with General Motors about possible donations.

Local EOC Update:
*The following actions have been coordinated and supported through the Genesee County EOC since activation:*

Genesee County Sheriff's Office:
• Distribute filter and water to affected population (172 attempted contacts with 27 personnel on 01/07/2016).
• Provide security at EOC and incident facilities.
• Sheriff Pickell is serving as the PIO for Genesee County.
• Operate EOC and manage Incident through Emergency Management & Homeland Security Office.

Genesee County Health Department:
• Developing messaging (health education) for affected population.
• Provide nutritional counseling.
• Elevated blood level case management.
• Provide IT support for filter distribution database and GIS mapping.
• Developing Lead Poison Prevention Plan.

Genesee County *Equalization Department*:
• Provide addresses, demographic, socioeconomic data for incident planning and forecasting.
• Provide GIS mapping services.
• Preliminary assessed damages on public and private infrastructure impacts in coordination with City of Flint.

Genesee County Community Action Resource Department (GCARD):
• Warehousing/staging of filters for distribution to affected population.
• Distribution of filters to affected population from two locations in the City of Flint.

City of Flint Fire Department:
• 5 Fire stations will serve as PODs for water and filter equipment on Saturday, 01/08/2016, 0900AM to 1600PM.

Flint Community Schools:
• Nothing reported at this time.

*Michigan Department of Health and Human Services:*
• Filter distribution at one location in the City of Flint.

United Way of Genesee County:
• Receive and manage donations (cash and goods).
• Public information through 211.
• Facilitating coordination and control among local agencies.

Foodbank of Eastern Michigan:
• Warehousing/staging of water for distribution to affected populations.
• Identify and operate PODs for water (8 sites identified by 12:00 noon, 01/08/2016).
• Water inventory by end of day, 01/07/2015; Food bank has 376 cases of water.

Hurley Medical Center:
• Nothing reported at this time.

The county EOC has issued five resource requests to the SEOC (all in progress) by 12:00 noon on 01/08/2016.

## Incident Response/Recovery Priorities/Objectives

TBD

## Emergency Declarations

**Local Declarations**

## Weather Conditions

**Watches/Warnings**

**Upcoming Forecast**
Forecast Update for Flint, MI area: Saturday 1/9 through Thursday 1/14

* Saturday (Jan 9): Rain with Mild Temperatures
* Sunday (Jan 10): Snow, Cold, Wind and Hazardous Travel
* Monday (Jan 11) through Thursday (Jan 14): Very Cold with a Few Snow Showers

Rain will occur on and off through Saturday evening. Saturday will see high temperatures around 45 degrees. Temperatures will fall quickly overnight Saturday night, with temperatures in the mid 20s by noon Sunday and in the teens by Sunday evening. Strong winds Sunday will result in wind chill values near zero and time to frostbite from exposure of 30 minutes or less.

Snow is expected to develop around or just before sunrise Sunday. Around 2 to 4 inches of snow will be possible in the Flint area Sunday with the heaviest snow expected Sunday late morning/early afternoon.

Snow and Cold will result in icy roads and hazardous travel conditions Sunday. Wet roads may ice up in the middle of the night Saturday night before snow begins on Sunday. A few power outages due to snow and wind may be possible Sunday.

Monday (1/11) through Thursday (1/14): On and off snow showers. Very cold air will be in place. Daytime high temperatures will only climb to around 20 degrees with overnight low Temperatures around 10 or colder. Wind Chill Values Monday (1/11) through Thursday (1/14) will be in the teens and single digits above zero with time to frostbite from exposure of 15 to 30 minutes.

## Local Damage Summary

**Public Damage Totals**
**Private Damage Totals**
**Damage Assessment Summary**

## Agency Summaries

**Joint Information Center / Public Information Officer**

Jan 7, 2016

The Joint Information Center (JIC) was operational at 1 p.m. on Jan. 6 and operational from 8 a.m. to 5 p.m. on Jan. 7. State agencies at the JIC included the Departments of Licensing and Regulatory Affairs, Health and Human Services, Agriculture and Rural Development, Environmental Quality, and Michigan State Police.

During the 8 a.m. to 5 p.m. operational period, Gov. Rick Snyder held a press availability with Flint Mayor Karen Weaver. In addition, a round-table press briefing occurred at 1 p.m. at the 4000 Collins Road facility.

Objectives included:

- Oversaw and managed the state of Michigan public information duties due to emergency declaration.
- Held a 4 p.m. conference call with Genesee County PIO Sheriff Robert Pickell and city of Flint PIO Lead Sean Kammer.

Information Gathering
- Created media monitoring reports about the disaster as needed.
- Crafted talking points about the ongoing disaster, including a better description of the emergency declaration process.
- Crafted social media posts about state efforts underway during the disaster recovery process.
- Created graphics for social media efforts.

Information Dissemination
- Answered phones and manage media inquiries in regards to the Flint Water situation.
- Worked to establish a GovDelivery account; post link of website to sign up.
- Finalized details, media invite list and host a media roundtable.

External Affairs
• Worked on planing a conference call between command staff and affected state legislators and congressional Jan. 8, 2015.

Administrative
• Worked on filling staffing for the next operational period.

Logistics
• Worked on fixing email accounts.
• Worked to established a location with Genesee County and the city of Flint for a Unified Joint Information Center by the end of the week.
• Established a conference call line for the media roundtable.

**Agriculture and Rural Development (MDARD)**

Two areas MDARD is monitoring:
1). Water usage in food processing, food retail, and food service (restaurants). Guidance document has been available since October; MDARD surveyed food processors in October and did not find issues.
2). Water consumption by pets / animals. There has been some evidence of lead toxicity in dogs, and there has been guidance about pets & water included in the Q & A.
Jan 7th 2016 4pm update:
MDARD and Genesee Local Health Dept. agreed to move guidance on water to a regulatory requirement. New language (after JIC approval) will be going out to retail food establishments and restaurants with follow up inspections and sampling. Planning will continue on logistics for sampling.
Jan 8th 2016 4pm update:
Animals - Shelter Director Paul Wallace has obtained some documents to help ascertain what entities (that are not tracked via licensing and registration) that would be housing animals: 1) All the City of Flint street (physical) addresses that are on City of Flint water, 2) All the "Out-County" (physical) addresses that are on City of Flint water. The Shelter Director is also pulling the possible animal holding/gathering facilities in reference to that listing which will provide the rest of the contacts. MDARD will be getting copies of all of these lists soon. Other shelters are not on City of Flint water.

**American Red Cross (ARC)**

The American Red Cross will be standing up a 'limited' Disaster Relief Operation by the end of today. This will enable us to provide a more comprehensive response to community needs in Flint as they are made known. We will now be more readily able to bring in resources from outside the Flint area.

**Civil Rights (MDCR)**

Monitor and support agencies with issues surrounding outreach and engagement of marginalized populations within the City of Flint impacted by the current water crisis.

**Community Health (MDCH)**

MDHHS is collaborating with the MDHHS PIO in the JIC to provide health related information for the document that will be delivered to all homes in Flint.

Collaborated with LARA to obtain a contact list of all health professionals in Genesee County for distribution of Guidelines for Lead Testing in Children.

Per Genesee County Health Department, all inquiries about lead testing are being referred to 211 or their individual healthcare provider.

Dr. Eden Wells, Chief Medical Executive, participated in the Congressional Briefing.

**Corrections (MDOC)**

Administration for the MDOC has been notified and is updated on current situation. There are approximately staff members working in the affected area. Potable water has been provided to the offices in the affected area since the beginning of this situation and will continue to be provided. This water is available for people working there and those that have been required to go the office. We will continue to monitor this situation for any developing issues.

**Environmental Quality (MDEQ)**

The DEQ laboratory is prepared to accept and process 400 water samples pre day, 7 days a week. DEQ Incident Management Team staff are supporting the local Emergency Operations Center with personnel in Incident Command positions.

**Human Services (MDHS)**

Participated in 9:30 State Agency briefing.
Updated resource requests.
Local MDHHS staff active in local EOC.
Sent MCSC to Genesee Co to coordinate various volunteer efforts.
Helping with donation management efforts at the local level.
Gathering information on water filter acquisition, distribution, installation, life span and replacement.
CHECC remains at Level 1 Activation - Normal Operations

***Licensing and Regulatory Affairs (LARA)***

Communicating with DEQ regarding additional water testing in Flint schools.

Gathering information from the Plumbing Division regarding plumbing authority within the city of Flint.

**National Weather Service (NWS)**

Jim Maczko from NWS Grand Rapids participating in morning SEOC briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac.

**Natural Resources (MDNR)**

MDNR is fully participating in all SEOC activities. Situational awareness is being maintained and the department stands ready to assist as needed.
Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

**Services to the Aging (OSA)**

Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the Genesee County Health Department and MDHHS, has helped organize local meetings and distribute water and water filters. VAAA is an access point for receiving calls from homebound seniors who are not able to pick up water filters or need assistance installing water filters. VAAA reports they continue to receive calls from seniors who need assistance.

VAAA has distributed 2 bottles of water with each home delivered meal to each HDM client within the City of Flint. Water. VAAA also provided water to homebound seniors who needed water to prepare food as they had limited support to pick up bottled water. Congregate meal participants also have access to water and filters as needed. Once water filters were installed, VAAA discontinued including water with home delivered meals.

VAAA also contacted the Grandparents Raising Grandchildren program to ensure that they were aware of educational efforts and confirm the program had received water filters to distribute to program participants.

**State Police (MSP)**

Insp. Bolger is monitoring the incident via MICIMS and participating in State Agency Briefings.

**Supreme Court**

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

**Technology, Management and Budget (MDTMB)**

Provided update to management on morning briefing.
Co-located JIC has been setup for the public information officers, along with a media meeting room. Facilities supervisor assisted with unloading and equipment setup.
Received list of agency public information officers to have access to the Flint Office Building added to their ID cards.
Resource request received for a truck and driver needed to pick-up pallets of water and cartridges within the city and deliver them to five city fire stations on Saturday.
Resource request received to locate warehouse space within the city to act as a distribution and intake site for donated water, cartridges and filters. DTMB Real Estate Division contacting resources within the city for available locations.

### Executive Summary

SEOC Update:
Accomplished today (January 16):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Provide resources.
- Public Information Control.

•Logistics
o Fielded questions about whether to open the multi-pack filter replacement kit and give only one away or keep as a pack. Decision is no, otherwise we are accused of tampering. Request no multi-packs be ordered.
o Hashed out test kit assembly process with DEQ and ARC.
o Hashed out lunch process for the weekend.
o Moved out of GGCard, consolidated to Clio Rd. warehouse.
o Donation deliveries – 10 a.m. – 7 p.m.
o Update ICS 204's.
o Site visits in Flint to local EOC. Warehouse, ARC, and POC's.
o Observed warehouse operations to determine challenges.
o Provided the JIC with one of each filters.
o Discussed volunteer management coordination with MCSC and ARC.
o Requested Verizon boosters for warehouse.
o Requested 100 traffic cones for warehouse to direct traffic.
o Requested MICIMS access for state volunteer coordinator.
o Requested 10,000 nutritional pamphlets from FEMA.

•JIC
o JIC will be requesting daily numbers from the SEOC from the activities of the field teams and PODs.
o Working the emergency declaration and talking points for congressional/legislative conference call.
o FEMA External affairs FEMA will be on site soon.
o Working on inaccuracies from media on the declaration.

• Recovery Branch
o MSP coordinated 11 Flint Water Response Teams with 62 state employees today.
o Continued coordination with Red Cross on volunteers for Sunday and Monday.
o Confirmed team typing for Flint Water Resource Teams.
o Data is for 1/16/16 as of 5:00 pm.
Water Response Teams TOTALS 1/16/2016
Occupied Homes 6,034 2,387
Vacant Homes 2,161 554
Unknown 3,129 909
Total Homes Visited 11,324 3,850
Resdurces Provided
Door Hangers 4,384 1,745
Water - Cases 2,062 1,253
Water - Gallons (Jugs) 97 9
Filters-Faucet 2,973 1,247
Replacement Filter 2,040 770
Filter Pitchers 29 2
Water test kits 420 102

Total Resources Dispersed 12,005
Future sample test site 453 301

•Planning Section
o Lead morning and afternoon state agency conference call.
o Coordinated logistics of resource tracking.
o Developed projections based off of reporting and trend analysis.
o Published Sit Rep # 11.
o Participated in distribution process meetings.

• Operations Section

o Conducted SEOC Briefing and IAP Tactics meeting
o Worked with local EOC to fix trash issue at the stations.
o Worked with local EOC and SEOC logistics to clean up distribution quantities at sites to individuals.
o 91 American Red Cross volunteers are active across operation today.
o ARC processed 45 volunteers through the Volunteer Reception Center.
o warehouse Numbers:
Clio St Warehouse (current stock)
-Replacement Cartridges 63,866
-Filters (faucet) 63,003
-Water (cases) 38,232
o point of Distribution (as of 7 pm)
Contacts 1047
Water (cases) 625
Filters (faucet) 772
Replacement Cartridges 486
Filters (pitcher) 14
Test kits 3

•Finance Section.
o Continuing to track personnel resources located in the SEOC and local EOC for use in spend plan development.
o Monitoring resource request board and Pipeline Collaboration Document for costs incurred by state agencies for inclusion in spend plan.
o Booked additional 18 hotel rooms for National Guard.

•GIS Branch Updates.
o Created a GeoForm and Feature Service to handle data from paper forms used in the field and forms used prior to our involvement.
o Gave training to Red Cross and Sheriff's Office teams on iPad data collection.
o Gave train-the-trainer training to National Guard on iPad data collection within the Points of Distribution(PODS)
o Created maps for ARC and MSP of individual team assignment areas.
o Created map of Residential Water Sampling Results from data provided by MDEQ.
o Created Precinct/Ward wall map
o Created Daily Team Progress map

DTMB:
• Provided management briefing and information on emergency declaration.
• 60 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
• Provided 450 credentialing badges for volunteers and 4 temporary fuel cards for the MSP officers driving rented U-Haul trucks.

DHHS-CH
• Maintained coordination and information sharing with CHECC leadership by holding twice daily scheduled calls to report activities and updates.
• A resource request was submitted in the SEOC to logistics to order 10,000 of the EPA provided nutritional pamphlet.
• Discussions took place with the JIC Manager, MDHHS PIOs, and CHECC Disaster Behavioral Health Subject Matter Experts regarding the method for providing Disaster Distress support (i.e. a helpline) for the public and responders.

DEQ
• All available water test kits assembled and available for distribution.
• Provided guidance to City personnel for water sample collection sites.
• GIS map developed for water sampling sites.

Local EOC Update:
• Toured facility and discussed EOC operations with Lt. Governor Calley.
• Provided direction to Operations and Logistics Sections to initiate water sample collection at Fire Station PODs.
• Attended conference call with SEOC and ARC logistics management to clarify supply level tracking and receive further instruction on the issue.

## Local Damage Summary

**Public Damage Totals**

**Private Damage Totals**

**Damage Assessment Summary**

## Agency Summaries

**Joint Information Center / Public Information Officer**

- Held a media availability at Fire Station #5 where Major General Vadnais announced Michigan National Guard efforts will be doubled to approximately personnel by Monday to assist at water resource sites.
- Governor's Office issued a new release announcing the Presidential emergency declaration approval.
- Answered media calls about the state's resource distribution and activity efforts to date.
- Updated daily talking points to include the state's activity efforts to date and the Presidential emergency declaration.
- Coordinating with FEMA External Affairs to plan a Congressional call on January 17, in additional to a legislative call regarding the Presidential emergency declaration. Preparing talking points for the Congressional and legislative conference calls.
- Issued a news release with today's activity for the water resource sites and water distribution teams, as well as the increase in National Guard personnel.
- Preparing a news release by the American Red Cross and United Way regarding the volunteer resource center and how individuals can volunteer to help.

**Agriculture and Rural Development (MDARD)**

Saturday Jan 16th update: Primary activities today: coordination with FDA Detroit District on their and MDARD's upcoming activities related to food, inquiry into a possible animal facility requiring follow up; draft of a document outlining federal resources that may be available to assist with broader recovery issues.

**American Red Cross (ARC)**

Again today, the American Red Cross supplied reduced staffing at the fire station POD's supporting the National Guard mission.
The assembly of water test kits at ARC headquarters resumed today.
We deployed and supported additional teams for neighborhood canvassing (Water Response).
We supplied lunches for the Water Response Teams.
The volunteer reception center (VRC) was in full operation today. The VRC will be in operation from Noon to 5pm on Sunday, and Monday through Friday will operate from 11am to 6:30pm.
We continued warehouse and inventory management efforts.

**Civil Rights (MDCR)**

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC activities.

**Community Health (MDCH)**

Coordinated with the CHECC to continue working on various projects to include developing a timeline of MDHHS activities as they relate to the Flint Water situation, the ordering of necessary nutritional information materials to be sent to the local health

department, identifying a MDHHS representative to serve on the Public Health Group meeting on Tuesday (1/19), and staffing the CHECC hotline for health-related calls the 2-1-1 is unable to answer (since the LHD is closed for the weekend).

Maintained coordination and information sharing with CHECC leadership by holding twice daily scheduled calls to report activities and updates. Will also provide a daily update email to MDHHS Executive Leadership. This update will include the announcement of the Presidential Emergency Declaration issued this afternoon.

In alignment with the ongoing nutritional planning being lead by staff in the CHECC, a resource request was submitted in the SEOC to logistics to order 10,000 of the EPA provided nutritional pamphlet called, "Flight Lead Poisoning with a Healthy Diet," to be shipped directly to the Genesee County Local Health Department. Additional orders for these pamphlets are anticipated; however, the necessary quantity has not yet been determined.

Discussions took place with the JIC Manager, MDHHS PIOs, and CHECC Disaster Behavioral Health Subject Matter Experts regarding the method for providing Disaster Distress support (i.e. a helpline) for the public and responders. This will be discussed further on Tuesday when SMEs are in the CHECC and reach-out to SAMHSA to coordinate.

Updated ICS 204 forms with new and updated tactics and work assignments. Participated in SEOC tactics and planning meeting.

***Corrections (MDOC)***

Brent Travelbee and Todd Bechler on duty SEOC today. We have filled all requests for vehicles, personnel and warehouse equipment to assist with water distribution; additional request for Hand Operated Pallet Jacks have also been filled. MDOC Director Heidi Washington is providing full support to our assistance efforts. We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility.

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner. All MDOC resources will be reporting tomorrow Sunday January 17, 2016 as requested.

MDOC RESOURCES PENDING DEPLOYMENT: Sunday, January 17, 2016

Vehicles with Drivers

(2) – 18' Box Trucks
(3) – 20' Box Trucks
(2) - 24' Box Trucks
(1) - 30' Box Truck (Lift gate broken but truck still on site, DTMB repairing)

Box Trucks have power lift gates

(1) – F250 Pick Up Quad Cab with Cap
(1) – 5 Passenger Handicapped Capable Van

(1) – 15 Passenger Van with 10' Enclosed Trailer
(1) – Pick-up Truck with 20' Enclosed Trailer

(4) – 10/15 Passenger Vans

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(2) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

(5) 6-10 Passenger Vans

All vehicles drivers have 800 MHz Radio Operability

Staffing

There will be 22 staff members on site 21 drivers and an assistant for the Red Cross Transportation Van (w/trailer).

**Education (MDE)**

School enrollment and staffing spreadsheet added to Mi-CIMS.

MDE is monitoring the situation and coordinating as necessary with other state agencies.

**Environmental Quality (MDEQ)**

The Department of Environmental Quality (DEQ) completed the following activities:
- Sampling of Manley Head Start and Eagles Nest School
- All available water test kits assembled and available for distribution
- Provided guidance to City personnel for water sample collection sites
- GIS map developed for water sampling sites
- Water heater information provided to Department of Labor and Regulatory Affairs and agency Public Information Officer's

**Human Services (MDHS)**

Staying in communication with 211, addressing human service concerns and delivery of resources to the elderly and disabled.

Review and provide regular 211 updates to SEOC Ops.

Continue to receive water filtration devices and assist in replenishment.

CHECC continues to maintain a Level 2 Activation

**Licensing and Regulatory Affairs (LARA)**

Manley School, where some DEQ testing was done today, is actually "Manley Early Childhood Center". The facility is a Head Start program and is captured under LARA's licensed Child Care Homes/Centers, it is not a school. DEQ is aware of this

Two bubblers that were supposed to be overnighted and delivered to a Flint area Home Depot today did not arrive. Without these bubblers the Freeman School faucet replacement pilot cannot be completed; all other scheduled work was completed there today. DEQ testing will not be done at Freeman tomorrow, 1/17. DEQ is aware of this. Install could possibly be finished on 1/17 if parts arrive; with testing then being done on Monday since school is not in.

LARA is currently working with DEQ to create a schedule for LARA's Plumbing Division to help DEQ with testing of additional schools in the Flint area.

**Military and Veterans Affairs (DMVA)**

Last 24 hours:
Distributed water, water filters, and water test kits and collected water samples for analysis at five points of distribution.
Coordinated efforts with Genesee County EOC and Joint Information Center.

Total of Soldiers on State Active Duty:
at Genesee County EOC
at Joint Information Center
at PODS

Next 48 hours:
Distribute water, water filters, and water test kits and collect water samples for analysis at five points of distribution. Coordinate efforts with Genesee County EOC and Joint Information Center. In-Process 38 Soldiers to augment distribution operations at 1800 S. outer Dirve, Saginaw, MI on 17 January 2016 at 1300. Conduct lodging and operations orientation following in-processing. Total of 72 Soldiers on State Active Duty on 17 January 2016. Additional Soldiers will conduct first full day of distribution operation on 18 January 2016.

Raymond Stemitz
LTC, IN, USA

**National Weather Service (NWS)**

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac. Participation in afternoon SEOC briefings in planned only if significant changes in the forecast occur.

NWS support beyond this weekend being coordinated between NWS Grand Rapids and NWS Detroit. Hand off to NWS Detroit for morning conference call weather forecast likely before the end of January.

**Natural Resources (MDNR)**

MDNR is fully participating in all SEOC activities. Situational awareness is being maintained and the department stands ready to assist as needed.
Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

**Services to the Aging (OSA)**

Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the Genesee County Health Department and MDHHS, has helped organize local meetings and distribute water and water filters. VAAA is an access point for receiving calls from homebound seniors who are not able to pick up water filters or need assistance installing water filters. VAAA reports they continue to receive calls from seniors who need assistance.

Contact info for VAAA Executive Director is:

Kathryn C. Boles
President, CEO
Valley Area Agency on Aging

225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

VAAA has distributed 2 bottles of water with each home delivered meal to each HDM client within the City of Flint. Water. VAAA also provided water to homebound seniors who needed water to prepare food as they had limited support to pick up bottled water. Congregate meal participants also have access to water and filters as needed. Once water filters were installed, VAAA discontinued including water with home delivered meals.

VAAA also contacted the Grandparents Raising Grandchildren program to ensure that they were aware of educational efforts and confirm the program had received water filters to distribute to program participants.

On 1/11/16 AASA forwarded to MSP/GIS over 1,400+ NAPIS addresses of Flint seniors who received in-home services in FY15. The NAPIS file was sent encrypted and did not include client names. The NAPIS file included 1,029 HDM, 138 CM, and 30 CCS clients.

VAAA continues to operate as a call center and referral point for area seniors concerned about their drinking water. They've noticed this week that seniors who've had filters installed are beginning to request bottled water again.

AASA's State LTC Ombudsman has checked in with the local Ombudsman in Flint. Local Ombudsman reports Flint area nursing homes have been taking precautions using bottled water for cooking and drinking. The local Ombudsman remains concern about Nursing Homes' long term need to replace old facility plumbing that may be leaching lead.

**State Police (MSP)**

Teams have been distributing water all day. 3902 homes have been visited today.

The EOC in Flint advised that Genesee County Sheriff Department did not have the resources to provide security for the resource warehouses in the evening. Lt. Pummill was notified at 9:19 a.m. regarding this issue. Lt. Pummill did not believe this would be an issue because the warehouses are fenced in.

10:24 a.m. - Lt. Pummill advised that Sgt. Keith Sparks, MSP Safety Officer is currently evaluating the security at the resource warehouses for this evening.

1:35 p.m. - MSP was asked for the exact number or state agency volunteers that reported today (Saturday 1-16-16) and to also confirm they went out in 10 teams. This information was forwarded to Lt. Pummill at 1:41 p.m.

2:06 p.m. Lt. Pummill advised 62 volunteers were utilized on 11 teams today.

ICS 208 created for 1/17/16-1/18/16 to include updated weather information provided by the National Weather Service.

We have 114 state of Michigan employee volunteers scheduled for Sunday Jan 17th and 125 scheduled for Monday Jan 18th.

**Supreme Court**

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

**Technology, Management and Budget (MDTMB)**

Provided management briefing and information on emergency declaration.

DTMB Mail Services has seven drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Drivers have agreed to work through the end of day Tuesday, January 19.

DTMB assisted in procuring 72 truck loads of water, 8 trucks per day until Wednesday, January 20.
60 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
Provided 450 credentialing badges for volunteers and 4 temporary fuel cards for the MSP officers driving rented U-Haul trucks.
Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits.
Procured 500 rain ponchos for volunteers and a 40 yard dumpster for use at the warehouse.
Providing printing needs for agencies for volunteers to distribute to city residents.

**Transportation (MDOT)**

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

**Incident Related Images**

# Damage Assessment and Emergency Status Report

## Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

### Operational Period

| | |
|---|---|
| **Operational Period Begin:** | 01/13/2016 08:00:00 |
| **Operational Period End:** | 01/15/2016 08:00:00 |
| **Situation Report No.** | 10 |
| **SEOC Status:** | Full |
| **SEOC Hours of Operation Begin:** | 01/15/2016 08:00:00 |
| **SEOC Hours of Operation End:** | 01/15/2016 20:00:00 |

### Executive Summary

SEOC Update:
Accomplished today (January 15):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Provide resources.
- Public Information Control.

- Logistics
o Finishing work to consolidate GCCARD inventory into new warehouse.
o Ordered more filters for teams and PODs.
o Worked to refine triggers for warehouses and establish maximum POD inventory.

- JIC
o Developed talking points about Flint water situation.
o Developed talking points for Legislative and Congressional conference call.
o Developed a news release for dissemination of to date commodities distribution.
o Media monitoring brought up no misinformation.

- Recovery Branch
o Made significant progress today to improve strategy for tomorrow's deployment.
o Working with Wendy to make sure we have supplies for PODs and teams.
o Coordinated tracking numbers with GIS:

TOTAL 1/12/2016 1/13/2016 1/14/2016 1/15/2016
Occupied Homes 2098 242 492 716 648
Vacant Homes 1182 152 181 509 360
Unknown 1600 1145 455
Total Homes 4880 394 653 2370 1463

• 209

• Finance Section.
o Submitted Projected Supplemental to Departmental Services Division to submit to the State Budget Office.
o Continuing to track personnel resources located in the SEOC and local EOC for use in spend plan development.
o Monitoring resource request board for costs incurred by state agencies for inclusion in spend plan.

• GIS Branch Updates.
o Upgrade dashboards to include POD information Deployed tracking app for the PODS.
o Generated route planning map and updated daily field team filter delivery map.
o Updated GIS strategy for weekend work.
o Prepare 30 additional pads for deployment the field
o Provide training for new teams on mobile data collection application.
o Provide household counts for filter distributions Strategy to integrate CSS into GIS team.

DTMB:
• Credentialing badges for Flint Water Resource Team workers have been developed.
• Deployed a dumpster to the Clio Rd warehouse for POD trash collection.
• Equipment for LARA school faucet replacement project will be delivered today.

DHHS-CH
• Working with GIS and CHECC to map individuals that are medically dependent.
• SAMSA is offering to open DBH hotline for Michigan residents.
• CHECC is operating a hotline for local HD through Monday.

DEQ
• 48,000 test kits have been distributed to the community.
• DEQ staff is monitoring the number of samples that have been tested.
• DEQ laboratory will remain open over the holiday weekend to process samples.

Local EOC Update:
• Coordinate supplies for Hot Shot distribution to partners and home bound individuals.
• Began coordination of key agencies regarding analysis of water sampling results and providing interpretable information to affected populations.
• Implemented water sample collection at Fire Station PODs.
• Developed situation report # 5.

## Incident Response/Recovery Priorities/Objectives

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Develop an approved GIS strategy.
8. Maintain coordination between partner agencies and organizations.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

## Emergency Declarations

**Local Declarations**

## Local Damage Summary

**Public Damage Totals**
**Private Damage Totals**
**Damage Assessment Summary**

## Agency Summaries

**Joint Information Center / Public Information Officer**

The Joint Information Center (JIC) was operational in Flint from 8 a.m. to 10 p.m. on Jan. 14. On Jan. 15, the JIC opened at 8 a.m. and anticipates operating until at least 7 p.m.

State agencies at the JIC included the Governor's Office, Departments of Health and Human Services, Agriculture and Rural Development, and Technology and Management and Budget, Natural Resources, Environmental Quality, Licensing and Regulatory Affairs, Military and Veterans Affairs and Michigan State Police. The Genesee County Sheriff's Office was also present.

Tasks accomplished:
- Updated ongoing talking points about Flint water situation.
- Answered more than 10 media inquiries about topics ranging from the Governor's Flint visit to background information on the water response teams.
- Planned a 2 p.m. legislative and congressional conference call, including developing talking points.
- Monitored news media for misinformation and found none. Also monitored social media.
- Started drafting a news release about water response teams and items distributed to date.
- Continued establishing a staffing schedule through the week and into next week. The JIC will be open this weekend and on the Martin Luther King Jr. Day holiday.
- Continued to update www.michigan.gov/flintwater to add new content and make enhancements to the site.
- Created a GovDelivery account for dissemination of JIC news releases and began writing procedures.
- Continued pagination, editing and final approvals of "Lead in Flint Water" MDHHS fact sheet.

**Agriculture and Rural Development (MDARD)**

Friday Jan 15th update: MDARD further developed plans for notification and water sampling at food facilities. 14 Food & Dairy staff will be trained on procedures to collect water samples and will be ready to schedule appointments to collect samples. Food & Dairy will also be contacting the food businesses in the highest impacted areas. Motor Fuel Quality/Weights & Measures will be conducting a blitz next week to personally notify every gas station of the new requirements and refer them to our 800 number to schedule an appointment.

**American Red Cross (ARC)**

The American Red Cross supplied reduced staffing at the fire station POD's today supporting what is now a National Guard

mission.
The assembly of water test kits at ARC headquarters was put off until tomorrow when additional materials will be available.
We deployed and supported 5 teams for neighborhood canvassing (Water Response) in one of the city's quadrants today. We expect to have 10 teams deployed tomorrow.
We supplied coffee to accompany the lunches for GCEOC, JIC and the Water Response Teams. Tomorrow we will provide the lunches for the Water Resource Teams including coffee.
The volunteer reception center (VRC) was in full operation today. 7 event-based volunteers were processed today. The VRC will be in operation daily (including weekends) from 9am to 7pm.
We continued warehouse and inventory management efforts.

**AuxComm**

ARES/RACES/Auxcomm continuing to follow briefings and monitor MI-CIMS. Genesee and D3 leadership being kept abreast of developments.

**Civil Rights (MDCR)**

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC activities.
* Provided MSP-EOC_MDSP public comments regarding force protection issue and user comments regarding filter flow-rates, medical conditions, and thoughts on SEOC efforts; received via colleague in Flint
* Uploaded catalogue of possible home school resource groups, lists and forums provided to MDE for identification of home schoolers
* Coordinated bulk-need for Fight Lead Poisoning with a Healthy Diet from EPA (Eng/Sp) available at http://www.epa.gov/lead/fight-lead-poisoning-healthy-diet. Community Health to coordinate an initial request for 100k copies (75k/25k) for coordinated distribution to Education (schools/daycare/academies), OSA (homebound/meals-on-wheels/VAAA), GCCH, DHHS offices, and area partner community centers.
* Pursued follow up on licensed swimming pool testing

**Community Health (MDCH)**

Coordinated with the Community Health Emergency Coordination Center (CHECC) on activities involving nutritional planning, gathering information on disaster behavioral health, drafting a timeline of Flint Water-related activities, financial tracking, health communications, and hotline activities. The CHECC was also asked to investigate an inquiry received in the SEOC from the LEOC regarding mobile lab operations. The lab was informed of the proper mechanism for integration into the existing structure fro the response through the Local Health Department and the necessary registration and reporting requirements to the Childhood Lead Poisoning Prevention Program (CLPPP). This information was provided to Capt. Kelenske and the JIC.

Due to the LHD being closed for furlough, weekends, and holidays, the CHECC stood-up a hotline this morning and has already received a number of calls from the public. The hotline will be staffed from 8:00 AM - 5:00 PM through the weekend and on Monday, 1/18/16.

Nutritional planning is occurring through multi-agency coordination, facilitated by a lead identified in the CHECC. A new task for this project was assigned today for the development of a distribution strategy of lead and nutrition information materials. JIC approved for the EPA's "Fight Lead Poisoning with a Healthy Diet," pamphlet to be disseminated.

Communications continued with Substance Abuse and Mental Health Services Administration (SAMHSA) regarding the potential resources for Disaster Behavioral Health and the Disaster Distress Helpline.

**Corrections (MDOC)**

Brent Travelbee and Todd Bechler on duty at 1600 hours and attended the State Agency Briefing at the SEOC at 1600 hours on 1/15/2016. We have filled all requests for vehicles, personnel and warehouse equipment to assist with water distribution. MDOC Director Heidi Washington is providing full support to our assistance efforts. We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility.

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner. All MDOC resources will be reporting tomorrow Saturday January 16, 2016 as requested.

MDOC RESOURCES PENDING DEPLOYMENT: Saturday, January 16, 2016

Vehicles with Drivers

(2) – 18' Box Trucks
(3) – 20' Box Trucks
(2) - 24' Box Trucks
(1) - 30' Box Truck (Lift gate broken but truck still on site, DTMB repairing)

Box Trucks have power lift gates

(1) – F250 Pick Up Quad Cab with Cap
(1) – 5 Passenger Handicapped Capable Van

(1) – 15 Passenger Van with 10' Enclosed Trailer
(1) – Pick up Truck with 20' Enclosed Trailer

(4) – 10/15 Passenger Vans

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(4) - Pallet Jacks

(5) 6-10 Passenger Vans

All vehicles drivers have 800 MHz Radio Operability

Staffing

There will be staff members on site drivers and an assistant for the Red Cross Transportation Van (w/trailer).

**Education (MDE)**

MDE has gathered information in coordination with CEPI and LARA on the number of students by location in schools and child care facilities. CEPI has provided staff numbers as well.

MDE is monitoring the situation and coordinating as necessary with other state agencies.

**Environmental Quality (MDEQ)**

The Department of Environmental Quality (DEQ) completed the following activities:
- Direction provided to MDARD for food establishment sample collection.
- Plumbing Investigation Team plan implementation project coordinator identified. Coordination with DLARA plumbing technicians to complete the mission as requested.
- Additional SEOC support staff participated to gain knowledge of ongoing activities and processes.
- Coordination with American Red Cross to establish warehouse space for test kit assembly.
- Water test kit procedures were updated and provided to the Recovery Branch.
- Coordinated laboratory data export for plotting in GIS.
- Calculation of demand and supply needs for test kits and established appropriate thresholds to maintain an adequate supply.

**Human Services (MDHS)**

On the Human Services side, two representatives worked the SEOC during our operation hours of 0800 to 2000 today.

Updated resource requests completed three for water filter devices today.

Participated in numerous briefs and conference calls, related to the response.

Genesee Co. MDHHS staff participated in the Flint Water Resource Teams again today.

Staying in communication with 211, addressing human service concerns and delivery of resources to the elderly and disabled. Review and provide regular 211 updates to SEOC Ops.

Continue to receive updated water filtration devices and assist in replenishment. 30,000 additional filters and replacement cartridges ordered today. Have made budget / finance aware.

Have obtained after hour contact information for MDHHHS budget / finance staff in case of additional procurement needs over the weekend.

CHECC continues to maintain a Level 2 Activation

**Licensing and Regulatory Affairs (LARA)**

LARA Bureau of Construction Codes-Plumbing Division is scheduled to be at Freeman Elementary School on 1/16/16 to install the fixtures outlined in the Freeman pilot program.

LARA is currently working with DEQ to create a schedule for LARA's Plumbing Division to help DEQ with testing of additional schools in the Flint area.

LARA has provided MDE with information in regards to the total amount of children allowed at licensed child care facilities.

**Military and Veterans Affairs (DMVA)**

Last 24 hours:
Establish operations at 6 locations with a total of Soldiers on SAD.

. at Genesee County EOC and JIC
, ıistributed across the 5 PODs.

Next 48 Hours:
Initiated call up of additional Soldiers to reach a total of
Staffing the process of delivering the water door to door.

Obie B. Yordy
MAJ FA, USA

**National Weather Service (NWS)**

Jim Maczko from NWS Grand Rapids will participate in SEOC briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac.

NWS support beyond this weekend being coordinated between NWS Grand Rapids and NWS Detroit. Hand off to NWS Detroit for morning conference call weather forecast before the end of January.

**Natural Resources (MDNR)**

MDNR is fully participating in all SEOC activities. Situational awareness is being maintained and the department stands ready to assist as needed.
Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

**Services to the Aging (OSA)**

Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the Genesee County Health Department and MDHHS, has helped organize local meetings and distribute water and water filters. VAAA is an access point for receiving calls from homebound seniors who are not able to pick up water filters or need assistance installing water filters. VAAA reports they continue to receive calls from seniors who need assistance.

Contact info for VAAA Executive Director is:

Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

VAAA has distributed 2 bottles of water with each home delivered meal to each HDM client within the City of Flint. Water. VAAA also provided water to homebound seniors who needed water to prepare food as they had limited support to pick up bottled water. Congregate meal participants also have access to water and filters as needed. Once water filters were installed, VAAA discontinued including water with home delivered meals.

VAAA also contacted the Grandparents Raising Grandchildren program to ensure that they were aware of educational efforts and confirm the program had received water filters to distribute to program participants.

On 1/11/16 AASA forwarded to MSP/GIS over 1,400+ NAPIS addresses of Flint seniors who received in-home services in FY15. The NAPIS file was sent encrypted and did not include client names. The NAPIS file included 1,029 HDM, 138 CM, and 30 CCS clients.

VAAA continues to operate as a call center and referral point for area seniors concerned about their drinking water. They've noticed this week that seniors who've had filters installed are beginning to request bottled water again.

AASA's State LTC Ombudsman has checked in with the local Ombudsman in Flint. Local Ombudsman reports Flint area nursing homes have been taking precautions using bottled water for cooking and drinking. The local Ombudsman remains concern about Nursing Homes' long term need to replace old facility plumbing that may be leaching lead.

**State Police (MSP)**

Teams have been distributing water all day. 3226 homes have been visited today.

4 Gas cards provided by DTMB for rental vehicles being used in Water Response Teams. The cards are being delivered to F/Lt. Kish or Lt. Dehner by DEQ.

Worked with DTMB to restore iPads as they went down due to a software issue. This was being resolved by DTMB.

DTMB provided credit card information for the Survey Monkey tool so reports could be collected with all pertinent information. Instructions were drafted for IOD personnel to access Survey Monkey and obtain volunteer information.

ICS 208 created for 1/16/16-1/9/16 to include updated weather information provided by the National Weather Service.

We worked with the American Red Cross regarding the logistics for the Water Response Teams and distribution of water, filters, and test kits. The plan was discussed with the Local Water Response Team commander at 1700 and the operational plan was distributed to the commander at that time. The plan will be implemented over the weekend to try to streamline the actions of the Water Response Teams.

We have 70 state of Michigan employee volunteers scheduled for Saturday.

**Supreme Court**

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

**Technology, Management and Budget (MDTMB)**

Provided management with morning and afternoon briefing updates.

DTMB Mail Services has six drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Drivers have agreed to work through the end of day Tuesday, January 19.

DTMB assisted in procuring 72 truck loads of water, 8 trucks per day until Wednesday, January 20.

60 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
Provided 300 credentialing badges for volunteers and 4 temporary fuel cards for the MSP officers driving rented U-Haul trucks.
Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits.
Procured 500 rain ponchos for volunteers and a 40 yard dumpster for use at the warehouse.
Providing printing needs for agencies for volunteers to distribute to city residents.

**Transportation (MDOT)**

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

**Incident Related Images**

# Damage Assessment and Emergency Status Report

## Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

### Operational Period

| | |
|---|---|
| **Operational Period Begin:** | 01/13/2016 08:00:00 |
| **Operational Period End:** | 01/15/2016 08:00:00 |
| **Situation Report No.** | 9 |
| **SEOC Status:** | Full |
| **SEOC Hours of Operation Begin:** | 01/14/2016 08:00:00 |
| **SEOC Hours of Operation End:** | 01/14/2016 20:00:00 |

### Executive Summary

SEOC Update:
Accomplished today (January 14):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Provide resources.
- Public Information Control.

- Logistics
o Fielded numerous donations and are volunteer calls today.
o American Red Cross logistics specialist is helping to establish a distribution operations plan for the SEOC.
o Secured 80,000 sq. ft. warehouse today, working to consolidate into a single warehouse.

- JIC
o Email being sent to state employees to request volunteers for weekend.
o Media monitoring showed no incorrect information today.
o Michigan Association of Broadcasters is sending PSA to radio stations.
o Media availability at the Saginaw Armory went well today.

- Recovery Branch
o Coordinating with Red Cross on volunteers for weekend.
o Coordinating with MSP to finalize details for tomorrow's canvassing.
o Coordinated tracking numbers with GIS:
TOTAL 1/12/2016 1/13/2016 1/14/2016
Occupied Homes 1450 242 492 716
Vacant Homes 1967 152 161 1654
Total Homes 3417 394 653 2370
Resources
Door Hangars 1487 217 453 817
Water 588 117 254 217
Filters 945 112 220 613
Pitchers 22 3 13 6
Water test kits 217 48 109 60
Replacement Filter 482 137 345
Total Resources Dispersed 3741
Future sample test site 114 28 34 52

- Planning Section
o Working further on resource plan to ensure tracking is accurate.
o Working to develop IAP for approval today.
o Developed and published Situation Report #9.
o Working to put smart devices in PODs to live track resources.

- Operations Section
o Fire stations up and running today and providing resources to the citizens.
o Reporting of supplies and numbers of those teams.
o Deployed 8 teams in the field today (approx. 120 volunteers).
o 78 Red Cross volunteers active across operation today.
o National Guard ramping up to have soldiers per shift at each POD tomorrow.
o National Guard will also have a PAO at the JIC and LNO at the local EOC.
o Senator Ananich visited the SEOC today to see how things operate.

o GCCARD Warehouse Numbers:
- Replacement Cartridges
- 44,018
  Filters (faucet).
- 21,284
  Filters (pitcher).
- 104
  Water (cases).
- 432

- Finance Section.
o Continuing to track personnel resources located in the SEOC and local EOC for use in spend plan development.
o Gather related costs to date to build projection to submit to SBO.
o Met with Departmental Service Division (DSD) to discuss Projected Supplemental.
o Monitoring resource request board for costs incurred by state agencies for inclusion in spend plan.

- GIS Branch Updates.
o Conducted IPad Collector App training in Flint and assisted with technology needs.
o Completed map of active LHD license establishments/restaurants map for MDARD.
o Completed a map of the water pipes with an overlay of points received from Brad Deacon for MDARD.
o Continued to develop the IPad Collector process for use in Points of Distribution (PODS) in addition to Flint Water ReponseTeams.
o Built Operational Dashboards for use with real time data feeds from the IPad data collector.
o Continued to work with ESRI Disaster Response Program consultant on technical GIS issues and improving GIS processes.

DTMB:
- Reserved 4 U-Haul trucks for January 14 – January 23, for canvassing teams.
- Coordinated with Home Depot to get resources sent to new warehouse.

*DHHS-CH*
- The Community Health Emergency Coordination Center (CHECC) is working on a nutrition plan.
o They are working on education materials, messaging, and working with local agencies.
- Working on developing a community assessment for disaster behavioral health services.

DEQ
- Seeing few samples coming into the city hall location. Working to identify a better collection/repository location for sample drop-off.
- Working to staff 8 scientific testing teams for sample collection and testing.

Local EOC Update:
- Coordinated volunteer management plan with ARC and SEOC.
- Initiated evaluation of fire stations as additional test kit/sample collection points.
- Coordinated test kit assembly and delivery.
- Reviewed American Red Cross logistics draft plan.
- Developed local EOC situation report #4.

## Incident Response/Recovery Priorities/Objectives

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Develop an approved GIS strategy.
8. Maintain coordination between partner agencies and organizations.
9. Enhance situational awareness and common operating picture of all activities.
*10. Develop a comprehensive Recovery Plan.*

## Agency Summaries

***Joint Information Center / Public Information Officer***

The Joint Information Center (JIC) was operational in Flint from 8 a.m. to 11 p.m. on Jan. 13. On Jan. 14, the JIC opened at 8 a.m. and anticipates operating until 9 p.m.

*State agencies at the JIC included the Governor's Office, Departments of Health and Human Services, Agriculture and Rural* Development, and Technology and Management and Budget, Natural Resources, Environmental Quality, Licensing and Regulatory Affairs and Michigan State Police. The Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:
- Issued a media advisory at 8 a.m. about the Michigan National Guard Mobilization media event that occurred at 1 p.m. in Saginaw. Twelve news outlets attended.
- Updated ongoing talking points about Flint water situation.
- Monitored news media for misinformation and found none.
- Started drafting a news release in anticipation of the request for a presidential declaration.
- Michigan Association of Broadcasters disseminated radio public service announcements to stations.
- Established a staffing schedule through the week and continued arranging staffing into next week. The JIC will be open this weekend and on the Martin Luther King Jr. Day holiday.
- Continued to update www.michigan.gov/flintwater to add new content and make enhancements to the site. Design improvements will continue tomorrow.
- Reviewed and approved MDARD food establishment fact sheet. Documents from MDE, MSHDA, and MDHHS have been reviewed and are pending edits.
- Drafted state employee volunteer solicitation email.

**Agriculture and Rural Development (MDARD)**

Jan 14th update - 4pm: Revised notice for use of water in food businesses was approved and has been sent by US Mail today to facilities licensed by MDARD and by Genesee Co. Health Department, except for the schools that MI Dept. of Education has already contacted. MDARD has identified food facilities in the most impacted areas and will be visiting those facilities first next week.

**American Red Cross (ARC)**

The American Red Cross staffed the points of distribution (POD) at the 5 fire stations today. Tomorrow we will be assigning fewer *volunteers to these PODs as additional National Guard soldiers are deployed.*
The assembly of water test kits continued, today at ARC headquarters.
We were able to meet a last minute request to supply coffee to accompany the lunches for GCEOC, JIC and the Water Response Teams. This will be repeated tomorrow.
The volunteer reception center (VRC) was in full operation today. It will be in operation daily (including weekends) from 9am to 7pm.

**Civil Rights (MDCR)**

Continue to review activities to provide support and assistance to assigned *Human Services branch and other SEOC activities.* Review of last posted sit-report disclosed local discussion regarding outreach and supply/need assessment for at-risk immigrant communities, stand-up of the Volunteer Reception Center, SOM Employee volunteer communiqué, and MDE healthy diet informational handout. ONA working on additional translation. Relayed MDCR engagement in Flint scheduled for 15 Jan to JIC as part of Voluntary Service Animal Registration roll-out.

**Community Health (MDCH)**

Communications between the JIC and the CHECC have been maintained throughout this operational period for information sharing and progress reports on tactics identified in the form 204. MDHHS reviewed and commented on the letter that will be submitted to FEMA for a presidential declaration.

Assistance was provided for a special needs individual to receive additional water in collaboration with the local EOC.

A resource document was provided to the CHECC lead for the nutrition plan. The document contains multi-agency resources to be considered for inclusion in the plan.

The CHECC will be open and staffed over the week end and the holiday and will be covering the GCHD hotline.

**Corrections (MDOC)**

Brent Travelbee and Mike Farmer reported for duty at 0630 hours and attended the State Agency Briefing at the SEOC at 0930 hours on 1/14/2016. We have filled all requests for vehicles, personnel and warehouse equipment to assist with water distribution. MDOC Director Heidi Washington is providing full support to our assistance efforts. We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility.

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner.

Today we had staff and 15 vehicles dedicated (on site) to the response, additionally we have 4 pallet jacks, one refrigerated semi-trailer and MDOC staff assigned to the SEOC location.

Information is as follows:

(6) Large Box trucks

(5) 15 passenger vans

(2) Pick-up trucks

(2) enclosed trailers

(1)Handicap Van

(1)20 passenger Van

**Education (MDE)**

MDE is distributing nutrition guidelines for "Help Fight Lead Poisoning with a Healthy Diet" handout. Additional MDE staff trained for SEOC. (1/11)

MDE is monitoring the situation and coordinating as necessary with other state agencies.

Kyle Guerrant, Deputy Superintendent, was on-site at the SEOC; January 10, 0915-1425.

**Environmental Quality (MDEQ)**

The Department of Environmental Quality (DEQ) completed the following activities:
- 21,600 testing bottles were ordered today to provide for water test kit supply
- NSF certification for various filters were verified
- Coordination with LARA for laboratory analysis assistance
- Additional DEQ staff scheduled to support local activities
- Production of a water test sampling video for public guidance
- School testing schedule established for the weekend to include the Freeman Elementary Project

**Human Services (MDHS)**

On the Human Services side, two representatives worked the SEOC during our operation hours of 0800 to 2000 today.

Updated resource requests with water filtration products delivered today.

Participated in numerous briefs and conference calls, related to the response.

Genesee Co. MDHHS staff participated in the Flint Water Resource Teams again today. Genesee MDHHS staff have been identified for Friday.

Staying in communication with 211, addressing human service concerns and delivery of resources to the elderly and disabled. Review and provide regular 211 updates to SEOC Ops.

We now has access to master filter address list and can get live numbers. This is the database that the local health department is maintaining and where all addresses are forwarded to. Shared this database with SEOC GIS

MDHHS coordinated water deliveries, which is the 93 pallets from South Carolina reported last Sunday, is as follows. Three semis were in Flint yesterday 1/13. The last two semis will be here Friday 1/15. This will conclude all water deliveries coordinated by MDHHS. Understanding DTMB is lead and will just assist through them.

CHECC continues to maintain a Level 2 Activation

**Licensing and Regulatory Affairs (LARA)**

LARA Bureau of Community and Health Services is in contact with licensed facilities to ensure they are receiving appropriate assistance if needed. LARA Bureau of Community and Health Services has provided preliminary information regarding assistance received and/or needed to licensed facilities. LARA is continuing to receive information on the facilities to determine the appropriate actions needed.

**Military and Veterans Affairs (DMVA)**

The MIANG will have Soldiers at each POD Friday 15JAN16 to assume the mission of distributing water to the citizens of Flint. Red Cross volunteers will remain through Sunday.

**National Weather Service (NWS)**

Jim Maczko from NWS Grand Rapids will participate in SEOC briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac.

NWS support beyond this weekend being coordinated between NWS Grand Rapids and NWS Detroit. Hand off to NWS Detroit for morning conference call weather forecast before the end of January.

**Natural Resources (MDNR)**

MDNR is fully participating in all SEOC activities. Situational awareness is being maintained and the department stands ready to assist as needed.
Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

**Services to the Aging (OSA)**

Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the Genesee County Health Department and MDHHS, has helped organize local meetings and distribute water and water filters. VAAA is an access point for receiving calls from homebound seniors who are not able to pick up water filters or need assistance installing water filters. VAAA reports they continue to receive calls from seniors who need assistance.

VAAA continues to operate as a call center and referral point for area seniors concerned about their drinking water. They've noticed this week that seniors who've had filters installed are beginning to request bottled water again.

AASA's State LTC Ombudsman has checked in with the local Ombudsman in Flint. Local Ombudsman reports Flint area nursing homes have been taking precautions using bottled water for cooking and drinking. The local Ombudsman remains concern about Nursing Homes' long term need to replace old facility plumbing that may be leaching lead.

**State Police (MSP)**

Teams have been distributing water all day. 2370 homes have been visited today.

State Director requested MSP PIO attend the media briefing in Saginaw being held by the National Guard. The JIC was contacted and are following up on this as well as contacting F/Lt. Kaiser.

A request came to the MSP for 20 XTS 5000 radio batteries and 5 charging stations. This request was filled by the MSP Communications Section and the batteries and charging stations are on scene.

A request for MSP to coordinate and manage the Water Response Teams in Flint was assigned to MSP FSB. Mission objectives were disseminated to Capt. Kapp and F/Lt. Kish has been identified as the Water Response Team Commander for 1/14/16. Lt. Dehner will be the safety officer for 1/14/16.

MSP has been working with MDOC to obtain a list of parole agents that will be reporting to assist with the Water Response Teams on Thursday and Friday. Additionally, MDOC is providing a list of all vehicles being sent to assist with the incident.

A letter was drafted by the JIC to disseminate to state agencies soliciting volunteers for the upcoming weekend to include the holiday. The letter included all pertinent information needed as well as a link for the employee and their family to register (via Survey Monkey).

A request was made for MRP information, this was gathered and provided to the SEOC Operations Branch Chief.

The MSP Flint Water Response Team volunteer list was provided by Insp. Marier and has been posted in the resource request. Additionally this list was sent to MSP SEOC Operations.

The State Director requested the Water Response Team Commander to provide daily bullets reference the operational mission. This objective was provided in the resource request to MSP FSB.

Worked with American Red Cross on the pipeline process for incident. This included all operations and processes as it pertains to the Water Response Teams. Discussions were held with the Water Response Commander, EOC Operations Group Chief, the Safety Officer, MSP SEOC staff, the Recovery Group, DHHS, and American Red Cross.

Per Lt. Dehner, they need a total of 4, 18 foot DOC trucks with drivers for resupply mission reporting to Local EOC at 0800 on Fri, Sat, Sun, Mon. Will reassess needs for continuation beyond Monday on Monday. This has been communicated to DOC. The 8, 16 foot U Haul trucks currently deployed in addition to the DOC trucks are sufficient for deployment by the Water Response Teams.

A request was submitted to logistics for $26 to purchase a 1 month subscription to Survey Monkey so that we can pull the list of respondents to the weekend volunteer survey in an Excel spreadsheet.

**Supreme Court**

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

**Technology, Management and Budget (MDTMB)**

Provided management with an update.

DTMB Mail Services has seven drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Drivers have agreed to work through the end of day Tuesday, January 19.

Eight trucks carrying 12,768 cases of water were delivered Thursday, along with two trucks carrying 117,000 water filters and 39,000 faucet mounts. Deliveries of eight trucks will continue through Wednesday, January 20.

30 tablets were provided to the Flint Water Response Teams this morning to record supplies being delivered in the field. Working on resource request for volunteer credentialing and temporary fuel cards for the MSP officers driving rented U-Haul trucks.

Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits.

Assisting agencies in printing needs to water related material.

**Transportation (MDOT)**

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

**Incident Related Images**

# Damage Assessment and Emergency Status Report

## Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

### Operational Period

| | |
|---|---|
| **Operational Period Begin:** | 01/13/2016 08:00:00 |
| **Operational Period End:** | 01/15/2016 08:00:00 |
| **Situation Report No.** | 8 |
| **SEOC Status:** | Full |
| **SEOC Hours of Operation Begin:** | 01/13/2016 08:00:00 |
| **SEOC Hours of Operation End:** | 01/13/2016 20:00:00 |

### Executive Summary

SEOC Update:
Accomplished today (January 13):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Provide resources.
- Public Information Control.

- Logistics
o Working with DTMB and MDOC to secure vehicles and/or trailers for door-to-door campaign beginning Thursday morning.
o Work with MSP Ops Chief to build a mission ready package for a volunteer team in the case other cities offer volunteer assistance for door-to-door.
o Work with DTMB to secure 80,000 square foot warehouse to store water resource supplies.

- JIC
o PIO from 2-1-1 and Genesee County Sheriff's office were in JIC today.
o We held a media avail at Fire Station #3 and the event was well attended by media.
o Managed and corrected misinformation from media about National Guard Presence.
o City buses adding water resource centers to route.

- Recovery Branch
o Coordinating with Red Cross on volunteers for weekend
o Ordered 15 passenger vans to transport teams 1/14-1/15
o Contacted Comcast to coordinate volunteer opportunities- awaiting response of number of potential volunteers.
o Coordinated trucks and drivers with Corrections to deploy on 1/14-1/15
o Coordinated tracking numbers with GIS:
Overall Numbers: 1/12 1/13
Occupied Homes 533 291
Vacant Homes 238 86
Total Homes 771 377
Resources
Door Hangars 473 256
Water 265 148
Filters 235 123
Pitchers 9 6
Water test kits 92 44
Replacement Filter 93 93
Total Resources Dispersed 1167
Future sample test site 62 34

- Planning Section
o Developed real time tracking system for local resources.
o Working with GIS to include local POD numbers in live GIS distribution map.
o Developed and published Situation Report #8.

- Operations Section
o Fire stations up and running today and providing resources to the citizens.
o Coordinated trucks and drivers with Corrections to deploy on 1/14-1/15.
o SEOC chiefs along with American Red Cross Logistics liaison deployed to local EOC and warehouse to further develop distribution plan and coordination between all entities.
o Daily Numbers:
Replacement Cartridges.
- 30,700 delivered.
Water (cases).
- 19,152 cases delivered.

- Finance Section.
o Gather related costs to date to build projection to submit to SBO.

- GIS Branch Updates.
- Map products have been updated with new information. Created a franchise water customer map for MDARD.

• Continued with mapping of lead service line locations, 20% completed at this time.
• Upgraded ArcGIS Online Collector App to field teams and tracked resources and site visits and procured 30 additional tablets for tomorrows field teams.
• Updating EOC dashboards to track more detailed metrics and track team locations.
• Implementing a POD tracker for tomorrow that can be used to monitor distributions in real time.
Current focus is optimizing the dashboards to include triggers that notify staff when inventory limits are exceeded to better manage the ordering process for new supplies.

DTMB:
• Secured warehouse today for storage of bulk supplies.
• Secured 30 tablets for field data entry.

DHHS-CH
• The Community Health Emergency Coordination Center (CHECC) is working on a nutrition plan.
o They are working with local, regional, and state agencies.
o Looking at short term and long term benefits.
• Working with local health department to provide additional support.
• Working on developing a community assessment for disaster behavioral health services.

DEQ
• Additional staff reported to the GCCARD today to supervise assembly of the water testing kits.
• Field observer working to get inventory of kits returning.

Local EOC Update:
• Evaluation of need to engage further public health/medical professionals.
• Continuing to identify appropriate agencies that need to be represented in EOC, and discuss strategies to engage them.
• Addressed lack of distribution of supplies to undocumented populations.
• Worked to enhance coordination of financial control to educate county finance staff.
• Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
• Secured adequate warehouse space for incoming supplies.

## Local Damage Summary

**Public Damage Totals**

**Private Damage Totals**

**Damage Assessment Summary**

## Agency Summaries

### Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was operational in Flint from 8 a.m. to 5 p.m. on Jan. 12. State agencies at the JIC included the Governor's Office, Health and Human Services, Michigan Department of Agriculture and Rural Development, and Department of Technology and Management and Budget, Natural Resources, and Michigan State Police.

Tasks accomplished during the operational period included:
- Held an 8:15 a.m. media event where media members had an opportunity to get footage and photos of the water resource teams as they go door-to-door to distribute free bottled water, water filters, water filter replacement cartridges and water testing kits to residents throughout Flint. A photographer/videographer was embedded with the team.
- Collaborated on a Governor's news release about a Public Service Announcement featuring Capt. Chris Kelenske from the Michigan State Police. The PSA provided information about the resources currently available for free to all Flint residents, including water filters, replacement filters, bottled water, water testing kits, and blood testing.
- Issued Web and social media content about the water resource teams.
- Reached out to local and nonprofit PIOs to become active participants in the JIC.
- Finalized MDARD letter and fact sheets to food establishments.
- Sent water filtration video to Comcast. Working to get a Dish Network contact.
- Arranged for an interview with the New York Times, including directors from DEQ and MDHHS.
- Began preparing a news release to include numbers, including teams, sites, local and American Red Cross.
- Monitored traditional and social media.
- Received 17 calls from the news media on the JIC media hotline.
- Expanded JIC staffing and roles.
- Confirmed digital billboard to encourage residents to call 211 for water resources and information.

### Agriculture and Rural Development (MDARD)

Jan 13th - 1/13/16 - MDARD Activities: Food Safety: The updated guidance document for water in retail food and restaurants/food service is done and is going out via US Mail, and attached here. MDARD Food staff will start scheduling water sampling and inspections for next week. Verified that the warehouses storing water do not need MDARD Food Licenses.

MDARD's Agriculture Development Division provided background on historical grants to the Flint Farmers' Market and Food Bank of Eastern Michigan and will be contacting those organizations to ask about barriers and potential opportunities to help strengthen the food system.

### American Red Cross (ARC)

The American Red Cross staffed the points of distribution (POD) at the 5 fire stations today, and will do so again tomorrow.
The assembly of water test kits continued, today we moved the operation from G-CARD to ARC headquarters.
Although the acquisition of warehouse space has been an issue, delivery trucks have been off-loaded throughout the day.
The ARC did stand up a volunteer reception center (VRC) today. It will be in operation daily (including weekends) from 9am to 7pm.

### Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC activities.
Conducted background on swimming pool water/licensing and researched best practices in community engagement.

### Community Health (MDCH)

Communications have been maintained between the CHECC and the SEOC throughout this operational period. MDHHS, MDE, LARA and MDARD have collaborated on the beginnings of a nutritional plan that includes educational components, consistent messaging across agencies, short term and longer term goals to address the "food desert" that exists in Flint. Information obtained was provided to the CHECC and a lead has been assigned to further develop this multi agency the nutritional plan .

The CHECC began to assess needs and resources to address disaster behavioral health needs for citizens and responders associated with this response. Contact was initiated with the Substance Abuse and Mental Health Services Administration Disaster Technical Assistance team. Discussed disaster behavioral health resources with FEMA V Disaster Recovery Coordinator.

CHECC Continued communication with LHD EPC to determine additional support that may be required.

The CHECC continues to track responses to volunteer availability through the MI Volunteer Registry.

### Corrections (MDOC)

Brent Travelbee and Mike Farmer reported to the SEOC at 0750 hours on 1/13/2016. We have filled all requests for vehicles, personnel and warehouse equipment to assist with water distribution. MDOC Director Heidi Washington is providing full support to our assistance efforts. We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility.

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner.

Currently we have staff and 18 vehicles dedicated (on site) to the response for Thursday, January 14, 2016, additionally we have 4 pallet jacks, one refrigerated semi-trailer and two MDOC staff assigned to the SEOC location.

Information is as follows:

(4) Large Box trucks

(4) 15 passenger vans

(4) Ford F-250 trucks

(3) enclosed trailers

(1)Handicap Van

(1)20 passenger Van

The MDOC continues to monitor the situation and its affect on our staff as well as our clients in the community.

**Education (MDE)**

MDE is distributing nutrition guidelines for "Help Fight Lead Poisoning with a Healthy Diet" handout. Additional MDE staff trained for SEOC. (1/11)

MDE is monitoring the situation and coordinating as necessary with other state agencies.

Kyle Guerrant, Deputy Superintendent, was on-site at the SEOC; January 10, 0915-1425.

**Environmental Quality (MDEQ)**

The Department of Environmental Quality (DEQ) completed the following activities:
- DEQ staff deployment as a field observer to assist in tracking water kit supplies and samples
- Coordination of DEQ and LARA personnel for Freeman School Faucet Replacement plan and school testing over the weekend

**Human Services (MDHS)**

On the Human Services side, two representatives worked the SEOC during our operation hours of 0800 to 2000 today.

Updated resource requests with water filtration products delivered today.

Participated in numerous briefs and conference calls, related to the response.

Genesee Co. MDHHS staff participated in the Flint Water Resource Teams again today. Genesee MDHHS staff have been identified for Thursday, and Friday.

Staying in communication with 211, addressing human service concerns and delivery of resources to the elderly and disabled. Review and provide regular 211 updates to SEOC Ops.

CHECC continues to maintain a Level 2 Activation

**Licensing and Regulatory Affairs (LARA)**

LARA has offered to assist with lab testing utilizing the MIOSHA Lab and Scientists as appropriate in coordination with DEQ. We have 3 scientists and the lab manage available. LARA staff are also available for assisting with collection of testing materials or as needed..

LARA Bureau of Community and Health Services is in contact with licensed facilities to ensure they are receiving appropriate assistance if needed. The Center for Medicaid and Medicare Services has contacted us regarding any potential issues.

**National Weather Service (NWS)**

Jim Maczko from NWS Grand Rapids will participate in SEOC briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac.

**Natural Resources (MDNR)**

MDNR is fully participating in all SEOC activities. Situational awareness is being maintained and the department stands ready to assist as needed.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

**Services to the Aging (OSA)**

Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the Genesee County Health Department and MDHHS, has helped organize local meetings and distribute water and water filters. VAAA is an access point for receiving calls from homebound seniors who are not able to pick up water filters or need assistance installing water filters. VAAA reports they continue to receive calls from seniors who need assistance.

Contact info for VAAA Executive Director is:

Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 *fax*

VAAA has distributed 2 bottles of water with each home delivered meal to each HDM client within the City of Flint. Water. VAAA also provided water to homebound seniors who needed water to prepare food as they had limited support to pick up bottled water. Congregate meal participants also have access to water and filters as needed. Once water filters were installed, VAAA discontinued including water with home delivered meals.

VAAA also contacted the Grandparents Raising Grandchildren program to ensure that they were aware of educational efforts and confirm the program had received water filters to distribute to program participants.

On 1/11/16 AASA forwarded to MSP/GIS over 1,400+ NAPIS addresses of Flint seniors who received in-home services in FY15. The NAPIS file was sent encrypted and did not include client names. The NAPIS file included 1,029 HDM, 138 CM, and 30 CCS clients.

VAAA continues to operate as a call center and referral point for area seniors concerned about their drinking water. They've noticed this week that seniors who've had filters installed are beginning to request bottled water again.

AASA's State LTC Ombudsman has checked in with the local Ombudsman in Flint. Local Ombudsman reports Flint area nursing homes have been taking precautions using bottled water for cooking and drinking. The local Ombudsman remains concern about Nursing Homes' long term need to replace old facility plumbing that may be leaching lead.

**State Police (MSP)**

Teams have been distributing water all day. 771 homes have been visited as of the end of this operational period.

Logistically, we can support teams consisting of MSP volunteers beginning on Thursday, 1/14. We will fold these personnel into multi agency teams with local volunteers, other state agencies, the county, etc.

To run this operation, we will need a minimum of enlisted uniform troopers and sergeants (to lead the teams) in marked vehicles, plus any need command and control staff.

Muster location is the Local EOC, 1101 Beach St., Flint. Parking is Available at the Trinity Church, located at the intersection of Beach and 8th St. Operational period is 0900-1600 on Thursday and Friday. (with 0800-0900 and 1600-1700 being travel to and from)

**Supreme Court**

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

**Technology, Management and Budget (MDTMB)**

DTMB Mail Services has seven drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams.

DTMB Real Estate assisted in procuring 80,000 feet of warehouse space and writing the rental agreement.

Eight trucks carrying 12,768 cases of water will be delivered Thursday, along with two trucks carrying 117,000 water filters and 39,000 faucet mounts.

Filled resource request for 20 tablets to send out with the Flint Water Response Teams to record supplies being delivered in the field.

|---|---|
| **Operational Period Begin:** | 01/13/2016 08:00:00 |
| **Operational Period End:** | 01/15/2016 08:00:00 |
| **Situation Report No.** | 7 |
| **SEOC Status:** | Full |
| **SEOC Hours of Operation Begin:** | 01/12/2016 08:00:00 |
| **SEOC Hours of Operation End:** | 01/12/2016 20:00:00 |

### Executive Summary

SEOC Update:
Accomplished today (January 12):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Provide resources.
- Public Information Control.

- Logistics
o Worked on maintaining supplies and track resources at each of the local PODs.
o Worked to establish a Red Cross warehousing team to assist at two new warehouse locations.
o 50,000 sq. ft. warehouse facility established and will begin accepting resources Wednesday January 13, 2016.
o Working with DTMB to locate vehicles needed for Water Resource Canvassing on Thursday, January 14, 2016.

- JIC
o Media was imbedded with a canvassing team today.
o Media coverage on the canvassing was very positive.
o Approved a MDARD fact sheet for distribution.
o The Governor's office has pushed out a video PSA lead by Capt. Chris Kelenske.

- Recovery Branch
o Working with MSP SEMC to expand door to door teams this week. Expanded canvassing scheduled for Thursday January 14, 2016.
o Canvassing today was successful and put 4 teams of 6 in the field.
o Totals resources distributed in canvassing operation for 1/12/16:
  217 Door hangars.
  117 Water (cases).
  112 Faucet filters.
  3 Pitchers.
  48 Water test kits.

- Planning Section
o Developed real time tracking system for local resources.
o Working with GIS to include local POD numbers in live GIS distribution map.
o Completed IAP for the next operational period and the Situation Report for daily activities.

- Operations Section
o Fire stations up and running today and providing resources to the citizens.
o Water resources have been scheduled to fill the designated warehouses.
o Filter resources have been procured and will be delivered over the week to fill the warehouse.
o Second warehouse 100,000 sq. ft. has been procured.
o American Red Cross warehouse management team on site at GCCARD.
o Daily Numbers:
  Filters.
- 2,000 delivered.
- 64,700 ordered.
  Replacement Cartridges.
- 10,400 delivered.
- 184,300 ordered.
  Water (cases).
- 7,824 delivered.
- 19,152 ordered.
  Test Kits.
- 6,601 kits delivered.
- 1,000 ordered.
- Finance Section.
o Continuing to monitor SEOC staffing and costs incurred on a daily basis.
o Develop projection of anticipated costs for response and short-term recovery.

- GIS Branch Updates.
o Today we began migrating content to ArcGIS Online to streamline resource management operations.
o Deployed ArcGIS Online Collector App to field teams and tracked resources and site visits. Building a similar tracker for PODs to track the status of resources distributed.

o We continued to work on updating old mapping products to include newer infrastructure. Lead analysis is ongoing and is at 10% of the city lines.
o We have coordinated with local partners to develop a draft map of lead service lines to prioritize resources deployment. Finalized map will be developed by U of M Flint in mid-February.

DTMB:
• Procured additional filters/cartridges to maintain field supply and build supply in warehouse.
• DTMB real estate is finalizing lease of 100,000 sq. ft warehouse for supplies.
• Incoming supplies by end of week.
o 39,500 faucet filters.
o 41,600 replacement filters.

DHHS-CH
• The Community Health Emergency Coordination Center (CHECC) has officially elevated its level of activation to "Level 2 - Partial Activation." Currently the CHECC is staffed with BETP leadership and Section Chiefs only. SMEs will be brought in as necessary.
• Coordinating with MDE and MDARD on nutritional planning communications.
• Coordinating with the CHECC to determine status of Environmental Testing and Consulting Lead Investigator(s) request.
DEQ
• 10,000 additional water testing kits have been ordered.
• Arranged for DEQ staff to deploy to GCCARD to supervise water kit assembly.
• Arranged for DEQ staff to deploy as a field observer to assist in tracking water kit supplies and samples.

Local EOC Update:
• Requested Red Cross warehouse teams for both warehouses.
• Working to establish a warehouse for local resource storage.
• Worked with SEOC to better track resource distribution and levels.
• Secured assistance for inventory management at GCCARD warehouse.
• 2-1-1 is rerouting calls for homebound seniors to Sheriff's office, resulting in approximately 100 home deliveries.
• Red Cross warehouse team on site at GCCARD today.

## Incident Response/Recovery Priorities/Objectives

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Develop an approved GIS strategy.
8. Maintain coordination between partner agencies and organizations.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

**Upcoming Forecast**

Forecast Update for Flint, MI Area: Posted 1030 am January 12, 2016

• Snow and blowing snow to continue off and on into Wednesday night (January 13). Hazardous travel expected at times.
• Very cold through Wednesday night (January 13). The cold could limit ability to remove ice from road surfaces.
• Time to frostbite from exposed skin will be 15 to 30 minutes through Wednesday (January 13)
• Bottled water stored outside or not in temperature controlled locations will freeze due to temperatures well below freezing through the week

Through Tuesday Night (Jan 12)
• Snow and blowing snow will create hazardous driving conditions in very low visibility and icy road surfaces. Up to an additional 2 inches of accumulation possible in the Flint area. Could see long periods without snow, or a long period of continuous snow.
• Snow will blow back on to treated roads. Rapid changes in visibility and road conditions are likely. This type of weather is typical of the weather that occurs when Michigan has some road closures and larger multi-car accidents.

Wednesday through Wednesday night (January 13)
• On and off snow showers. Less snow expected than Tuesday. Could see an additional inch of accumulation. Gusty winds continue through Wednesday evening. Very cold air will remain in the area.

Thursday (January 14) through Saturday (January 16):
• Slight warming of temperatures to near 30 degrees during the day. Temperatures in the teens still expected at night. Off and on snow showers to continue into the weekend. Best chance for additional accumulating snow looks to be Friday afternoon (January 15) through Saturday night (January 16).

## Agency Summaries

### Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was operational in Flint from 8 a.m. to 5 p.m. on Jan. 12. State agencies at the JIC included the Governor's Office, Health and Human Services, Michigan Department of Agriculture and Rural Development, and Department of Technology and Management and Budget, Natural Resources, and Michigan State Police.

Tasks accomplished during the operational period included:
- Held an 8:15 a.m. media event where media members had an opportunity to get footage and photos of the water resource teams as they go door-to-door to distribute free bottled water, water filters, water filter replacement cartridges and water testing kits to residents throughout Flint. A photographer/videographer was embedded with the team.
- Collaborated on a Governor's news release about a Public Service Announcement featuring Capt. Chris Kelenske from the Michigan State Police. The PSA provided information about the resources currently available for free to all Flint residents, including water filters, replacement filters, bottled water, water testing kits, and blood testing.
- Issued Web and social media content about the water resource teams.
- Reached out to local and nonprofit PIOs to become active participants in the JIC.
- Finalized MDARD letter and fact sheets to food establishments.
- Sent water filtration video to Comcast. Working to get a Dish Network contact.
- Arranged for an interview with the New York Times, including directors from DEQ and MDHHS.
- Began preparing a news release to include numbers, including teams, sites, local and American Red Cross.
- Monitored traditional and social media.
- Received 17 calls from the news media on the JIC media hotline.
- Expanded JIC staffing and roles.
- Confirmed digital billboard to encourage residents to call 211 for water resources and information.

### Agriculture and Rural Development (MDARD)

Jan 12th - 1/12/16 - MDARD Activities: Food Safety: The updated guidance document for water in retail food and restaurants/food service is done and awaiting final ok in the JIC/SEOC; could go out in US Mail as early as Wed. MDARD Food staff will start scheduling water sampling and inspections for next week. MDARD has requested a map overlaying food facilities with the known areas most impacted to help prioritize follow up.
Animal health update: notifications to potentially impacted facilities are nearly complete. After further coordination with Genesee County Animal Control, the three animal shelters in the Flint area are not on City water. The Michigan Veterinary Medical Association notified all veterinarians in the region last week; MDARD will be individually following up with the two clinics. There are no kennels or pet grooming facilities in the City. Genesee Animal Control will be contacting pet stores and the known households that serve as animal rescue operations and does not need MDARD assistance.
MDARD is also looking at opportunities for assistance/guidance related to nutrition, including possible support through donations management.

### American Red Cross (ARC)

Again today the American Red Cross provided volunteers to operate the distribution sites at the 5 fire stations. We added staff to this effort to be better able to manage inventory at those sites. We also brought in a warehousing team to manage inventory at the G-CARD site. Additionally ARC put together a team to work on assembling water test kits at the G-CARD site before the kits go out to the distribution sites. A logistics planner has now been deployed from the ARC national headquarters to assist the SEOC logistics Group Chief.
Tomorrow we expect to continue staffing the 5 fire station distribution sites, and will be standing up a volunteer reception center to process event-based volunteers. Assembly of the water testing kits will continue as needed.

### Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC activities.

**Community Health (MDCH)**

Provided lead health impact information requested to planning section for presidential letter.

Tasked CHECC with coordinating with Sue Kangas and Farrah Hanley to track financial expenditures.

CHECC is working to ensure that contact lists are current in the MI-Volunteer Registry, should volunteers from the registry be needed. Tracking responses from MI-Volunteer Registry query.

Received confirmation from MDHHS Environmental Health regarding NSF certification requirement for filtering lead from water.

CHECC is coordinating with HHS to obtain EMPower data regarding medically dependent individuals in Flint.

Requested that the CHECC contact Lowes regarding the ability to purchase Brita faucet filters.

Confirmed that +100,000 sq. ft. is available in Lansing through MDHHS MOU with private sector partner. On standby if these resources are necessary.

"Enhanced Lead Testing Guidelines Recommended for Children in Flint, MI," developed by Dr. Wells, was sent to healthcare providers via Medscape - WebMD at 0700 today.

Community Health Emergency Coordination Center (CHECC) is activated at a Level 2 - Partial Activation, consisting of BETP leadership staff and CHECC Section Chiefs.

**Corrections (MDOC)**

The MDOC continues to monitor the situation and our staff as well as our clients in the community. Water will remain available at the office for both staff and clients to use whil at the Parole and Probation offices in the area. EM staff from the MDOC will contiue to monitor MiCIMS and attend briefings. We remain available to assist in addressing this situation.

**Education (MDE)**

MDE is distributing nutrition guidelines for "Help Fight Lead Poisoning with a Healthy Diet" handout. Additional MDE staff trained for SEOC. (1/11)

MDE is monitoring the situation and coordinating as necessary with other state agencies.

Kyle Guerrant, Deputy Superintendent, was on-site at the SEOC; January 10, 0915-1425.

**Environmental Quality (MDEQ)**

The Department of Environmental Quality (DEQ) completed the following activities:
- Delivery of 6101 water test kits to GCCARD
- Verification of NSF/ANSI 53 certified filters for future ordering
- Arranged for DEQ staff deployment to supervise volunteers assembling water kits at GCCARD
- Arranged for DEQ staff deployment as a field observer to assist in tracking water kit supplies and samples
- Established additional vendors for supply of water test bottles

**Human Services (MDHS)**

Participated in AM & PM State Agency briefings,
Updated resource requests.
Confirmed delivery to GCCARD versus Home Depot to complete the delivery of 2000 filters, 18,400 replacement cartridges.
Arranged for DTMB to pick up around 700 (23) cup pitchers from schools surplus. Plan is to split these up between the FDs.
Made contact with Menards to identify filters and replacement cartridges and relayed that information to DTMB for procuring options.
Had conference call with MDHHS finance. They have concerns of the accountability of our purchases and who's driving the ordering. I explained the urgency and the process. They understand now and said carry on.
Identified 16 MDHHS staff volunteers who will be assisting in the door to door distribution operation for Wednesday, Thursday, and Friday.
16 local MDHHS staff participated in the mission of the Water Resource Teams today.
CHECC continues to maintain a Level 2 Activation

**Licensing and Regulatory Affairs (LARA)**

LARA Excutive Staff met and was updated on the situation in Flint. This will be a weekly meeting.

*Spoke with the Flint Superintendent of Schools, Mr. Tawwab regarding the faucet pilot program. He has approved us to move* forward with this program.

Joe Madziar, LARA's Plumbing Division Chief, has provided a material list for Freeman Elementary. The list was provided to DTMB for procurement. We are awaiting an ETA from DTMB on the materials.

We are working with Tony Sitko, building manager for Flint, to coordinate a schedule for the Plumbing Division to be able to get into the school to complete the work.

I am communicating with the DEQ to schedule re-testing for Freeman Elementary pilot project.

**National Weather Service (NWS)**

Jim Maczko from NWS Grand Rapids will participate in SEOC briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac.

**Natural Resources (MDNR)**

January 8, 2016
MDNR is fully participating in all SEOC activities. Situational awareness is being maintained and the department stands ready to assist as needed.
Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

**Services to the Aging (OSA)**

Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the Genesee County Health Department and MDHHS, has helped organize local meetings and distribute water and water filters. VAAA is an access point for receiving calls from homebound seniors who are not able to pick up water filters or need assistance installing water filters. VAAA reports they continue to receive calls from seniors who need assistance.

Contact info for VAAA Executive Director is:

Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

VAAA has distributed 2 bottles of water with each home delivered meal to each HDM client within the City of Flint. Water. VAAA also provided water to homebound seniors who needed water to prepare food as they had limited support to pick up bottled water. Congregate meal participants also have access to water and filters as needed. Once water filters were installed, VAAA discontinued including water with home delivered meals.

VAAA also contacted the Grandparents Raising Grandchildren program to ensure that they were aware of educational efforts and confirm the program had received water filters to distribute to program participants.

On 1/11/16 AASA forwarded to MSP/GIS over 1,400+ NAPIS addresses of Flint seniors who received in-home services in FY15. The NAPIS file was sent encrypted and did not include client names. The NAPIS file included 1,029 HDM, 138 CM, and 30 CCS clients.

VAAA continues to operate as a call center and referral point for area seniors concerned about their drinking water. They've noticed this week that seniors who've had filters installed are beginning to request bottled water again.

AASA's State LTC Ombudsman has checked in with the local Ombudsman in Flint. Local Ombudsman reports Flint area nursing homes have been taking precautions using bottled water for cooking and drinking. The local Ombudsman remains concern about Nursing Homes' long term need to replace old facility plumbing that may be leaching lead.

**State Police (MSP)**

Lt. Pummill, local EOC, has requested 3 additional box trucks for neighborhood delivery. Request has been sent to logistics, Request # SEOC - 1378446.

Resource request received for additional MSP personnel to assist with distribution on Wednesday 1/13/16. Request has been forwarded to Lt. Pummill at the Local EOC. Staff has been identified and the personnel list has been provided to Recovery.

Task assignment has been submitted to Logistics to determine how many 5 person distribution teams can be supported on Thursday and Friday. Support would need to include filters, replacement filters, water, test kits, pamphlets, and trucks to transport.

MSP is in the process of identifying available staff to support this effort with the plan to staff up to the level that can be supported by logistics.

A request has been submitted to SEOC Logistics, DTMB, for approximately 20 smart devices that are network enabled that we can install the GIS application onto so that they activity can be tracked real time. These devices do not need to be connected to the state network.

**Technology, Management and Budget (MDTMB)**

DTMB Mail Services provided three additional drivers and trucks to assist with door-to-door supplies, this is in addition to the four drivers and trucks already working in the city. Also picked up additional water test kits in Lansing and delivered to Flint this afternoon to ensure kits were available at the distribution sites.

DTMB Real Estate assisted in procuring 100,000 feet of warehouse space and writing the rental agreement.
Procurement office acquired additional water filters and refill cartridges that will be delivered on Thursday to the warehouse for distribution.

Twelve trucks of water will be delivered tomorrow and water filters and replacement cartridges will be delivered on Thursday.

Working on resource request to acquire 20 tablets to send out with MSP personnel to help record supplies being delivered in the field.

**Incident Related Images**

# Damage Assessment and Emergency Status Report

## Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

### Operational Period

| | |
|---|---|
| **Operational Period Begin:** | 01/11/2016 08:00:00 |
| **Operational Period End:** | 01/13/2016 08:00:00 |
| **Situation Report No.** | 6 |
| **SEOC Status:** | Full |
| **SEOC Hours of Operation Begin:** | 01/11/2016 08:00:00 |
| **SEOC Hours of Operation End:** | 01/11/2016 20:00:00 |

### Executive Summary

SEOC Update:
Accomplished today (January 10):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Provide resources.
- Public Information Control.

- Logistics
o Worked on maintaining supplies and track resources at each of the local PODs.
o Worked to establish a Red Cross warehousing/logistics team to assist GCCARD.

- JIC
o Media event at the Genesee County Office Building.
o Governor and Capt. Kelenske spoke.
o Video for distribution will be filmed today
o MDHHS is working on radio PSA information
o Working on getting Comcast and Dish Network to provide channel for looped information and POC for Google.

- Recovery Branch
o Working with MSP to develop areas for canvassing and trained staff.
o Working with JIC to make sure PIO is connected with the team they will shadow.

- Planning Section
o Worked with the local EOC to get accurate inventory information.
o Supported logistics by reaching out to local and regional businesses to establish a steady water supply.
o Worked with GIS branch to refine strategy

- Operations Section
o SEOC has expanded hours of operation to be from 8am-8pm.
o Fire stations up and running today and providing resources to the citizens.
o Tomorrow will be a planning day for the SEOC for the next operational period.
o Tasked planning section with assisting logistics with water resource investigation and procurement.
o The State Deputy Director and FEMA LNO contacted governmental agencies for possible water procurement.
o Internal resources for bulk water delivery have been identified.
o Some water donations have been attained to supplement supply and will begin distribution periodically over the next two weeks.
o An ongoing purchase of bottled water that been established through Home Depot to deliver 6,000 cases of water per day. The first delivery will occur tomorrow.

- Finance Section
o Established direct billing accounts with three food establishments that can deliver lunch to staff in the Local EOC and JIC.
o Continuing to track SEOC staff and provide guidance on procurement and tracking SEOC costs. Task in progress as it is long term and continuing.

- GIS Branch Updates
o Updated distribution sites map.
o Submitted a request to ESRI (GIS Vendor) to supplement our technology and provide professional services in support of the incident.
o Updated Flint DDACTS (crime analysis) hotspots.
o Setup ArcGIS in conjunction with Flint GIS staff.
o Configured mobile app for field data collection during MSP neighborhood visits.
o Began mapping lead service lines (anticipate having draft of lead service lines Friday).
o Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

DTMB:
- Cards were printed for churches and fire stations by 11:30am. Two additional trucks for distribution will be in the City all week. Trucks are available to deliver resources until 9 pm.
- Two trucks are being deployed to assist with supply distributions in the neighborhood.
- Contacted Home Depot; starting Tuesday they will deliver 4 truckloads of water to GCCARD for the next 5 days.

DHHS-CH
- The Community Health Emergency Coordination Center (CHECC) has officially elevated its level of activation to "Level 2 - Partial Activation." Currently the CHECC is staffed with BETP leadership and Section Chiefs only. SMEs will be brought in as necessary.

• Coordinating with MDE and MDARD on nutritional planning communications.
• Coordinating with the CHECC to determine status of Environmental Testing and Consulting Lead Investigator(s) request.

DEQ
• DTMB will pick up a shipment from the lab at 3pm today. The lab will have as much as they can have ready on the loading lock at 3pm.
• Simplified sampling form that has gone to DTMB to print and will be there tomorrow.
• There were 1,382 bottles picked up today, Monday afternoon. There are approximately 3,200 bottles remaining in Lansing. These will all be ready to ship tomorrow afternoon.

Local EOC Update:
• Local EOC operational hours are from 8am-9pm.
• Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
• Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
• Working to establish a warehouse for local resource storage.
• Additional DC Mark Russo
• Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
• Discussed potential long-term water sources between local EOC and SEOC.
• Established planning cycle/meeting scheduled for 1/12/16.
• Developed Sit Rep #1.
• Met with Natasha Henderson to request deployment of City representative at local EOC.

## Incident Response/Recovery Priorities/Objectives

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Develop an approved GIS strategy.
8. Maintain coordination between partner agencies and organizations.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

## Emergency Declarations

## Weather Conditions

**Watches/Warnings**

**Upcoming Forecast**
Forecast Update for Flint, MI Area: Posted 945am January 11, 2016

• Snow and wind will return after 5pm Monday (Jan 11) and will continue through Tuesday (Jan 12) with very hazardous travel expected.
• Very cold through the entire week. The cold could limit ability to remove ice from road surfaces
• Frostbite time for exposed skin will be 15 to 30 minutes all week.
• Bottled water stored outside or not in temperature controlled locations will freeze due to temperatures well below freezing through the week

-Until around 5pm Monday (Jan 11):
• Periodic light snow with limited accumulation expected today. Icy roads are expected for Monday evening commute.

-Monday 5pm (Jan 11) through Tuesday Night (Jan 12)
• Snow and blowing snow will create hazardous driving conditions, very low visibility, and icy road surfaces. Could see 2-4 inches of accumulation in the Flint area. This snow/blowing snow will impact all of the Lower Peninsula, so transportation to and from the Flint area will be very hazardous Monday night through Tuesday.
• Snow will blow back on to treated roads. Rapid Changes in visibility and road conditions are likely. This type of weather is typical when Michigan has some road closures and larger multi-car accidents.

-Wednesday (Jan 13) through Saturday (Jan 16):
• Very cold with a few snow showers. High Temperatures around 20-25 degrees, Low temperatures around 10-15 degrees.

## Agency Summaries

### Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was operational for the first time in Flint from 8 a.m. to 5 p.m. on Jan. 11. State agencies at the JIC included the Governor's Office, Health and Human Services, Michigan Department of Agriculture and Rural Development, and Department of Technology and Management and Budget, and Michigan State Police.

Tasks accomplished during the operational period included:
- Coordinated with the Governor's Office for a 2:30 p.m. press conference in the city of Flint. This action item included multi-agency collaboration and the development of talking points under a very tight timeframe.
- Created a script for a Comcast video PSA.
- Finalizing radio PSA with the Michigan Association of Broadcasters.
- Secured a field PIO and state videographer and photographer for embedding during water resource team operations.
- Drafted a media advisory announcing the water resource teams, including a media opportunity.
- Looking into Comcast/Dish Network dedicated video.
- Continued to monitor media and social media.
- Issued and drafted social media posts about the ongoing situation.
- Worked with DTMB and facilities to ensure a functioning Flint JIC.

### Agriculture and Rural Development (MDARD)

Jan 11th - 1/11/16 - MDARD Activities: Have updated the guidance document to be a regulatory document for water in retail food and restaurants/food service; document is going through the approval process including the JIC. MDARD is making plans for distribution and then follow up. On animals - we expect to get a list of kennels, clinics, rescue organizations, etc., by the end of the day for additional outreach. Any materials will be coordinated through the JIC. MDARD provided information on water companies in the State as potential contacts for supplies of water.

MDARD goals over the next few days: 1) Food - identification and prioritization of food service and food retail businesses and coordination with Genesee Co. Health Department on notification and inspection related to water usage; 2) Animals - continue outreach and education to animal facilities, in coordination with Genesee Co. Animal Control; 3) Review history and look at opportunities for assistance/guidance related to nutrition, including possible support through donations management.

### American Red Cross (ARC)

Today the American Red Cross provided volunteers to 5 fire stations to distribute water, filter, replacement cartridges, and water test kits. Inventory reports from these distribution sites are now being made hourly. Throughout the day we have maintained representation at both the Genesee County EOC and Michigan's SEOC.

Early in the day we noted that DEQ was hoping to find volunteers to assemble water test kits prior to distribution. The Red cross indicates it is ready to secure such volunteers once we have a formal request.

We have also been notified that a request for a warehousing team will be coming to the ARC. Our Flint headquarters has been made aware of this pending request and expects to be able to activate a team once we have the details.

We will be staffing the 5 fire station distribution sites again tomorrow from 9am to 9pm.
Our headquarters will also be participating in two meetings convening an expanded group of community partners on Tuesday.

### Civil Rights (MDCR)

Continued to provide support and assistance to assigned Human Services branch assignment and other SEOC activities. Briefed MDCR Community Relations Division staff; sourced non-Christian places of worship.

### Community Health (MDCH)

Coordinating with MDE and MDARD on nutritional planning communications.

Coordinating with the CHECC to determine status of ETC lead investigator(s) request.

Requested that the Human Services EMC have visibility of CHECC Activity Logs.

Task assignment for IMATS support has been re-assigned to the CHECC.

Requested that the CHECC research the availability of volunteer support for the door-to-door operations.

Spoke to the Local Health Department Emergency Preparedness Coordinator regarding the data entry of distributed filters. She is currently collecting all of the information cards from various locations and working with American Red Cross volunteers to get that data entered into the database as quickly as possible.

CHECC will be looking into the nutritional planning for MDHHS.

Held a conference call with CHECC leadership staff to discuss activities. Reassigned the request for information from the Bureau of Epidemiology to the CHECC to facilitate.

The Community Health Emergency Coordination Center (CHECC) has officially elevated it's level of activation to "Level 2 - Partial Activation." Currently the CHECC is staffed with BETP leadership and Section Chiefs only. SMEs will be brought in as necessary.

**Corrections (MDOC)**

The MDOC continues to monitor the situation and our staff as well as our clients in the community. Water will remain available at the office for both staff and clients to use whil at the Parole and Probation offices in the area. EM staff from the MDOC will contiue to monitor MiCIMS and attend briefings. We remain available to assist in addressing this situation.

**Education (MDE)**

MDE is distributing nutrition guidelines for "Help Fight Lead Poisoning with a Healthy Diet" handout. Additional MDE staff trained for SEOC. (1/11)

MDE is monitoring the situation and coordinating as necessary with other state agencies.

Kyle Guerrant, Deputy Superintendent, was on-site at the SEOC; January 10, 0915-1425.

**Environmental Quality (MDEQ)**

The Department of Environmental Quality (DEQ) completed the following activities:
- Delivery of 1500 water test kits to MCCARD
- 10,000 water test bottles ordered
- Sampling form developed in collaboration with the City. 20,000 printed.
- SEOC Staffed
- DEQ personnel supporting local needs

**Human Services (MDHS)**

Participated in AM & PM State Agency briefings,
Updated resource requests.
Training was completed for the Door to Door Distribution plan at our Clio Road office.
Received a reach out from Meijer and Walmart on how they can help. Held conference call with Meijer, they will be delivering water today to GCCARD. Walmart information sent to logistics.
We have received a schedule for water deliveries.
CHECC was upgraded to Level 2 Activation

**Licensing and Regulatory Affairs (LARA)**

LARA Excutive Staff met and was updated on the situation in Flint. This will be a weekly meeting.

Spoke with the Flint Superintendent of Schools, Mr. Tawwab regarding the faucet pilot program. He has approved us to move forward with this program.

Joe Madziar, LARA's Plumbing Division Chief, will be going to Freeman Elementary to develop a material list.

We are working with Tony Sitko, building manager for Flint, to coordinate a schedule for the Plumbing Division to be able to get into the school to complete the work.

I am communicating with the DEQ to schedule re-testing for Freeman Elementary pilot project.

**National Weather Service (NWS)**

Jim Maczko from NWS Grand Rapids will participate in SEOC briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac.

**Natural Resources (MDNR)**

MDNR is fully participating in all SEOC activities. Situational awareness is being maintained and the department stands ready to assist as needed.
Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

**Services to the Aging (OSA)**

Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the Genesee County

Health Department and MDHHS, has helped organize local meetings and distribute water and water filters. VAAA is an access point for receiving calls from homebound seniors who are not able to pick up water filters or need assistance installing water filters. VAAA reports they continue to receive calls from seniors who need assistance.

VAAA has distributed 2 bottles of water with each home delivered meal to each HDM client within the City of Flint. Water. VAAA also provided water to homebound seniors who needed water to prepare food as they had limited support to pick up bottled water. Congregate meal participants also have access to water and filters as needed. Once water filters were installed, VAAA discontinued including water with home delivered meals.

VAAA also contacted the Grandparents Raising Grandchildren program to ensure that they were aware of educational efforts and confirm the program had received water filters to distribute to program participants.

**State Police (MSP)**

Request received to determine who is leading the deployment efforts for this project (location for distribution, etc.). Lt. Dehner will provide coordination of distribution from the local EOC.

GIS maps with dots where distribution or pick-up has already been made and been provided to Lt. Dehner in both email and printed form.

Resource request has been submitted for 8 iPads that are loaded with GIS information, so that those working on distribution can just enter it on-scene, rather than keeping paper logs.

We are trying to determine if someone has walk routes previously identified to reduce backtracking and provide a good way to make sure we hit all locations. US Postal Service delivery routes will not work for this purpose as some homes do not get home delivery and use a PO Box instead. Inquiry has been made to Flint Water Department for their meter reading routes to determine if this will meet this need.

**Supreme Court**

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

**Technology, Management and Budget (MDTMB)**

DTMB Mail Services provided two drivers to assist with supply deliveries in the city for the week. Two additional drivers will be onsite Tuesday to assist with door-to-door supply needs. Additional drivers are available if needed.

DTMB Print and Graphic Services provided expedited service on water-testing English and Spanish cards, information cards for churches and fire departments, water sampling billing return sheet and bathing information.

Provided access to the facility and parking structure for the PIOs working out of the Flint State Office Building. DTMB providing additional security personnel at the building.

Procurement office assisted in a conference call with vendor on acquiring additional water testing kits as well as other contracts as needed to fulfill resource requests.

| **SEOC Status:** | Full |
| **SEOC Hours of Operation Begin:** | 01/8/2016 08:00:00 |
| **SEOC Hours of Operation End:** | 01/8/2016 17:00:00 |

### Executive Summary

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Officer.

On October 1, 2015 the Genesee County Health Department declared a Public Health Emergency due to the elevated blood lead levels in citizens. In response to this the City of Flint declared a local State of Emergency on December 15, 2015 and activated their Emergency Operations Center.

To mitigate the effects of the new source of water on the infrastructure in the City of Flint, the city switched back to DWSD water on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is now treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone.

MDHHS has increased surveillance of blood lead levels in children and is addressing water issues in environmental investigations to identify lead sources in the environment of affected children and provide health education and information to residents, health care providers, and daycare/educational institutions.

Local nonprofit organizations have provided potable water to Flint residents. MSP/EMHSD GIS staff is supporting county and local GIS staff by consolidating data from local sources into comprehensive databases and providing mapping services to support incident analysis and forecasting. Data and maps regarding the location of water pipes, affected schools, filter distribution locations, water monitoring results, and predictive blood lead levels for affected areas will be made available with demographics.
Before December 16, 2015, $9.35 million was provided by the State of Michigan and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While the source water has been switched back to DWSD, water in the City of Flint is still not safe to drink, unless specifically filtered.

On January 5, 2016, Governor Snyder declared a State of Emergency for the City of Flint and Genesee County. Genesee County requested the Governor's declaration on January 5, 2016, following the declaration of a State of Emergency in the county in response to the presence of lead in the public water supply and the detection of elevated blood lead levels exceeding governmental standards.

Since the declaration by the Governor on January 5th, the State Emergency Operations Center (SEOC) has been fully activated and working with local and state agencies to ensure a coordinated response to the incident. Since the activation, the SEOC has activated command staff, state agency EMC's, and implemented the Recovery Branch under the Operations Section.

SEOC Update:
Accomplished today (January 8):
- Recovery Branch is working to develop a enhanced method for outreach to all individuals.
- DHHS is working to develop a method for distribution of water.
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Held first legislative call today.
- JIC continued to develop messaging and has implemented a co-located JIC in the City of Flint.
- SEOC staff provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed 3 EMHSD/SEOC liaisons to assist the local EOC.
- Worked on developing incident objectives for the next operational period.
- FEMA Liaison Officers are on site at the SEOC and are assisting and providing technical expertise as needed.

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Provide resources.
- Public Information Control.

MSP/EMHSD GIS Section Updates
Accomplished Today (January 8):
- Produced Water Point of Distribution Map (POD).

• *Produced Filter Point of Distribution Map (POD).*
• Met with Genesee County Emergency Manager to discuss POD locations, and hours of operation. He will also be sending us data on new facilities serving as POD's with hours of operations.
• Attempted to geocode list of properties that have received a water filtration system. Geocoding encountered a problem due to original database format. We continue to clean up the database.
• Attempted to get data on the zip codes; local contact has not yet responded.
• Met with GIS from Flint to discuss data and methods.
• U of M contacted us to set up a meeting on how best to proceed with digitizing water lines
• Received account from City of Flint for their ArcGIS online.

Tasks for Tomorrow (January 9):
• Finalize updated list on water filter distributions map.
• Update Water and Filter POD's with updated information from Genesee County Emergency Manager.
• Establish time to meet with U of M.
• Finalize water filter distributions map.
• Finalize plan for data distribution methods.

Volunteer and Donations Management:
• SEOC staff, Local EOC, and local organizations had a call with General Motors about possible donations.

Local EOC Update:
The following actions have been coordinated and supported through the Genesee County EOC since activation:

*Genesee County Sheriff's Office:*
• Distribute filter and water to affected population (172 attempted contacts with 27 personnel on 01/07/2016).
• Provide security at EOC and incident facilities.
• Sheriff Pickell is serving as the PIO for Genesee County.
• Operate EOC and manage incident through Emergency Management & Homeland Security Office.

*Genesee County Health Department:*
• Developing messaging (health education) for affected population.
• Provide nutritional counseling.
• Elevated blood level case management.
• Provide IT support for filter distribution database and GIS mapping.
• Developing Lead Poison Prevention Plan.

Genesee County Equalization Department:
• Provide addresses, demographic, socioeconomic data for incident planning and forecasting.
• Provide GIS mapping services.
• Preliminary assessed damages on public and private infrastructure impacts in coordination with City of Flint.

Genesee County Community Action Resource Department (GCARD):
• Warehousing/staging of filters for distribution to affected population.
• Distribution of filters to affected population from two locations in the City of Flint.

City of Flint Fire Department:
• 5 Fire stations will serve as PODs for water and filter equipment on Saturday, 01/08/2016, 0900AM to 1600PM.

Flint Community Schools:
• Nothing reported at this time.

Michigan Department of Health and Human Services:
• Filter distribution at one location in the City of Flint.

United Way of Genesee County:
• Receive and manage donations (cash and goods).
• Public information through 211.
• Facilitating coordination and control among local agencies.

Foodbank of Eastern Michigan:
• Warehousing/staging of water for distribution to affected populations.
• Identify and operate PODs for water (8 sites identified by 12:00 noon, 01/08/2016).
• Water inventory by end of day, 01/07/2015: Food bank has 376 cases of water.

Hurley Medical Center:
• Nothing reported at this time.

The county EOC has issued five resource requests to the SEOC (all in progress) by 12:00 noon on 01/08/2016.

## Incident Response/Recovery Priorities/Objectives

TBD

## Emergency Declarations

**Local Declarations**
**Jurisdiction(s): Date/Time:**
Genesee County, Public Health Emergency, 10/01/2015
City of Flint, Declaration of State of Emergency, 12/15/2015

**Watches/Warnings**

**Upcoming Forecast**
Forecast Update for Flint, MI area: Saturday 1/9 through Thursday 1/14:

* Saturday (Jan 9): rain with mild temperatures
* Sunday (Jan 10): snow, cold, wind and hazardous travel
* Monday (Jan 11) through Thursday (Jan 14): very cold with a few snow showers

Rain will occur on and off through Saturday evening. Saturday will see high temperatures around 45 degrees. Temperatures will fall quickly overnight Saturday night, with temperatures in the mid 20s by noon Sunday and in the teens by Sunday evening. Strong winds Sunday will result in wind chill values near zero and time to frostbite from exposure of 30 minutes or less.

Snow is expected to develop around or just before sunrise Sunday. Around 2 to 4 inches of snow will be possible in the Flint area Sunday with the heaviest snow expected Sunday late morning/early afternoon.

Snow and cold will result in icy roads and hazardous travel conditions Sunday. Wet roads may ice up in the middle of the night Saturday night before snow begins on Sunday. A few power outages due to snow and wind may be possible Sunday.

Monday (1/11) through Thursday (1/14): On and off snow showers. Very cold air will be in place. Daytime high temperatures will only climb to around 20 degrees with overnight low temperatures around 10 or colder. Wind chill values Monday (1/11) through Thursday (1/14) will be in the teens and single digits above zero with time to frostbite from exposure of 15 to 30 minutes.

## Local Damage Summary

**Public Damage Totals**
**Private Damage Totals**
**Damage Assessment Summary**

## Agency Summaries

**Joint Information Center / Public Information Officer**

Jan 7, 2016

The Joint Information Center (JIC) was operational at 1 p.m. on Jan. 6 and operational from 8 a.m. to 5 p.m. on Jan. 7. State agencies at the JIC included the Departments of Licensing and Regulatory Affairs, Health and Human Services, Agriculture and Rural Development, Environmental Quality, and Michigan State Police.

During the 8 a.m. to 5 p.m. operational period, Gov. Rick Snyder held a press availability with Flint Mayor Karen Weaver. In addition, a round-table press briefing occurred at 1 p.m. at the 4000 Collins Road facility.

Objectives included:

- Oversaw and managed the state of Michigan public information duties due to emergency declaration.
- Held a 4 p.m. conference call with Genesee County PIO Sheriff Robert Pickell and city of Flint PIO Lead Sean Kammer.

Information Gathering
- Created media monitoring reports about the disaster as needed.
- Crafted talking points about the ongoing disaster, including a better description of the emergency declaration process.
- Crafted social media posts about state efforts underway during the disaster recovery process.
- Created graphics for social media efforts.

Information Dissemination
- Answered phones and manage media inquiries in regards to the Flint Water situation.
- Worked to establish a GovDelivery account; post link of website to sign up.
- Finalized details, media invite list and host a media roundtable.

External Affairs
• Worked on planing a conference call between command staff and affected state legislators and congressional Jan. 8, 2015.

Administrative
• Worked on filling staffing for the next operational period.

Logistics
• Worked on fixing email accounts.
• Worked to established a location with Genesee County and the city of Flint for a Unified Joint Information Center by the end of the week.
• Established a conference call line for the media roundtable.

**Agriculture and Rural Development (MDARD)**

Two areas MDARD is monitoring:
1). Water usage in food processing, food retail, and food service (restaurants). Guidance document has been available since October; MDARD surveyed food processors in October and did not find issues.
2). Water consumption by pets / animals. There has been some evidence of lead toxicity in dogs, and there has been guidance about pets & water included in the Q & A.
Jan 7th 2016 4pm update:
MDARD and Genesee Local Health Dept. agreed to move guidance on water to a regulatory requirement. New language (after JIC approval) will be going out to retail food establishments and restaurants with follow up inspections and sampling. Planning will continue on logistics for sampling.
Jan 8th 2016 4pm update:
Animals - Shelter Director Paul Wallace has obtained some documents to help ascertain what entities (that are not tracked via licensing and registration) that would be housing animals: 1) All the City of Flint street (physical) addresses that are on City of Flint water, 2) All the "Out-County" (physical) addresses that are on City of Flint water. The Shelter Director is also pulling the possible animal holding/gathering facilities in reference to that listing which will provide the rest of the contacts. MDARD will be getting copies of all of these lists soon. Other shelters are not on City of Flint water.

**American Red Cross (ARC)**

The American Red Cross will be standing up a 'limited' Disaster Relief Operation by the end of today. This will enable us to provide a more comprehensive response to community needs in Flint as they are made known. We will now be more readily able to bring in resources from outside the Flint area.

**Civil Rights (MDCR)**

Monitor and support agencies with issues surrounding outreach and engagement of marginalized populations within the City of Flint impacted by the current water crisis.

**Community Health (MDCH)**

MDHHS is collaborating with the MDHHS PIO in the JIC to provide health related information for the document that will be delivered to all homes in Flint.

Collaborated with LARA to obtain a contact list of all health professionals in Genesee County for distribution of Guidelines for Lead Testing in Children.

Per Genesee County Health Department, all inquiries about lead testing are being referred to 211 or their individual healthcare provider.

Dr. Eden Wells, Chief Medical Executive, participated in the Congressional Briefing.

**Corrections (MDOC)**

Administration for the MDOC has been notified and is updated on current situation. There are approximately staff members working in the affected area. Potable water has been provided to the offices in the affected area since the beginning of this situation and will continue to be provided. This water is available for people working there and those that have been required to go the office. We will continue to monitor this situation for any developing issues.

**Environmental Quality (MDEQ)**

The DEQ laboratory is prepared to accept and process 400 water samples pre day, 7 days a week. DEQ Incident Management Team staff are supporting the local Emergency Operations Center with personnel in Incident Command positions.

**Human Services (MDHS)**

Participated in 9:30 State Agency briefing,
Updated resource requests.
Local MDHHS staff active in local EOC.
Sent MCSC to Genesee Co to coordinate various volunteer efforts.
Helping with donation management efforts at the local level.
Gathering information on water filter acquisition, distribution, installation, life span and replacement.
CHECC remains at Level 1 Activation - Normal Operations

**Licensing and Regulatory Affairs (LARA)**

Communicating with DEQ regarding additional water testing in Flint schools.

Gathering information from the Plumbing Division regarding plumbing authority within the city of Flint.

**National Weather Service (NWS)**

Jim Maczko from NWS Grand Rapids participating in morning SEOC briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac.

**Natural Resources (MDNR)**

MDNR is fully participating in all SEOC activities. Situational awareness is being maintained and the department stands ready to assist as needed.
Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

***Services to the Aging (OSA)***

Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the Genesee County Health Department and MDHHS, has helped organize local meetings and distribute water and water filters. VAAA is an access point for receiving calls from homebound seniors who are not able to pick up water filters or need assistance installing water filters. VAAA reports they continue to receive calls from seniors who need assistance.

VAAA has distributed 2 bottles of water with each home delivered meal to each HDM client within the City of Flint. Water. VAAA also provided water to homebound seniors who needed water to prepare food as they had limited support to pick up bottled water. Congregate meal participants also have access to water and filters as needed. Once water filters were installed, VAAA discontinued including water with home delivered meals.

VAAA also contacted the Grandparents Raising Grandchildren program to ensure that they were aware of educational efforts and confirm the program had received water filters to distribute to program participants.

**State Police (MSP)**

Insp. Bolger is monitoring the incident via MICIMS and participating in State Agency Briefings.

***Supreme Court***

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

**Technology, Management and Budget (MDTMB)**

Provided update to management on morning briefing.
Co-located JIC has been setup for the public information officers, along with a media meeting room. Facilities supervisor assisted with unloading and equipment setup.
Received list of agency public information officers to have access to the Flint Office Building added to their ID cards.
Resource request received for a truck and driver needed to pick-up pallets of water and cartridges within the city and deliver them to five city fire stations on Saturday.
Resource request received to locate warehouse space within the city to act as a distribution and intake site for donated water, cartridges and filters. DTMB Real Estate Division contacting resources within the city for available locations.

### Operational Period

| | |
|---|---|
| **Operational Period Begin:** | 01/11/2016 08:00:00 |
| **Operational Period End:** | 01/13/2016 08:00:00 |
| **Situation Report No.** | 5 |
| **SEOC Status:** | Full |
| **SEOC Hours of Operation Begin:** | 01/10/2016 08:00:00 |
| **SEOC Hours of Operation End:** | 01/10/2016 17:00:00 |

### Executive Summary

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Officer.

On October 1, 2015 the Genesee County Health Department declared a Public Health Emergency due to the elevated blood lead levels in citizens. In response to this the City of Flint declared a local State of Emergency on December 15, 2015 and activated their Emergency Operations Center.

To mitigate the effects of the new source of water on the infrastructure in the City of Flint, the city switched back to DWSD water on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is now treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of potential health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone.

MDHHS has increased surveillance of blood lead levels in children and is addressing water issues in environmental investigations to identify lead sources in the environment of affected children and provide health education and information to residents, health care providers, and daycare/educational institutions.

Local nonprofit organizations have provided potable water to Flint residents. MSP/EMHSD GIS staff is supporting county and local GIS staff by consolidating data from local sources into comprehensive databases and providing mapping services to support incident analysis and forecasting. Data and maps regarding the location of water pipes, affected schools, filter distribution locations, water monitoring results, and predictive blood lead levels for affected areas will be made available with demographics.
Before December 16, 2015, $9.35 million was provided by the State of Michigan and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While the source water has been switched back to DWSD, water in the City of Flint is still not safe to drink, unless specifically filtered.

On January 5, 2016, Governor Snyder declared a State of Emergency for the City of Flint and Genesee County. Genesee County requested the Governor's declaration on January 5, 2016, following the declaration of a State of Emergency in the county in response to the presence of lead in the public water supply and the detection of elevated blood lead levels exceeding governmental standards.

Since the declaration by the Governor on January 5th, the State Emergency Operations Center (SEOC) has been fully activated and working with local and state agencies to ensure a coordinated response to the incident. Since the activation, the SEOC has activated command staff, state agency EMC's, and implemented the Recovery Branch under the Operations Section.

SEOC Update:
Accomplished today (January 10):

- Logistics
  - o Worked on figuring out a long-term storage option. Because GCCard is large enough, centrally located and comes staffed, we are going to use this for a while until a logical long-term storage option can be found. GCCard has 75,000 sq. ft. and has warehouse managers to assist with tracking resources coming in and out.
  - o Requested an inventory of what has been distributed so far. Determined that the local health department wouldn't staff anyone during the weekend, so the only numbers we could obtain have not been updated since 1/8/16.
  - o Assigned someone at the local EOC to find anyone to enter the address cards collected from all the distribution sites. In order to determine what areas are in greater need, these address cards are essential for the GIS tracking and reporting.
  - o Determine water quantities in Flint.
  - o Worked with recovery on needs for door-to-door operation.
  - o Completed 204's for 3 objectives.
- Assigned requests:
  - o Extra volunteers for the added fire department hours. (MDHHS – Thelen)
  - o There was an extra church that was added. A request went through to ensure they received supplies and volunteers. (Local EOC)
  - o Flyers were created, printed and distributed to the 9 churches. (JIC, DTMB and Local EOC)
  - o Gate Operations for the broken SEOC Gates. (MSP)
  - o More cards for churches & FD's. (Logistics)
  - o Locate replacement filters in the Flint area. (Local EOC)
  - o Deliver 6 pallets of donated water to GCard. (ARC)
  - o Develop re-stock plan for distribution sites. (local EOC)
  - o Box trucks to assist with the door-to-door operation.
  - o Purchasing more replacement filters.
  - o Door hangers.
  - o Extra staffing for Brianna needed and assigned to begin Monday morning.

• JIC
o Flyer for churches approved.
o Door hanger's ready for teams tomorrow – may need to be picked up.
o Media availability went very well, great coverage.
o Sheriff still operating the strike team and coordinating with local EOC.
o Requested PSA on the radio. Media has been approved and working with MAB.
o Received good press on PODs.
o Working on developing signage for PODs.
o 211 advised about influx of calls – let JIC know if issues arise.
o Social media messaging continuing.
o Finalizing JIC Battle Rhythm.
o News release likely going out tomorrow regarding canvassing in neighborhoods.
o Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
o Google PR offered any available assistance, mapping-warehousing-transportation.
o JIC moving tomorrow to Flint, likely need hotels, media room requirements to DTMB.
o Materials being transferred into bi-lingual (Spanish) using Civil Rights resources.
o Planning media avail tomorrow.

• Recovery Branch
o Expanded operational hours for canvassing.
o Working with the EOC to find most impacted areas for canvassing.
o Working with F/Lt. Mike Johnson for developing a strategy for teams in the field Tuesday.
o Training tomorrow will provide training on filters, strategy, safety, and water testing kits.
o Getting additional staffing tomorrow.

• Planning Section
o Objectives have been updated and SitRep will be distributed today.
o Facilitated three SEOC agency and local EOC briefs.
o Worked with FEMA LNOs on planning cycle and draft objectives.
o Completed Sit Rep and draft IAP and summary bullets for command.
o Completed draft ICS forms for branch chiefs to use to track tasks.

• Operations Section
o Ensured the delivery of water and filters to the 9 churches in the Flint area.
o Discussed strategies for community outreach (door to door).
o Worked on facility safety at Collins Road (gate issues/lighting).
o Manage Task assignments for the SEOC (Press avail/door hangers/rules for water pickup).
o Requested a second DC to assist in Region 3 (Lt. Russo), start time TBD.
o Requested product information required to design signs for the fire stations to make it visibly apparent to the public. Awaiting feedback from fire stations (through Lt. Roach).
o Developed Branch Directors within the SEOC to reduce span of control (specifically Human Services Branch Richard Thelen) and Health and Environmental Branch (Jennifer Lixey-Terrill).
o Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location.
GCCard is large enough, centrally located and comes staffed. We will use this sight temporarily until a logical long-term storage option can be found. GCCard has 75,000 sq. ft. with warehouse managers to assist with tracking resources coming in and out.
o Distributed to date (1/8/16). Logistics has asked GIS to provide us daily updates of how much was distributed each day.
12,386 filters
1,985 replacement filters
354 Pitchers
2500 Lead Testing Kits
o Local EOC was asked to identify someone to enter the information collected on address cards from all the distribution sites as essential for the GIS tracking and reporting.
o Fire stations were initially established for 9am-4pm operations; this has been extended to 9am-9pm operation. Volunteers were located to accommodate these operations. This will continue as long as the need is realized.
o Logistics is in process of locating additional replacement filters.
o Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory.

• Finance Section
o Continuing to track personnel resources located in the SEOC and local EOC for use in spend plan development;
o Located hotel in the Flint area for staff on travel status to stay and have bill send directly to SEOC.
Holiday Inn – Flint
5353 Gateway Centre Drive
Flint, MI
810-232-5300
Contact Finance Group Chief or appropriate State EM to set up initial stay and billing information.
o Monitoring resource request board for costs incurred by state agencies for inclusion in spend plan.

The SEOC continues to provide:
• Situational awareness.
• Common operating picture/objectives.
• Coordination with city/county.
• Potential coordination with federal agencies.
• Incident prioritization.
• Coordination of life/health safety measures.
• Provide resources.
• Public Information Control.

MSP/EMHSD GIS Section Updates
Accomplished Today (January 10):
• Submitted report on total number of filters, pitchers, and replacement cartridges to Logistics.
• Printed map of wards for the City of Flint with Points of Distribution overlaid.
• LARA maps of Health Facilities and Active Facilities in progress.
• Geocoding water filter distribution addresses.
• Devise a method for measuring water filter distributions throughout the city. We will sum filter distribution by city block and produce distribution maps by block.
• DDACS Crime map overlay onto distribution map.

DTMB:
- Jeanette Doll at SEOC. Spoke to driver who is in Flint at first delivery church.
- Obtaining 3 quotes for printing of flyers for the churches this morning.
- Sent flyer to printer, provided Michelle with pickup information. Should be ready within the hour.
- DEQ requesting assistance with water bottle contract as vendor is running out of bottles and money ran out on contract. DTMB procurement director will work with DEQ on solution.
- Flyer ready for pickup shared information with logistics and Michelle.
- Spoke with DTMB Telecom director who confirmed that phones in co-located JIC will be ready in the larger room for Monday morning.
- Spoke with DTMB Mail Services on truck availability. Four trucks with drivers are available beginning Monday morning if needed.
- Coordinated contact with U of M Flint for use of media rooms.
- 4 cube trucks and drivers are available Tuesday.

DHHS-CH
- Appointed as Health Branch Director in the SEOC. Branch consists of MDEQ, MDARD, and MDHHS (health side only).
- Confirmed with the JIC and the LEOC in Genesee County that updates to 2-1-1 on water resource sites being listed on the pre-recorded 2-1-1 message will be provided to 2-1-1 daily by the JIC.
- Confirmed with Tom Page, Executive Director of 211, that the 211 pre-recorded messages for Monday, January 11, 2016, will include a listing of the water resource sites by zip code in Genesee County.

DEQ
- DTMB contacted to advise of POTENTIAL vendor / contract issues. Contingencies are currently being developed.
- Requested water kits be palletized and pre-staged on loading dock for pick up tomorrow to lab director.
- Update on water test tubes.
- MDARD- 500 1/11/16
- Sent out- 1000 1/8/16
- On hand- 500 1/11/16
- Lab to order 3,000 on 1/11/16. Lab ordered 1,000 on 1/8/16.
- Location secured for shipment of additional test bottles as the GCCARD. Info relayed to Lab Director.

Local EOC Update:

- Working to coordinate resources at the local level to maintain distribution of supplies at all PODs.
- Seeing supplies rapidly disappear from PODs today. Working to make sure POD managers are notifying us when they start running low.
- Working to establish a warehouse for local resource storage.
- Deploying additional District Coordinator tomorrow (Lt. Mark Russo).
- Working to establish minimum trigger points for resources at PODs.

Request/Task Assignment Definitions
- Assigned: Currently waiting for review by Logistics Group Chief and designation to appropriate agency.
- Cancelled: Item or task is no longer requested.
- Complete: Resource or task assignment has been fulfilled.
- In Progress: Being reviewed by appropriate agency.
- Mobilized: Resource is currently being delivered to local area.
- Need Additional Information: Agency is working with requestor to obtain further information on task or resource.
- On-Scene: Resource is currently on site for use/distribution.

Resource Requests

- Assigned: 1
o Box trucks for water resource teams.

- In progress: 13
o Additional water filter resources (7 requests total).
  30,000 additional filters.
  20,000 bottles of water.
o Long term storage.
o Truck transport.
o Environmental Testing and Consulting (ETC) Lead Investigator.
o Data Collection Cards.
o MDARD sampling kits- 500 requested.

- Cancelled: None

- Complete: 5
o JIC Set Up.
o 1,000 Water Filters/Cartridges.
o Water supply at Fire Department.
o Water Filters for Churches.

- On-Scene: 4
o Genesee County Section Chief.
o Genesee County IMT Coordinator.
o Genesee County Planning Section Chief.
o Genesee County Logistic Section Chief.

- Need Additional Information: 0

Task Assignments

- Assigned: 5
o Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
o Activate JIC plans.
o Create GovDelivery topic for public information.
o Establish method for routine communication of resource inventories and distribution amounts.

- Cancelled: 2

o Activate the State Recovery Task Force (2 requests).

• Complete: 16
o Volunteer Management Team.
o GIS Support Staff.
o Research West Virginia Emergency Recycling.
o Genesee County Healthcare Provider Contact Information.
o JIC Email Accounts.
o Provide technical assistance to the local Damage Assessment process.
o Establish SEOC operational period and hours of operations.
o Safety Officer.
o Activate donations Management Team.
o Coordinate response and recovery activities with MIVOAD and identify potential mission areas.

• In Progress: 26
o Monitor MI CIMS (2 assignments).
o Establish and maintain coordination between city, county, state, federal and subject matter experts.
o Obtain and maintain situational awareness and common operating picture of all activities (2 assignments).
o Technical assistance for local damage assessment.
o Volunteer assignment to assist at churches.
o Development of four Recovery Teams.
o Identify a collocated facility for JIC.
o Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
o Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
o Develop a comprehensive GIS strategy.
o Establish and disseminate cost center information for the incident.
o Two additional positions for JIC.

• Mobilized: 1
Establish and maintain coordination between city, county, state, federal and subject matter experts.

## Incident Response/Recovery Priorities/Objectives

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Develop an approved GIS strategy.
8. Maintain coordination between partner agencies and organizations.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

## Emergency Declarations

**Local Declarations**
**Jurisdiction(s): Date/Time:**
Genesee County, Public Health Emergency, 10/01/2015

## Weather Conditions

**Watches/Warnings**

**Upcoming Forecast**
-Forecast Update for Flint, MI Area: January 10, 2016
• Break from significant snow Sunday afternoon through Monday late afternoon.
• Snow returns Monday night and continues through Tuesday with very hazardous travel expected.
• Very cold temperatures expected through the entire week. The cold could limit ability to remove ice from road surfaces.
• Time to frostbite from exposed skin will be 15 to 30 minutes all week
• Bottled water stored outside or not in temperature controlled locations will freeze due to temperatures well below freezing through the week.

-Sunday (Jan 10):
• Heaviest snow coming to an end around 12pm. Around 1 inch of additional accumulation possible before snow ends. Some periodic light snow after 12pm, no significant additional accumulation expected. Hazardous travel likely with icy roads and blowing snow.

-Sunday afternoon (Jan 10) through Monday evening (Jan 12):
• On and off light snow with no significant accumulation expected. Icy roads likely for Monday morning and Monday evening commutes.

-Monday evening (Jan 11) through Tuesday (Jan 12)
• Snow and blowing snow will create hazardous driving conditions, very low visibility, and icy road surfaces. Could see 2-4 inches of accumulation in the Flint area. This snow event will impact all of the Lower Peninsula, so transportation to and from the Flint area will be very hazardous Monday night through Tuesday.

-Wednesday (Jan 12) through Saturday (Jan 16):
• Very cold with a few snow showers. High temperatures around 20-25 degrees, low temperatures around 10-15 degrees.

## Local Damage Summary

**Public Damage Totals**
**Private Damage Totals**
**Damage Assessment Summary**

## Agency Summaries

**Joint Information Center / Public Information Officer**

The Joint Information Center (JIC) was operational from 8 a.m. to 5 p.m. on Jan. 10. State agencies at the JIC included the Governor's Office, Health and Human Services, and Michigan State Police.

Tasks accomplished during the operational period included:
• Finished coordinating and held a media event for Sunday, Jan. 10 at Flint Fire Station No. 1.
• Sent a media advisory for the Sunday, Jan. 10, media event at Fire Station No. 1.
• Drafted and sent JIC News Release No. 3 about deploying water resource teams in the city of Flint.
• Created social media posts about the water distribution sites and the Flint water website.
• Continued development of a door hanger for the community outreach efforts beginning next week.
• Continued developing a public service announcement.
• Updated the www.michigan.gov/flintwater website.
• Staffed for the next operational period.
• Conducted a media monitoring report.

***Agriculture and Rural Development (MDARD)***

Jan 10th - 1/10/16 - Briefed Director Clover Adams after a.m. call. MDARD goals over the next few days: 1) Food - identification and prioritization of food service and food retail businesses and coordination with Genesee Co. Health Department on notification and inspection related to water usage; 2) Animals - continue outreach and education to animal facilities, in coordination with Genesee Co. Animal Control; 3) Review history and look at opportunities for assistance/guidance related to nutrition, including possible support through donations management.

**American Red Cross (ARC)**

*Today the American Red Cross provided volunteers to staff* 14 distribution sites (5 fire stations, 9 churches). The church sites distributed water and water filters while the fire station sites additionally distributed filter cartridge replacements and water testing kits.
To facilitate distribution the ARC delivered water filters and bottled water to the church distribution sites. Throughout the day we have maintained representation at both the Genesee County EOC and Michigan's SEOC.

Early in the day we noted that there had been no instructions with the water testing kits delivered to Fire Station #6. Our plan to fix this by making photo-copies from instruction sheets delivered to another station were delayed due to some logistical issues which have been resolved. Copies are now in progress for both station #6 and station #8 (station #8 ran out of instructions today).

ARC headquarters has made plans and assignments to assure that we continue to staff the distribution sites at the 5 fire stations from 9 am. to 9 pm. each day through next Sunday (1-17-16). We are committed to deliver 6 pallets of bottled water, supplied by our Grand Rapids office, to G-CARD tomorrow (Monday, 1-11-16).

**Civil Rights (MDCR)**

Monitor and support agencies with issues surrounding outreach and engagement of marginalized populations within the City of Flint impacted by the current water crisis. Provide background on LEP/Bi-lingual and bi-cultural needs and resource obligations as well as resource and referral list qualification.

**Community Health (MDCH)**

Spoke to MDHHS PIO regarding the issue of water sampling test kit instructions not being provided with the test kits given out on

1/09/16 at one resource site location. DEQ confirmed with American Red Cross that local volunteers are making photocopies of the instructions to ensure adequate supply going forward.

Spoke to LEOC logistics regarding potential state facility resources available via MOUs between the private sector and MDHHS. The status of this resource request is on hold.

MDHHS EMC for ESF#8 was appointed as Health Branch Director in the SEOC. Branch consists of MDEQ, MDARD, and MDHHS (health side only).

Spoke with the JIC and MDHHS leadership to determine the need for a 24/7 phone line for questions regarding health and Flint water. It was determined by MDHHS, the JIC, and LHD that the message would instead be to call 2-1-1 or contact their primary care provider, rather than setting up a separate toll free number.

Confirmed with the JIC and the LEOC in Genesee County that updates to 2-1-1 on water resource sites that are listed on the pre-recorded 2-1-1 message will be provided to 2-1-1 daily by the JIC.

Confirmed with Tom Page, Executive Director of 211, that the 211 pre-recorded message for Monday, January 11, 2016, will include a listing of the water resource sites by zip code in Genesee County.

Held a conference call with CHECC leadership and MDHHS ESF#6 EMC to discuss the CHECC level of activation.

**Corrections (MDOC)**

January 8, 2015:

Administration for the MDOC has been notified and is updated on current situation. There are approximately staff members working in the affected area. Potable water has been provided to the offices in the affected area since the beginning of this situation and will continue to be provided. This water is available for people working there and those that have been required to go the office. We will continue to monitor this situation for any developing issues.

**Education (MDE)**

MDE is monitoring the situation and coordinating as necessary with other state agencies.

Kyle Guerrant, Deputy Superintendent, was on-site at the SEOC; January 10, 0915-1425.

**Environmental Quality (MDEQ)**

The Department of Environmental Quality (DEQ) Laboratory (lab) provided 1000 water test kits for stock at Flint points of distribution. 500 kits have been prepared for MDARD inspectors for pickup Monday morning. 1000 additional kits will be prepared for pickup Monday for supply for the teams scheduled to begin on Tuesday. 3000 kits are being ordered Monday morning to supplement stock. DEQ lab staff are scheduled to provide training to the teams in Flint on Monday afternoon. Contracts are being identified and examined to possibly expand vendor capabilities for providing additional resources.

DEQ staff are coordinating with Licensing and Regulatory Affairs (LARA) for the implementation of the Freeman Elementary faucet replacement plan.

DEQ and DNR staff are supporting state and local activities where needed.

**Human Services (MDHS)**

Participated in AM & PM State Agency briefings,
Updated resource requests.
Volunteer Coordinator at local level coordinated with ARC on FD staffing for extended hours of 9:00 - 21:00
Confirmed filter allocation is still at adequate level for estimated resource requests.
Worked with Recovery on Door to Door plan. Confirmed MDHHS will have volunteers next T- F for door to door work.
Late last night ordered 30,000 additional filters and replacement cartridges. ETAs coming
Ordered 93 pallets of water from South Carolina. ETAs coming
Appointed Human Services Branch Director, Branch includes MDHHS including Aging & Adult Services, MDE, MDCR,& ARC
Brought in Human Services EMC backup.
CHECC remains at Level 1 Activation - Normal Operations

**Licensing and Regulatory Affairs (LARA)**

LARA's proposal for a pilot faucet replacement program for Freeman Elementary School was approved.

Working on putting together a list of what the next steps are with tasks to be completed.

Coordinating with DEQ to complete additional testing at Flint schools.

**National Weather Service (NWS)**

Jim Maczko from NWS Grand Rapids will staff SEOC Monday, Jan 11. Otherwise, will participate in SEOC briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac.

**Natural Resources (MDNR)**

MDNR is fully participating in all SEOC activities. Situational awareness is being maintained and the department stands ready to assist as needed.
Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

**Services to the Aging (OSA)**

Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the Genesee County

Health Department and MDHHS, has helped organize local meetings and distribute water and water filters. VAAA is an access point for receiving calls from homebound seniors who are not able to pick up water filters or need assistance installing water filters. VAAA reports they continue to receive calls from seniors who need assistance.

VAAA has distributed 2 bottles of water with each home delivered meal to each HDM client within the City of Flint. Water. VAAA also provided water to homebound seniors who needed water to prepare food as they had limited support to pick up bottled water. Congregate meal participants also have access to water and filters as needed. Once water filters were installed, VAAA discontinued including water with home delivered meals.

VAAA also contacted the Grandparents Raising Grandchildren program to ensure that they were aware of educational efforts and confirm the program had received water filters to distribute to program participants.

**State Police (MSP)**

A resource request was received to staff a Capitol Security Officer at the Collins Rd. facility from 0730 hrs until 1800 hrs on 1/10/16 only. An officer arrived at 1025 hrs and the facility will be staffed until 1800 hrs. This request was fulfilled.

A resource request was made to determine if the door to door operational hours should be expanded. Based on information received from Lt. Dehner it was determined the hours would remain 8:30 AM - 5 PM. Additionally, the Troopers assisting on this detail are to be used for security only.

A resource request was received to provide a security/safety briefing to the Water Resource Teams during the training scheduled at 1 p.m. on Monday, Jan 11 at DHHS Office. Specific items to include would be team safety, weather concerns, and any items determined important by MSP. Daily deployment briefings will be needed at 0830 at the GCCARD facility for all teams to include safety, security, and daily work assignments. The Recovery Branch Director will provide the daily work assignment to Lt. Dehner by 0800 hrs. Lt. Dehner will be responsible to assign one of the field personnel assisting the door to door operations to brief the group at the GCARD facility each morning. This resource request was assigned to the MSP REP.

The ICS 208 Safety Message/Plan was reviewed and driving information was added.

A safety briefing was provided to EOC and SEOC personnel during the briefing meetings.

**Technology, Management and Budget (MDTMB)**

Worked with University of Michigan Flint PIO for an area on the campus to conduct press briefings. Chancellor contacted and onboard with the state using their facilities as needed. Provided contact information to the JIC.

DTMB Real Estate Division located a warehouse facility within the city with 100,000 square feet that may be used.

DTMB Mail and Delivery Services drivers delivered water filters to drop off sites within the city. Drivers remained in the city and assisted with transporting of water throughout the day. DTMB has a driver and truck scheduled on Monday to pick-up additional 1,000 water test kits in Lansing and deliver to Flint. Mail and Delivery Services has four trucks/drivers available on

DTMB Telecom assisted in moving joint information center in the Flint Office Building telephones to larger room.

Printed 2,000 water informational flyers on Sunday morning to provide to churches. Purchased filters and replacement cartridges to ensure availability until large order arrives.

# Damage Assessment and Emergency Status Report

## Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

### Operational Period

| | |
|---|---|
| **Operational Period Begin:** | 01/11/2016 08:00:00 |
| **Operational Period End:** | 01/12/2016 17:00:00 |
| **Situation Report No.** | 4 |
| **SEOC Status:** | Full |
| **SEOC Hours of Operation Begin:** | 01/09/2016 08:00:00 |
| **SEOC Hours of Operation End:** | 01/09/2016 17:00:00 |

### Executive Summary

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Officer.

On October 1, 2015 the Genesee County Health Department declared a Public Health Emergency due to the elevated blood lead levels in citizens. In response to this the City of Flint declared a local State of Emergency on December 15, 2015 and activated their Emergency Operations Center.

To mitigate the effects of the new source of water on the infrastructure in the City of Flint, the city switched back to DWSD water on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is now treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of potential health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone.

MDHHS has increased surveillance of blood lead levels in children and is addressing water issues in environmental investigations to identify lead sources in the environment of affected children and provide health education and information to residents, health care providers, and daycare/educational institutions.

Local nonprofit organizations have provided potable water to Flint residents. MSP/EMHSD GIS staff is supporting county and local GIS staff by consolidating data from local sources into comprehensive databases and providing mapping services to support incident analysis and forecasting. Data and maps regarding the location of water pipes, affected schools, filter distribution locations, water monitoring results, and predictive blood lead levels for affected areas will be made available with demographics.
Before December 16, 2015, $9.35 million was provided by the State of Michigan and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While the source water has been switched back to DWSD, water in the City of Flint is still not safe to drink, unless specifically filtered.

On January 5, 2016, Governor Snyder declared a State of Emergency for the City of Flint and Genesee County. Genesee County requested the Governor's declaration on January 5, 2016, following the declaration of a State of Emergency in the county in response to the presence of lead in the public water supply and the detection of elevated blood lead levels exceeding governmental standards.

Since the declaration by the Governor on January 5th, the State Emergency Operations Center (SEOC) has been fully activated and working with local and state agencies to ensure a coordinated response to the incident. Since the activation, the SEOC has activated command staff, state agency EMC's, and implemented the Recovery Branch under the Operations Section.

SEOC Update:
Accomplished today (January 9):

- Logistics
o Worked with Red Cross to recruit volunteers at churches (obtained 2 per site).
o Obtained church addresses and passed them on to the county, DTMB, DHHS and GIS.
o Address cards have been developed and distributed to Flint Fire Department for tracking. Information from the address card is continuously being entered by MDHHS employee. Updates will be sent to SEOC Human Services POC throughout the day.
o Logistics is working with DTMB to get the door-to-door flyers printed. Once these are done, will work on getting those to Flint and distributed to teams.
o Printed cards for churches were provided to the DTMB drivers to deliver with the materials to each church on Sunday.
o Assigned various requests: supply truck to follow teams, trucks to transport teams and materials, security officer for EOC and for each team, long and short term storage options, plan for individuals not able to drive to return test kits, determine locations in Flint that already have large surplus of water on hand and have them deliver to food bank for distribution, identify method for getting address cards back from churches to EOC, and individuals at storage sites to serve as warehouse managers.
o Need to update POD boards from the local EOC, any resources should be requested from the SEOC.
o Set up direct bill at hotel in local area.
o Make sure information is being entered into MI CIMS.
o Reiterate to continue to request resources in MI CIMS.

- JIC
o Developed a door hanger with state agency PIO's and DHHS SME's for canvassing.
o Developed a single page sheet similar to the website for distribution.
o Released a press release today at 1pm establishing location of water resource sites.
o Tentative media briefing tomorrow at 2pm at Flint fire station.
o Trevor Hawks is working with the JIC on the door hanger.

- Recovery Branch
o Currently working on the overall plan for the door-to-door operations.
o Training has been confirmed for Monday to train teams deploying for the door-to-door operations scheduled to start Tuesday.
o Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
o Recovery Team hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m.
o Logistics are being worked out for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
o Will begin working with the local EOC first thing tomorrow to determine the areas of Flint to focus our efforts and work out the remaining details.

- Planning Section
o Objectives have been updated and SitRep will be distributed today.
o Facilitated three SEOC agency and local EOC briefs.
o Worked with FEMA LNOs on planning cycle and draft objectives.
o Completed Sit Rep and draft IAP and summary bullets for command.
o Completed draft ICS forms for branch chiefs to use to track tasks.

- Operations Section
o A third FEMA LNO arrived today to provide technical assistance.
o A 10:45 conference call was held with the Genesee County EOC, specifically state personnel, to discuss processes for the upcoming days.
o At this time, all 5 fire stations have received water, water filters, replacement cartridges and water testing kits with American Red Cross at each location to assist with delivery of resources and collection of addresses receiving them (data collection cards delivered by F/Lt. Gabe Covey).
o The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. Working on outreach for 1 additional church.
o A 3:30 briefing was conducted in the SEOC to provide status updates.
o As we advised you at 3:50, the County EOC has no support from the City of Flint. For smooth operations and the ability to serve the residents of Flint, a liaison is necessary in the EOC. This is also important to keep the Flint Mayor is appraised of activities being conducted in the city.

- Finance Section
o Continuing to track personnel resources located in the SEOC and local EOC for use in spend plan development;
o Located hotel in the Flint area for staff on travel status to stay and have bill send directly to SEOC.
Holiday Inn – Flint
5353 Gateway Centre Drive
Flint, MI
810-232-5300
Contact Finance Group Chief or appropriate State EM to set up initial stay and billing information.
o Monitoring resource request board for costs incurred by state agencies for inclusion in spend plan.

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Provide resources.
- Public Information Control.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):
- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites (Fire Departments), Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- MI CIMS password resets.
- Worked on map of franchise customers outside of Flint.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Tasks for Tomorrow (January 10):
- Update Distribution Map with new information.
- Update Filter Distribution map by Household.
- Complete Franchise Customers outside of Flint by zip code.
- Discuss a time to meet with U of M.
- Finalize plan for data distribution methods.

DTMB:
- Reached out to local EOC to find out what space is available for large media briefings.
- DTMB has truck and driver scheduled to pick up water kits on Monday at noon from the State Lab.
- Scheduled two drivers to assist in the delivery of water filters to churches on Sunday morning.
- Reached out to DTMB Real Estate for additional information on the warehouse facility.

DHHS-CH
- 2-1-1 Director successfully contacted. Has been put in contact with MDHHS PIO to discuss/resolve caller wait times and messaging.
- Spoke to Genesee County Emergency Preparedness Coordinator for situational awareness. Reiterated the importance of messaging at this time, from the calls that the LHD has received from the public regarding ongoing water and filter distribution.
- Had conversation with donation management coordinator for local EOC. They will be in route to local EOC, estimated arrival 3:00PM. They will check in with local logistics.

DEQ
- IMT will be arrived at EOC today.
- DEQ Laboratory personnel will coordinate with LARA on the Freeman Elementary faucet replacement plan.
- The lab will have 1000 narrow mouth bottles ready for pick up by Noon on Monday (1/11). Coordinating with DTMB and Recovery on pickup,

delivery and staging area.
• LARA will need to coordinate the school testing and Freeman Installation/Testing with DEQ Steve Busch 517-643-2314, buschs@michigan.gov and George Krisztian.
• Briefing provided to Chief Hagler days operations.

Local EOC Update:

• Identified resources needed/available to distribute to churches tomorrow, working with logistics at local level. Find GCCARD resource status level- Ops cleared up that the resources have been picked up by DTMB truck for tomorrow; SEOC logistics need locations where to take them. District Coordinator and DTMB will coordinate with driver for church drop locations and times.
• 9 churches have been identified at this time; currently the SEOC is still planning to have 10 locations. The last church will be identified by the SEOC.
• Red Cross volunteers will be utilized for church distribution as needed.
• Sheriff teams are established and working to canvas neighborhoods. The local EOC is working to establish a neighborhood priority for to ensure the recovery teams are not over lapping what the Sheriff teams have completed. POC from Sheriff is currently at the EOC. They will be updating activity log, updating data for GIS to develop a community grid and color coating the maps.
• EOC is working to ensure the consistency of forms the current teams are using and what teams will be using on Tuesday.
• EOC is initiating the process for volunteers and donations management, the local level is requesting further direction from the state on this process.
• SEOC DHHS Human Services staff had a conference call with local donations management and volunteer management POCs; they will be meeting Tuesday will local resources to develop understanding of what community groups are currently doing.
• United Way with support to help in the donations management process. Request by state staff in local EOC to have both individuals (donations and volunteer management staff) in the local EOC until sites are set up.
• Continue to ensure the local level is coordinating with the SEMC. Any information request coming from the SEOC to local level is per Capt./Executive Office.
• Identified a back log on updating who has received a kit in database. Per DHHS, local health department has been updating information when received.
• Donations Management to draft idea of plan (currently onsite), hopefully to have a plan today.
• DC working with ARC on the church drop off plans tomorrow. Working to have Red Cross in place prior to drop off.
• Have a request for water drop off at the churches as well. Do have access to water at Flint schools if the schedule drop off does not arrive.
• Working on the logistics plan in at the local level.
• Reception at the fire stations has been great, working on finalizing a logistics plan to do resupply if resources are depleted midday.

Request/Task Assignment Definitions
• Assigned: Currently waiting for review by Logistics Group Chief and designation to appropriate agency.
• Cancelled: Item or task is no longer requested.
• Complete: Resource or task assignment has been fulfilled.
• In Progress: Being reviewed by appropriate agency.
• Mobilized: Resource is currently being delivered to local area.
• Need Additional Information: Agency is working with requestor to obtain further information on task or resource.
• On-Scene: Resource is currently on site for use/distribution.

*Resource Requests*
• Assigned: No current outstanding assessments
• In progress: 12
o Additional water filter resources (7 requests total)
  30,000 additional filters
  20,000 bottles of water
o Long term storage
o Truck transport
o Environmental Testing and Consulting (ETC) Lead Investigator
o Data Collection Cards
o MDARD sampling kits- 500 requested
• Cancelled: None
• Complete: 4
o JIC Set Up
o 1,000 Water Filters/Cartridges
o Water supply at Fire Department
o Water Filters for Churches
• On-Scene: 4
o Genesee County Section Chief
o Genesee County IMT Coordinator
o Genesee County Planning Section Chief
o Genesee County Logistic Section Chief
• Need Additional Information: 1
o Water testing kit staging for 3,000 kits

Task Assignments
• Assigned: 2
o Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
o Activate JIC plans
• Cancelled- 2
o Activate the State Recovery Task Force (2 requests)
• Complete- 10
o Volunteer Management Team
o GIS Support Staff
o Research West Virginia Emergency Recycling
o Genesee County Healthcare Provider Contact Information
o JIC Email Accounts
o Provide technical assistance to the local Damage Assessment process
o Establish SEOC operational period and hours of operations.
o Safety Officer
o Activate donations Management Team
o Coordinate response and recovery activities with MIVOAD and identify potential mission areas
• In Progress- 15
o Monitor MI CIMS (2 assignments)

o Establish and maintain coordination between city, county, state, federal and subject matter experts
o Obtain and maintain situational awareness and common operating picture of all activities (2 assignments)
o Technical assistance for local damage assessment
o Volunteer assignment to assist at churches
o Development of four Recovery Teams
o Identify a collocated facility for JIC
o Coordinate response and recovery activities with MIVOAD and identify potential mission areas
o Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
o Develop a comprehensive GIS strategy
o Establish and disseminate cost center information for the incident
o Two additional positions for JIC
• Mobilized – 1
o Establish and maintain coordination between city, county, state, federal and subject matter experts

## Incident Response/Recovery Priorities/Objectives

1. Activate the State Recovery Task Force
2. Ensure coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate subject matter experts.
3. Obtain and maintain situational awareness and common operating picture of all activities.
4. Establish operational period and hours of operations.
5. Investigate and identify available programs for assistance with direct or related impacts.
6. Develop a comprehensive GIS strategy.
7. Identify critical resources for acquisition and allocation.
8. Coordinate response and recovery activities and identify mission areas with MIVOAD.
9. Facilitate and coordinate technical assistance among state agencies and to local agencies.
10. Provide technical assistance and facilitate the local Damage Assessment process.
11. Establish a Joint Information Center and develop a public information strategy.
12. Monitor MI CIMS for resource requests and address as appropriate.
13. Establish and disseminate cost center information for the incident.

## Weather Conditions

**Watches/Warnings**

Hazardous weather outlook: http://goo.gl/gfqwBg

**Upcoming Forecast**

Forecast Update for Flint, MI Area
• Winter Returns with snow, winds and very cold air Sunday through the work week.
• Time to frostbite from exposed skin will be 15 to 30 minutes for the entire week starting Sunday.
• Bottled water stored outside or not in temperature controlled locations will freeze due to temperatures well below freezing Sunday through the week.

Sunday (Jan 10):
Snow, cold, wind, and hazardous travel expected from early morning through the afternoon. The area could see 2-4 inches of snow. If the rain lingers late into Sunday morning, snow accumulation will be less.

Monday (Jan 11) and Tuesday (Jan 12):
Very cold and potentially icy roads due to snow and blowing snow. Hazardous road conditions are expected Monday and Tuesday which will cause a hazardous commute.

Wednesday (Jan 12) through Saturday (Jan 16):
Very cold with a few snow showers. Times to frostbite from exposed skin will be less than 30 minutes.

## Local Damage Summary

**Public Damage Totals**

**Private Damage Totals**

**Damage Assessment Summary**

## Agency Summaries

**Joint Information Center / Public Information Officer**

The Joint Information Center (JIC) was operational from 8 a.m. to 5 p.m. on Jan. 9. State agencies at the JIC included the Governor's Office, Departments of Licensing and Regulatory Affairs, Health and Human Services, Environmental Quality, and Michigan State Police.

Tasks accomplished during the operational period included:
- Issued JIC News Release No. 2 about the water distribution sites at select Fire Stations in the city of Flint.
- Managed inquiries on the JIC hotline about the ongoing situation, covering topics ranging from FEMA in the State Emergency Operations Center to where people or companies can submit donations.
- Began coordinating a media event for Sunday, Jan. 10, at one of the Flint Fire Station water distribution sites, including local officials.
- Drafted a media advisory for the Sunday, Jan. 10, media event, possibly at Fire Station No. 1.
- Created social media posts about the water distribution sites and the Flint water website.
- Continued development of a door hanger for the community outreach efforts beginning next week.
- Continued developing a public service announcement.
- Updated the www.michigan.gov/flintwater website.
- Staffed for the next operational period.
- Conducted a media monitoring report.

**Agriculture and Rural Development (MDARD)**

Two areas MDARD is monitoring:
1). Water usage in food processing, food retail, and food service (restaurants). Guidance document has been available since October; MDARD surveyed food processors in October and did not find issues.
2). *Water consumption by pets / animals.* There has been some evidence of lead toxicity in dogs, and there has been guidance about pets & water included in the Q & A.
Jan 7th 2016 4pm update:
MDARD and Genesee Local Health Dept. agreed to move guidance on water to a regulatory requirement. New language (after JIC approval) will be going out to retail food establishments and restaurants with follow up inspections and sampling. Planning will continue on logistics for sampling.
Jan 8th 2016 4pm update:
Animals - Shelter Director Paul Wallace has obtained some documents to help ascertain what entities (that are not tracked via licensing and registration) that would be housing animals: 1) All the City of Flint street (physical) addresses that are on City of Flint water, 2) All the "Out-County" (physical) addresses that are on City of Flint water. The Shelter Director is also pulling the possible animal holding/gathering facilities in reference to that listing which will provide the rest of the contacts. MDARD will be getting copies of all of these lists soon. Other shelters are not on City of Flint water.
Jan 9th 2016 4pm update:
*MDARD has received maps created by the SEOC GIS that locate the food service establishments.*
MDARD is identifying activities to date and providing coordination in development of strategy for a plan for public nutrition, education and availability together with MDHHS, MDE, and the Genesee Health Department. MDARD together with MDHHS identified a brief nutrition message to be included on the door-to-door hangtag being developed by the JIC.

**American Red Cross (ARC)**

Yesterday (Friday, 1-8-16) volunteers from the American Red Cross did accompany and support the sheriff's distribution team as requested. We also initiated a formal Disaster Relief Operation (DRO 608-16) before the end of the day yesterday. The DRO headquarters is established at the Red Cross offices in Flint at 1401 S. Grand Traverse and is activated.

Today (Saturday, 1-10-16) our volunteers are staffing distribution sites established at 5 Flint fire stations where supplies of water, filters, and water testing kits are available for residents to pick up. We were not requested to support the sheriff's distribution team today. Our DRO headquarters is working today to arrange to have volunteers at each of (up to) 10 churches where filters are to be distributed tomorrow. This will be in addition to continuing to staff the distribution points at the 5 fire stations.

**AuxComm**

Advised Red Cross, who were concerned about the number of available volunteers, that ARES in Genesee County may be able to help.

**Civil Rights (MDCR)**

Monitor and support agencies with issues surrounding outreach and engagement of marginalized populations within the City of Flint impacted by the current water crisis.

**Community Health (MDCH)**

CHECC remains at Activation Level 1 - Normal Operations, with 24hr Duty Officer

Request from GCHD for lead investigators working on environmental health investigations has been forwarded to State

Epidemiologist/Administrator and Environmental Health Division Director.

Spoke to Genesee County Emergency Preparedness Coordinator for situational awareness.

Tom Page, 2-1-1 Director, was successfully contacted. he was put into contact with MDHHS PIO to discuss/resolve caller wait times, prompting, and messaging.

**Corrections (MDOC)**

Administration for the MDOC has been notified and is updated on current situation. There are approximately staff members working in the affected area. Potable water has been provided to the offices in the affected area since the beginning of this situation and will continue to be provided. This water is available for people working there and those that have been required to go the office. We will continue to monitor this situation for any developing issues.

**Education (MDE)**

*MDE is monitoring the situation and coordinating as necessary with other state agencies.*

**Environmental Quality (MDEQ)**

*The Department of Environmental Quality (DEQ) Laboratory (lab) provided 1000 water test kits for stock at points of distribution .* 500 kits have been prepared for Department of Agriculture and Rural Development inspectors for pickup Monday morning. 1000 additional kits will be prepared for pickup Monday for supply for the teams scheduled to begin on Tuesday. Additional supplies continue to be ordered to provide for testing kits. DEQ lab staff are scheduled to provide training to the teams in Flint on Monday afternoon.

DEQ staff are coordinating with Licensing and Regulatory Affairs (LARA) for the implementation of the Freeman Elementary faucet replacement plan.

F/Lt. Wolf continues to fully support the State Emergency Operations Center as the DEQ representative coordinating department resources and capabilities and other duties as assigned by the State Director. DEQ staff are supporting local activities where needed.

**Human Services (MDHS)**

Participated in AM & PM State Agency briefings.
Completed 5 and updated the remaining resource requests.
Local MDHHS staff remain active in local EOC as human service lead.
MCSC serving as local volunteer coordinator.
MCSC serving as local donation management coordinator.
Confirmed avenue for people to volunteer.
*Confirmed avenue for people to donate.*
Confirmed filter allocation is still at adequate level for estimated resource requests.
Worked with Recovery on Door to Door plan. Confirmed MDHHS will have at least 10 volunteers next T- F for door to door work.
CHECC remains at Level 1 Activation - Normal Operations

**Licensing and Regulatory Affairs (LARA)**

LARA's proposal for a pilot faucet replacement program for Freeman Elementary School was approved.

Working on putting together a list of what the next steps are with tasks to be completed.

Coordinating with DEQ to complete additional testing at Flint schools.

**National Weather Service (NWS)**

Jim Maczko from NWS Grand Rapids will participate in morning SEOC briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac.

**Natural Resources (MDNR)**

MDNR is fully participating in all SEOC activities. Situational awareness is being maintained and the department stands ready to assist as needed.
Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

**Services to the Aging (OSA)**

Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the Genesee County Health Department and MDHHS, has helped organize local meetings and distribute water and water filters. VAAA is an access point for receiving calls from homebound seniors who are not able to pick up water filters or need assistance installing water filters. VAAA reports they continue to receive calls from seniors who need assistance.

VAAA has distributed 2 bottles of water with each home delivered meal to each HDM client within the City of Flint. Water. VAAA also provided water to homebound seniors who needed water to prepare food as they had limited support to pick up bottled water. Congregate meal participants also have access to water and filters as needed. Once water filters were installed, VAAA discontinued including water with home delivered meals.

*VAAA also contacted the Grandparents Raising Grandchildren program to ensure that they were aware of educational efforts and* confirm the program had received water filters to distribute to program participants.

**State Police (MSP)**

Resource Request Received to establish a Safety Officer at the Genesee County EOC. Lt. Amy Dehner has been assigned by 3rd

District Command and has reported to Local EOC.

Request for troopers to attend training event that will be provide information on filters, replacement filters, water test kits, and operations on Monday, 1 p.m., at the DHHS Office at 4809 Clio Road, Flint 48501. One squad of on-duty troopers are requested to be in attendance in a community service role. Duration of this assignment will be for approximately 1 hour. This request is being coordinated by Lt. Dehner at Local EOC. Troopers have been identified and contacted directly by Lt. Dehner and provided with information for this request.

Request for four troopers in uniform and patrol vehicle to work with volunteers in a community service role in the affected area beginning Tuesday, Jan 12, 2016. This operation will be ongoing and the end date has not been determined. Hours of operation will be 8:30am - 5pm daily. Meeting place will be GCCARD at 2727 Lippincott Boulevard, Flint 48507. This request is being coordinated by Lt. Dehner at Local EOC

MSP Public Affairs has activated MSP PIO F/Lt. Dave Kaiser as the MSP PIO at the Local EOC.

**Supreme Court**

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

**Technology, Management and Budget (MDTMB)**

Provided update to management on morning briefing.

PIO requested that the co-located JIC at the state office building phones be moved to the larger meeting room and they will use the smaller room to meet with media when needed. DTMB Telecom will make the switch Monday morning. PIO also requested a large space in the city to conduct large scale media briefings. Contacted UM Flint Campus's facilities director for possible options.

Facility found (3,000 Sq. Ft.) that could be used as a distribution point for water, filters and cartridges if needed. MSP to provide guidance next week if space will be needed.

DTMB Mail and Delivery Services driver picked up pallets of water, filters, cartridges and testing kits and made deliveries to fire stations on Saturday. Two drivers will report back to Flint on Sunday to deliver the remaining filters to churches for distribution. DTMB to provide a driver and truck to pick-up an additional 1,000 water test kits in Lansing and deliver to Flint on Monday.

# Damage Assessment and Emergency Status Report

## Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

### Operational Period

| | |
|---|---|
| **Operational Period Begin:** | 02/09/2016 08:00:00 |
| **Operational Period End:** | 02/16/2016 08:00:00 |
| **Situation Report No.** | 36 |
| **SEOC Status:** | Full |
| **SEOC Hours of Operation Begin:** | 02/10/2016 08:00:00 |
| **SEOC Hours of Operation End:** | 02/10/2016 20:00:00 |

### Executive Summary

SEOC Update:
Accomplished today (February 10, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Fielded resource requests.
- Fielded Rapid Response requests.
- Fielded Governor's office request.
- Facilitated distribution team calls.
- Attended long term recovery meeting.
- Coordinated water order with FEMA.

JIC:
- Media hotline staff answered less than 10 emails and phone calls, ranging from the news media asking to embed with sentinel teams to inquiries about why schools in Flint were not tested for lead until October 2015.
- Key state agency PIOs attended the Governor's proposed FY2017 budget and Gov. Rick Snyder's media roundtable in Lansing.
- Continued routing public information materials for approval, including an updated recycling flier and a breast feeding and lead exposure fact sheet from MDHHS.
- Issued a press release about the state of Michigan launching new streamlined services for residents, with new testing sites to help confirm water quality.
- Drafted a press release about the next steps to take after the city of Flint issued a water warning on February 9, 2016.
- Drafted social media posts about ongoing Flint water emergency, including U.S. Small Business Administration's Flint Business Recovery Center and the American Red Cross and United Way playing a crucial role coordinating volunteer effort.

Recovery Branch:
- Attended Local Brief, SEOC State Agency Briefing Meetings, Distribution Process Meetings, and Tactics Meeting.
- Merged lists compiled from various agencies in to one master Access and Functional Needs (AFN) List.
- Met with Distribution Meeting participants regarding possible courses of action related to Boil Advisory and replacement cartridge distribution.
- Team Priority Visited Today: Active Water Subscribers without filters marked vacant or no contact.
- Team Priority Scheduled Tomorrow: Active Water Subscribers without filters marked vacant or no contact.
- 10 American Red Cross Teams scheduled for Wednesday, February 10, 2016.
- Data is for 2/10/16 as of 5:00 pm:

o Total homes visited:
  19,271 (round 3 total).
  302 (today).
o Water cases (liters calculated by multiplying # of cases x 12):
  134,316 liters or 11,193 cases (round 3 total).
  2,628 liters or 219 cases (today).
o Replacement cartridges:
  4,251 (round 3 total).
  136 (today).
o Faucet filters:
  7,369 (round 3 total).
  29 (today).

Planning Section:
- Participated in state, local, and distribution process meeting.
- Published Sit Rep #36.
- Worked with Distribution Process group to strategize the impacts of the boil water advisory.
- Worked to update daily data report.

Operations Section:
- Continued to monitor the Flint City water main break, the repair progress and its cause.
- Assisted in working on a plan of action to replace all filter cartridges once the boil water advisory is lifted.
- Met with United Parcel Service (UPS) re: delivery of replacement filter cartridges to functional and mobility needs citizens.
- Led the Local Agency briefing and State Agency conference call.
- Participated in the Distribution Process meeting.

- SEOC State Agency Briefing:
- Warehouse Numbers as of 1800:
  Water (liters):
- 582,536 liters or 48,544 cases.
  Filters (faucet):
- 49,520.
  Replacement cartridges:
- 378,140.
  Test Kits (prepped):
- 18,886.
- PODs (1700 2/7 – 1600 2/10):
  Water (cases):
- 48,048 liters or 4,004 cases.
  Filters (faucet):
- 125.
  Replacement Cartridges:
- 257.
  Test kits:
- 108.

Finance Section:
- Reviewed cost reports received from state agencies to see if additional information is needed.
- Requested additional cost information from state agencies.
- Reviewed current cost data from state agencies that have submitted information.
- Updated Resource Request Information.

GIS Branch Updates:
- Water Sampling Results Mapping.
- Daily Data Pulls.
- Daily JIC Map.
- Daily Parcel Pairing & numbers to Ben Geiger.
- Boil Alert Map.
- Addressed matching of at-risk elderly with high lead test result addresses.

DTMB:
- Continued to provide DTMB management with daily updates and resource requests received.
- Provided expenses to date to include personnel overtime from January 6 through February 6, 2016 to the Financial Chief.
- Coordinating equipment delivery for Pierson Road warehouse.
- Reconciled expenditures to-date for record keeping.
- Requested to acquire two replacement 16-20 foot trucks with 6 foot lift gates to replace two vehicles that have broken down to assist with water distribution.

DHHS-CH:
- The CHECC remains active at a Level 2, and continues to staff the hotline to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to work with federal partners in the UCG on prioritized requests for assistance.
- The State Chief Medical Executive, Dr. Eden Wells, conducted a webinar today for healthcare professionals in Flint that focused on pregnancy and breastfeeding. The peak number of people/sites in attendance was 42. Positive feedback was received, particularly on the discussion portion of the webinar. The recording was sent to the MDHHS PIO, and will also be available on the flint water website and on MI-TRAIN.
- Continue to provide clarification in reference to the teams that are visiting homes in Flint. MDHHS is accompanying DEQ on the Initial Assessment Teams that are visiting homes that have tested high in copper and/or lead.

DEQ:
- Coordinated message of filter cartridge for local media dissemination.
- Deployed Sentinel water sampling collection crews and began data collection.
- Provided the Director's Office with data to respond to the Congressional Committee of Energy and Commerce information request.
- Tracked progress of data collection at Sentinel water sampling sites.
- Met with Director's staff for clarification of EPA's 2/8/16 memo on compliance deficiencies and began preparing a response.
- Reviewed incident objectives to determine activities for the upcoming week.

State Voluntary Agency Liaison (VAL):
- Continued meeting with FEMA, county and city to develop distribution transition plan.
- Met with Seventh Day Adventist for transition of warehouse #2.

Unified Coordination Group (UCG):
- EPA: Additional team to provide Residual Chlorine testing (2 teams today).
- HSTF: Returning to a programmatic/recovery stage and providing support from DC not in the UCG.
- HMTF: Public Health Support Team of 7 transitioning out today. Working to capture work products and setting up continued sustainment at the state level. Two nurse case workers starting today.
Mental health team here until the 14th working to bring in new team.
- WQTF: Discussion of state/federal messaging regarding the water main break in addition to the City's.
- EPA: 1,000 samples collected at over 150 homes. Sequential testing at several homes today.
- GCHD: Requested clear understating of expectations of county and has concerns on whether their staff can perform this task.
- USDA: Announcing official response to the state's request for expanding WIC funds for blood level. Testing support and expanding program up to the age of 10.
- HUD: Made contact with 100% (2,350) private residences that receive HUD assistance, all have filters installed. Public housing starting today with housing commission to test all properties within a week. Using in-house staff.

Local EOC:
- Incident Command, Liaison Officer and Logistics Section Chief discussing long-term distribution plans with representatives from City of Flint and SEOC in Lansing (on 02/09, 02/10 and 02/11/2016).
- Elevated Lead and Copper Initial Assessment Task Force out in the field, visited 6 homes (provided information at 8 additional homes).
- Ten Sentinel Site Monitoring Teams out in the field, visited 30 homes (provided information at 50 additional homes).
- Expecting increased demand for bottled water and filter cartridges due to Boiled Water Advisory in response to water transmission line break. Aligning additional supplies for appropriate resupply at Fire Station PODs.
- Managing donations and volunteers with Michigan Community Service Commission, ARC and United Way of Genesee County.
- Coordinating rapid response deliveries to homebound residents and special locations.

(Objectives are in order of priority with original objective number attached)

12. Develop and implement a comprehensive long term recovery and transition plan.
11. Ensure accurate tracking and accounting of all donations.
5. Continue to maintain adequate staffing to support operational requirements.
10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.
9. Enhance situational awareness and common operating picture of all activities.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
3. Improve and maintain the public information strategy and process.
6. Develop an overview of possible assistance programs.
4. Develop a long term public health and services plan.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.
1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.
2. Ensure accurate tracking and accounting of all commodities.

## Local Damage Summary

**Public Damage Totals**

**Private Damage Totals**

**Damage Assessment Summary**

## Agency Summaries

### Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 9. The JIC was operational until 9 p.m. on Feb. 8.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Agriculture and Rural Development, Environmental Quality, Health and Human Services, and Natural Resources. The Genesee County Sheriff's Office was also present.

Tasks accomplished:

- Media hotline staff answered less than 10 emails and phone calls, ranging from inquiries about state costs incurred due to the Flint water emergency to testing dogs for lead toxicity. Media inquiries have continued to decline.
- Created a morning and afternoon media monitoring report.
- Created a Daily JIC Activities email to catalog actions completed for the day and planned for the week to keep all key agency PIOs aware of actions.

• Issued a news release about the role of the American Red Cross and United Way in coordinating volunteers.
• Issue a news release about the state's outreach to blind residents to help ensure access to information and resources.
• Shared the updated resource guides for water donations and recycling with 211.
• Continued updating and revising internal and general talking points to better reflect ongoing information.
• Continued routing public information materials for approval, including a newsletter article from the Michigan Department of Corrections and a Lead Toxicity fact sheet from MDARD.
• Continued discussions on drafting a news release to announce high-lead and copper teams that are beginning operations this week.
• Continued to post information on the www.michigan.gov/flintwater website, especially facts sheets and fliers in Spanish, Arabic, Mandarin Chinese and other languages.
• Held a 2:30 p.m. legislative and congressional conference call involving updates from key state agencies to talk about ongoing operations and activities.
• Revised staffing needs for next two-week period to reduce number of PIOs needed. Working to have staffing for February 16 – 26 by Thursday.

**Agriculture and Rural Development (MDARD)**

MDARD's field activities for 2/9/16 included:
• 2 food establishment assessments conducted (both follow-up) and 2 in use water samples collected
• 5 water sample requests/appointments were scheduled
NOTE: There was a break in the water main at the Flint Water plant, so staff were unable to collect the majority of planned water samples today.

As of 2/8/16, MDARD has completed a total of 331 food establishment assessments (263 initial/68 follow-up). 231 establishments are verified to be in compliance (70%). All high and medium risk firms have had an initial assessment. 196 water samples have been collected and 137 are currently scheduled. Data is now being auto-calculated, resulting in reduction in total assessments reported on 2/5/16, but is now a more accurate count of total assessments.

The food establishment list with assessment, sampling and test results has been combined and mapping activities are underway.

MDARD has a conference call on February 10th at 8:30 am with stakeholder groups, including MSU, MDHHS and Genesee County to provide an update on current lead testing plans for dogs and to explore funding options and other assistance to provide additional testing.

The keep your pet safe from lead poster was posted on the FlintWater website (attached). A veterinarian guidance document was finalized today and will be posted as soon as possible.

**American Red Cross (ARC)**

The American Red Cross deployed 10 Water Response Teams on Tuesday, 2/9/16, to attempt contact at those residences where no one had yet answered the door.

The Volunteer Reception Center (VRC) was in operation today, from 9am to 5pm. The VRC will be operating from 9-5 again on Wednesday.

**Civil Rights (MDCR)**

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Maintaining media awareness regarding situation and community activities. Reviewed foreign languages documentation.

**Community Health (MDCH)**

The CHECC remains active at a Level 2, and continues to staff the hotline to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to work with federal partners in the UCG on prioritized requests for assistance.

Discussed concerns from LEOC regarding MDHHS staff accompanying DEQ on home visits. The CHECC contacted the LEOC and confirmed that MDHHS will send one staff member per day (more are available if requested) to serve on the DEQ "Initial Assessment Teams," visiting homes with high levels of lead and/or copper. A pool of MDHHS staff were trained today for this purpose.

Provided CHECC leadership with information regarding USDA VIP visit from the Food, Nutrition and Consumer Services Deputy Under Secretary Dr. Katie Wilson, who will be visiting Flint tomorrow, to include a stop at a local WIC clinic.

MDHHS held a conference call with the Michigan Pharmacist Association and other community pharmacy members to discuss the potential role of pharmacies in the Flint response efforts. Options will be explored in regards to blood lead testing, communications, and nutritional counseling.

Confirmed with DEQ that the DEQ laboratory will be open, operational, and able to process Coliform lab analysis from the EPA from Friday through Monday, since the GCHD laboratory will be closed for a furlough, the weekend, and the holiday.

**Corrections (MDOC)**

MDOC continued operations at both warehouses with warehouse 2 opening as scheduled. All PODs were well supplied during the entire operational period.

MDOC continues to keep trucks dedicated to delivering to individual PODs and have Rapid Responses ready for any POD that gets to a critical level of supplies.

MDOC had employees on the ground in Flint today.

In an effort to reduce overtime costs we are working on completing a critical staff review. All dedicated resources will be reviewed to determine if it is feasible to reduce staffing in lieu of volunteers wherever possible.

We are working with Finance and MDOC assets to capture total employee payroll information and expenditures.

**Environmental Quality (MDEQ)**

*The Department of Environmental Quality (DEQ) completed the following activities today:*

Continued coordination of Sentinel Sampling Team resources with partner agencies, to begin data collection tomorrow

Worked with DEQ lab to assure they are prepared, if necessary, to receive water samples for bacteria testing due to water main break.

Updated tracking sheet of requested data by Congressional Committee of Energy and Commerce.

Reviewed upcoming deadlines from EPA Order tracking spreadsheet.

Coordinated putting together sentinel site teams .

*Briefed updated Incident Objectives to reflect activities for the upcoming week.*

**Human Services (MDHS)**

Looking into filtration system for a child care institute, possibly through donation.

Donation details being entering into MI CIMS.

211 reporting that the number of calls related to Flint was down to 10.5% for Feb 1 - Feb 7.

Daily update conference call with MDHHS Budget & Field Operations.

**Licensing and Regulatory Affairs (LARA)**

Participated in briefings and updated the LARA Executive Team
LARA completed mapping at the International Academy of Flint and created a materials list.
LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.
Translation services for various documents continue to be provided as needed.
Ongoing discussion regarding coverage of state regulated facilities and elimination of duplication of effort.

**Military and Veterans Affairs (DMVA)**

Commanders Situation Report (SITREP)

1. DTG: 0913002016

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN)

3. POC:Ssg Gazzeny, Darryl L. :mail: armyinfantry31@yahoo.com

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5. SITUATION OVERVIEW: 1-125 IN has Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs).Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently 1-125 IN has Soldiers on ground supporting the mission.

7. *OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations* and track all distribution incoming and outgoing through the PODs.

a. POD 5 has two generator lighting units from MDOT. All PODs now have sufficient lighting.

1. Fuel cans and the utilization of station 5 fuel pump is being requested through city of Flint liaison.

b. 4 Detroit Piston players will be purchasing food and visiting the POD Soldiers in appreciation of their assistance to Flint.

b. Signs have been printed off for the POD Buildings. Requesting approval to get the signs laminated from the purchasing office.

1.) TF Flint OIC, 2LT Benke, will be seeking approval from CPT Bowles and Dana and/or Kim at the purchasing office for laminating.

8. PERSONNEL: Soldiers are currently assigned to the POD operations . Soldiers are assigned in five teams at Fire Stations 1, 3, 5, 6 and 8.

9. INTELLIGENCE / FORCE PROTECTION: Water main at Dort highway near I475 has broke causing massive flooding. Water has been shutoff in respected areas therefore increasing water request at POD locations.

10. LOGISTICS: In support of TF Flint

a. The order for a pallet of rock salt from the state purchasing office should arrive at warehouse COB 09Feb2016.

11. COMMUNICATIONS: No communications issues at this time.

P: RRF cell phones alternate for WRTs.
A: Personal cell phone
C: 800 MHz radios issued to PODs and WRTs.
E: Runner

12. NARRATIVE: N/A

13. COMMANDER'S EVALUATION:
• AAR and operational notes are being consolidated into SOP's to send to JOC to assist in updating the All Hazards Plan.
• An operational handoff packet including SOP's, POC's, POD sector sketches, hand-receipts, and other operational notes is being built to assist the incoming unit.
• OUT (last 24 hours)
Bottled water-6422 Water (Gallons)1160 Lead Testing Kits-250
Pitcher (23 cup)-0 Brita Faucet Filter-134 Brita Replacement Cartridge-190
Pur Filter-52 Pur Replacement Filter-255

**National Weather Service (NWS)**

NWS Detroit providing morning SEOC brief and Activity Log posts. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

**Natural Resources (MDNR)**

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

**Services to the Aging (OSA)**

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make referrals to the Genesee Co. EOC for water and filter follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

**State Police (MSP)**

DEQ contacted MSP reference providing telephone numbers for approx. 400 residences in Flint for Sentinel site sampling efforts. DEQ was advised MSP is unable to provide information.
****Valencia Jones - SEOC OPS Public Safety MSP - jonesv4@michigan.gov at 14:58:30 on 2/8/2016****

The MSP position within the SEOC will be staffed at MSP Operations at HQ. All e-mails to MSP-EOC-MDSP@michigan.gov are being forwarded to the Operations Lt. The phone number for the on duty Operations Lieutenant is 517-241-8000

**Technology, Management and Budget (MDTMB)**

Continue to provide DTMB management with daily updates and resource requests received.

Contacted DTMB Risk Management regarding injuries at warehouses.
Coordinating equipment delivery for Pierson Road warehouse.

**Transportation (MDOT)**

Providing staff to Pierson Rd. warehouse.

Providing 2 portable light tower generators to Fire Station #5 on Western Rd.

Providing traffic measures at Fire Station #6 on Pierson Rd. and Fire Station #3 on Martin Luther King Blvd:
-4 (3' x 5') standard signs (2 each site)
-100 grabber traffic cones (narrow reflective cones) (50 each site).

Continuing to maintain situational awareness and responding to issues regarding equipment and road conditions.

**Incident Related Images**

## Planning maps

1) merge V2 data sets
2) update paper entry dataset
3) update Elderly data sets
4) make permanent tables for V2 + V1 data bases
5) Redo frequencies, no PODs
6) remove old datasets/mxds from S drive
7) Update Procedures for daily map

www.esri.com

**Procedures for Daily products**

**8:00am AGOL Field Team Data of previous day for Recovery Unit:**

1. Login to City of Flint AGOL using our MSP login information
    a. City of Flint AGOL: https://flint.maps.arcgis.com
    b. Username: msp_seocgis
    c. PW: Flint1012016#
2. Go to My Content
3. Under Folders, find and open the CollectionFormV3 folder
4. Click on the Flint Tracking Sheet V3(Type: Feature Layer)
5. Export to CSV
    a. Add date and time of export to CSV name
6. The export will create a new object in AGOL. Download the file then delete the object that was created.
    a. Download -> Save File -> Extract file from Download folder in browser
7. Filter data so that only Field Team records are included.
    a. Filter out the following values in the Creator column:
        i. 'msp26_seo', 'msp27_seo', 'msp28_seo', 'msp29_seo', 'msp30_seo', 'msp34_seo','msp47_seo', 'msp49_seo', 'msp53_seo', 'msp62_seo', 'msp64_seo', 'msp65_seo', 'msp66_seo', 'msp69_seo', 'msp73_seo', 'msp79_seo', 'msp80_seo', 'msp82_seo', 'msp84_seo', 'msp85_seo', 'msp87_seo', 'msp89_seo', 'msp90_seo', 'msp91_seo', 'msp92_seo'
8. Save file
    a. Name file Flint Canvas Tracking_DATE_TIME
    b. Location: S:\TSU\GIS\1_Drills_Exercises_Events\Events_Incidents\2015-10-01-City of Flint-Water Contamination Shortage\AGOL Data
9. Repeat steps 2 through 7 for "Flint_Data_Entry" located in the "Data Entry Form" folder to get listing from paper forms from the field or data that errored from the app
10. Email file to Recovery Unit (federalseoc@michigan.gov)

**4:45pm AGOL Field Team Data for Recovery Unit:**

1. Login to City of Flint AGOL using our MSP login information
    a. City of Flint AGOL: https://flint.maps.arcgis.com
    b. Username: msp_seocgis
    c. PW: Flint1012016#
2. Go to My Content
3. Under Folders, find and open the CollectionFormV3 folder
4. Click on the Flint Tracking Sheet V3(Type: Feature Layer)
5. Export to CSV
    a. Add date and time of export to CSV name
6. The export will create a new object in AGOL. Download the file then delete the object that was created.
    a. Download -> Save File -> Extract file from Download folder in browser
7. Filter data so that only Field Team records are included.
    a. Filter out the following values in the Creator column:
        i. 'msp26_seo', 'msp27_seo', 'msp28_seo', 'msp29_seo', 'msp30_seo', 'msp34_seo','msp47_seo', 'msp49_seo', 'msp53_seo', 'msp62_seo',

h. Locate and drag Flint_Data_Entry onto the map
i. Add the following definition query to the layer:
    i. "COLLECTED_DATE" > date '2016-01-12 23:59:59'
j. Export the data to: T:\TSU\GIS\1_Drills_Exercises_Events\Events_Incidents\2015-10-01-City of Flint-Water Contamination Shortage\AGOL Data\AGOL_Data.gdb
    i. Save the new layer as Flint_Data_Entry_Paper_asOf_Date_time
k. Add new layer to map in the Received Filter/Pitcher (From Response Team Only) group and remove the service layer and corresponding previous day layer
    i. Use same symbology as other layers in this group and remove this layer from the legend
l. Add the following definition query to the new layer:
    i. FILTER_QTY > 0 OR PITCHER_QTY > 0
    ii. Above query filters out records that do not have a filter or pitcher distributed

4. Save and export to PDF calling it currentdate_Team_Assignment_Areas_noTable
    a. Save PDF to: T:\TSU\GIS\1_Drills_Exercises_Events\Events_Incidents\2015-10-01-City of Flint-Water Contamination Shortage\Maps_Graphics\Wall Maps\ARC_MSP_Team_Assignment_Areas\Daily_Team_Assignment_Areas_PDF
5. Spatial Join updated layers to CityOfFlintSections:
    a. Spatial join V3 layer to the CityOfFlintSections:
        i. Right click on data layer
        ii. Joins and Relates→select Join
        iii. Select: Join data from another layer based on spatial location
        iv. Choose the CityOfFlintSections layer
        v. Choose the first option in 2. (it falls inside etc...)
        vi. Save output to S:\TSU\GIS\1_Drills_Exercises_Events\Events_Incidents\2015-10-01-City of Flint-Water Contamination Shortage\Parcels.gdb\Join_Output
            1. Replace/overwrite V3_Join_To_Sections
    b. Spatial join Data/Paper Entry layer to the CityOfFlintSections:
        i. Right click on data layer
        ii. Joins and Relates→select Join
        iii. Select: Join data from another layer based on spatial location
        iv. Choose the CityOfFlintSections layer
        v. Choose the first option in 2. (it falls inside etc...)
        vi. Save output to S:\TSU\GIS\1_Drills_Exercises_Events\Events_Incidents\2015-10-01-City of Flint-Water Contamination Shortage\Parcels.gdb\Join_Output
            1. Replace/overwrite Paper_Join_To_Sections
6. Run frequencies/statistics on V3 and paper join layers:
    a. Search for the Summary Statistic Tool
    b. For V3_Join_To_Sections:
        i. Input Table: V3_Join_To_Sections
        ii. Output Table: S:\TSU\GIS\1_Drills_Exercises_Events\Events_Incidents\2015-10-01-City of Flint-Water Contamination Shortage\Parcels.gdb\V3noPODSsection_Freq_date
        iii. Statistics Field(s):
            1. Field: FILTER_QTY_GIVEN Statistic Type: SUM
            2. Field: PITCHER_QTY_GIVEN Statistic Type: SUM
        iv. Case Field:
            1. TwspSect

c. For Paper_Join_To_Sections:
    i. Input Table: Paper_Join_To_Sections
    ii. Output Table: S:\TSU\GIS\1_Drills_Exercises_Events\Events_Incidents\2015-10-01-City of Flint-Water Contamination Shortage\Parcels.gdb\PapernoPODSsection_Freq_date
    iii. Statistics Field(s):
        1. Field: FILTER_QTY Statistic Type: SUM
        2. Field: PITCHER_QTY Statistic Type: SUM
    iv. Case Field:
        1. TwspSect

7. Create Summary Table for distribution:
    a. Open the FieldTeamTotals_20160121.xlsx spreadsheet (Located: S:\TSU\GIS\1_Drills_Exercises_Events\Events_Incidents\2015-10-01-City of Flint-Water Contamination Shortage\Maps_Graphics\Wall Maps\ARC_MSP_Team_Assignment_Areas)
    b. Save copy of this with new date
    c. Sort the spreadsheet by TwspSect so that TwspSect starts with 4001
    d. Replace the V3Filters column totals for each TwspSect with the corresponding total from the SUM_FILTER_QTY_GIVEN column in V3noPODSsection_Freq_date table created earlier
    e. Replace the V3Pitchers column totals for each TwspSect with the corresponding total from the SUM_PITCHER_QTY_GIVEN column in V3noPODSsection_Freq_date table created earlier
    f. Replace the PaperFilters column totals for each TwspSect with the corresponding total from the SUM_FILTER_QTY column in PapernoPODSsection_Freq_date table created earlier
    g. Replace the PaperPitchers column totals for each TwspSect with the corresponding total from the SUM_PITCHER_QTY column in PapernoPODSsection_Freq_date table created earlier
    h. The FilterSum, PitcherSum, and Total Filter/Pitcher Distributed (Response Team Only) columns will re-calculate their values as you update V3 and paper numbers
    i. Once all the numbers have been updated, sort the spreadsheet by Team Area so that Team Area starts with 1
    j. Hide columns so that only the following are showing:
        i. Team Area
        ii. Total Residential Structures
        iii. Total Filter/Pitcher Distributed (Response Team Only)
        iv. Total Vulnerable Population
    k. Save
8. Add the Summary Table with only the 4 columns showing to the map
    a. Delete the previous table in the bottom right corner of map and replace it with your new table
    b. I copy and pasted the table to Paint then cropped it and saved it as a PNG. I then added it as an object to the map in ArcGIS Desktop but if there's a better way, go for it.
    c. Paste the table in a draft email so that it can be sent with the pdfs a few steps down
9. Save and export to PDF calling it currentdate_Team_Assignment_Areas_wTable

a. Save PDF to: T:\TSU\GIS\1_Drills_Exercises_Events\Events_Incidents\2015-10-01-City of Flint-Water Contamination Shortage\Maps_Graphics\Wall Maps\ARC_MSP_Team_Assignment_Areas\Daily_Team_Assignment_Areas_PDF

10. Print Wall Map size of map with table (using Plotter and Size E)
11. Attach both map pdfs to the draft email that has the table.
    a. Add something similar to the following to the email body (below is just an example): "The updated daily planning wall maps are attached. There are two version of the map, one with the table of metrics and one without. The table of metrics is below."
12. Send email to Recovery Unit (federalseoc@michigan.gov), Ken Koleda (KKoleda@co.genesee.mi.us), MSP (msp-eoc-mdsp@michigan.gov), and Lauren Twohig (lauren.twohig@redcross.org)
13. Provide printed wall map to recovery unit

Daily Public Map to JIC/PIO:

**WARNING*** THIS MAP AUTO PULLS DATA AND SHOULD ONLY BE USED BETWEEN 1700 AND 1900

1. Daily map sent to JIC/PIO for public distribution located at:
    a. S:\TSU\GIS\1_Drills_Exercises_Events\Events_Incidents\2015-10-01-City of Flint-Water Contamination Shortage\Maps_Graphics\Display
    b. Name: DailyFlintWaterResponseActivity_SidebySide.mxd
2. Live feature layers will top out at 20,000 features. Check "old data" from feature services to see if this cap has been reached. If so, copy the entire feature service to a new layer and query out two separate date sets
3. Check to make sure dates updated and there are no errors
4. Save map
5. Export as pdf AND eps format (JIC needs both types)
6. Send pdf to msp-opsc@michigan.gov

Change channel for TV in Pit:

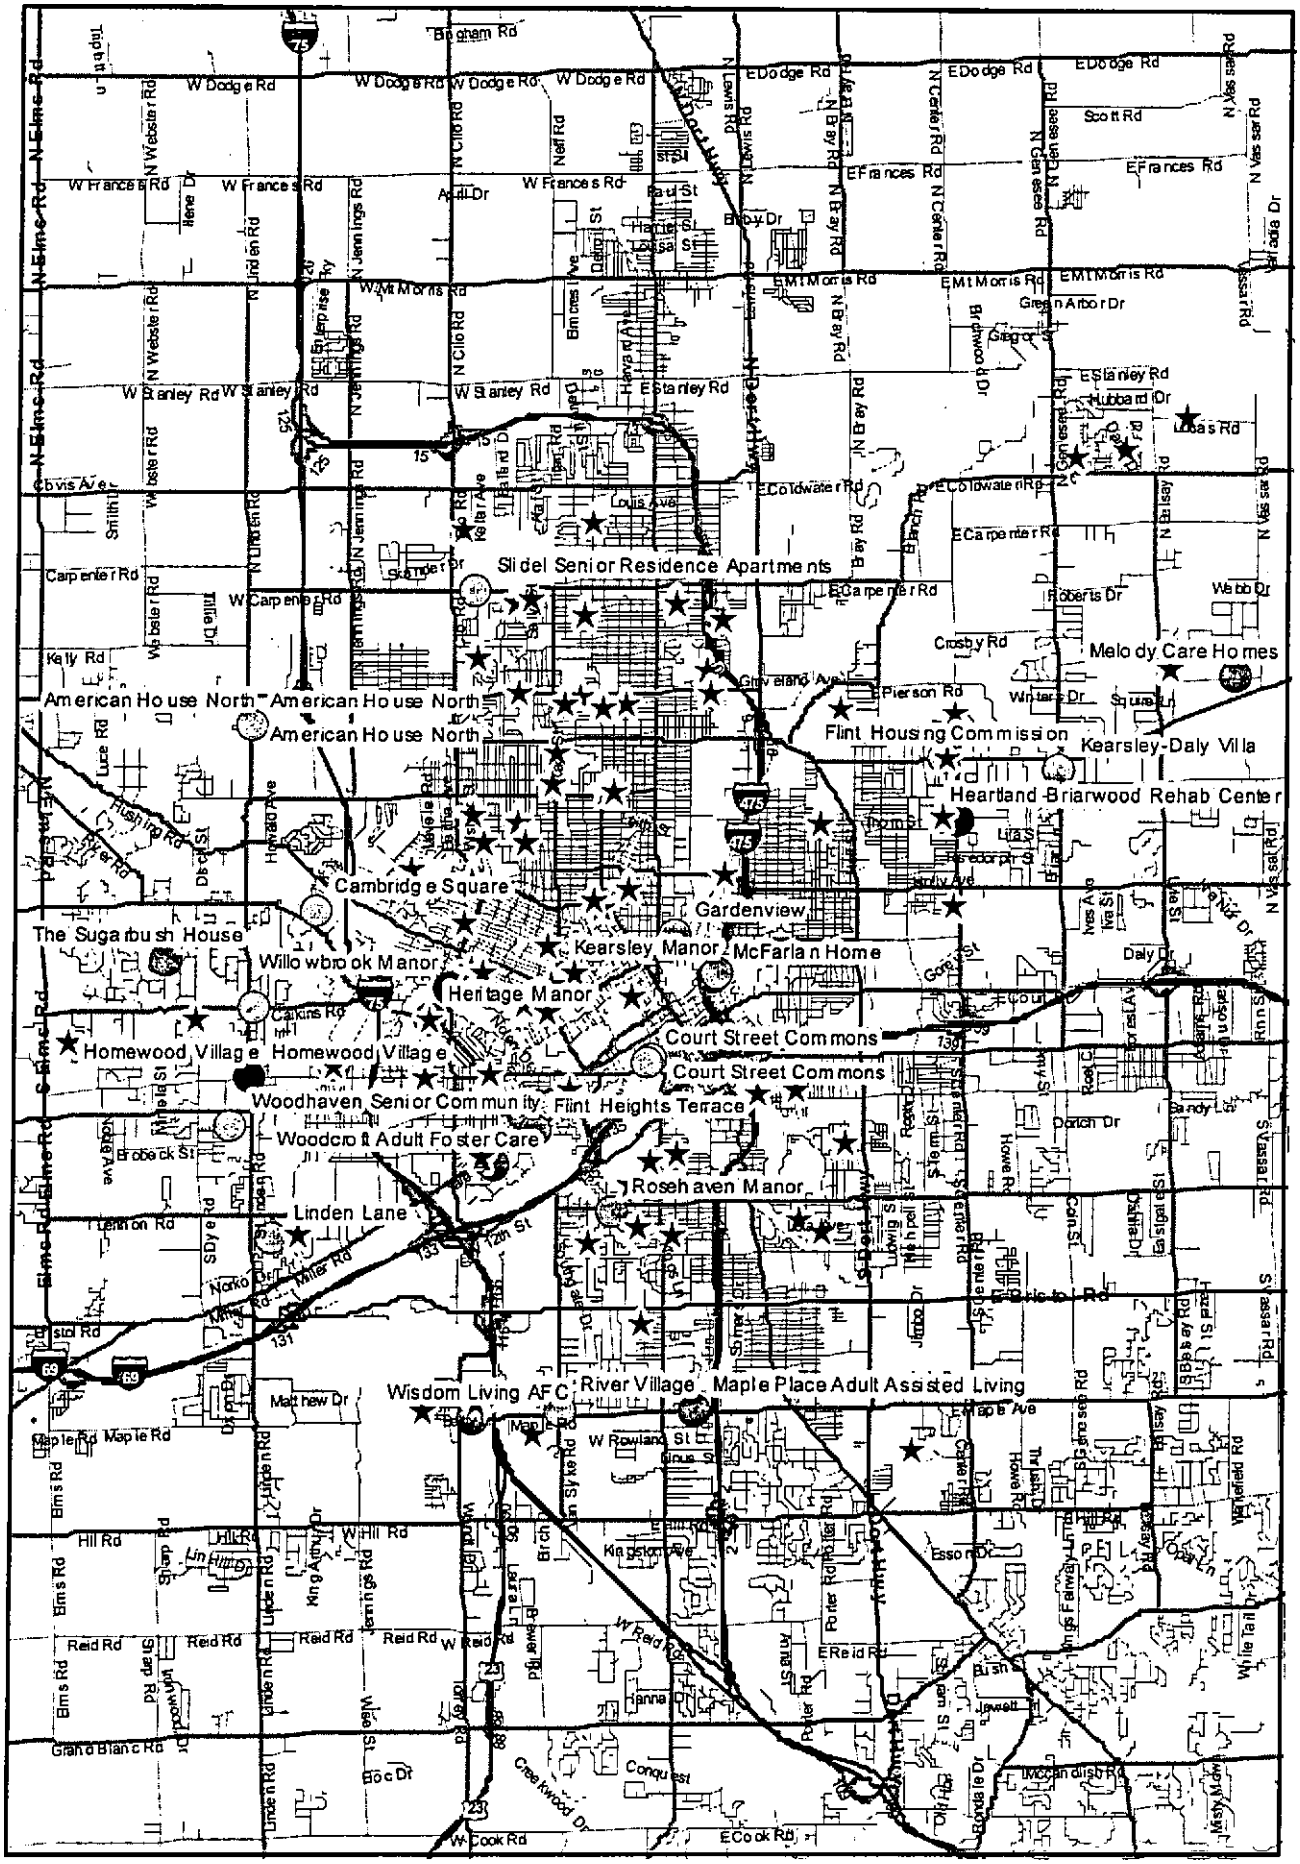
**Every night the TV resets to the WNEM channel. Around 9am almost every morning, this channel changes from news to random shows. Channel should be changed to CNN when this happens.

1. Go into server room (**WATCH OUT FOR POWER CORDS**)
2. Locate the thin black box on the floor right near the door
3. Unplug the black HDMI cord
4. Plug this cord into the small TV screen in the left rack
5. Turn on the TV using the power button on the top left of the screen
6. In a few seconds, the TV should display whatever was on the big screen in the pit
7. Using the grey/white remote, change the channel to CNN (Channel 202) or to whatever channel you are requested to change it to.
    a. Make sure to point the remote towards the bottom of the rack to the left of the rack containing the small TV. This is where the cable box is located.
8. Turn the TV off and unplug the HDMI cord.
9. Plug the HDMI cord back into the middle of the small black box on the floor.
10. The big TV in the pit should display the new channel in a few seconds.
11. Close the server room door

To control TV in Pit:

1. The remote control for the big TV in the Pit is located in the top shelf of the 3 shelf black file organizer in between MSP-SEOCGIS2 and MSP-SEOCGIS
2. Use this remote to control volume and turn TV on/off

# Vulnerable Elderly Citizens



**MSP-SEOCGIS**

**From:** Katarsky, Anthony (MSP)
**Sent:** Saturday, January 23, 2016 10:45 AM
**To:** MSP-SEOCGIS; MSP-SEOCGIS2
**Subject:** Action Items

Following are directives from Capt Kelenske that require immediate attention. If you require clarification, please let me know.

-I need the map with all the test data we received from DEQ. I provided a map before but I also need the data with it so the Governor has it. Jen Wolf was providing me bullets as to what the data means and what it may not mean -- what concerns do we have with the data (e.g. We are relying on the citizens to provide us the sample ... Did they follow the right procedures.). Not sure she sent it to me yet.

Do we have blood lead level data maps? From testing?

-The numbers of homes on the system needs to be firmed up:

- 26,673 water subscribers in Flint (not including franchise).
  **We need the franchise numbers included.**
  - § Water Subscribers with a Filter = 15,399 (57.7%)
  - § Water Subscribers without a Filter = 11,274 (42.2%)
    With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.
    **What exactly is this number? Does it include homes that are habitable and just do not have tenants? I need more information on this number to put more context to it. 42% is a lot but if 20% are vacant homes waiting for a tenant than that changes things.**
- 11,471 Non-Water Subscribers in Flint. **What does this mean in laymans terms? What is a non subscriber? How do they get their water if they do not subscribe?**
  - § Non Water Subscribers with a Filter = 2,196 (19%)
  - § Non Water Subscribers without a Filter = 9,275 (81%)

I need more analysis done on the numbers so we can provide solid information to the Governor.

Supply Unit Notes
~~Monday~~ Feb 25 - March 4

2/25/16
We need to add to Donation Management - MICIMS
Name of receiving Manager @ Warehouse
- Shawn
- Bonnie
- Anothony

2/26 Yon Brey - if you receive an email of FOIA Project but don't need to do anything with it) you do not have to include it in your FOIA spreadsheet. If you forward the email or reply (working with it) you need to copy it for your - FOIA spreadsheet

NOTE There are now 2 Pipelines. Had to create 2nd Pipeline because 1st Pipeline ran out of space ~~to~~ Because of FOIA we cannot delete any worksheets.

- 1st sheet called 2015-10-01-City of Flint - Water Contamination Shortage
- 2nd sheet called - 2015 10-01-City of Flint - Water Contamination Shortage - Warehouse Continued 2-26-16. The 2nd sheet will be warehouse #'s only!

Pipeline - is now a excel sheet

2-27-16 - Distribution Meeting

- PODs - not doing Rode Side Service -
  - 1-gallon jugs - disposed of (Donated)
  - they have been - sealed - adulterated
- ARC - 6 routes - done today - or tomorrow
  - 2 weeks - 1 week only - only 200 left
  - not on HFM - list =
  - husband & wife - duplicate - answer the questions
  - BAAA - list from Chris →
- Chris Em - ERV - look at list - due the response to it -

Southern Baptist - 5 trucks - Change over -

- current on list
- people on each team

2/29/16

- 10:30 Meeting
- 6:30 meeting - no update

☆ Ask Bonnie if the Water Donation from Warehouse 2 is a donation or was water moved to Warehouse 1?
See 2/29 Bill of Lading
☆ The Clio 2/29 Water Donations need to be entered in MICIMS

3/1/2016

Sorted through MICIMS january pile. Encountered lots of emails that I'm not sure how to record in MICIMS.

3/3/2016
NOTE IMPORTANT!
- Send a copy of all handwritten notes to the FOIA coordinator every Friday!

- 10:30 Distribution Process Mtg - no update

**Commanders Situation Report (SITREP)**

1. DTG: 0412002016

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN)

3. POC: 1LT Roland, John G. ( Email: john.g.roland2.mil@mail.mil

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5. SITUATION OVERVIEW: 1-125 IN has Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs).Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently 1-125 IN has Soldiers on ground supporting the mission.

7. OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs.

a. Traffic outside of Stations 1, 5, and 8 still remains an issue.

1.) Traffic signs are in place at Station 5. Flint City Engineering is currently working on Stations 1 and then 8.

b. POD 5 is still waiting for an update on the capabilities of additional lighting at Station 5.

1.) The Flint City Administrator has denied the request for additional lighting at Station5.
POD 5 work Through JOC for lighting

c. Signs have been printed off for the POD Buildings. Requesting approval to get the signs laminated from the purchasing office.

1.) TF Flint OIC will be seeking approval from CPT Bowles and Dana and/or Kim at the purchasing office for laminating.

8. PERSONNEL: Soldiers are currently assigned to the POD operations. Soldiers are assigned in five teams at Fire Stations 1, 3, 5, 6 and 8.

9. INTELLIGENCE / FORCE PROTECTION: No Force Protection intelligence at this time.

10. LOGISTICS: In support of TF Flint

a. In support of recycle project sponsored by Schupon, the special purpose recycle bags have not been distributed to POD operations.

1.) Logistics is expecting the recycle bags to be on the PODs for distribution within the next 48hrs.

b. The current hotel reservation at the Holiday Inn Flint – Grand Blanc Area is only through 12FEB16; our last reserved night is for 11FEB16.

1.) JFHQ JOC is working to resolve the hotel issue.

11. COMMUNICATIONS: No communications issues at this time.

P: RRF cell phones alternate for WRTs.
A: Personal cell phone
C: 800 MHz radios issued to PODs and WRTs.
E: Runner

12. NARRATIVE: N/A

13. COMMANDER'S EVALUATION:

- AAR's, award recommendations, station sector sketches and operation/logistical information & capabilities, hand receipt consolidation, and TF Flint hand-off documents are all being consolidated and organized to ensure a smooth transition of the POD operation once the 1-125 IN BN cycles out.
- We still have not been informed of any plan to resolve this issue. LTC Randall (SEOC LNO) mentioned we might be splitting between two hotels in Flint. I would recommend we keep TF Flint consolidated in one hotel if possible; driving in from Birch Run daily to allow us all to stay in one hotel is preferable to splitting amongst two hotels within Flint.
- OUT (last 24 hours)

ALCON,

It seems there might have been some miscommunication in regards to POD hours of operations. Over the past week, multiple people have either asked for my opinion in regards to POD hours of operation or have told me there were conversations being held in regards to changing the POD COB from 2100 hours to 1900 hours. We have continued to operate from 0900-2100 hours and do not plan on changing the POD hours of operation until further guidance comes down in regards to the issue.

Between my own observation and input from the POD NCOIC's, I would recommend we push up thought the proper authoritative channels that the POD COB be changed to 1900 rather than staying open to 2100. Below are the reasons why I believe we should set POD COB to 1900 hours:

1. After 1900, POD activity slows greatly and the numbers of cases of water and filters distributed decreases greatly as seen on hourly reports and end of day consolidated tracker. Additionally, the warehouse has stopped delivery to the PODs by this time to begin preparing for the next day, thus, our immediate supplier of water and filter products has 1. Already stocked the PODs for the night, and 2. Stops POD operations. Lastly, the LEOC and SEOC civilian agencies, including Flint PD, have ceased POD operation support by this time. Thus, the PODs themselves are the only piece of the water distribution process still occurring past 1900 and it is occurring at an insignificant rate of output.

2. Morale - Allowing the PODs to shut down 2 hours earlier would allow for a morale boost in many ways. Many of the soldiers have spouses visit but cannot have their children visit due to the late hour of COB. Also, many soldiers PT at night and having the additional time to PT would greatly increase morale as well as provide them with both time to PT and the opportunity to get to bed earlier.

3. Safety - Even with the improvements to lighting and traffic control at the PODs, working at night increases the chance of injury due to darkness, and, lowering temperatures resulting in freezing conditions further endanger both soldiers and citizens.

4. It has been brought up that by giving the soldiers of TF Flint more time at night that it may increase the time and opportunity for them to get in trouble, however, I do not foresee this being an issue. We have had no disciplinary issues and the hotel bar, where most of the TF soldiers socialize while off duty, has told me that our soldiers have been polite and have caused no issues at all. Additionally, a 10 hour work day given the type of work will still be tiresome, thus, I do not foresee an additional 2 hours of free time at night allowing our soldiers to find trouble.

We will remain operating the PODs from 0900-2100 hours. If there are any updates in regards to the matter, please let myself know as well as 1Lt Roland in the LEOC. If there are any questions or concerns please let me know.

**6. Work Assignments:**

Critical Task: Disburse water resources to the impacted community through points of distribution. Hours of operation: 0900-2100

Tactics:
1. Identify and report resource shortfalls and limitations.
2. Coordinate redistribution of supplies per Logistic Support Plan.
3. Identify local EOC POC, PAO and provide contact information to EMHSD personnel at the local EOC daily.
4. Report hourly inventory numbers to SEOC Resource Unit Leader, per Logistic Support Plan.
5. Ensure water resources are appropriately tagged to prevent resale or return.

**7. Special Instructions:**

12 individuals per POD to support operations. Additional LT and SGT will be rotating between stations with Admin and support personnel.

Contact numbers for each POD listed above is a government phone and will be staying at each POD even though teams will switch.

LNO will be on site at the local EOC daily. MING will be in the SEOC daily available at 517-333-4633 or at the JOC

**8. Communications** (radio and/or phone contact numbers needed for this assignment):

| Name/Function | Primary Contact: indicate cell, pager, or radio (frequency/system/channel) |

**To:** 'Randall, Chad D LTC USARMY NG MIARNG (US)'
**Subject:** RE: Finanace

The person here who needs the information is

Burgerp@michigan.gov

She is not getting the information from MSP, and she is the one who is compiling all the financials for the operation.

If you could add her to the distribution for the financials, that would be great. Again, she needs the information by COB on Wednesday. You could also e-mail it to me and I will provide it to her.

Thanks

Rob

By the way, the word from the LEOC is that Hillary will be stopping by a POD at some point today. No one know what POD or when.

Subject: [Non-DoD Source] Finanace

Good Morning,

Finance is requesting a breakdown of our expenditures by COB on Wednesdays. Who do we have that is tracking our expenditures so that I may touch bases with them to get the information the State requires to forward to the Feds.

Currently they are operating of an estimate that you provided to them several weeks ago, but they would like more complete information.

Thank You.

Planning Meeting 1 Feb 16

- Consider reducing POD hours until 1900 6 Feb 16
- Signs use up for 3-6 still working other sites Lt Benke and local EOC seems to have things in hand standing by, if there is anything else we can do
- notes are being consolidated to establish SOP ~~for~~ for when and if we hand off operations
- new ware house is preping to go into operation
- DHS still fielding claims that we are resisting (withholding) support from some populations (undocumented etc)?

12

# Evening Switch over notes

- I have the LEOC e-mailing the SITREP here now, For some reason though it popped up in the Junk Mail

- At the evening distribution process meeting they had a question as to when the orders for the guys in Flint end. We need to check w/the LEOC (I think they would be the best place to find out) in the morning.

→ 19th - 18th Last Day →

- Hillary to Stop by a POD 5ST GAZNY
- DODS Alltime low Distribution

MFS 12-6 Wz

Sentinel Teams - 10 - DEQ

BurgerP@Michigan.gov

- Define vacant lots 7 nothing Lanes
- Security to Warehouse 2

# Evening Switch Over Notes

- I know you gentlemen know about the CUB at 0815, in addition to that we also attend the 1030 and 1830 Distribution process meetings in the SEOC conference room - The 0930 and 1600 SEOC briefing take place right there on the EOC floor.

- The LEOC usually sends the SITREP between 1200-1300 it sometimes comes up in the Junkmail folder so check that as well. to post it go to WebEOC click SEOC situation report - Agency list, go to DMVA Hit edit record before putting in new info check archive and hit save. Hit edit record again ~~cut~~ clear old info cut and paste in the new info hit save

- If for any reason you need a map for POD location go to WebEOC click Point of distribution (POD) click map by any of them. The map that comes up has all of them.

- only ongoing "issue we have" is Fuel for the M-DOT Lighting systems (see e-mail Print out for traffic)
- anything else you can reach me at 769 450-1426 — enjoy

# Night Shift turn over

- biggest thing we have going is the water main break in Flint. A boil water warning has been issued (even filtered water) and people being who ~~the~~ they are we expect high demand for boiled water. I have alreade sent a heads up to the POD's and LEOC and have talked to the warehouse, they say they have us covered. I told Lt Benke not to hesitate to call if he needs anything

- POD 5 still has no key to the diesel pumps Voice mails have been left for the fire chief but no reply yet Lt Roland says they ~~have~~ estimate they have enough fuel to get through the 11th (2 more days)

- POD 5 also had a little issue w/sewage backing up into the locker rooms but last I heard the city had sent a plumber so it should be handled

have fun gentlemen

**6. Work Assignments:**

Critical Task: Disburse water resources to the impacted community through points of distribution. Hours of operation: 0900-2100.

Tactics:
1. Identify and report resource shortfalls and limitations.
2. Coordinate redistribution of supplies per Logistic Support Plan.
3. Report hourly inventory numbers to SEOC Resource Unit Leader, per Logistic Support Plan.
4. Ensure water resources are appropriately tagged to prevent resale or return.

**7. Special Instructions:**

12 individuals per POD to support operations. Additional LT and SGT will be rotating between stations with Admin and support personnel.

Contact numbers for each POD listed above is a government phone and will be staying at each POD even though teams will switch.

LNO will be on site at the local EOC daily. MING will be in the SEOC daily available at 517-284-3914 or at the JOC 517-481-8031.

**8. Communications** (radio and/or phone contact numbers needed for this assignment):

| Name/Function | Primary Contact: indicate cell, pager, or radio (frequency/system/channel) |

Plan Needs LEDC Ownership of the Process Written INTO the Process

## Long-term Distribution Plan

Drive-up and Walk-up POD Distribution

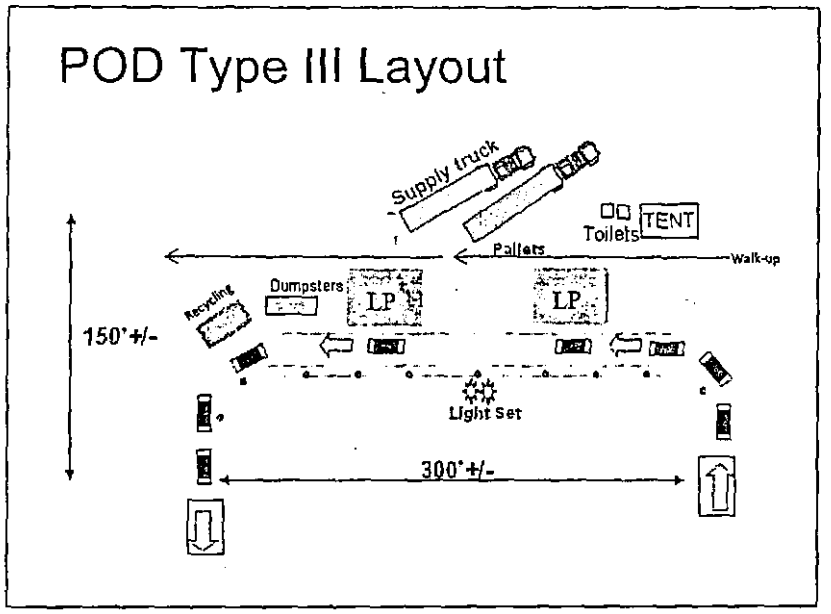
Points of Distribution (POD) Concept – Long term POD establishment based on the distribution of population per City Ward. Some PODs may be placed on the border of neighboring Ward's. Physical location to be determined after site visits by MSP/EMHSD. *This plan will be implemented to replace the* existing PODs located in the City of Flint Fire Stations. Some of the new PODs may be co-located with HUBS that the Food Bank of Eastern Michigan along with local partners being establishing in the Flint area. This plan is also scalable base on community needs.

POD Operations

1. Location
    a. One POD would be located in each of the existing city Wards.
        i. Site selection would be completed by a MSP/EMHSD liaison officer. *(Lt. Roach, Jay Eickholt)*
        ii. Some PODs may be co-located with Food Bank of Eastern Michigan Hubs.
            1. Most Food Bank of Eastern Michigan Hubs will be located at faith based institutions. This would aloe for cross over volunteers from the host location to volunteer at the PODs along with the local hires.
        iii. PODs would be located in a paved parking lot with ample ingress and egress for vehicular and pedestrian traffic.
            1. At a minimum two curb cuts from the public roadway would be needed to allow for incoming and outgoing traffic.
            2. Sites should be near an established Mass Transit Authority (MTA) bus stop.
                a. MTA would add these into the existing transportation routes as they have for the Flint Fire Department PODs.
        iv. Memorandums of Understanding (MOUs) may be needed with any of the POD locations, completed and signed by March 1, 2016. *(MSP Legal, Jay Eickholt)*
            1. Site locations would require unrestricted access to the area and be allowed to erect non-permanent structures and stage equipment long term.
                a. The POD hours of operation would not be subject to change or modification without consent by the Michigan State Police, *Emergency Management and Homeland Security Division* approval.
                b. POD activities are priority over any other events or activities. *Events or activities will not be allowed interfere with the* operation of the POD.
            2. Sites would also need to be maintained parking surfaces that would withstand the use and staging of equipment (box trucks, dumpsters, heavy traffic).
            3. Sites would need to be well maintained throughout the year including:
                a. Snow removal
                b. Pot hole filling
                c. Other emergency maintenance
        v. Minimum size of potential POD locations is defined by the FEMA Independent Study course 26 (IS26).

Remove MSP/EMHSD Put Local EM

1. All sites should meet the minimum qualifications.
    a. 150 feet by 300 feet
        i. Vehicle Line – 20 feet wide
        ii. Loading Point – 80 feet by 40 feet each
        iii. Supply Line – 50 feet wide
    b. All PODs will have a separate walk-up line that is placed between the supply trucks and the loading points.
        i. Marked with cones and separated from vehicle traffic.
    c. Diagram provided below of tentative site layout. *(National Guard, Local Hire Team Leaders)*



2. Hours of Operation
    a. Operational period for the PODs would be Monday through Saturday.
        i. Church distribution would be supplementing the Sunday distribution.
    b. Uniform hours across all PODs would be essential for clear and concise messaging.
        i. Monday, Wednesday, Thursday and Saturday hours of operation are 12:00PM to 6:00PM
        ii. Tuesday and Friday hours of operation are 12:00PM to 8:00PM.
3. Staffing
    a. For detailed position-specific parameters see Attachment A: Staffing/Equipment Needs: POD. *(Brianna Briggs, MI WORKS)*
    b. Supply Truck Drivers, see Attachment B: Staffing/Equipment Needs: Warehouse
        i. Supply truck drivers will report to the warehouse. *(Brianna Briggs, Brent Travelbee)*
    c. Local jobs program staff would be restricted to 35 hours of work with five hours of training. A tentative list of training includes, but is not limited to:
        i. All local hires would be required to complete basic 800 mHz radio training.

ii. *Training* may be Incident Command System (ICS) training, Occupational Safety and Health Administration (OSHA) training, fork truck safety and operation, training on inventory/ resource tracking component, or computer literacy courses. *(MI WORKS)*

1. IS-100.B Introduction to Incident Command System (ICS-100)
2. *(Suggested)* IS-700.A National Incident Management System (NIMS): An Introduction
3. *(Suggested)* IS-230.D Fundamentals of Emergency Management
4. IS 26 Guide to Points of Distribution
5. IS-27 Introduction to FEMA Logistics
6. *(Suggested)* IS-632.A Introduction to Debris Operations
7. *(Suggested)* IS-393.A Introduction to Hazard Mitigation
8. *(Suggested)* IS-403 Introduction to Individual Assistance
9. *(Suggested)* IS-643 Introduction to FEMA's Public Assistance Program
10. IS-241.B Decision Making and Problem Solving
11. IS-242.B Effective Communication
12. *(Suggested)* IS-552 The Public Works Role in Emergency Management
13. *(Suggested)* IS-558 Public Works and Disaster Recovery

d. All POD staff would be required to complete a beginner training for safe work practices and be briefed on any standard operating procedures. The MING currently has standard operating procedures for the POD operations at the fire stations.

4. POD Operational Overview
   a. *Support Team Leader is responsible for the overall management of the POD see* Attachment A: Staffing/ Equipment Needs: POD, for more details.
      i. Position will be the link between the POD and warehouse(s) for all inventory and shipment requests.
      ii. Position will be responsible for the management of the daily set-up and take down of equipment.
      iii. Position will be the responsible position for signing out and signing in of all handheld equipment, as listed in Attachment A: Staffing/Equipment Needs: POD.
      iv. Support team leaders will be assigned to a specific Flint Fire Station POD once hired to observe and receive training from the National Guard.
         1. Training at the POD will be augmented by warehouse training and simulated POD set-up at the warehouse.

   b. Administrative Support Specialists are responsible for the tracking of outgoing commodities.
      i. Position will be proficient in the data management system.
      ii. Position will be responsible for ensuring households that come to the POD are on the Flint Water System by verifying their unique identifier or address is no unique identifier is present.
      iii. Position will communicate with Loaders on what items each household should receive.

   c. Recycling Support Specialist is responsible for the collection of filled recycling bags and distribution of new bags and assisting with curbside recycling sign-up.
      i. Position will collect filled recycling bags from the household at the POD and deposit them into the recycling collection point.
      ii. Position will hand out prepackaged recycling bags.

b good

1. Pre-packaging of recycling bags will be completed by the Volunteer Reception/ Management Center. *Completed packages will be stored at* the warehouse for distribution to all PODs equitably.

iii. Expansion of the existing recycling system to assist with signing up for curbside recycling.

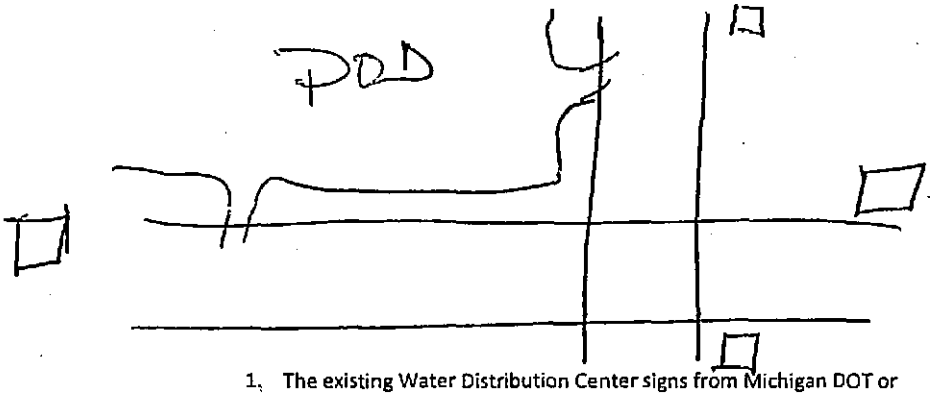
d. Traffic Controller is responsible for traffic flow for vehicles and pedestrians through the POD.
   i. Position will setup the traffic lanes daily to comply with the established POD layout.
   ii. Position will direct incoming deliveries as to not impact the pedestrian and vehicle traffic.
   iii. Position will ensure all pedestrian and vehicle traffic stays within the marked lanes.

e. Loaders are *responsible for distribution of commodities of Flint Water System* subscribers through coordination with site Administrative Support Specialists.
   i. Positions will handout commodities as directed by the Administrative Support Specialists.
   ii. Position will be required to assist with keeping the loading points organized and depositing any refuse in the proper locations.

f. National Guard will augment any staffing shortages during the transition period prior to *the PODs being fully staffed with local hires.*

? from the Fire houses

5. Equipment for POD Operations
   a. Supply truck needs are detailed in Attachment B: Staffing/Equipment Needs: Warehouse. *(Brent Travelbee, Wendy Galbreath)*
   b. Equipment for each POD is detailed in Attachment A: Staffing/Equipment Needs: POD. *(Brent Travelbee, Wendy Galbreath)*
   c. Inventory for the PODs
      i. All PODs will be full service offering water, water filtration systems, water filtration system replacement cartridges, and water testing kits.
         1. A maximum of 15 pallets of water may be expected to distribute at each POD daily.
         2. Each PODs inventory would be controlled by the Support Team Leader.
            a. *When supplies are low they will be responsible for contacting* the warehouse to order a shipment from the resupply trucks.
            b. Each POD will have two trucks loaded each morning. Both trucks should report to the POD by open time (daily at 12:00 PM).
            c. *Trucks shall be unloaded one at a time. Once the first truck is* empty, it will return to the warehouse for resupply, while the second truck continues to supply the POD.
            d. The two trucks would continue to cycle to the warehouse for resupply as needed throughout the day.
      ii. All water, water filtration systems, water filtration system replacement cartridges, and water testing kits will be supplied from the state warehouse(s).
   d. Signage for the POD *(Eileen Phifer, Wendy Galbreath)*
      i. "POD Ahead" – This sign provides directions to inbound customers in locating the entrance to the POD. There can be multiple signs placed away from the POD to give the estimated distance to the POD.



1. The existing Water Distribution Center signs from Michigan DOT or *similar source can be reused for this purpose,* a total of 18 would be needed.

ii. "Enter" – this sign directs customers to enter at the correct points for vehicle and pedestrian lanes.
   1. Michigan DOT or similar source would produce 18 of these signs, nine for vehicles and nine for pedestrian traffic.

iii. "Loading Point" – Each loading point should be marked so that customers know *to stop for materials to be loaded.*
   1. Michigan DOT or similar source would produce 27 of these signs. Two per POD for vehicle loading and one for pedestrian pick up zone.

iv. "Exit/Do Not Enter" – This marks the vehicle lane exit. It is also important to clearly mark the opposite side of the sign with "DO NOT ENTER".
   1. Michigan DOT or similar source would produce 18 "EXIT" and nine "DO NOT ENTER" signs for the PODs.

e. Site Safety and Security *(MPSCS, MSP Communications)*
   i. All PODs will be required to notify the warehouse of any safety concerns.
      1. Utilizing 800 mHz radios staff will relay all necessary information to the warehouse.
         a. See Attachment F: Communications Plan for more detailed information.
      2. Warehouse personnel will send law enforcement, EMS, or fire *representatives* to the POD, as needed.
         a. In the event of a life threatening situation call 9-1-1.
   ii. POD staff shall wear proper footwear.
      1. Steel toe or at a minimum safety toe work boots.
   iii. POD staff shall wear appropriate clothing at all times at the worksite.
      1. POD staff shall not wear anything that includes any items that are excessively short or long, loose or tight, worn, frayed, advertise, or *promote anything inappropriate.* Spaghetti straps or cut-off shirts, plunging neckline, or low cut that exposes cleavage, or any clothing that exposes midriff or undergarments, sweat pants or athletic pants/shorts are prohibited.
   iv. Reflective safety vests must be worn at all times by POD staff.

6. Household commodity consumption monitoring.
   a. Utilizing a mobile electronic/ web-based tracking system each POD would record the *commodities given to each household. (Ryan Mckee, DTMB)*
      i. DTMB is currently researching potential options for this tracking mechanism.
      ii. This would be the responsibility of the Administrative Support Specialists at each POD.
   b. Each household would be given a unique identifier card (or similar). *(Ryan McKee, DTMB, Flint Water Department)*
      i. Each card would track in real time what commodities were picked up and at what time, except for water.
         1. Water inventory and output would be monitored at the POD by the overall quantity that is given out, not on a specific household basis.
      ii. When presented at each POD the card or unique identifier would be scanned by the Administrative Support Specialist.

Comment [JE1]: Formula funds? MSP Distribution center?

Comment [JE2]: Check with Action Management or MIWORKS for any guidance.

1. Once scanned the Administrative Support Specialist would confirm the household is eligible to receive commodities from the POD.
2. Loaders would distribute the desired items into the appropriate vehicle.
3. Water will always be offered to all Flint Water System subscribers.
    a. Households would be allowed to receive no more than two cases of water per day at a POD. *(This section requires Command approval prior to implementation)*
        i. Special considerations may be made at the discretion of the POD workers, ie. Medical needs, large family, or travel restrictions.

c. If the customer on the Flint Water System does not have their unique identifier card with them, they may present any form of identification that lists the address for the individual (City of Flint Water Bill, driver's license, personal identification card, student identification card, etc.). *(This section requires Command approval prior to implementation)*
    i. The POD Administrative Support Specialist would be able to manually input the address and search for the correct household on the Flint Water System.
d. The database system is capable of monitoring abuse of the system.
e. The database system would allow for real time data computation.
    i. At a minimum a weekly report should be generated on the total amount of each commodity given out at the POD.
f. The warehouse(s) would be able to monitor inventory of each POD.

7. Event based volunteers
    a. Event based and spontaneous volunteers who show up at the PODs would need to be directed to the Volunteer Reception Center.
        i. The Volunteer Reception Center is hosted by the American Red Cross.
            1. Address is: 1401 South Grand Traverse Street, Flint, MI 48503.
    b. Volunteers would be able to be inserted into the established POD structure.
        i. Once trained they could work alongside POD staff to help distribute commodities.
        ii.
8. Transition from Flint Fire Station PODs
    a. Michigan National Guard (MING) will continue to staff the Flint Fire Station PODs until March 16.
        i. Starting as early as Wednesday, February 24, nine local hires will be embedded with the MING to observe how to operate a POD.
            1. These nine local hires will transition into the role of Support Team Leaders for each POD.
            2. The Support Team Leaders will be in the fire station PODs until the time that the new PODs are established.
        ii. MING may be used at the new PODs as Loaders or Traffic Controllers if the current mission is extended, and additional staffing is needed to supplement the local jobs program. It is currently intended for the local jobs program to complete hiring for the PODs by March 23.

Rapid Response

9. Rapid Response Team Makeup
    a. Nine Rapid Response Teams would be staged at the state warehouse(s).

~~w/ multiple loading points~~
~~is one Admin spec check~~
~~cards enough?~~
~~Potential bottle neck~~

LEOC?

Absolutely NOT.

ADD- while the Fire Station PODs are Open,

b. Each Rapid Response Team would be comprised of (detailed description is in Attachment C: Staffing/Equipment Needs: Rapid Response):
    i. Driver
    ii. Plumbing Apprentice
    iii. Direct Delivery Specialist
c. Each Rapid Response Team would be assigned a Ward.
d. Teams would operate off a set route within their Ward that is designed to maximize output with minimizing drive time.
e. Rapid Response Teams would only be needed to deliver water to Access and Functional Needs households. Each team would have a limited number of commodities, aside from water.
f. 2-1-1 calls for assistance would be sent to the warehouse (position to be determined) for assignment to a Rapid Response Team based on the Ward of the calls origin and be placed in queue for the team to respond to within 24 hours.
    i. These incoming requests will be worked into the route to not affect the momentum of the team.
    ii. The Rapid Response Teams would complete an assessment of the individual and if the need is present the household that contacted 2-1-1 would be placed on a reoccurring distribution.
g. Rapid Response Teams would restock their vehicles at the state warehouse(s) as needed throughout the day.

10. Access and Functional Needs (AFN) Populations
    a. AFN populations will be receiving direct mailed water filtration systems and water filtration system replacement cartridges.
        i. United Parcel Service (UPS) donated the resources to ship these filters to the AFN households on the Flint Water System.
    b. Water would be delivered to this population by the Rapid Response Teams.
    c. Assistance with filter and replacement cartridge installation would be provided by the Rapid Response Teams as regular contact is made on route delivery, or as 2-1-1 calls dictate assistance needed.

Warehouse Operations

11. Warehouse Operations
    a. A single warehouse will be established to provide all POD and Rapid Response Teams with the commodities needed to fulfill their missions. *(Wendy Galbreath, Kristi Davis)*
    b. Warehouse staffing can be found in Attachment B: Staffing/Equipment Needs: Warehouse. *(Brent Travelbee, Wendy Galbreath)*
    c. Warehouse hours of operation will be:
        i. 10:00 AM to 4:00 PM on Monday, Tuesday, Thursday and Friday.
        ii. 10:00 AM to 6:00 PM on Wednesday and Saturday.
    d. The warehouse will receive shipments from:
        i. Corporate donors
        ii. State of Michigan procured
        iii. Unpalleted water from donors
            1. Water would be palletized for incorporation into the distribution process.
        iv. Procured under the Emergency Declaration until XXX
    e. Inventory tracked at the state warehouse(s)

May be more
- Must operate at least the Core hours of POD
- Tracking
- Return of Equipment at the END of Day

i. *The state warehouse(s) would continue to track using existing inventory* management tools.
    1. Incoming shipments will be recorded by the warehouse.
        a. Utilizing Pipeline, MI CIMS, or another tracking tool.
    2. Outgoing shipments will be recorded by the warehouse.
        a. To the PODs
        b. To Rapid Response Teams
ii. Commodities given out to Flint Water System households will be recorded at the PODs (§ 6.b).

f. The warehouse would be a central hub for all communication and Rapid Response Requests.
    i. *One central radio room would dispatch POD resupply trucks and communicate* with each POD as to their needs.
    ii. All Rapid Response Team requests (2-1-1, State of Michigan referrals, and church deliveries) would be assembled by this position.
        1. Individual households will be addressed by the Rapid Response Teams assigned to each Ward.
        2. Large bulk deliveries will be made by the warehouse using box trucks with power lift gates and an electric pallet jack.

g. The warehouse would provide large bulk orders of water, water filtration systems, and water filtration system replacement cartridges to churches, apartment complexes, and units of government. *(This needs Command approval before implementation)*
    i. Attachment G: Church Distribution contains detailed information on the distribution of water through hubs at established churches.
        1. *These would be coordinated with the receiver and* the warehouse at least 48 hours in advance as to not affect daily operations for the PODs or Rapid Response Team efforts.
        2. The Food Bank of Eastern Michigan should be coordinated with for church deliveries. Many churches also receive shipments of water from the Food Bank.
    ii. Large bulk orders would be processed by the warehouse.
    iii. Large bulk orders would be delivered to addresses provided, or scheduled for pick-up by the receiver.
        1. Pick-up orders would receive a separate credential to notify the warehouse they have been approved for their pick-up.

### Communications Plan for PODs, Warehouse, and Rapid Response Teams

1. 800 mHz radio usage.
    a. All POD Support Team Leaders will be assigned an 800 mHz radio from the warehouse.
        i. Support Team Leaders will be the responsible party for returning this radio at the end of their shift.
            1. Support Team Leaders will be the responsible party for all radio communications with the warehouse.
                a. Including ordering replenishment of commodities to the POD.
                b. Reporting inventory as requested.
                c. Reporting any accidents or issues at the POD.
        ii. Direct Delivery Specialist for each Rapid Response Team would be assigned an 800 mHz radio from the warehouse.
            1. Direct Delivery Specialist will be the responsible party for all radio communications with the warehouse.
                a. Including notifying the warehouse of progress throughout the day.
                b. Will notify the warehouse prior to returning for a re-stocking of commodities for their vehicle.
                c. Relaying any special circumstances or events that may affect team operations.
                d. Reporting any accidents or issues while driving or at a residence.
    b. Supplies for radio communications
        i. 22 total radios will be needed for this operation.
            1. Nine (9) 800 mHz radios for POD Support Team Leaders.
            2. Three (4) 800 mHz radios for the warehouse operation.
                a. Two radios for radio room
                b. Two radios as emergency replacement for the PODs or Rapid Response Teams.
            3. Nine (9) 800 mHz radios for Rapid Response Teams.
        ii. Four, six bay portable charging stations for warehouse.
    c. Radio event talk group
        i. Michigan Public Safety Communications System and Michigan State Police Communications Division will apply a restricted template to all radios being utilized for this process.
            1. Radios will only have specified Special Event talk groups.
                a. Special Event 3 for POD operations.
                b. Special Event 2 for Rapid Response Team Operations.
2. Cellular Phones
    a. The Warehouse General Manager would be issued a smart phone for their business use.
        i. Warehouse General Manager would read and sign the Michigan State Police, Cell Phone and Smartphone acceptable use policy upon receiving their mobile device.
            1. The mobile device would be to check emails, be in contact with incoming shipments, and for reporting any incidents to 9-1-1.

b. The radio communications room would be issued a smart phone for their business use.
    i. The communications room would read and sign the Michigan State Police, Cell Phone and Smartphone acceptable use policy upon receiving their mobile device.
        1. The mobile device would be to be in contact with incoming rapid response requests, contact rapid response requestors, and for reporting any incidents to 9-1-1.

### Church Distribution Hubs

Below is a list of churches that have volunteered to be Church Distribution Hubs. Direct contact with the pastors and their point of contacts. I have also conducted site assessments at their facilities.

It was conveyed to them that this initial plan was a collaborative effort, and may change with input from all parties involved.

It was discussed, and agreed that the HUB churches would network with the surrounding churches, and set up their own agreed upon distribution schedule. It was requested that the HUB church provide a list of churches that are obtaining their water from the HUB church.

1. The Church HUB will call and provide the quantity of water, and schedule the delivery time. This should be scheduled at least 48 hours in advance.
    a. The church will contact the warehouse radio communications room to schedule their request.
2. The deliveries will be conducted by driver, and truck that are staged at the warehouse.
    a. The trucks will have a pallet jack and the capability of moving pallets from their truck to a staging area.
    b. Water deliveries will be dropped off at the church's designated area and moved within reason.
        i. Any movement from the drop-off area to a storage location not accessible by a pallet jack will be done by the church hub.
3. The Church Distribution HUB would be responsible to network with the surrounding churches, and set up a distribution schedule, along with amounts of water needed.
4. Locations for church hubs:
    a. Foss Avenue Baptist Church
    1159 East Foss Avenue
    Flint MI
    Pastor Flynn 810-965-1515

| | | | | |

**6. Work Assignments:**

Critical Task: Disburse water resources to the impacted community through points of distribution. Hours of operation: 0900-2100.

Tactics:
1. Daily, identify and report resource shortfalls and limitations.
2. Report hourly inventory numbers to SEOC Resource Unit Leader, per Logistic Support Plan.
3. Ensure water resources are appropriately tagged to prevent resale or return.
4. Coordinate with EMHSD for transition to community based PODs.
5. Develop SOP for training local hire POD leaders.

New

**7. Special Instructions:**

12 individuals per POD to support operations. Additional LT and SGT will be rotating between stations with Admin and support personnel.

Contact numbers for each POD listed above is a government phone and will be staying at each POD even though teams will switch.

LNO will be on site at the local EOC daily. MING will be in the SEOC daily available at 517-284-3914 or at the JOC 517-481-8031.

# END of Shift Handoff-

- We have yet to be added to the "Que" for the printer for FOIA. The lady we need to talk to wasn't around so we to try and catch her tomorrow

- A congressional delegation (State?) is touring Flint Mon and will visit POD 5. They contacted us at about ~~7:10~~ 1910 to find out who/when they are coming through. PIO and Director were both out, told them we would address it in the morning

- Last but not least Jesse Jackson tomorrow march starts at 1100 and has the potential to interfere w/POD 5 operations

Nothing going on, see you around 1100

Lt Benke to help train w/ I POD 7th day adventist

# Night Shift Turnover

- ~~nothing~~ major to be concerned with, the only thing on the table is a request from ops (if they need extra hands) for LT Benke to help train ~~LT Benke~~ to 7th Day Adventist on how to use the iPad. We did not commit to anything other than giving him a call and see if he is willing (if they are SDA is short handed).

# Night Shift turn over

- There wasn't a whole lot going on last night Lt Roland indicated the new group manning the POD's are set and ready. Daphne Hobson from the State budget office stopped by about Financial tracking Originally She had planned to speak w/you in the morning, but a few ago told me she thinks she has it under control. Thought I would give you a heads up in case she did stop by.

- We still need to print off all our e-mail for FOIA, they are having printer issues so we decided to hang back until most of the others were Finished w/theirs

Benke Tue 2/16

Jesse Jackson ~~march~~ mile March at 1100 can/could inhibit ops at POD 5

# END of Shift Handoff

- We have yet to be added to the "Que" for the printer for FOIA. The lady we need to talk to wasn't around so we to try and catch her tomorrow

- A congressional delegation (State?) is touring Flint Mon and will visit POD 5. They contacted us at about ~~17:10~~ 1910 to find out who/when they are coming through. PIO and Director were both out, told them we would address it in the morning

- Last but not least Jesse Jackson tomorrow march starts at 1100 and has the potential to interfere w/POD 5 operations

Nothing going on, see you around 1100

Monday 10 AM insted of 9:30

# Night Shift hand OFF

- The Governor will be by in the morning because of the visit the ~~tomfred~~ command staff/SSOC brief and distribution Process meeting have been pushed back 1/2 hr (check the battle rhythm)

- M-DOT does not work weekends. We need to touch base w/them in the morning. A resource request for repair of their light on POD 5 was sent, Just need to check its status. ~~AFS~~

- We need to finish printing E-mails for FOIA it was started but printer ran out of toner what little was done is on the desk. We still need to print all received e-mails before Sat 2/20/16 1210pm that pertain to this event and all sent e-mail pertaining to this event. Any questions talk to Brent (sitting to your Left) he can fill you in ✱ all attachments must be printed, e-mail w/instructions is flagged so it is easy to find

Thank you, If you need to reach me for anything My cell is [redacted]

## Long-term Distribution Plan

Drive-up and Walk-up POD Distribution

Points of Distribution (POD) Concept – Long term POD establishment based on the distribution of population per City Ward. Some PODs may be placed on the border of neighboring Ward's. Physical location to be determined after site visits by MSP/EMHSD. This plan will be implemented to replace the existing PODs located in the City of Flint Fire Stations. Some of the new PODs may be co-located with HUBS that the Food Bank of Eastern Michigan along with local partners being establishing in the Flint area. This plan is scalable base on community needs.

POD Operations

1. Location
    a. One POD would be located in each of the existing city Wards.
        i. Site selection would be completed by a MSP/EMHSD liaison officer. *(Lt. Rooach, Jay Eickholt)*
        ii. Some PODs may be co-located with Food Bank of Eastern Michigan Hubs.
            1. Most Food Bank of Eastern Michigan Hubs will be located at faith-based institutions. This would allow for cross over volunteers from the host location to volunteer at the PODs along with the local hires.
        iii. PODs would be located in a paved parking lot with ample ingress and egress for vehicular and pedestrian traffic.
            1. At a minimum two curb cuts from the public roadway would be needed to allow for incoming and outgoing traffic.
            2. Sites should be near an established Mass Transit Authority (MTA) bus stop.
                a. MTA would add these into the existing transportation routes as they have for the Flint Fire Department PODs.
        iv. Memorandums of Understanding (MOUs) may be needed with any of the POD locations, to be completed and signed by March 3, 2016. *(MSP Legal, Jay Eickholt)*
            1. Site locations would require unrestricted access to the area and be allowed to erect non-permanent structures and stage equipment long-term.
                a. The POD hours of operation would not be subject to change or modification without consent by the Michigan State Police, Emergency Management and Homeland Security Division approval.
                b. POD activities are priority over any other events or activities. Events or activities shall not interfere with POD operations.
            2. Sites would need to be maintained parking surfaces that would withstand the use and staging of equipment (box trucks, dumpsters, heavy traffic).
            3. Sites would need to be well maintained throughout the year including:
                a. Snow removal
                    i. Some sites may need contracted services for proper upkeep (*This may need Command approval in the event sites need additional snow removal services.)*
                b. Pot hole filling

Pot LEOC, NOT EM/HSD

Comment [BB1]: Some churches only maintain their lots prior to services on Sunday.

c. Local jobs program staff would be restricted to 35 hours of work with five hours of training. A tentative list of training includes, but is not limited to:
    i. All local hires would be required to complete basic 800 mHz radio training.
    ii. Training may be Incident Command System (ICS) training, Occupational Safety and Health Administration (OSHA) training, fork truck safety and operation, training on inventory/ resource tracking component, or computer literacy courses. *(MI WORKS)*
        1. IS-100.B Introduction to Incident Command System (ICS-100)
        2. *(Suggested)* IS-700.A National Incident Management System (NIMS): An Introduction
        3. *(Suggested)* IS-230.D Fundamentals of Emergency Management
        4. IS 26 Guide to Points of Distribution
        5. IS-27 Introduction to FEMA Logistics
        6. *(Suggested)* IS-632.A Introduction to Debris Operations
        7. *(Suggested)* IS-393.A Introduction to Hazard Mitigation
        8. *(Suggested)* IS-403 Introduction to Individual Assistance
        9. *(Suggested)* IS-643 Introduction to FEMA's Public Assistance Program
        10. IS-241.B Decision Making and Problem Solving
        11. IS-242.B Effective Communication
        12. *(Suggested)* IS-552 The Public Works Role in Emergency Management
        13. *(Suggested)* IS-558 Public Works and Disaster Recovery

Comment [BB2]: Need to confirm with MI Works

d. All POD staff would be required to complete a beginner training for safe work practices and be briefed on any standard operating procedures. The MING currently has standard operating procedures for the POD operations at the fire stations.

4. POD Operational Overview
    a. Support Team Leader is responsible for the overall management of the POD. See Attachment A: Staffing/Equipment Needs: POD for more details.
        i. Position will be the link between the POD and warehouse(s) for all inventory and shipment requests.
        ii. Position will be responsible for the management of the daily set-up and take down of equipment.
        iii. Position will be the responsible position for signing out and signing in of all handheld equipment, as listed in Attachment A: Staffing/Equipment Needs: POD.
        iv. Position will be assigned to a specific Flint Fire Station POD once hired to observe and receive training from the National Guard.
            1. Training at the POD will be augmented by warehouse training and simulated POD set-up at the warehouse.
    b. Administrative Support Specialists are responsible for the tracking of outgoing commodities.
        i. Position will be proficient in the data management system.
        ii. Position will be responsible for ensuring households that come to the POD are on the Flint Water System by verifying their unique identifier or address if no unique identifier is present.
        iii. Position will communicate with Loaders on what items each household should receive.
    c. Recycling Support Specialist is responsible for the collection of filled recycling bags and distribution of new bags and assisting with curbside recycling sign-up.

GOOD

i. "POD Ahead" – This sign provides directions to inbound customers in locating the entrance to the POD. There can be multiple signs placed away from the POD to give the estimated distance to the POD.
    1. The existing Water Distribution Center signs from Michigan DOT or similar source can be reused for this purpose, a total of 18 would be needed.
ii. "Enter" – this sign directs customers to enter at the correct points for vehicle and pedestrian lanes.
    1. Michigan DOT or similar source would produce 18 of these signs, nine for vehicles and nine for pedestrian traffic.
iii. "Loading Point" – Each loading point should be marked so that customers know to stop for materials to be loaded.
    1. Michigan DOT or similar source would produce 27 of these signs. Two per POD for vehicle loading and one for pedestrian pick up zone.
iv. "Exit/Do Not Enter" – This marks the vehicle lane exit. It is also important to clearly mark the opposite side of the sign with "DO NOT ENTER".
    1. Michigan DOT or similar source would produce 18 "EXIT" and nine "DO NOT ENTER" signs for the PODs.

- More, Depending on location

e. Site Safety and Security *(MPSCS, MSP Communications)*
    i. All PODs will be required to notify the warehouse of any safety concerns.
        1. Utilizing 800 mHz radios staff will relay all necessary information to the warehouse.
            a. See Attachment F: Communications Plan for more detailed information.
        2. Warehouse personnel will send law enforcement, EMS, or fire representatives to the POD, as needed.
            a. In the event of a life threatening situation call 9-1-1.
    ii. POD staff shall wear proper footwear.
        1. Steel toe or at a minimum safety toe work boots.
    iii. POD staff shall wear appropriate clothing at all times at the worksite.
        1. GST MI Works and/or the employer of record shall assist with determining appropriate clothing for local hires.
    iv. Reflective safety vests must be worn at all times by POD staff.

- 22 Supplied by Local EOC
- * ~~SEOC~~ Buy Burner Phones

Comment [JE4]: Formula funds? MSP Distribution center?

6. Household commodity consumption monitoring.
    a. Utilizing a mobile electronic/ web-based tracking system each POD would record the commodities given to each household. *(Ryan Mckee, DTMB)*
        i. DTMB is currently researching potential options for this tracking mechanism.
        ii. This would be the responsibility of the Administrative Support Specialists at each POD.
    b. Each household would be given a unique identifier card (or similar). *(Ryan McKee, DTMB, Flint Water Department)*
        i. Each card would track in real time what commodities were picked up and at what time, except for water.
            1. Water inventory and output would be monitored at the POD by the overall quantity that is given out, not on a specific household basis.
        ii. When presented at each POD the card or unique identifier would be scanned by the Administrative Support Specialist.

1. These nine local hires will transition into the role of Support Team Leaders for each POD.
2. The Support Team Leaders will be in the fire station PODs until the time that the new PODs are established.

ii. MING may be used at the new PODs as Loaders or Traffic Controllers if the current mission is extended, and additional staffing is needed to supplement the local jobs program. It is currently intended for the local jobs program to complete hiring for the PODs by March 23.

.No - Can assist to train, Can not work new POD's

Rapid Response

9. Rapid Response Team Makeup
   a. Nine Rapid Response Teams would be staged at the state warehouse(s).
   b. Each Rapid Response Team would be comprised of (detailed description is in Attachment C: Staffing/Equipment Needs: Rapid Response):
      i. Driver
      ii. Plumbing Apprentice
      iii. Direct Delivery Specialist
   c. Each Rapid Response Team would be assigned a Ward.
   d. Teams would operate off a set route within their Ward that is designed to maximize output with minimizing drive time.
   e. Rapid Response Teams would only be needed to deliver water to Access and Functional Needs households. Each team would have a limited number of commodities, aside from water.
   f. 2-1-1 calls for assistance would be sent to the warehouse (position to be determined) for assignment to a Rapid Response Team based on the Ward of the calls origin and be placed in queue for the team to respond to within 24 hours.
      i. These incoming requests will be worked into the route to not affect the momentum of the team.
      ii. The Rapid Response Teams would complete an assessment of the individual and if the need is present the household that contacted 2-1-1 would be placed on a reoccurring distribution.
   g. Rapid Response Teams would restock their vehicles at the state warehouse(s) as needed throughout the day.
10. Access and Functional Needs (AFN) Populations
   a. AFN populations will be receiving direct mailed water filtration systems and water filtration system replacement cartridges.
      i. United Parcel Service (UPS) donated the resources to ship these filters to the AFN households on the Flint Water System.
   b. Water would be delivered to this population by the Rapid Response Teams.
   c. Assistance with filter and replacement cartridge installation would be provided by the Rapid Response Teams as regular contact is made on route delivery, or as 2-1-1 calls dictate assistance needed.

Warehouse Operations

11. Warehouse Operations
   a. A single warehouse will be established to provide all POD and Rapid Response Teams with the commodities needed to fulfill their missions. *(Wendy Galbreath, Kristi Davis)*

Job Description: manages the movement of vehicles through the POD; maintain safe traffic flow for customers (vehicle and pedestrian) and staff

Qualifications: High School Diploma or GED required

Hours: 12pm-6pm (Monday, Wednesday, Thursday, Saturday); 12pm-8pm (Tuesday, Friday)

Direct Supervisor: Support Team Leader

4 Loaders

Job Description: responsible for loading set quantities of supplies into customer vehicles; coordinate with the Support Team for resupply of the loading line; responsible for the movement of pallets to and from the loading line and removing empty pallets

Qualifications: High School Diploma or GED required; must be able to lift cases of water up to 8 hours per day

Hours: 12pm-6pm (Monday, Wednesday, Thursday, Saturday); 12pm-8pm (Tuesday, Friday)

Direct Supervisor: Support Team Leader

**EQUIPMENT**

**Required (per POD)**

- 1 – Electric pallet jack (*may be staged on the delivery truck*)
- 3 – Easy folding canopy tents (minimum 10 feet x 10 feet)
- 2 – Eight (8) foot banquet tables
- 10 – Folding chairs
- 1 – Portable heat source during winter months
- 1 – Portable restroom facility with hand washing station
- 1 – Dumpster for refuse from unpalletizing the supplies
- 1 – Large recycle bin (*located next to the dumpster; to be coordinated with established recycling program*)
- 1 – Fire extinguisher
- 9 – Reflective safety vests for all workers
- 1 – First aid kit
- 1 – 800 mHz radio
- 3 – Mobile devices for tracking commodities, with car and/or portable chargers
- Four (4) foot tall grabber traffic cones to establish vehicular and pedestrian traffic flow (*number will be site specific*)
- Signage – POD Ahead (2), Enter (2), Exit/Do Not Enter (2), Loading Point (3)

– Need Small Cones

**Optional – Dependent on Location (per POD)**

- Portable lights or light towers for parking lot where none are permanently installed in the lot

## Staffing/Equipment Needs: Warehouses

**STAFF**

**Total Staff Needed: 52 personnel**

Warehouse

1 General Warehouse Manager

Job Description: responsible for all warehouse operations; provide safety and training to all personnel; assign specialty projects; communicate relevant information to relief staff; maintain records and documentation for all duties; approve leave, document performance, and handle disciplinary action; act as the primary contact for hiring agencies providing workforce; supervises the Shipping/Receiving and Yard Manager, Fleet Coordinator, Floor Workers, Security, and Forklift Drivers

Qualifications: High School Diploma or GED required; some heavy lifting may be required

Hours: 10am-4pm (Monday, Wednesday, Thursday, Saturday); 10am-6pm (Tuesday, Friday)

Direct Supervisor: Unknown?

1 Receiving Manager

Job Description: responsible for all receiving logs and reconciliations; provides daily/weekly report to the General Warehouse Manager; supervises Warehouse Coordinator

Comment [BB5]: Requested clarification from MDCC

Qualifications: High School Diploma or GED required; some heavy lifting may be required; may be required to perform strenuous tasks utilizing strength and coordination; may be required to bend, reach, walk, or stand for extended periods

Hours: 10am-4pm (Monday, Wednesday, Thursday, Saturday); 10am-6pm (Tuesday, Friday)

Direct Supervisor: General Warehouse Manager

1 Shipping Manager

Job Description: receives all requests for distribution of commodities; inspects shipments, ensures rotation of commodities, verifies orders for quantity and location, ensures shipping orders are processed timely; communicate relevant information to relief staff; maintains records and documentation related to assigned duties; records all shipments and reconciles balances; provides daily/weekly report to the General Warehouse Manager

Qualifications: High School Diploma or GED required; some heavy lifting may be required; may be required to perform strenuous tasks utilizing strength and coordination; may be required to bend, reach, walk, or stand for extended periods

Hours: 10am-4pm (Monday, Wednesday, Thursday, Saturday); 10am-6pm (Tuesday, Friday)

Direct Supervisor: General Warehouse Manager

1 Warehouse Coordinator

Job Description: receive and document calls for Rapid Response requests; maintains records and documentation related to assigned duties; works directly with Rapid Response Drivers to deliver commodities requested through 2-1-1 or other methods

Qualifications: High School Diploma or GED required; some heavy lifting may be required

Hours: 10am-4pm (Monday, Wednesday, Thursday, Saturday); 10am-6pm (Tuesday, Friday)

Direct Supervisor: General Warehouse Manager

1 Security

Job Description: monitor door for unauthorized personnel-based on physical security (fence, alarm, etc.); ensure all persons entering the warehouse are identified and authorized to enter; conduct security rounds and ensure all points of entry are secured; report any security concerns to the General Warehouse Manager; assist during emergency situations to include calls for medical or security assistance; ensure all access points are secure upon initial and ending rounds; maintains records and documentation related to assigned duties

Qualifications: High School Diploma or GED required; some heavy lifting may be required; required to dress appropriately for all weather conditions; may be required to perform strenuous tasks utilizing strength and coordination; may be required to bend, reach, walk, or stand for extended periods; may be required to use hand or power tools

Hours: 10am-4pm (Monday, Wednesday, Thursday, Saturday); 10am-6pm (Tuesday, Friday)

Direct Supervisor: General Warehouse Manager

16 Inventory/Receiving/Floor Workers

Job Description: responsible for receiving inventory, tracking inventory, and preparing orders for shipping; load, unload, and move supplies, equipment or furniture to and from assigned areas; pump gas, clean out vehicles, or drive vehicles as assigned; haul or remove garbage and perform general cleaning duties as assigned; maintains records and documentation related to assigned duties; reports to General Warehouse Manager, but may take direction from any manager/coordinator; may perform a variety of tasks requiring tools and motorized equipment in order to assist in the maintenance of the warehouse

Qualifications: High School Diploma or GED required; some heavy lifting may be required; required to dress appropriately for all weather conditions; may be required to perform strenuous tasks utilizing strength and coordination; may be required to bend, reach, walk, or stand for extended periods; may be required to use hand or power tools

Hours: 10am-4pm (Monday, Wednesday, Thursday, Saturday); 10am-6pm (Tuesday, Friday)

Direct Supervisor: General Warehouse Manager

20 Drivers

Job Description: responsible for driving 26 foot box truck to assigned routes/locations; assist loading trucks and utilize pallet jacks to deliver commodities; maintain records and documentation related to assigned duties; reports to Fleet Coordinator

- 8 – Manual pallet jacks
- 2 – Electric pallet jacks
- 2 – Pair of safety wheel chocks 1 set per Vehicle
- 1 – Pallet puller with chain
- 2 – Office desks
- 1 – Laptop computer
- 1 – Internet connection
- 1 – Cell phone
- 1 – 800 mHz radio
- 1 – Multi-function printer/copier/fax
- 25 – Folding chairs
- 1 – 40 yard dumpster
- 1 – First aid & CPR kit
- 1 – AED
- 25 – Safety vests
- 100 – Pallets
- 40 – Gaylord boxes
- 24 – Shrink-wrap
- 4 – Packaging tape dispensers
- 4 – Cases of packing tape
- 20 – Box cutters
- 40 – Extra box cutter blades
- 4 – 30 gallon trash containers
- 4 – Push brooms w/ dustpans
- 2 – Mops w/ buckets
- 24 – Black permanent markers
- 2 – Boxes of black pens
- Other – Office supplies as needed

### Communications Plan for PODs, Warehouse, and Rapid Response Teams

1. 800 mHz radio usage.
    a. All POD Support Team Leaders will be assigned an 800 mHz radio from the warehouse.
        i. Support Team Leaders will be the responsible party for returning this radio at the end of their shift.
            1. Support Team Leaders will be the responsible party for all radio communications with the warehouse.
                a. Including ordering replenishment of commodities to the POD.
                b. Reporting inventory as requested.
                c. Reporting any accidents or issues at the POD.
        ii. Direct Delivery Specialist for each Rapid Response Team would be assigned an 800 mHz radio from the warehouse.
            1. Direct Delivery Specialist will be the responsible party for all radio communications with the warehouse.
                a. Including notifying the warehouse of progress throughout the day.
                b. Will notify the warehouse prior to returning for a re-stocking of commodities for their vehicle.
                c. Relaying any special circumstances or events that may affect team operations.
                d. Reporting any accidents or issues while driving or at a residence.
    b. Supplies for radio communications
        i. 22 total radios will be needed for this operation.
            1. Nine (9) 800 mHz radios for POD Support Team Leaders.
            2. Three (4) 800 mHz radios for the warehouse operation.
                a. Two radios for radio room
                b. Two radios as emergency replacement for the PODs or Rapid Response Teams.
            3. Nine (9) 800 mHz radios for Rapid Response Teams.
        ii. Four, six bay portable charging stations for warehouse.
    c. Radio event talk group
        i. Michigan Public Safety Communications System and Michigan State Police Communications Division will apply a restricted template to all radios being utilized for this process.
            1. Radios will only have specified Special Event talk groups.
                a. Special Event 3 for POD operations.
                b. Special Event 2 for Rapid Response Team Operations.
2. Cellular Phones
    a. The Warehouse General Manager would be issued a smart phone for their business use.
        i. Warehouse General Manager would read and sign the Michigan State Police, Cell Phone and Smartphone acceptable use policy upon receiving their mobile device.
            1. The mobile device would be to check emails, be in contact with incoming shipments, and for reporting any incidents to 9-1-1.

## Attachment G

### Church Distribution Hubs

Below is a list of churches that have volunteered to be Church Distribution Hubs. Direct contact with the pastors and their point of contacts. I have also conducted site assessments at their facilities.

It was conveyed to them that this initial plan was a collaborative effort, and may change with input from all parties involved.

It was discussed, and agreed that the HUB churches would network with the surrounding churches, and set up their own agreed upon distribution schedule. It was requested that the HUB church provide a list of churches that are obtaining their water from the HUB church.

1. The Church HUB will call and provide the quantity of water, and schedule the delivery time. This should be scheduled at least 48 hours in advance.
    a. The church will contact the warehouse radio communications room to schedule their request.
2. The deliveries will be conducted by driver, and truck that are staged at the warehouse.
    a. The trucks will have a pallet jack and the capability of moving pallets from their truck to a staging area.
    b. Water deliveries will be dropped off at the church's designated area and moved within reason.
        i. Any movement from the drop-off area to a storage location not accessible by a pallet jack will be done by the church hub.
3. The Church Distribution HUB would be responsible to network with the surrounding churches, and set up a distribution schedule, along with amounts of water needed.
4. Locations for church hubs:
    a. Foss Avenue Baptist Church
    1159 East Foss Avenue
    Flint MI
    Pastor Flynn 810-965-1515
    Point of Contact: Jackie Scott 810-787-9019
    Capacity: 4 pallets

    b. St. Mark Baptist Church
    3020 DuPont NE
    Flint MI
    Pastor Thompson 810-280-9985
    Point of Contact: Angie George 810-955-6297/810-234-6609
    Capacity: 25 pallets

    c. El-Shaddai Church of God in Christ
    920 Walnut
    Flint MI
    Pastor Steve Hawkins
    Point of Contact: Elder Eddie Kennedy 810-513-6762
    Capacity: 20 pallets

# DCDS Hours Entry by Coding Block

(Last revised 1/28/14)

To change your default entry to Hours by Coding Block Entry:

1. Log into DCDS.
2. Select Options.
3. Check Hours by CB (Coding Block) Entry to change your default.

To enter **work** Hours by Coding Block (regular, overtime, comp time earned, etc.):

1. Open your time sheet as you normally do.
2. You should see an Hours Entry by Coding Block section above the time entry section. *The blue line is the active line.*
3. Click your cursor in the AY box and enter the last 2 digits of the appropriation (fiscal) year.
4. Tab to Index and enter your Index number.
5. Tab to PCA and enter the PCA associated with work you did for the number of hours worked that you worked on it.
6. Move down to the time entry section and select the appropriate Hours Type.
7. Tab to the appropriate day and enter the number of hours associated with the PCA you entered above.
8. Enter daily comments for each Hours Type.
9. Select Save.
10. At the end of the pay period, select Submit.

To enter hours for holidays, comp time used, annual leave, sick leave, school & community leave, bank leave time used, administrative leave, initial leave, jury duty, Plan A:

1. Check the "std" (standard coding) box under the Hours Entry by Coding Block section.
2. Move down to the time entry section and select the appropriate Hours Type.
3. Tab to the appropriate day and enter the number of hours.
4. Enter the required information for school & community leave. Required information includes all of the following: 1) name of the school or community activity sponsor; 2) name of the event; description of the volunteer services performed; and 4) the time period that the employee performed the volunteer services.
5. Select Save.

6. At the end of the pay period, select Submit.

To view your time sheet:

1. Select Reports.
2. Select Employee Data Collection.
3. Selection Option B - Detail Time (or Option A - Coding Block Detail Time).
4. Enter Department 55.
5. Enter Agency 01.
6. Enter TKU 044. (EMHSD)
7. Select the PP (pay period) End Date.
8. Select OK.

Concept:
Each EMHSD responder engaged in Flint water operations is working a 12-hour shift. The staffing schedule will be adjusted to allow each employee to take every 5th day off. In effect, each employee will work a minimum if 48 hours, then have a scheduled day off. Logistics will ensure the schedule is followed.

(b) We will reimburse indirect costs for the administration of a fire management assistance grant in compliance with the Grantee's approved indirect cost rate under OMB Circular A–87.

**§ 204.64 Reporting and audit requirements**

(a) *Reporting.* Within 90-days of the Performance Period expiration date, the State will submit a final Financial Status Report (FEMA Form 20–10), which reports all costs incurred within the incident period and all administrative costs incurred within the performance period; and

(b) *Audit.* (1) Audits will be performed, for both the Grantee and the subgrantees, under 44 CFR 13.26.

(2) FEMA may elect to conduct a program-specific Federal audit on the Fire Management Assistance Grant or a subgrant.

## PART 205 [RESERVED]

206.161 Relocation assistance.
206.162–206.163 [Reserved]
206.164 Disaster legal services.
206.165–206.170 [Reserved]
206.171 Crisis counseling assistance and training.
*206.172–206.180 [Reserved]*
206.181 Use of gifts and bequests for disaster assistance purposes.
206.182–206.190 [Reserved]
206.191 Duplication of benefits.
206.192–206.199 [Reserved]

Subpart G—Public Assistance Project Administration

206.200 General.
206.201 Definitions used in this subpart.
206.202 Application procedures.
206.203 Federal grant assistance.
206.204 Project performance.
206.205 Payment of claims.
206.206 Appeals.
206.207 Administrative and audit requirements.
206.208 Direct Federal assistance.
206.209 Arbitration for Public Assistance determinations related to Hurricanes Katrina and Rita (Major disaster declarations DR–1603, DR–1604, DR–1605, DR–1606, and DR–1607).
206.210–206.219 [Reserved]

Subpart H—Public Assistance Eligibility

206.220 General.
206.221 Definitions.
206.222 Applicant eligibility.
206.223 General work eligibility.
206.224 Debris removal.
206.225 Emergency work.
206.226 Restoration of damaged facilities.
206.227 Snow assistance.
206.228 Allowable costs.
206.229–206.249 [Reserved]

Subpart I—Public Assistance Insurance Requirements

206.250 General.
206.251 Definitions.
206.252 Insurance requirements for facilities damaged by flood.
206.253 Insurance requirements for facilities damaged by disasters other than flood.
*206.254–206.339 [Reserved]*

Subpart J—Coastal Barrier Resources Act

206.340 Purpose of subpart.
206.341 Policy.
206.342 Definitions.
206.343 Scope.
206.344 Limitations on Federal expenditures.
206.345 Exceptions.
206.346 Applicability to disaster assistance.
206.347 Requirements.
206.348 Consultation.
206.349 Consistency determinations.
206.350–206.359 [Reserved]

Subpart K—Community Disaster Loans

*206.360 Purpose.*
206.361 Loan program.
206.362 Responsibilities.
206.363 Eligibility criteria.
206.364 Loan application.
206.365 Loan administration.
206.366 Loan cancellation.
206.367 Loan repayment.
206.368–206.369 [Reserved]
206.370 Purpose and scope.
206.371 Loan program.
206.372 Responsibilities.
206.373 Eligibility criteria.
206.374 Loan application.
206.375 Loan administration.
206.376 Loan cancellation.
206.377 Loan repayment.
206.378–206.389 [Reserved]

Subpart L—Fire Suppression Assistance

206.390 General.
206.391 FEMA-State Agreement.
206.392 Request for assistance.
206.393 Providing assistance.
206.394 Cost eligibility.
206.395 Grant administration.
206.396–206.399 [Reserved]

Subpart M—Minimum Standards

206.400 General.
206.401 Local standards.
206.402 Compliance.

Subpart N—Hazard Mitigation Grant Program

206.430 General.
206.431 Definitions.
206.432 Federal grant assistance.
206.433 State responsibilities.
206.434 Eligibility.
206.435 Project identification and selection criteria.
206.436 Application procedures.
206.437 State administrative plan.
206.438 Project management.
206.439 Allowable costs.
*206.440 Appeals.*

## Subpart A—General

SOURCE: 55 FR 2288, Jan. 23, 1990, unless otherwise noted.

### § 206.1 Purpose.

(a) *Purpose.* The purpose of this subpart is to prescribe the policies and procedures to be followed in implementing those sections of Public Law 93–288, as amended, delegated to the Administrator, Federal Emergency Management Agency (FEMA). The rules in this subpart apply to major disasters and emergencies declared by the President on or after November 23, 1988, the date of enactment of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.*

(b) *Prior regulations.* Prior regulations relating to major disasters and emergencies declared by the President before November 23, 1988 were published in 44 CFR part 205 (see 44 CFR part 205 as contained in the CFR edition revised as of October 1, 1994).

[59 FR 53363, Oct. 24, 1994]

### § 206.2 Definitions.

(a) *General.* The following definitions have general applicability throughout this part:

(1) *The Stafford Act:* The Robert T. Stafford Disaster Relief and Emergency Assistance Act, Public Law 93–288, as amended.

(2) *Applicant:* Individuals, families, States and local governments, or private nonprofit organizations who apply for assistance as a result of a declaration of a major disaster or emergency.

(3) [Reserved]

(4) *Concurrent, multiple major disasters:* In considering a request for an advance, the term concurrent multiple major disasters means major disasters which occur within a 12-month period immediately preceding the major disaster for which an advance of the non-Federal share is requested pursuant to section 319 of the Stafford Act.

(5) *Contractor:* Any individual, partnership, corporation, agency, or other entity (other than an organization engaged in the business of insurance) performing work by contract for the Federal Government or a State or local agency.

(6) *Designated area:* Any emergency or major disaster-affected portion of a State which has been determined eligible for Federal assistance.

(7) *Administrator:* The Administrator, FEMA.

(8) *Disaster Recovery Manager (DRM):* The person appointed to exercise the authority of a Regional Administrator for a particular emergency or major disaster.

(9) *Emergency:* Any occasion or instance for which, in the determination of the President, Federal assistance is needed to supplement State and local efforts and capabilities to save lives and to protect property and public health and safety, or to lessen or avert the threat of a catastrophe in any part of the United States.

(10) *Federal agency:* Any department, independent establishment, Government corporation, or other agency of the executive branch of the Federal Government, including the United States Postal Service, but shall not include the American National Red Cross.

(11) *Federal Coordinating Officer (FCO):* The person appointed by the Administrator, or in his absence, the Deputy Director, to coordinate Federal assistance in an emergency or a major disaster.

(12) *Governor:* The chief executive of any State or the Acting Governor.

(13) *Governor's Authorized Representative (GAR):* The person empowered by the Governor to execute, on behalf of the State, all necessary documents for disaster assistance.

(14) *Hazard mitigation:* Any cost effective measure which will reduce the potential for damage to a facility from a disaster event.

(15) *Individual assistance:* Supplementary Federal assistance provided under the Stafford Act to individuals and families adversely affected by a major disaster or an emergency. Such

assistance may be provided directly by the Federal Government or through State or local governments or disaster relief organizations. For further information, see subparts D, E, and F of these regulations.

(16) *Local government:*

(i) A county, municipality, city, town, township, local public authority, school district, special district, intrastate district, council of governments (regardless of whether the council of governments is incorporated as a nonprofit corporation under State law), regional or interstate government entity, or agency or instrumentality of a local government;

(ii) An Indian tribe or authorized tribal organization, or Alaska Native village or organization; and

(iii) A rural community, unincorporated town or village, or other public entity, for which an application for assistance is made by a State or political subdivision of a State.

(17) *Major disaster:* Any natural catastrophe (including any hurricane, tornado, storm, high water, winddriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought), or, regardless of cause, any fire, flood, or explosion, in any part of the United States, which in the determination of the President causes damage of sufficient severity and magnitude to warrant major disaster assistance under this Act to supplement the efforts and available resources of States, local governments, and disaster relief organizations in alleviating the damage, loss, hardship, or suffering caused thereby.

(18) *Mission assignment:* Work order issued to a Federal agency by the Regional Administrator, Assistant Administrator for the Disaster Operations Directorate, or Administrator, directing completion by that agency of a specified task and citing funding, other managerial controls, and guidance.

(19) *Private nonprofit organization:* Any nongovernmental agency or entity that currently has:

(i) An effective ruling letter from the U.S. Internal Revenue Service granting tax exemption under section 501 (c), (d), or (e) of the Internal Revenue Code of 1954; or

(ii) Satisfactory evidence from the State that the organization or entity is a nonprofit one organized or doing business under State law.

(20) *Public Assistance:* Supplementary Federal assistance provided under the Stafford Act to State and local governments or certain private, nonprofit organizations other than assistance for the direct benefit of individuals and families. For further information, see subparts G and H of this part. Fire Management Assistance Grants under section 420 of the Stafford Act are also considered Public Assistance. See subpart K of this part and part 204 of this chapter.

(21) *Regional Administrator:* An administrator of a regional office of FEMA, or his/her designated representative. As used in these regulations, Regional Administrator also means the Disaster Recovery Manager who has been appointed to exercise the authority of the Regional Administrator for a particular emergency or major disaster.

(22) *State:* Any State of the United States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.

(23) *State Coordinating Officer (SCO):* The person appointed by the Governor to act in cooperation with the Federal Coordinating Officer to administer disaster recovery efforts.

(24) *State emergency plan:* As used in section 401 or section 501 of the Stafford Act means that State plan which is designated specifically for State-level response to emergencies or major disasters and which sets forth actions to be taken by the State and local governments, including those for implementing Federal disaster assistance.

(25) *Temporary housing:* Temporary accommodations provided by the Federal Government to individuals or families whose homes are made unlivable by an emergency or a major disaster.

(26) *United States:* The 50 States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.

(27) *Voluntary organization:* Any chartered or otherwise duly recognized tax-

exempt local, State, or national organization or group which has provided or may provide needed services to the States, local governments, or individuals in coping with an emergency or a major disaster.

(b) *Additional definitions.* Definitions which apply to individual subparts are found in those subparts.

[54 FR 11615, Mar. 21, 1989, as amended at 63 FR 17110, Apr. 8, 1998; 66 FR 57352, 57353, Nov. 14, 2001; 69 FR 24083, May 3, 2004; 74 FR 15346, Apr. 3, 2009]

### § 206.3 Policy.

It is the policy of FEMA to provide an orderly and continuing means of assistance by the Federal Government to State and local governments in carrying out their responsibilities to alleviate the suffering and damage that result from major disasters and emergencies by:

(a) Providing Federal assistance programs for public and private losses and needs sustained in disasters;

(b) Encouraging the development of comprehensive disaster preparedness and assistance plans, programs, capabilities, and organizations by the States and local governments;

(c) Achieving greater coordination and responsiveness of disaster preparedness and relief programs;

(d) Encouraging individuals, States, and local governments to obtain insurance coverage and thereby reduce their dependence on governmental assistance; and

(e) *Encouraging hazard mitigation* measures, such as development of land-use and construction regulations, floodplain management, protection of wetlands, and environmental planning, to reduce losses from disasters.

### § 206.4 State emergency plans.

The State shall set forth in its emergency plan all responsibilities and actions specified in the Stafford Act and these regulations that are required of the State and its political subdivisions to prepare for and respond to major disasters and emergencies and to facilitate the delivery of Federal disaster assistance. Although not mandatory, prior to the adoption of the final plan, the State is encouraged to circulate the plan to local governments for review and comment.

[55 FR 2288, Jan. 23, 1990, 55 FR 5458, Feb. 15, 1990]

### § 206.5 Assistance by other Federal agencies.

(a) In any declared major disaster, the Administrator, Assistant Administrator for the Disaster Operations Directorate, or the Regional Administrator may direct any Federal agency to utilize its authorities and the resources granted to it under Federal law (including personnel, equipment, supplies, facilities, and managerial, technical, and advisory services) to support State and local assistance efforts.

(b) In any declared emergency, the Administrator, Assistant Administrator for the Disaster Operations Directorate, or the Regional Administrator may direct any Federal agency to utilize its authorities and the resources granted to it under Federal law (including personnel, equipment, supplies, facilities, and managerial, technical, and advisory services) to support emergency efforts by State and local governments to save lives; protect property, public health and safety; and lessen or avert the threat of a catastrophe.

(c) In any declared major disaster or emergency, the Administrator, Assistant Administrator for the Disaster Operations Directorate, or the Regional Administrator may direct any Federal agency to provide emergency assistance necessary to save lives and to protect property, public health, and safety by:

(1) Utilizing, lending, or donating to State and local governments Federal equipment, supplies, facilities, personnel, and other resources, other than the extension of credit, for use or distribution by such governments in accordance with the purposes of this Act;

(2) Distributing medicine, food, and other consumable supplies; or

(3) Performing work or services to provide emergency assistance authorized in the Stafford Act.

(d) Disaster assistance by other Federal agencies is subject to the coordination of the FCO. Federal agencies shall provide any reports or information about disaster assistance rendered

under the provisions of these regulations or authorities independent of the Stafford Act, that the FCO or Regional Administrator considers necessary and requests from the agencies.

(e) Assistance furnished by any Federal agency under paragraphs (a), (b), or (c) of this section is subject to the criteria provided by the Assistant Administrator for the Disaster Operations Directorate under these regulations.

(f) Assistance under paragraphs (a), (b), or (c) of this section, when directed by the Administrator, Assistant Administrator for the Disaster Operations Directorate, or the Regional Administrator, does not apply to nor shall it affect the authority of any Federal agency to provide disaster assistance independent of the Stafford Act.

(g) In carrying out the purposes of the Stafford Act, any Federal agency may accept and utilize, with the consent of the State or local government, the services, personnel, materials, and facilities of any State or local government, agency, office, or employee. Such utilization shall not make such services, materials, or facilities Federal in nature nor make the State or local government or agency an arm or agent of the Federal Government.

(h) Any Federal agency charged with the administration of a Federal assistance program may, if so requested by the applicant State or local authorities, modify or waive, for a major disaster, such administrative conditions for assistance as would otherwise prevent the giving of assistance under such programs if the inability to meet such conditions is a result of the major disaster.

### § 206.6 Donation or loan of Federal equipment and supplies.

(a) In any major disaster or emergency, the Administrator, Assistant Administrator for the Disaster Operations Directorate, or the Regional Administrator may direct Federal agencies to donate or loan their equipment and supplies to State and local governments for use and distribution by them for the purposes of the Stafford Act.

(b) A donation or loan may include equipment and supplies determined under applicable laws and regulations to be surplus to the needs and responsibilities of the Federal Government. The State shall certify that the surplus property is usable and necessary for current disaster purposes in order to receive a donation or loan. Such a donation or loan is made in accordance with procedures prescribed by the General Services Administration.

### § 206.7 Implementation of assistance from other Federal agencies.

All directives, known as mission assignments, to other Federal agencies shall be in writing, or shall be confirmed in writing if made orally, and shall identify the specific task to be performed and the requirements or criteria to be followed. If the Federal agency is to be reimbursed, the letter will also contain a dollar amount which is not to be exceeded in accomplishing the task without prior approval of the issuing official.

### § 206.8 Reimbursement of other Federal agencies.

(a) Assistance furnished under § 206.5 (a) or (b) of this subpart may be provided with or without compensation as considered appropriate by the Administrator, Assistant Administrator for the Disaster Assistance Directorate, or the Regional Administrator or Regional Director.

(b) The Administrator, Assistant Administrator for the Disaster Assistance Directorate, or the Regional Administrator or the Regional Director may not approve reimbursement of costs incurred while performing work pursuant to disaster assistance authorities independent of the Stafford Act.

(c) *Expenditures eligible for reimbursement.* The Administrator, Assistant Administrator for the Disaster Assistance Directorate, or the Regional Administrator or the Regional Director may approve reimbursement of the following costs which are incurred in providing requested assistance.

(1) Overtime, travel, and per diem of permanent Federal agency personnel.

(2) Wages, travel, and per diem of temporary Federal agency personnel assigned solely to performance of services directed by the Administrator, Assistant Administrator for the Disaster Assistance Directorate, or the Regional Administrator or the Regional Director

in the major disaster or emergency area designated by the Regional Director.

(3) Travel and per diem of Federal military personnel assigned solely to the performance of services directed by the Administrator, Assistant Administrator for the Disaster Assistance Directorate, or the Regional Administrator or the Regional Director in the major disaster or emergency area designated by the Regional Director.

(4) *Cost of work, services, and materials* procured under contract for the purposes of providing assistance directed by the Administrator, Assistant Administrator for the Disaster Assistance Directorate, or the Regional Administrator or the Regional Director.

(5) Cost of materials, equipment, and supplies (including transportation, repair, and maintenance) from regular stocks used in providing directed assistance.

(6) All costs incurred which are paid from trust, revolving, or other funds, and whose reimbursement is required by law.

(7) Other costs submitted by an agency with written justification or otherwise agreed to in writing by the Administrator, Assistant Administrator for the Disaster Assistance Directorate, or the Regional Administrator or the Regional Director and the agency.

(d) *Procedures for reimbursement.* Federal agencies performing work under a mission assignment will submit requests for reimbursement, as follows:

(1) Federal agencies may submit *requests for reimbursement of amounts* greater than $1,000 at any time. Requests for lesser amounts may be submitted only quarterly. An agency shall submit a final accounting of expenditures after completion of the agency's work under each directive for assistance. The time limit and method for submission of reimbursement requests will be stipulated in the mission assignment letter.

(2) An agency shall document its request for reimbursement with specific details on personnel services, travel, and all other expenses by object class as specified in OMB Circular A–12 and by any other subobject class used in the agency's accounting system. Where contracts constitute a significant portion of the billings, the agency shall provide a listing of individual contracts and their associated costs.

(3) Reimbursement requests shall cite the specific mission assignment under which the work was performed, and the major disaster or emergency identification number. Requests for reimbursement of costs incurred under more than one mission assignment may not be combined for billing purposes.

(4) Unless otherwise agreed, an agency shall direct all requests for reimbursement to the Regional Administrator of the region in which the costs were incurred.

(5) A Federal agency requesting reimbursement shall retain all financial records, supporting documents, statistical records, and other records pertinent to the provision of services or use of resources by that agency. These materials shall be accessible to duly authorized representatives of FEMA and the U.S. Comptroller General, for the *purpose of making audits, excerpts,* and transcripts, for a period of 3 years starting from the date of submission of the final billing.

### § 206.9 Nonliability.

The Federal Government shall not be *liable for any claim based upon the* exercise or performance of, or the failure to exercise or perform a discretionary function or duty on the part of a Federal agency or an employee of the Federal Government in carrying out the provisions of the Stafford Act.

### § 206.10 Use of local firms and individuals.

In the expenditure of Federal funds for debris removal, distribution of supplies, reconstruction, and other major disaster or emergency assistance activities which may be carried out by contract or agreement with private organizations, firms, or individuals, preference shall be given, to the extent feasible and practicable, to those organizations, firms, and individuals residing or doing business primarily in the area affected by such major disaster or emergency. This shall not be considered to restrict the use of Department of Defense resources in the provision of

major disaster assistance under the Stafford Act.

### §206.11 Nondiscrimination in disaster assistance.

(a) Federal financial assistance to the States or their political subdivisions is conditioned on full compliance with 44 CFR part 7, Nondiscrimination in Federally-Assisted Programs.

(b) All personnel carrying out Federal major disaster or emergency assistance functions, including the distribution of supplies, the processing of the applications, and other relief and assistance activities, shall perform their work in an equitable and impartial manner, without discrimination on the grounds of race, color, religion, nationality, sex, age, or economic status.

(c) As a condition of participation in the distribution of assistance or supplies under the Stafford Act, or of receiving assistance under the Stafford Act, government bodies and other organizations shall provide a written assurance of their intent to comply with regulations relating to nondiscrimination.

(d) The agency shall make available to employees, applicants, participants, beneficiaries, and other interested parties such information regarding the provisions of this regulation and its applicability to the programs or activities conducted by the agency, and make such information available to them in such manner as the head of the agency finds necessary to apprise such persons of the protections against discrimination assured them by the Act and this regulation.

### §206.12 Use and coordination of relief organizations.

(a) In providing relief and assistance under the Stafford Act, the FCO or Regional Administrator may utilize, with their consent, the personnel and facilities of the American National Red Cross, the Salvation Army, the Mennonite Disaster Service, and other voluntary organizations in the distribution of medicine, food, supplies, or other items, and in the restoration, rehabilitation, or reconstruction of community services and essential facilities, whenever the FCO or Regional Administrator finds that such utilization is necessary.

(b) The Administrator is authorized to enter into agreements with the American Red Cross, The Salvation Army, the Mennonite Disaster Service, and other voluntary organizations engaged in providing relief during and after a major disaster or emergency. Any agreement shall include provisions assuring that use of Federal facilities, supplies, and services will be in compliance with §206.11, *Nondiscrimination* in Disaster Assistance, and §206.191, Duplication of Benefits, of these regulations and such other regulations as the Administrator may issue. The FCO may coordinate the disaster relief activities of the voluntary organizations which agree to operate under his/her direction.

(c) Nothing contained in this section shall be construed to limit or in any way affect the responsibilities of the American National Red Cross as stated in Public Law 58-4.

### §206.13 Standards and reviews.

(a) The Administrator shall establish program standards and assess the efficiency and effectiveness of programs administered under the Stafford Act by conducting annual reviews of the activities of Federal agencies and State and local governments involved in major disaster or emergency response efforts.

(b) In carrying out this provision, the Administrator may direct Federal agencies to submit reports relating to their disaster assistance activities. The Administrator may request similar reports from the States relating to these activities on the part of State and local governments. Additionally, the Administrator may conduct independent investigations, studies, and evaluations as necessary to complete the reviews.

[55 FR 2288, Jan. 23, 1990; 55 FR 5458, Feb. 15, 1990]

### §206.14 Criminal and civil penalties.

(a) *Misuse of funds.* Any person who knowingly misapplies the proceeds of a loan or other cash benefit obtained under the Stafford Act shall be fined an amount equal to one and one-half times the misapplied amount of the proceeds or cash benefit.

(b) *Civil enforcement.* Whenever it appears that any person has violated or is about to violate any provision of the Stafford Act, including any civil penalty imposed under the Stafford Act, the Attorney General may bring a civil action for such relief as may be appropriate. Such action may be brought in an appropriate United States district court.

(c) *Referral to Attorney General.* The Office of Chief Counsel shall expeditiously refer to the Attorney General for appropriate action any evidence developed in the performance of functions under the Stafford Act that may warrant consideration for criminal prosecution.

(d) *Civil penalty.* Any individual who knowingly violates any order or regulation shall be subject to a civil penalty of not more than $5,500 for each violation.

[55 FR 2288, Jan. 23, 1990, as amended at 74 FR 15346, Apr. 3, 2009; 74 FR 58850, Nov. 16, 2009]

### § 206.15 Recovery of assistance.

(a) *Party liable.* Any person who intentionally causes a condition for which Federal assistance is provided under this Act or under any other Federal law as a result of a declaration of a major disaster or emergency under this Act shall be liable to the United States for the reasonable costs incurred by the United States in responding to such disaster or emergency to the extent that such costs are attributable to the intentional act or omission of such person which caused such condition. Such action shall be brought in an appropriate United States District Court.

(b) *Rendering of care.* A person shall not be liable under this section for costs incurred by the United States as a result of actions taken or omitted by such person in the course of rendering care or assistance in response to a major disaster or emergency.

### § 206.16 Audit and investigations.

(a) Subject to the provisions of chapter 75 of title 31, United States Code, and 44 CFR part 13, relating to requirements for single audits, the Administrator, the Assistant Administrator for the Disaster Operations Directorate, or the Regional Administrator shall conduct audits and investigations as necessary to assure compliance with the Stafford Act, and in connection therewith may question such persons as may be necessary to carry out such audits and investigations.

(b) For purposes of audits and investigations under this section, FEMA or State auditors, the Governor's Authorized Representative, the Administrator, the Regional Administrator, the Assistant Administrator for the Disaster Assistance Directorate, the DHS Inspector General, and the Comptroller General of the United States, or their duly authorized representatives, may inspect any books, documents, papers, and records of any person relating to any activity undertaken or funded under the Stafford Act.

[55 FR 2288, Jan. 23, 1990, as amended at 74 FR 15346, Apr. 3, 2009]

### § 206.17 Effective date.

These regulations are effective for all major disasters or emergencies declared on or after November 23, 1988.

### §§ 206.18–206.30 [Reserved]

## Subpart B—The Declaration Process

SOURCE: 55 FR 2292, Jan. 23, 1990, unless otherwise noted.

### § 206.31 Purpose.

The purpose of this subpart is to describe the process leading to a Presidential declaration of a major disaster or an emergency and the actions triggered by such a declaration.

### § 206.32 Definitions.

All definitions in the Stafford Act and in § 206.2 apply. In addition, the following definitions apply:

(a) *Appeal:* A request for reconsideration of a determination on any action related to Federal assistance under the Stafford Act and these regulations. Specific procedures for appeals are contained in the relevant subparts of these regulations.

(b) *Commitment:* A certification by the Governor that the State and local governments will expend a reasonable

amount of funds to alleviate the effects of the major disaster or emergency, for which no Federal reimbursement will be requested.

(c) *Disaster Application Center:* A center established in a centralized location within the disaster area for individuals, families, or businesses to apply for disaster aid.

(d) *FEMA-State Agreement:* A formal legal document stating the understandings, commitments, and binding conditions for assistance applicable as the result of the major disaster or emergency declared by the President.

(e) *Incident:* Any condition which meets the definition of major disaster or emergency as set forth in §206.2 which causes damage or hardship that may result in a Presidential declaration of a major disaster or an emergency.

(f) *Incident period:* The time interval during which the disaster-causing incident occurs. No Federal assistance under the Act shall be approved unless the damage or hardship to be alleviated resulted from the disaster-causing incident which took place during the incident period or was in anticipation of that incident. The incident period will be established by FEMA in the FEMA-State Agreement and published in the FEDERAL REGISTER.

### §206.33 Preliminary damage assessment.

The preliminary damage assessment (PDA) process is a mechanism used to determine the impact and magnitude of damage and the resulting unmet needs of individuals, businesses, the public sector, and the community as a whole. Information collected is used by the State as a basis for the Governor's request, and by FEMA to document the recommendation made to the President in response to the Governor's request. It is in the best interest of all parties to combine State and Federal personnel resources by performing a joint PDA prior to the initiation of a Governor's request, as follows.

(a) *Preassessment by the State.* When an incident occurs, or is imminent, which the State official responsible for disaster operations determines may be beyond the State and local government capabilities to respond, the State will request the Regional Administrator to perform a joint FEMA-State preliminary damage assessment. It is not anticipated that all occurrences will result in the requirement for assistance; therefore, the State will be expected to verify their initial information, in some manner, before requesting this support.

(b) *Damage assessment teams.* Damage assessment teams will be composed of at least one representative of the Federal Government and one representative of the State. A local government representative, familiar with the extent and location of damage in his/her community, should also be included, if possible. Other State and Federal agencies, and voluntary relief organizations may also be asked to participate, as needed. It is the State's responsibility to coordinate State and local participation in the PDA and to ensure that the participants receive timely notification concerning the schedule. A FEMA official will brief team members on damage criteria, the kind of information to be collected for the particular incident, and reporting requirements.

(c) *Review of findings.* At the close of the PDA, FEMA will consult with State officials to discuss findings and reconcile any differences.

(d) *Exceptions.* The requirement for a joint PDA may be waived for those incidents of unusual severity and magnitude that do not require field damage assessments to determine the need for supplemental Federal assistance under the Act, or in such other instances determined by the Regional Administrator upon consultation with the State. It may be necessary, however, to conduct an assessment to determine unmet needs for managerial response purposes.

### §206.34 Request for utilization of Department of Defense (DOD) resources.

(a) *General.* During the immediate aftermath of an incident which may ultimately qualify for a Presidential declaration of a major disaster or emergency, when threats to life and property are present which cannot be effectively dealt with by the State or local

governments, the Assistant Administrator for the Disaster Assistance Directorate may direct DOD to utilize DOD personnel and equipment for removal of debris and wreckage and temporary restoration of essential public facilities and services.

(b) *Request process.* The Governor of a State, or the Acting Governor in his/her absence, may request such DOD assistance. The Governor should submit the request to the Assistant Administrator for the Disaster Assistance Directorate through the appropriate Regional Administrator to ensure prompt acknowledgment and processing. The request must be submitted within 48 hours of the occurrence of the incident. Requests made after that time may still be considered if information is submitted indicating why the request for assistance could not be made during the initial 48 hours. The request shall include:

(1) Information describing the types and amount of DOD emergency assistance being requested;

(2) Confirmation that the Governor has taken appropriate action under State law and directed the execution of the State emergency plan;

(3) A finding that the situation is of such severity and magnitude that effective response is beyond the capabilities of the State and affected local governments and that Federal assistance is necessary for the preservation of life and property;

(4) A certification by the Governor that the State and local government will reimburse FEMA for the non-Federal share of the cost of such work; and

(5) An agreement:

(i) To provide all lands, easements and rights-of-way necessary to accomplish the approved work without cost to the United States;

(ii) To hold and save the United States free from damages due to the requested work, and to indemnify the Federal government against any claims arising from such work; and

(iii) To assist DOD in all support and local jurisdictional matters.

(c) *Processing the request.* Upon receipt of the request, the Regional Administrator shall gather adequate information to support a recommendation and forward it to the Assistant Administrator for the Disaster Assistance Directorate. If the Assistant Administrator for the Disaster Assistance Directorate determines that such work is essential to save lives and protect property, he/she will issue a mission assignment to DOD authorizing direct Federal assistance to the extent deemed appropriate.

(d) *Implementation of assistance.* The performance of emergency work may not exceed a period of 10 days from the date of the mission assignment.

(e) *Limits.* Generally, no work shall be approved under this section which falls within the statutory authority of DOD or another Federal agency. However, where there are significant unmet needs of sufficient severity and magnitude, not addressed by other assistance, which could appropriately be addressed under this section of the Stafford Act, the involvement of other Federal agencies would not preclude the authorization of DOD assistance by the Assistant Administrator for the Disaster Assistance Directorate.

(f) *Federal share.* The Federal share of assistance under this section shall be not less than 75 percent of the cost of eligible work.

(g) *Project management.* DOD shall ensure that the work is completed in accordance with the approved scope of work, costs, and time limitations in the mission assignment. DOD shall also keep the Regional Administrator and the State advised of work progress and other project developments. It is the responsibility of DOD to ensure compliance with applicable Federal, State and local legal requirements. A final report will be submitted to the Regional Administrator upon termination of all direct Federal assistance work. Final reports shall be signed by a representative of DOD and the State. Once the final eligible cost is determined, DOD will request reimbursement from FEMA and FEMA will submit a bill to the State for the non-Federal share of the mission assignment.

(h) *Reimbursement of DOD.* Reimbursement will be made in accordance with § 206.8 of these regulations.

**§206.35 Requests for emergency declarations.**

(a) When an incident occurs or threatens to occur in a State, which would not qualify under the definition of a major disaster, the Governor of a State, or the Acting Governor in his/her absence, may request that the President declare an emergency. The Governor should submit the request to the President through the appropriate Regional Administrator to ensure prompt acknowledgment and processing. The request must be submitted within 5 days after the need for assistance under title V becomes apparent, but no longer than 30 days after the occurrence of the incident, in order to be considered. The period may be extended by the Assistant Administrator for the Disaster Assistance Directorate provided that a written request for such extension is made by the Governor, or Acting Governor, during the 30-day period immediately following the incident. The extension request must stipulate the reason for the delay.

(b) The basis for the Governor's request must be the finding that the situation:

(1) Is of such severity and magnitude that effective response is beyond the capability of the State and the affected local government(s); and

(2) Requires supplementary Federal emergency assistance to save lives and to protect property, public health and safety, or to lessen or avert the threat of a disaster.

(c) In addition to the above findings, the complete request shall include:

(1) Confirmation that the Governor has taken appropriate action under State law and directed the execution of the State emergency plan;

(2) Information describing the State and local efforts and resources which have been or will be used to alleviate the emergency;

(3) Information describing other Federal agency efforts and resources which have been or will be used in responding to this incident; and

(4) Identification of the type and extent of additional Federal aid required.

(d) *Modified declaration for Federal emergencies.* The requirement for a Governor's request under paragraph (a) of this section can be waived when an emergency exists for which the primary responsibility rests in the Federal government because the emergency involves a subject area for which, under the Constitution or laws of the United States, the Federal government exercises exclusive or preeminent responsibility and authority. Any party may bring the existence of such a situation to the attention of the FEMA Regional Administrator. Any recommendation for a Presidential declaration of emergency in the absence of a Governor's request must be initiated by the Regional Administrator or transmitted through the Regional Administrator by another Federal agency. In determining that such an emergency exists, the Assistant Administrator for the Disaster Assistance Directorate or Regional Administrator shall consult the Governor of the affected State, if practicable.

(e) *Other authorities.* It is not intended for an emergency declaration to preempt other Federal agency authorities and/or established plans and response mechanisms in place prior to the enactment of the Stafford Act.

**§206.36 Requests for major disaster declarations.**

(a) When a catastrophe occurs in a State, the Governor of a State, or the Acting Governor in his/her absence, may request a major disaster declaration. The Governor should submit the request to the President through the appropriate Regional Administrator to ensure prompt acknowledgment and processing. The request must be submitted within 30 days of the occurrence of the incident in order to be considered. The 30-day period may be extended by the Assistant Administrator for the Disaster Assistance Directorate, provided that a written request for an extension is submitted by the Governor, or Acting Governor, during this 30-day period. The extension request will stipulate reasons for the delay.

(b) The basis for the request shall be a finding that:

(1) The situation is of such severity and magnitude that effective response is beyond the capabilities of the State and affected local governments; and

(2) Federal assistance under the Act is necessary to supplement the efforts and available resources of the State, local governments, disaster relief organizations, and compensation by insurance for disaster-related losses.

(c) In addition to the above findings, the complete request shall include:

(1) Confirmation that the Governor has taken appropriate action under State law and directed the execution of the State emergency plan;

(2) An estimate of the amount and severity of damages and losses stating the impact of the disaster on the public and private sector;

(3) Information describing the nature and amount of State and local resources which have been or will be committed to alleviate the results of the disaster;

(4) Preliminary estimates of the types and amount of supplementary Federal disaster assistance needed under the Stafford Act; and

(5) Certification by the Governor that State and local government obligations and expenditures for the current disaster will comply with all applicable cost sharing requirements of the Stafford Act.

(d) For those catastrophes of unusual severity and magnitude when field damage assessments are not necessary to determine the requirement for supplemental Federal assistance, the Governor or Acting Governor may send an abbreviated written request through the Regional Administrator for a declaration of a major disaster. This may be transmitted in the most expeditious manner available. In the event the FEMA Regional Office is severely impacted by the catastrophe, the request may be addressed to the Administrator of FEMA. The request must indicate a finding in accordance with §206.36(b), and must include as a minimum the information requested by §206.36 (c)(1), (c)(3), and (c)(5). Upon receipt of the request, FEMA shall expedite the processing of reports and recommendations to the President. Notification to the Governor of the Presidential declaration shall be in accordance with 44 CFR 206.39. The Assistant Administrator for the Disaster Assistance Directorateshall assure that documentation of the declaration is later assembled to comply fully with these regulations.

### §206.37 Processing requests for declarations of a major disaster or emergency.

(a) *Acknowledgment.* The Regional Administrator shall provide written acknowledgment of the Governor's request.

(b) *Regional summary.* Based on information obtained by FEMA/State preliminary damage assessments of the affected area(s) and consultations with appropriate State and Federal officials and other interested parties, the Regional Administrator shall promptly prepare a summary of the PDA findings. The data will be analyzed and submitted with a recommendation to the Assistant Administrator for the Disaster Assistance Directorate. The Regional Analysis shall include a discussion of State and local resources and capabilities, and other assistance available to meet the major disaster or emergency-related needs.

(c) *FEMA recommendation.* Based on all available information, the Administrator shall formulate a recommendation which shall be forwarded to the President with the Governor's request.

(1) *Major disaster recommendation.* The recommendation will be based on a finding that the situation is or is not of such severity and magnitude as to be beyond the capabilities of the State and its local governments. It will also contain a determination of whether or not supplemental Federal assistance under the Stafford Act is necessary and appropriate. In developing a recommendation, FEMA will consider such factors as the amount and type of damages; the impact of damages on affected individuals, the State, and local governments; the available resources of the State and local governments, and other disaster relief organizations; the extent and type of insurance in effect to cover losses; assistance available from other Federal programs and other sources; imminent threats to public health and safety; recent disaster history in the State; hazard mitigation measures taken by the State or local governments, especially implementation of measures required as a

result of previous major disaster declarations; and other factors pertinent to a given incident.

(2) *Emergency recommendation.* The recommendation will be based on a report which will indicate whether or not Federal emergency assistance under section 502 of the Stafford Act is necessary to supplement State and local efforts to save lives, protect property and public health and safety, or to lessen or avert the threat of a catastrophe. Only after it has been determined that all other resources and authorities available to meet the crisis are inadequate, and that assistance provided in section 502 of the Stafford Act would be appropriate, will FEMA recommend an emergency declaration to the President.

(d) *Modified Federal emergency recommendation.* The recommendation will be based on a report which will indicate that an emergency does or does not exist for which assistance under section 502 of the Stafford Act would be appropriate. An emergency declaration will not be recommended in situations where the authority to respond or coordinate is within the jurisdiction of one or more Federal agencies without a Presidential declaration. However, where there are significant unmet needs of sufficient severity and magnitude, not addressed by other assistance, which could appropriately be addressed under the Stafford Act, the involvement of other Federal agencies would not preclude a declaration of an emergency under the Act.

### §206.38 Presidential determination.

(a) The Governor's request for a major disaster declaration may result in either a Presidential declaration of a major disaster or an emergency, or denial of the Governor's request.

(b) The Governor's request for an emergency declaration may result only in a Presidential declaration of an emergency, or denial of the Governor's request.

[55 FR 2292, Jan. 23, 1990; 55 FR 5458, Feb. 15, 1990]

### §206.39 Notification.

(a) The Governor will be promptly notified by the Administrator or his/her designee of a declaration by the President that an emergency or a major disaster exists. FEMA also will notify other Federal agencies and other interested parties.

(b) The Governor will be promptly notified by the Administrator or his/her designee of a determination that the Governor's request does not justify the use of the authorities of the Stafford Act.

(c) Following a major disaster or emergency declaration, the Regional Administrator or the Assistant Administrator for the Disaster Assistance Directorate will promptly notify the Governor of the designations of assistance and areas eligible for such assistance.

### §206.40 Designation of affected areas and eligible assistance.

(a) *Eligible assistance.* The Assistant Administrator for the Disaster Assistance Directorate has been delegated authority to determine and designate the types of assistance to be made available. The initial designations will usually be announced in the declaration. Determinations by the Assistant Administrator for the Disaster Assistance Directorate of the types and extent of FEMA disaster assistance to be provided are based upon findings whether the damage involved and its effects are of such severity and magnitude as to be beyond the response capabilities of the State, the affected local governments, and other potential recipients of supplementary Federal assistance. The Assistant Administrator for the Disaster Assistance Directorate may authorize all, or only particular types of, supplementary Federal assistance requested by the Governor.

(b) *Areas eligible to receive assistance.* The Assistant Administrator for the Disaster Assistance Directorate also has been delegated authority to designate the affected areas eligible for supplementary Federal assistance under the Stafford Act. These designations shall be published in the FEDERAL REGISTER. An affected area designated by the Assistant Administrator for the Disaster Assistance Directorate includes all local government jurisdictions within its boundaries. The Assistant Administrator for the Disaster Assistance Directorate may, based upon

damage assessments in any given area, designate all or only some of the areas requested by the Governor for supplementary Federal assistance.

(c) *Requests for additional designations after a declaration.* After a declaration by the President, the Governor, or the GAR, may request that additional areas or types of supplementary Federal assistance be authorized by the Assistant Administrator for the Disaster Assistance Directorate. Such requests shall be accompanied by appropriate verified assessments and commitments by State and local governments to demonstrate that the requested designations are justified and that the unmet needs are beyond State and local capabilities without supplementary Federal assistance. Additional assistance or areas added to the declaration will be published in the FEDERAL REGISTER.

(d) *Time limits to request.* In order to be considered, all supplemental requests under paragraph (c) of this section must be submitted within 30 days from the termination date of the incident, or 30 days after the declaration, whichever is later. The 30-day period may be extended by the Assistant Administrator for the Disaster Assistance Directorate provided that a written request is made by the appropriate State official during this 30-day period. The request must include justification of the State's inability to meet the deadline.

[55 FR 2292, Jan. 23, 1990, as amended at 74 FR 60213, Nov. 20, 2009]

### § 206.41 Appointment of disaster officials.

(a) *Federal Coordinating Officer.* Upon a declaration of a major disaster or of an emergency by the President, the Administrator or Deputy Administrator shall appoint an FCO who shall initiate action immediately to assure that Federal assistance is provided in accordance with the declaration, applicable laws, regulations, and the FEMA-State Agreement.

(b) *Disaster Recovery Manager.* The Regional Administrator shall designate a DRM to exercise all the authority of the Regional Administrator in a major disaster or an emergency.

(c) *State Coordinating Officer.* Upon a declaration of a major disaster or of an emergency, the Governor of the affected State shall designate an SCO who shall coordinate State and local disaster assistance efforts with those of the Federal Government.

(d) *Governor's Authorized Representative.* In the FEMA-State Agreement, the Governor shall designate the GAR, who shall administer Federal disaster assistance programs on behalf of the State and local governments and other grant or loan recipients. The GAR is responsible for the State compliance with the FEMA-State Agreement.

### § 206.42 Responsibilities of coordinating officers.

(a) Following a declaration of a major disaster or an emergency, the FCO shall:

(1) Make an initial appraisal of the types of assistance most urgently needed;

(2) In coordination with the SCO, establish field offices and Disaster Application Centers as necessary to coordinate and monitor assistance programs, disseminate information, accept applications, and counsel individuals, families and businesses concerning available assistance;

(3) Coordinate the administration of relief, including activities of State and local governments, activities of Federal agencies, and those of the American Red Cross, the Salvation Army, the Mennonite Disaster Service, and other voluntary relief organizations which agree to operate under the FCO's advice and direction;

(4) Undertake appropriate action to make certain that all of the Federal agencies are carrying out their appropriate disaster assistance roles under their own legislative authorities and operational policies; and

(5) Take other action, consistent with the provisions of the Stafford Act, as necessary to assist citizens and public officials in promptly obtaining assistance to which they are entitled.

(b) The SCO coordinates State and local disaster assistance efforts with those of the Federal Government working closely with the FCO. The SCO is

**Cc:** Garza, Oralya (MSP); Weber, Thomas (MSP); Baker, Zachary (MSP); Pepper, Joel (MSP)
**Subject:** FW: CR-20012653 Flint FOIA
**Importance:** High

Tony,

We need to respond this FOIA request, aside from the ongoing FOIA activity. I have copied the planners who I believe worked on the emergency declaration. This is due to the FOIA unit by next Friday, February 19. I will schedule a meeting.

Do you believe this would exceed 250 pages? I believe it would exceed the 2 hours to pull, copy and redact the documentation, unless there is very limited correspondence.

Thanks,
Brianna

---

**From:** Goodwin, Bethany (MSP)
**Sent:** Tuesday, February 09, 2016 4:28 PM
**To:** Briggs, Brianna (MSP)
**Subject:** CR-20012653 Flint FOIA

Ma'am,

The Department has received the following FOIA request:

"any and all email communication between employees at the Department of State Police between Department of State Police employees with those of other state departments, the Executive Office of Governor Rick Snyder and with the city of Flint, discussing the subject of an emergency declaration regarding the Flint water crisis." The requestor would like all communication from7/1/15 through 1/5/16.

Can you please let me know if the Department has responsive documents pertaining to this request? If this request is going to require over 2 man hours and 250 pages of documents please contact me before gathering the documents.

Thanks,

Bethany K Goodwin

**Subject:** URGENT - Records Request
**Importance:** High

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016.**

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on **Thursday, February 18, 2016.**

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms. Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

REMINDER: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years.** Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

Capt. Greg Zarotney

**To:** Strobel, Pamela (MSP); Mankowski, Mary (MSP)
**Cc:** Barcroft, Jaclyn (MSP)
**Subject:** RE: Donations Board in MI CIMS

Pam,

I have made the changes you requested. As Jaclyn stated, we could not add the Warehouse names to the Warehouse dropdown list options since the board needs to fit all incidents. Instead, we removed the Warehouse dropdown list and added a free text field for the user to type in the Warehouse name. I also added a column for Warehouse to the list view.

Lastly, the reason why some of the records were erroring out when the Details View loaded is because the Quantity field needs to have numbers only. The records causing errors all had words/special characters in this field causing the Details view to fail when it tried to load that field as a number value. I updated the problem records so they should load without issue now. Please let the users of this board know that only numbers should be entered in the Quantity field.

Let me know if you have any questions.

Malyssa

To: Suarez, Malyssa (MSP); Mankowski, Mary (MSP)
Cc: Barcroft, Jaclyn (MSP)
Subject: RE: Donations Board in MI CIMS

After reviewing with MCSC and MDHHS, below are some additional updates:

♦ After Donation End Date field-add another field Estimated Date of Arrival (include a calendar) ♦ In Category field add - Water, Filters, Replacement Cartridges ♦ Under Storage Requirements - default to Dry ♦ Warehouse field - make it a requirement and add Other

Question-can we identify the warehouses instead of 1,2,3,4?
Warehouse 1-Clio
Warehouse 2-Pierson (Kroger)
Warehouse 3-Food Bank
Warehouse 4-Catholic Charities
Other

Thank you so much!

**Subject:** Donations in MI CIMS

Hi everyone,

I was just told that the warehouse field on the Donations board in MI CIMS, was changed to a text field instead of a drop down box. For consistency purposes please use the following warehouse text

Clio
Pierson
Food Bank
Catholic Charities

Or the actual name of the location if it isn't one of the above four.

Please let me know if you have any comments on this, or it doesn't make sense. We just want to have some consistency with it right off the bat, for reporting purposes down the road.

Thank you for all your help on this.

Malyssa will have to take a look at these items tomorrow.

As for labeling the Warehouses with specific names we will have to look at that. Again we cannot customize this board to a specific incident - but need to leave it more generic to cover any disaster.

Thanks!
Jaclyn

**To:** MSP-EMHSD-Division
**Cc:** MSP-seoclgc; MSP-SEOCOPSC
**Subject:** Additional DCDS Coding - City of Flint
**Attachments:** Activity Tab DCDS.png

Good Afternoon:

The State Budget Office (SBO) has requested some additional coding in DCDS for staff that work on the City of Flint Water Emergency. We will still be coding all overtime costs to PCA 28670. But at their request, we will also be utilizing the "Activity" code in DCDS.

To enter Activity Code

- Open Employee Data Collection
- Click on **Activity Tab** of DCDS timesheet
- On the Unit Entry tab, under Activity column at left, enter F in drop down box and select **FDWP** when it appears.
- Enter total of "**regular and overtime hours**" related to the Flint Water emergency in cell for each date worked.
- These hours should match the total hours for each day you have entered into your timesheet.
- Save when you have entered your activity hours.

Again, this is only for hours spent working on the City of Flint Emergency and should begin with this current pay period. Please let me know if you have questions.

Thanks,
Penny

**Subject:** Resolution for Flint and 400 Collins disposal

I had some time to think this out. The current EMHSD today line has been diverted to ring at locations in Flint. The voice mail that the line transfers to remains the same number at Collins Road.

I suggest we do the following ASAP.

- Have DTMB program the LMW worksheet for the Call Pickup Groups and Hunt Groups related to the PIO office at the new SEOC.
- Once that is completed MSP Communications should call ATT and have the voice mail transfer number changed to the appropriate number for Collins. The PIO office will have voice mail for Flint at the new location. The number will still ring in Flint. Collins can be salvaged.

**To:** Strobel, Pamela (MSP) <StrobelP1@michigan.gov>
**Subject:** IMPORTANT: Informational Update for all State Agency Emergency Management Coordinators and First Alternates
**Importance:** High

Dear State Agency Emergency Management Coordinators:

As you are aware, the State Emergency Operation Center (SEOC) will be relocating from 4000 Collins Road, Lansing to 7150 Harris Drive, Dimondale (known as the General Office Building – GOB) on Friday, January 29, 2016.

All State Agency Emergency Management Coordinators (SEMC) currently working on the Flint Water Emergency need to report to the new facility at 8 a.m. on Friday, January 29, 2016.

Please park in the standard area and enter at the main entrance of the GOB (see attached parking and entrance map). EMHSD staff will be on site by 7:45 a.m. to greet and escort you to the new SEOC.

We ask for your patience as we all learn our way around and with new equipment. It may be necessary for us to assign "temporarily" locations of computers in the SEOC; therefore, you may not be located in your permanent sitting position until early next week.

It has been mentioned to the SEMC or alternate working within the SEOC throughout the week, it is important that you secure documents and files you may have stored on the PC's or desktops at Collins Road by saving to a memory stick or you may also talk to the IT support within the SEOC (Rich or Jaclyn) about saving information to the S Drive. You will most likely be working on a different PC, and we want to ensure you have the files you need to continue operations with as little interruption as possible. If you have manuals specific to your discipline in the current SEOC, please take those with you on Thursday and bring them to the Harris Road SEOC on Friday morning. If you are not working in the SEOC at this time and have manuals specific to your discipline, please stop by before Thursday night to retrieve them. Any materials left behind will be discarded.

Please return your ADT access card for Collins Road, by Thursday. A container will be placed near the SEOC sign in-sheet for this purpose.

New phone numbers will be established in the SEOC and will be provided as soon as permanent locations are set. Until then, we recommend using your cell if someone needs to contact you.

If you have any questions, please contact me.

Thank you,
Pam

**Cc:** Strobel, Pamela (MSP); Zarotney, Greg (MSP)
**Subject:** Staffing request

Hi Tony,

I understand from talking to Ron that he is approved for annual leave on Friday, January 29 and Monday, February 1. Given this, I am requesting someone else from EMHSD to perform his role in the JIC on Friday and Monday.

He is performing our logistics/planning function. This includes things like working in MiCims, ensuring we have meals, keeping our technology running and handling any facilities issues. His work hours are 8 am until our press release is issued (ideally before 8 pm), but most days we don't receive approval until around 8:30ish.

I would like the person coming in to shadow Ron on Thursday as I will not have time to provide instruction. Right now we are still in Flint. There is the chance that by Monday, Feb 1 we will be back in Lansing.

If you are not aware, we have arranged to put F/Lt. Kevin Sweeney on the SEOCPIO desk next week on Monday - Friday from 8 - 8 so that should free up the folks you previously had sharing that responsibility.

Ron was also given pass days last Saturday and Sunday, as well as this Saturday and Sunday in exchange for his extended work days during the week.

Please advise.
Thank you,
Shanon

**Subject:** RE: Request for JIC setup this weekend

All,

We will have no problems with 4-5 phones, we pretty much had it all torn down, but can reset those easy enough. The big screen TV (monitor) is no longer in the Terrace Room. The screen and overhead projector is still there, but I anticipate they will be coming for those any time now.

Also note, we will be moving a LOT of stuff on Saturday, to include many big items from the Terrace Room. We should be able to move the majority of it out of there tomorrow, so as not to interfere in your work day.

THANKS – we can talk more tomorrow as needed.

**Subject:** RE: Request for JIC setup this weekend

Further clarification

Spoke with Ron. They will be bringing their own laptops. This is for approx.. 4-5 people. Need access to big screen if possible in the Terrace Room.

Carol

**Cc:** MSP-SEOC11; 'michael.fiscus@fema.dhs.gov'; Katarsky, Anthony (MSP)
**Subject:** Warehouse and POD Observations

**Importance:** High

Please see below bullets on the Warehouse and POD observations:

Operations:

- The current warehouse management staff (Shawn and John-Red Cross) is tacked to their limit. They are excellent in setting up the beginning phase for Disaster Response; however, they do have limitations due to their staffing force is volunteers and not being able to implement a strong structure on Incident Command.
- The current warehouse management staff (Red Cross) due have a time limit in their mission and will eventually be replaced.
- Receiving, Staging, and Shipping commodities have not had ground truth numbers; therefore, counts are not accurate. This is very vital to the whole operation.
    - Recommendation:
        - Dedicated work force (National Guard)
        - Implementing the ICS Structure within the warehouse located under the Logistics Section Chief:
            - **Service Branch Director** - when activated, is under the supervision of the Logistics Section Chief (LSC), and is responsible for the management of all service activities at the incident.
            - **Support Branch Director** - when activated, is under the direction of the Logistics Section Chief (LSC), *and is responsible for the development and implementation of logistics* plans in support of the Incident Action Plan (IAP). The Support Branch Director supervises the operations of the Supply, Facilities and Ground Support Units.
                - **Supply Unit Leader** - is primarily responsible for ordering personnel, equipment and supplies; receiving and storing all supplies for the incident; maintaining an inventory of supplies; and servicing non-expendable supplies and equipment.
                    - **Receiving and Distribution Manager** - is responsible for receiving and distributing of all supplies and equipment (other than primary resources) and the service and repair of tools and equipment. The Receiving and Distribution Manager reports to the Supply Unit Leader.

PODS:

- Fire Stations are currently the points of distribution. These are "in-service" businesses with daily operational commitments. One of the PODS is located on a five-way road and it is very overcrowded. Some PODS have had incidents that could have resulted in a fatality.
    - Recommendation:
        - Relocate the most dangerous PODS into a more safety orientated facility.

Thank you,
Pam

We would appreciate it if someone would come back the in the morning on next day and clean up; as we need to prepare for the next meal.
>
> **Action:** I would appreciate it if someone from Amy's would come get them so they don't start smelling.
>
> The chicken cordon blue was wonderful and people were very happy and grateful with the selection especially the vegetables. However, the top two trays of chicken were cold and the cheese inside was not even melted. I put them in the oven to get them warm, which was a little bit of a task as we are not set up for that. I was just wondering if there should have been two chafing fuels instead of one underneath the trays to help keep them warm?

## Strobel, Pamela (MSP)

**From:** Galbreath, Wendy (MSP)
**Sent:** Tuesday, January 19, 2016 10:57 PM
**To:** Kelenske, Chris (MSP); Katarsky, Anthony (MSP)
**Cc:** Covey, Gabriel (MSP); Hampton, Jacqueline (MSP); Strobel, Pamela (MSP); Russo, Mark (MSP)
**Subject:** Media at the warehouse

Capt and Tony, (I have not been in contact with the JIC so I'm not sure if they need this info or not)

I was informed at 8:30 pm that The Today Show (which actually is the 1/2 show before the Today Show) was broadcasting live at the warehouse tomorrow (1/20) morning. This was news to me, as well as you. After further investigation, it was determined that the JIC was aware of it but that it was the ARC PIO that set it up. The purpose of the piece was to highlight the volunteer reception center. I contacted Lauren Twohig with American Red Cross, who contacted the man in charge of that chapter or region, Dave Guiterrez. He was also unaware of this event. After some fact-finding, he contacted his PIO at HQ in Washington DC to get some advice on what to do. The PIO advised that the location should be moved to the ARC Flint HQ where the Volunteer Reception Center was taking place and it should not happen at the warehouse. He contacted the warehouse manager to tell her she was not needed at 4:30 am for set up and I confirmed. I also notified LT Russo who is down there assigned to the warehouse for the next couple of days to assist with an inventory project. He contacted the owner to notify him that the warehouse did not need to be open at 4:30 am. Again, I have not been in contact with the JIC at all, so I'm not sure if they need to know this or not.

I just wanted you to know how this all happened while it was still fresh in my mind. There are more details that I will share in person tomorrow. Goodnight.

Wendy Galbreath

**Subject:** RE: Bullets for Sit Rep

**Operations**

Today was a planning day, so objectives, critical tasks, and tactics were reviewed for an operational period of 7 days beginning Tuesday, January 19.

Operations submitted a resource request for MANG to assist with delivery of water, filters, test kits and replacements filters to Flint residents, beginning Tuesday, Jan 19.

A cost analysis of State of Michigan purchasing water vs FEMA purchasing water has been requested prior to FEMA purchasing additional. They "leaned forward" immediately yesterday and had water in route before this analysis could be done. We would like to ensure the most cost effective means before additional is purchased.

An informational document was reviewed and approved by command regarding "Lead in the Water" for the Michigan.gov/Flintwater website

An Arabic version of the palm card was reviewed and approved by command. This was developed via Arab American and Chaldean Council.

We learned that the CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.

In working to assist in gathering of information for Capt's briefing to be conducted on 1-19-16, I have the following:

Purchased since activation:

82,992 cases of water was purchased in addition to 16,056 donated cases of water

115,700 faucet filters were purchased

236,000 replacement cartridges were purchased

2,300 filtered water pitchers were purchased

**From Planning:**

Here is the information on resource distributed as of 5 pm today. This includes the updated totals from yesterday (between 7-9 pm) and the daily totals for PODs and FWRT as of 5 pm today.

**As of 1/18/16 as of** 5pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
   a. Number of cases of water 37,313
   b. Filters 53,713
   c. Filter cartridges 169,520
   d. Test kits 7,379

---

**Subject:** RE: Water in Liters

Wendy,

FYSA. The 29 trucks are still scheduled to arrive at the warehouse tomorrow. Have you cancelled the Home Depot shipments?

V/r,
Jason

**Subject:** RE: Bullets for Sit Rep

**Operations**

Today was a planning day, so objectives, critical tasks, and tactics were reviewed for an operational period of 7 days beginning Tuesday, January 19.

Operations submitted a resource request for MANG to assist with delivery of water, filters, test kits and replacements filters to Flint residents, beginning Tuesday, Jan 19.

A cost analysis of State of Michigan purchasing water vs FEMA purchasing water has been requested prior to FEMA purchasing additional. They "leaned forward" immediately yesterday and had water in route before this analysis could be done. We would like to ensure the most cost effective means before additional is purchased.

An informational document was reviewed and approved by command regarding "Lead in the Water" for the Michigan.gov/Flintwater website

An Arabic version of the palm card was reviewed and approved by command. This was developed via Arab American and Chaldean Council.

We learned that the CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.

In working to assist in gathering of information for Capt's briefing to be conducted on 1-19-16, I have the following:

Purchased since activation:

82,992 cases of water was purchased in addition to 16,056 donated cases of water

115,700 faucet filters were purchased

236,000 replacement cartridges were purchased

2,300 filtered water pitchers were purchased

**From Planning:**

Here is the information on resource distributed as of 5 pm today. This includes the updated totals from yesterday (between 7-9 pm) and the daily totals for PODs and FWRT as of 5 pm today.

**As of 1/18/16 as of** 5pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 37,313
    b. Filters 53,713
    c. Filter cartridges 169,520
    d. Test kits 7,379

Correction, if they are large enough to go the Warehouse, they must call ahead to the warehouse manager, Ms. Shawn Scott-Fitzgerald and she can be reached at [redacted]. Deliveries can be made between 10 am and 7 pm. There is a dock that goes right into the warehouse and the water needs to be on pallets.

Thank you,

MSP-SEOC11

Hello Tori:

We have different processes depending on the amount of water being donated.

Small donations – less than 100 cases can be delivered to:

*Catholic Charities Center for Hope (Monday through Friday 9 am – 4 pm)*
517 E. Fifth Avenue
OR
American Red Cross (Monday through Friday, 9 am to 4 pm)
1401 Grand Traverse Street

Large Water Donations – 100 cases or more, up to 1 semi-truck

Food Bank of Eastern Michigan (Monday through Friday, 8 am – 4:30 pm)
2300 Lapeer Road

Please let me know if there is anything else you need.

Penny

**Subject:** Donations and Volunteer to date

Information as requested:

Below is the list of all the groups that have donated/volunteered as of yet. We know of some unreported resources donated; however none have been confirmed.

- The Flint Child Health & Development Fund United Way: Charitable fund created for needs of Flint children exposed to lead www.flintkids.com

- American Red Cross: Stood up a formal Disaster Relief Operation and established headquarters in Flint, Volunteer Reception Center for Volunteer Management, Volunteers for Water Response Teams, Staffing at each of the 5 PODS-distributing water, filters, and test kits, Inventory Management of Resources at the Warehouses, Providing meals for all the Water Resource Teams, Assembly of Water Test Kits, provided a Disaster Relief Logistic-Planning consultant

- National Pipefitters Association-(Kroger): Donated 20 pallets = 6,384 cases

- State of Michigan Employees & family members: Volunteers to assist with distribution off or January 16, 17, 18

- Dean Transportation, Patrick Dean, patrickd@deantrans.com: Donated 21 Drivers to drive the donated Penske trucks - for Saturday 1/16 and Sunday 1/17

- FOX 2 and iHeartRadio Clio: Donated 2 Semi-Truck loads of cases of water

- Faith Based Organizations distributing water:

    - Mission of Hope
    - Vernon Chapel
    - Saints of God
    - Mt Zion Baptist Church
    - Metropolitan Baptist Church
    - Mt Carmel Baptist Church
    - Mt Calvary Baptist Church
    - Grace Emmanuel Baptist Church
    - Christ Fellowship Baptist Church

- Genesee County Community Action Resource Department (GCCARD)-Distribution Point/Warehouse-distributed water, filters, and test kits.

- Fire stations that are Points of Distributions (PODS): for water, water testing kits, replacement water filters

    - #1, #3, #5, #6, #8

- Flint Water Treatment Plant: Water sample drop off site

- Grainger: Donation of Shipping costs for resources

- Flint City Hall: Water sample drop off site

- Country Fresh: Donated 20 cases w/4 gallons in each case = 80 gallons of water

Please let me know if you need any additional information.

**Cc:** MSP-SEOC11; Strobel, Pamela (MSP); MSP-SEOC4
**Subject:** Donations and Volunteer to date

Information as requested:

Below is the list of all the groups that have donated/volunteered as of yet. We know of some unreported resources donated; however none have been confirmed.

- The Flint Child Health & Development Fund United Way: Charitable fund created for needs of Flint children exposed to lead www.flintkids.com
- American Red Cross: Stood up a formal Disaster Relief Operation and established headquarters in Flint, Volunteer Reception Center for Volunteer Management, Volunteers for Water Response Teams, Staffing at each of the 5 PODS-distributing water, filters, and test kits, Inventory Management of Resources at the Warehouses, Providing meals for all the Water Resource Teams, Assembly of Water Test Kits, provided a Disaster Relief Logistic-Planning consultant
- National Pipefitters Association-(Kroger): Donated 20 pallets = 6,384 cases
- State of Michigan Employees & family members: Volunteers to assist with distribution off or January 16, 17, 18
- Dean Transportation, Patrick Dean, patrickd@deantrans.com: Donated 21 Drivers to drive the donated Penske trucks - for Saturday 1/16 and Sunday 1/17
- FOX 2 and iHeartRadio Clio: Donated 2 Semi-Truck loads of cases of water
- Faith Based Organizations distributing water:
    - Mission of Hope
    - Vernon Chapel
    - Saints of God
    - Mt Zion Baptist Church
    - Metropolitan Baptist Church
    - Mt Carmel Baptist Church
    - Mt Calvary Baptist Church
    - Grace Emmanuel Baptist Church
    - Christ Fellowship Baptist Church
- Genesee County Community Action Resource Department (GCCARD)-Distribution Point/Warehouse-distributed water, filters, and test kits.
- Fire stations that are Points of Distributions (PODS): for water, water testing kits, replacement water filters
    - #1, #3, #5, #6, #8
- Flint Water Treatment Plant: Water sample drop off site

- Grainger: Donation of Shipping costs for resources
- Flint City Hall: Water sample drop off site
- Country Fresh: Donated 20 cases w/4 gallons in each case = 80 gallons of water

Please let me know if you need any additional information.

Pam, please track...

#1: From the Department of Ed's Louis Burgess: Bernard Gladney from Sodexco (sp?) Magic, he works for the Flint Schools. He said they have received a ton of donated water from many locations. They would like to donate some of the water. Personally, I'm not comfortable pulling from the schools for a water source, but we should keep track of it in the event we need to offset our supply.

JEN-THIS ONE IS FOR YOU:
#2: Jamie Gaskon from United Way, told me that the CEO of Zero Water Filters is having a press event today announcing a program where they are offering any of their distributors who buy a Zero filter for the Flint emergency, they will match it. Jen, are these DEQ approved?

Subject: RE: Comcast Filters

When do they want to do this? How are they tracking it? Do they have our app? How will they report distribution? We need this information for our checks and balances. Water is less important, but filters need to be tracked. Thanks.

Wendy

Subject: Comcast Filters

Shawn,

Comcast will be doing in home distribution during service calls within the city of flint and to have them at their payment center. They are requesting 1,000 filters and will stock 10 on a truck. They are open to taking a smaller amount (500) at first. They are able to pick-up from GCCARD. They don't want any water.

I can coordinate with Comcast once the stock is ready if you wish. The contact at Comcast is Chris,

-J

Hi Capt., just since I sent the email ref church requests, I received another. Apparently, Pastor Ellerson is passing my cell number onto others.

- Pastor Collins, Mt. Sinia Missionary Baptist Church, 1215 E. Downing Ave., Flint 48505, tx:810-394-4772, is requesting 40 filters and water for members of his church receiving Flint water.

Can we please deliver the following to Pastor Collins. He was hoping for delivery around 3:00pm today if possible. If not, please let me know.

40 filters
40 replacement cartridges
40 test kits
1 pallet of water
Pastor Collins will collect data and test kits. I will work out collection of those items with him. Thank you, BJ

Good Morning,

Attached are the guidelines for entering your time in DCDS by coding block for those of you that are working **overtime** for the City of Flint Contamination/Shortage event. Please use **Index 28900 with PCA 28670** for overtime worked for this event. Do not use these codes for your regular hours.

Please contact one of the division timekeepers if you need additional guidance in entering the special codes for recording your overtime worked on this special event. Division timekeepers are Michelle Gilsdorf, Richard Sheaffer, and Nancy Downs.

Thank you,
Nancy

**To:** MSP-EMHSD-Division
**Cc:** MSP-SEOCOPSC; MSP-seocfgc; MSP-seoclgc
**Subject:** Coding for City of Flint Water Contamination incident

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

**Index 28900 with PCA 28670**

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

**Index 28900 with PCA 28671**.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

Hi Jen/DEQ-EMC

Please see note below from Jackson Co. DHHS staff interested in donating water to Flint residents and let us know best advise to direct their good will. I see from the attached release from the Joint Information center (JIC) that the Red Cross is coordinating donations. If that's the preferred way to send donated water is there a contact number to forward to Jackson DHHS and other potential donors. Thanks

Mitch

**Subject:** Teaming Up With Our DHHS Family in Flint and Genesee County

Good Evening Everyone,

As many of you are aware, there is a serious water crisis in Flint, MI. We are asking MDHHS members of Jackson County to stand with Genesee County to donate water (cases or gallon jugs) towards this initiative until the water issue is resolved. Although Jackson County is not directly affected by this crisis, it will be a great way to try and support those communities that are impacted.

In the past, Jackson County has come together with minimal effort to provide support to worthy causes, are you willing to support or volunteer to this one? Donations will be collected January Monday 25th - Friday 29th. To donate please contact Andrea Burks 2nd Floor or Niya Moore 2nd floor or Zoe Lyons 3rd floor.

One of my good friends at DHHS who lives in Flint said this, "Cooking over the holidays was a chore using filtered water for everything. You can't rinse fruit, meat, boil for spaghetti. Brush teeth. I went though a lot of water. A gallon a day for just my husband, dog and I drinking it and making coffee. I have a faucet filter but it's only good for 100 gallons and comes out in a slow stream."

So just imagine ... How hard this is for everyone when you consider this information.

> For your efforts, if you donate one case or a couple jugs of water (or more as it will clearly be used) you will receive one week of casual dress. We are also looking for volunteers to help drive the cases to Flint.

Let's see what we can do!!

Zoe

Pam, please track...

#1: From the Department of Ed's Louis Burgess: Bernard Gladney from Sodexco (sp?) Magic, he works for the Flint Schools. He said they have received a ton of donated water from many locations. They would like to donate some of the water. Personally, I'm not comfortable pulling from the schools for a water source, but we should keep track of it in the event we need to offset our supply.

**JEN-THIS ONE IS FOR YOU:**
#2: Jamie Gaskon from United Way, told me that the CEO of Zero Water Filters is having a press event today announcing a program where they are offering any of their distributors who buy a Zero filter for the Flint emergency, they will match it. Jen, are these DEQ approved?

HI, just FYI. We are now getting people show up at the fire stations asking for multiple filters (over 50) for apts they say own. They have been advised to call jay so this can be coordinated. Also, as you can see many populations have already been serviced prior to the declaration. Any questions please let me know. Thanks, BJ

Shawn,

Comcast will be doing in home distribution during service calls within the city of flint and to have them at their payment center. They are requesting 1,000 filters and will stock 10 on a truck. They are open to taking a smaller amount (500) at first. They are able to pick-up from GCCARD. They don't want any water.

I can coordinate with Comcast once the stock is ready if you wish. The contact at Comcast is Chris,

**Subject:** National Guard at the PODs

LTC Chad Randall from Military and Veterans Affairs and Captain Kelenske have reviewed and agreed that the attached document is the current plan. Captain Kelenske went on to say he is hoping that as we reduce Red Cross staff at the PODs we will be able to assign more to the Water Response Teams canvassing the Flint neighborhoods.

LTC Randal and I believe the decision on Sunday as to whether Red Cross should continue to contribute staff to the PODs can be made locally since we both have representatives at the GCEOC, as long as the decision is communicated back to us at the SEOC. We will need to report the decision to the rest of the SEOC.

Paul

Dear Secretary:
I am a former Professor at Drexel University and am currently heavily involved in herbal supplements. I thought I might be of help treating the lead poisoning problem. Dr. Mark Stearns. Herbalishous Corp. Wayne, PA. ph. 484-580-8883. Ground IVY: A common weed of lawns and gardens and fortunately is also a useful medicinal herb. It has antiviral, expectorant, diuretic, diaphoretic and anti-inflammatory activities. Ground Ivy is useful for bronchitis, viral pneumonia,

cystitis, and renal and biliary calculi. Based on hints in old herbals, this herb has been used clinically for increasing lead excretion from the body with positive results.

HI, just FYI. We are now getting people show up at the fire stations asking for multiple filters (over 50) for apts they say own. They have been advised to call jay so this can be coordinated. Also, as you can see many populations have already been serviced prior to the declaration. Any questions please let me know. Thanks, BJ

**Subject:** Please track

Pam, please track...

#1: From the Department of Ed's Louis Burgess: Bernard Gladney from Sodexco (sp?) Magic, he works for the Flint Schools. He said they have received a ton of donated water from many locations. They would like to donate some of the water. Personally, I'm not comfortable pulling from the schools for a water source, but we should keep track of it in the event we need to offset our supply.

**JEN-THIS ONE IS FOR YOU:**
#2: Jamie Gaskon from United Way, told me that the CEO of Zero Water Filters is having a press event today announcing a program where they are offering any of their distributors who buy a Zero filter for the Flint emergency, they will match it. Jen, are these DEQ approved?

Hi Jen/DEQ-EMC

Please see note below from Jackson Co. DHHS staff interested in donating water to Flint residents and let us know best advise to direct their good will. I see from the attached release from the Joint Information center (JIC) that the Red Cross is coordinating donations. If that's the preferred way to send donated water is there a contact number to forward to Jackson DHHS and other potential donors. Thanks

**Subject:** Teaming Up With Our DHHS Family in Flint and Genesee County

Good Evening Everyone,

> As many of you are aware, there is a serious water crisis in Flint, MI. We are asking MDHHS members of Jackson County to stand with Genesee County to donate water (cases or gallon jugs) towards this initiative until the water issue is resolved. Although Jackson County is not directly affected by this crisis, it will be a great way to try and support those communities that are impacted.
>
> In the past, Jackson County has come together with minimal effort to provide support to worthy causes, are you willing to support or volunteer to this one? Donations will be collected January Monday 25th- Friday 29th. To donate please contact Andrea Burks 2nd Floor or Niya Moore 2nd floor or Zoe Lyons 3rd floor.
>
> One of my good friends at DHHS who lives in Flint said this, "Cooking over the holidays was a chore using filtered water for everything. You can't rinse fruit, meat, boil for spaghetti. Brush teeth. I went though a lot of water. A gallon a day for just my husband, dog and I drinking it and making coffee. I have a faucet filter but it's only good for 100 gallons and comes out in a slow stream."

So just imagine ... How hard this is for everyone when you consider this information.

> For your efforts, if you donate one case or a couple jugs of water (or more as it will clearly be used) you will receive one week of casual dress. We are also looking for volunteers to help drive the cases to Flint.

Let's see what we can do!!

Zoe

## Strobel, Pamela (MSP)

**From:** Spata, Paul <paul.spata@redcross.org>
**Sent:** Thursday, January 14, 2016 11:28 AM
**To:** Strobel, Pamela (MSP)
**Cc:** Gutierrez, David M.; Dintenfass, Linda
**Subject:** Lunch time coffee at GCEOC

Pam,

Michelle Gilsdorf (517-333-5049) with the State Police, Finance Div. has been ordering the lunches for the Genesee County EOC. The members of the Water Response Teams also are fed there. The vendor Michelle is using doesn't supply coffee in any volume. She says we need enough coffee for 150 people. (She ordered lunch for 180, but doesn't think there are as many volunteers out today as were planned for.)

So, we will be supplying lunchtime coffee for the members of the GCEOC and members of the Water Response Teams.
We should supply at least 150 cups of coffee. (Yes. Cream, sugar,etc. will be needed as well.)
The local contact is Michelle Kuzera,
The coffee is to be delivered to the GCEOC in the basement at 1101 Beach St., Flint 48502.

Coffee is also needed at the JIC.
Michelle G. says we will need to provide coffee for 15 people, as well as the cream, etc.
The local contact is Ron Leix,
The JIC is located at 125 E. Union St.

Michelle G. has already ordered 180 box lunches for tomorrow, and asks that we provide coffee tomorrow as well. I believe this means that we will not need to be ready to take over the feeding for the Water Response Teams before Saturday.

Paul

Subject: Pipeline Process

Lauren,

All requests (donations, people (teams), water, filters, test kits, spontaneous volunteer's, etc.) need to be entered into MI CIMS as a resource request to the Logistic Chief. From there the Logistic Chief will task it out to the State Agency that can fill that request. Or if it is not a request to fill, as in a donation, it is then tasked to the Logistic Support Staff (Pam Strobel) to be uploaded into the Google docs collaboration document as a resource to be tracked.

All resource requests and tracked items will be uploaded to the Google docs collaboration document.

Warehouse inventories need to be sent to the Logistic Chief twice a day (12 p.m. and 6 p.m.) daily and those updates will be uploaded to the same collaboration document.

Please let me know if you have any questions.

Thank you,
Pam Strobel

**Attachments:** DCDS Hours Entry by Coding Block.docx

Good Morning,

Attached are the guidelines for entering your time in DCDS by coding block for those of you that are working **overtime** for the City of Flint Contamination/Shortage event. Please use **Index 28900 with PCA 28670** for overtime worked for this event. Do not use these codes for your regular hours.

Please contact one of the division timekeepers if you need additional guidance in entering the special codes for recording your overtime worked on this special event. Division timekeepers are Michelle Gilsdorf, Richard Sheaffer, and Nancy Downs.

Thank you,
Nancy

**Subject:** Coding for City of Flint Water Contamination incident

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

**Index 28900 with PCA 28670**

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

**Index 28900 with PCA 28671.**

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

**Subject:** Flint Water Shortage / Contamination SEOC Activation
**Importance:** High

As per the Governor's Declaration, the SEOC was activated last Wednesday, January 6, 2016 to assist with the City of Flint water contamination/shortage. We have received our first resource request and we have assigned the task. We are delivering a 53 foot enclosed semi-trailer with power lift gate (climate controlled) to the Food Bank of Eastern Michigan by 0900 hours on 1/13/2016. We have also allocated a 30 foot enclosed "box" truck to DTMB to assist with water distribution/delivery. The 30 foot vehicle request is complete and DTMB has possession.

We will also be providing additional box trucks and resource distribution teams to assist with distribution to the residential areas of Flint. I am in contact with FOA and CFA assets to accomplish the resource request with as little impact as possible to each area.

A further assessment will be conducted daily and updates will follow. We will continue to staff the SEOC as determined by the State Homeland Security Director.

Brent TRAVELBEE will be the point of contact for all MDOC resources.

Please reply all when responding to email. Information should only be shared with those with a need to know.

Thank you.
Brent

***Importance:*** High

Thank you for the phone call.

Yes, you may leave your dishes and pick them up the following night; however, it is easier for you, you could bring disposables.

If possible, could delivery time be bumped to 5 p.m. nightly? Serve time is 5:30 p.m.

Also, can we add:

- Saturday, January 16, Oriental Stir Fry-Chicken
- Sunday, January 17, Homemade Meatloaf

The State Emergency Operation Center, which is activated (where the food is being delivered to) due to the Flint Water issue and we are in need of food during the activation.
I thought of you immediately!

Please let me know as soon as possible on the added days.

Thank you,
Pam

**Importance:** High

Good morning, Amy,

I would like to confirm food counts and delivery address for our catering orders.

Food counts: 45 for each night
Delivery time: 5:30 p.m.
Address: 4000 Collins Road, Lansing, MI (This is a secure building, before 5 p.m., there is a guard that will allow access through the gate. After 5 p.m., driver must call access number to be let in)

- Wednesday, January 13, Baked Potato Bar
- Thursday, January 14, Taco Bar-Beef

I would also like to add Friday night if possible (same counts, address, and delivery time)?

- Friday, January 15, Chicken Cordon Blue

I look forward to working with your company again.

If you have any questions, please contact me.

Diane,

Here is the food count for the remainder today through Sunday.

Please order enough lunches and dinner for 45 people (if this number changes I will let you know). I know we have dinner set up for Wednesday and Thursday of this week. We still need to figure out dinner for the other evenings.

Also are you in need of supplies? If so can you please send me an email.

Thanks

**Subject:** RE: Flint Water Contamination Response - NSF Filer Verification

Dear Ms. Wolf,
Thank you for contacting NSF International. Dupont does not have certification for water filters with NSF International.
For reference, here are the filters and RO systems that are NSF certified for lead reduction:
Pour Through Water Pitchers
Faucet Mounted Filters
Under Sink Filters
Reverse Osmosis

If you need additional information or have further questions, please let me know.
Thank you for your inquiry.

Kind regards,
Mindy Costello RS MS

| Water Resource Site Fire Station 8 | 202 East Atherton, Flint, MI 48507 | -0900-2100 |

2. POD Product Composition
    1. **NEED FROM SHAWN**

ii. Mobile Distribution is being conducted via Water Resource Teams
1. **Assembly area**
2. **Mission Ready Packets**

iii. Rapid Response Distributions
1. **NEED PROCESS FROM MICHELLE**

iv. Local Partner Distributions
1. **NEED PROCESS FROM MICHELLE**

d. Concept of Support
i. Resourcing support for all distribution methods will be provided via a consolidated logistics pipeline. Replenishment will be conducted automatically and on demand. Reception, Staging, and Onward Integration (RSOI) of material resources will be managed via a warehouse system and RSOI of personnel resources will be managed via a Volunteer Reception Center and XXX (State Employees)

ii. Tasks
1. SEOC Logistics Section Chief is accountable for resourcing support for all distribution methods and maintaining end to end visibility of all resources
2. SEOC Logistics Support Staff is accountable for maintaining the Pipeline Report to ensure accurate resource tracking
3. Red Cross Warehouse Managers will provide warehouse management and are accountable to the SEOC Logistics Section Chief
4. Red Cross will manage the Volunteer Reception Center
5. Local EOC Logistics will provide logistics support to the Rapid Response Distributions

**Comment [JE1]:** To get resources for this operation should local EOC call SEOC or Logistics? -Jay

iii. Warehouse System
1. Currently operating 3 locations with intent to consolidate to single, central location

| Name | Location | Hours of Operation | POC |
|---|---|---|---|
| GCARD | 2727 Lippincott, Flint , MI | | Shawn |
| Clio | 4315 North Clio Road, Flint, MI | | John Foust |
| Court | 3086 East Court Street | | John Foust |

iv. Volunteer Reception Center
1. 1 location managed by American Red Cross
2. The volunteer intake process takes 20-30 minutes.

| Name | Location | Hours of Operation | POC |
|---|---|---|---|
| American Red Cross | 1401 S Grand Traverse<br>Flint, Mi 48503 | 0900-1900 | |

v. Resource Request and Tracking Process

1. Pipeline Report
   https://docs.google.com/spreadsheets/d/1wXVQvQ2lJ6N_ORpo8bvtBIEQJrDxkyoPg-EjZRtNepg/edit?usp=sharing
2. All resource requests and offers of support (people, product, facilities, vehicles, etc) will be entered into MI CIMS as a resource request to the SEOC Logistic Section Chief.
3. The SEOC Logistic Section Chief. will task it out to the State or Volunteer Agency that can fill that request or procure as necessary
4. All resource requests and offers of support will be tracked and monitored via the Pipeline report (Google docs collaboration document)
5. Warehouse inventories will be sent to the SEOC Logistic Section Chief. daily at 1800 and Incorporated into the Pipeline report
6. Volunteer Workforce Request for Volunteer Reception Center
   1. REQUIRED INFORMATION:
      i. Who is the Point Of Contact?
      ii. Who is the supervisor?
      iii. Where do volunteers report?
      iv. What Dates are volunteers needed?
      v. What times are volunteers needed?
      vi. How many volunteers are needed?
      vii. Who is providing transportation for the volunteers?
      viii. Who is providing meals, snacks and beverages?
      ix. Are there any qualifications needed?
      x. IMPORTANT NOTE:
         - Brief job description is required
         - The requestor of the volunteers must understand they assume responsibility for the volunteer's safety and the volunteer's actions.
         - The requestor of the volunteers are responsible for managing and providing direction.
         - 48 hour advance notification required for request.
         - Reasonable expectations of the volunteer workforce

**Comment [JE2]:** In the google doc Henrik is listed as the local logistics POC. He is planning section In the EOC Jay Eickholt is the current Logistics POC.

Distribution Reporting

Flint Water Crisis – Emergency Response

Plan for

Management and Operation of Points of Distribution

Beginning at 09:00 (9 am.) Friday, 1-15-16, The Michigan National Guard will be stationing 3 (three) soldiers at each of the 5 (five) fire stations being used as Points of Distribution (PODs). At this point, responsibility for operation of the PODs becomes the Guard's mission.

The Red Cross will continue to supply volunteer staffing at these PODs through the weekend (Friday through Sunday) at 2 (two) volunteers for each POD (or fewer at any specific site where all parties agree). This is to provide sufficient coverage that any surge in clientele can be readily handled.

A mutual decision will be made on Sunday, 1-17-16, regarding the need for further Red Cross staffing of the PODs.

1. Situation:

There are 45,000 active water meters in the impacted area
As of 2130 on 01.13.16 17, 276 households have received water filters
**MAP**

        2. SEOC Logistics Support Staff is accountable for maintaining the Pipeline Report to ensure accurate resource tracking
        3. Red Cross Warehouse Managers will provide warehouse management and are accountable to the SEOC Logistics Section Chief
        4. Red Cross will manage the Volunteer Reception Center
        5. Local EOC Logistics will provide logistics support to the Rapid Response Distributions

    iii. Warehouse System
        1. Currently operating 3 locations with intent to consolidate to single, central location

| Name | Location | Hours of Operation | POC |
|---|---|---|---|
| GCARD | 2727 Lippincott, Flint , MI | | Shawn |
| Clio | 4315 North Clio Road, Flint, MI | | John Foust |
| Court | 3086 East Court Street | | John Foust |

    iv. Volunteer Reception Center
        1. 1 location managed by American Red Cross
        2. The volunteer intake process takes 20-30 minutes.

| Name | Location | Hours of Operation | POC |
|---|---|---|---|
| American Red Cross | 1401 S Grand Traverse<br>Flint, Mi 48503 | 0900-1900 | |

v. Resource Request and Tracking Process
    1. Pipeline Report
        https://docs.google.com/spreadsheets/d/1wXVQvQ2IJ6N_ORpo8bvtBIEQJrDxkyoPg-EjZRtNepg/edit?usp=sharing
    2. All resource requests and offers of support (people, product, facilities, vehicles, etc) will be entered into MI CIMS as a resource request to the SEOC Logistic Section Chief.
    3. The SEOC Logistic Section Chief. will task it out to the State or Volunteer Agency that can fill that request or procure as necessary
    4. All resource requests and offers of support will be tracked and monitored via the Pipeline report (Google docs collaboration document)
    5. Warehouse inventories will be sent to the SEOC Logistic Section Chief. daily at 1800 and incorporated into the Pipeline report
    6. Volunteer Workforce Request for Volunteer Reception Center
        1. REQUIRED INFORMATION:
            i. Who is the Point Of Contact?
            ii. Who is the supervisor?
            iii. Where do volunteers report?
            iv. What Dates are volunteers needed?
            v. What times are volunteers needed?
            vi. How many volunteers are needed?
            vii. Who is providing transportation for the volunteers?
            viii. Who is providing meals, snacks and beverages?
            ix. Are there any qualifications needed?
            x. IMPORTANT NOTE:
                - Brief job description is required
                - The requestor of the volunteers must understand they assume responsibility for the volunteer's safety and the volunteer's actions.
                - The requestor of the volunteers are responsible for managing and providing direction.
                - 48 hour advance notification required for request.
                - Reasonable expectations of the volunteer workforce

## Filters provide best access to safe drinking water in Flint

*Focus remains on ground stabilization, distribution of water resources*

LANSING, Mich. – Flint residents are encouraged to use water filters as their primary source for water consumption and cooking needs.

"The best way to ensure safe drinking water in your home is to have a water filter properly installed on your tap," said Dr. Eden Wells, chief medical executive with the Michigan Department of Health and Human Services. "Filters make your water safe to consume, and provide the most sustainable solution for having access to safe water in your home."

Donated water continues to be distributed to the five water resource sites at Flint fire stations. Residents should install filters to their taps to ensure they have immediate, ongoing access to safe water. Free filters and replacement cartridges are available at the water resource sites.

"We recognize the urgency of getting water resources to the residents of Flint," Capt. Chris Kelenske, Deputy State Director of Emergency Management and Homeland Security and commander of the Michigan State Police Emergency Management and Homeland Security Division. "To help ensure the necessary resources continue to be available at the water resource sites, the state is expanding their partnership with the American Red Cross to utilize their warehousing and inventory management capabilities for stored water resources."

In addition, water resource teams will begin going door-to-door in Flint neighborhoods on Tuesday to distribute clean water resources. The water resource teams, consisting of state personnel and Michigan State Police (MSP) troopers, will be distributing bottled water, water filters, replacement cartridges and water testing kits.

If a resident is not home when a team stops by, a flyer with information on how to receive these free water resources will be left at their residence.

Additional resources, including a video on how to install filters, are available at www.michigan.gov/flintwater and by calling 2-1-1.

Op Order V1.0_01.14.16

1. Situation:

There are 45,000 active water meters in the impacted area
As of 2130 on 01.13.16 17, 276 households have received water filters
**MAP**

2. Mission Statement:

Ensure all households within the impacted area have the required resources

3. Execution
    a. Commander's Intent
        i. Distribute filters and additional resources to all impacted households within 5 days. The priority of effort is the Fixed Points of Distribution (PODs).
    b. Concept of Operations
        i. Distribution of resources will be conducted using 4 methods: Fixed PODs, Mobile Distribution Teams, Rapid Response Distributions, and Local Partner Distributions.
        ii. Tasks
            i. Fixed PODs
                1. Red Cross will staff all sites through **XXX**
                2. Red Cross will conduct transition brief with Michigan National Guard on **XXX**
                3. Michigan National Guard will assume staffing responsibility as of **XXX**
            ii. Mobile Distribution is being conducted via Water Resource Teams
                1. Recovery Branch Support will determine Water Resource Team composition, standards, resource requirements, and priority areas for distribution
                2. Michigan State Police will provide command and control (assemble, coordinate, monitor) of Water Resource Teams
            iii. Rapid Response Distributions
                1. Local EOC Operations Section Chief/District Coordinator will approve partner requests for distribution support
                2. **XXX** will execute Rapid Response Distributions
            iv. Local Partner Distributions
                1. Local EOC Operations Section Chief/District Coordinator will approve partner requests for distribution support
                2. **XXX** will execute partner requests for distribution support
    c. Coordinating Instructions
        i. Fixed PODs are located at 5 fire stations.
            i. POD Locations

| | | |
|---|---|---|
| Water Resource Site Fire Station 1 | 310 East Fifth, Flint, MI 48502 | 0900-2100 |
| Water Resource Site Fire Station 3 | | |
| Water Resource Site Fire Station 5 | | |
| Water Resource Site Fire Station 6 | | |

| | | |
|---|---|---|
| Water Resource Site Fire Station 8 | | |

2. POD Product Composition

ii. Mobile Distribution is being conducted via Water Resource Teams
   1. **Assembly area**

iii. Rapid Response Distributions

iv. Local Partner Distributions

d. Concept of Support
   i. Resourcing support for all distribution methods will be provided via a consolidated logistics pipeline. Replenishment will be conducted automatically and on demand. Reception, Staging, and Onward Integration (RSOI) of material resources will be managed via a warehouse system and RSOI of personnel resources will be managed via a Volunteer Reception Center and XXX (State Employees)
   ii. Tasks
      1. SEOC Logistics Section Chief is accountable for resourcing support for all distribution methods and maintaining end to end visibility of all resources
      2. Logistics Support Staff is accountable for maintaining the Pipeline Report to ensure accurate resource tracking
      3. Red Cross Warehouse Managers will provide warehouse management and are accountable to the SEOC Logistics Section Chief
      4. Red Cross will manage the Volunteer Reception Center
      5. Local EOC Logistics will provide **XXX**

   iii. Warehouse System
      1. Currently operating 3 locations with intent to consolidate to single, central location
         1. Primary Location
         2. GCARD
         3. Court

| Name | Location | Hours of Operation | POC |
|---|---|---|---|
| | | | |

   iv. Volunteer Reception Center
      1. 1 location managed by American Red Cross
      2. The volunteer intake process takes 20-30 minutes.

| Name | Location | Hours of Operation | POC |
|---|---|---|---|
| American Red Cross | 1401 S Grand Traverse<br>Flint, Mi 48503 | 0900-1900 | |

   v. Resource Request and Tracking Process
      1. Pipeline Report
         https://docs.google.com/spreadsheets/d/1wXVQvQ2IJ6N_ORpo8bvtBIEQJrDxkyoPg-EjZRtNepg/edit?usp=sharing

2. All resource requests and offers of support (people, product, facilities, vehicles, etc) will be entered into MI CIMS as a resource request to the Logistic Chief.
3. The Logistic Chief will task it out to the State or Volunteer Agency that can fill that request
4. All resource requests and offers of support will be tracked and monitored via the Pipeline report (Google docs collaboration document)
5. Warehouse inventories will be sent to the Logistic Chief twice a day (12 p.m. and 6 p.m.) daily and incorporated into the Pipeline report
6. Volunteer Workforce Request for Volunteer Reception Center
    1. REQUIRED INFORMATION:
        i. Who is the Point Of Contact?
        ii. Who is the supervisor?
        iii. Where do volunteers report?
        iv. What Dates are volunteers needed?
        v. What times are volunteers needed?
        vi. How many volunteers are needed?
        vii. Who is providing transportation for the volunteers?
        viii. Who is providing meals, snacks and beverages?
        ix. Are there any qualifications needed?
        x. IMPORTANT NOTE:
            - Brief job description is required
            - The requestor of the volunteers must understand they assume responsibility for the volunteer's safety and the volunteer's actions.
            - The requestor of the volunteers are responsible for managing and providing direction.
            - 48 hour advance notification required for request.
            - Reasonable expectations of the volunteer workforce

Lab Bottle Ordering and Preparation Procedure

1. The Lab will order bottle quantities based on the EOC's request and confirm to the EOC the order has been placed and quantity ordered.

2. The Lab initiated bottle orders will be shipped to the GCCARD directly from the vendor to the following address with one box from the order shipped to the Lab for lot testing.

   Attention: Matt Persel

   GCCARD, 2727 Lippencott, Flint, MI 48507

3. Upon receipt of the bottle order shipment, GCCARD will confirm from the shipment's packing slip, that the received quantity matches the ordered quantity. If the received quantity does not match the ordered quantity, GCCARD will immediately notify Kirby Shane, Julia Pieper, or Carol Smith at 517-335-9800. GCCARD will write the receipt date and lot number, and send the packing slip to the Lab to retain.

4. GCCARD will call the Lab immediately with the lot number on the shipment boxes and confirm that all boxes in the shipment are identified with the same lot number. The Lab will verify that the one box received at the Lab is identified with the same lot number. If additional lot numbers are identified in the shipment to GCCARD, or the lot numbers from GCCARD and the Lab do not match, GCCARD will send one box from the additional lot numbers to the Lab for lot testing.

5. The Lab will complete lot testing from the one box shipped to the Lab. Any additional lot numbers identified in the shipment by GCCARD, and sent to the Lab, will also be tested. Upon successful lot testing, the Lab will assign a lot number or lot numbers to the shipment of bottles.

6. The Lab will print enough bottle labels, identifying the bottle type and lot number, to label the entire shipment of bottles. The Lab will Label the bottles in the one box received and any additional boxes sent to the Lab by GCCARD for lot testing, and send these and printed labels to GCCARD.

7. GCCARD will firmly place one printed label on each bottle from the shipment, horizontally, at the approximate center of the bottle, from the labels supplied by the Lab for this shipment. **Do Not Use any extra previously supplied Labels unless the lot number of the previously acquired labels match the lot number of the new labels.**

# Water

**Today's numbers:**

7,824 cases of water arrived today, 1/12/16 (109 pallets)

**Ordered:**

19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)

- 1/3 is going to GCard and the rest is going to the new warehouse

12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

# Filters

**Today's numbers:**

**Ordered 1/11/16 – Delivered 1/12/16 direct to GCCARD**

**2,000** – Brita filter faucet mounts

**Filter Replacements**

**2,400** – Brita filter replacements

**8,000** – Brita filter replacements

**Ordered 1/12/16 to arrive Wednesday**

**Faucet Mounts – To be delivering direct to GCCARD on 1/13/16 (Wednesday)**

10,000 – PUR Vertical faucet mount

2,500 – PUR Horizontal mount

**Replacement Filters – Delivering direct to GCCARD on 1/13/16 (Wednesday)**

10,000 – PUR replacement filters

10,000 – PUR replacement filters

**PUR Combination Pack – Delivering direct to GCCARD on 1/13/16 (Wednesday)**

10,700 – PUR combo packs

**To arrive Thursday**

**Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)**

1,300 – Zero Water pitchers

**Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)**

11,000 – PUR vertical faucet mount

1,500 – PUR Horizontal faucet mount

5,000 – Brita faucet mount

10,000 – Brita adv faucet mount white

12,000 – Brita adv faucet mount chrome

**Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)**

15,000 – PUR replacement filter
45,000 – PUR replacement filter
40,000 – PUR replacement filter
16,000 – PUR replacement filter
1,600 – Brita replacement filter

# Test Kits

6601 unassembled kits arrived at GCard today, 1/12/16.

- 500 have been assembled and are ready for distribution

1000 additional unassembled kits have been ordered to be delivered at GCard (no ETA yet)
10,142 unassembled kits to arrive at GCard early next week

# Second warehouse

100, 000 square feet of secure warehouse obtained.
Located in Flint
Accepting commodities beginning Wednesday, January 13

# Manpower

An American Red Cross Logistics Planner arrived today as requested. Specialist will assist in streamlining the inventory and distribution of same.

Good afternoon, Pam.
I do not have anything additional to report on behalf of MTED. However, since we do not have access to the SIMs database, I cannot view tasks or assignments. We have been attending the 9:30a SEOC update calls.

Please advise if further information is required.

Thank you,

To: 'Strobel, Pamela (MSP)'
Cc: Jeremy Hendges (TED)
Subject: MTED
Importance: High

Good afternoon, Pam.
Per our conversation, I was in attendance at the SEOC from 11:03a to 3:45p. With the recent transition of these responsibilities at MTED, I have not been trained on/logged in to the SIMs system to date. Therefore, this message contains the report from Michigan Department of Talent and Economic Development (MTED), due by 4:30p:

MSHDA

1. Allowable: Pay for the costs of water quality analysis of all MSHDA backed mortgages in Flint.
2. Allowable: Pay for the replacement of water lines owned by residents with MSHDA mortgages within the city that need to be replaced or lines to homes with MSHDA backed mortgages or incomes less than 50% AMI.
3. Allowable: Pay for a percentage of the reconnection fee to acquire water from Detroit up to an amount not to exceed the % of MSHDA financed homes or low income households in the city (50% AMI).
4. Allowable: Pay for the replacing the city's municipal water line infrastructure associated with water lines being replaced to homes in the city with MSHDA backed mortgages or those household at or below 50% AMI.
5. Allowable: Pay for a percentage of any new infrastructure costs associated with the build out of a new water supply system so long as the amount doesn't exceed the % of MSHDA financed homes or low-income households in the city (50% AMI).
6. Allowable: Purchase of water for low income households (50% AMI).
7. Allowable: Purchase of water filters for any low income households (50% AMI).
8. Allowable: public awareness through HDF grants

. The grants staff team is already drafting the necessary background materials for a potential grant application request. We would just need to know the recipient of the grant and purpose (allowable uses).

. We are exploring CDBG grant funds or other assistance from HUD.

MSF/MEDC

. MSF/MEDC had offered low interest loans as part of the deep freeze crisis. While this would require legislative action to authorize, it is something that could be considered in this scenario. It would require re-purposing any remaining funds.

Please let me know if there is additional information required. I am receiving the SEOC emails/voicemails.
As a side note, Melanie Brown has been temporarily reassigned to DEQ during the Flint Water Crisis. Jeremy Hendges will be acting as PIO for TED (cc'd on this message).

Thank you for your assistance, Pam.

Good afternoon, Pam.
Per our conversation, I was in attendance at the SEOC from 11:03a to 3:45p. With the recent transition of these responsibilities at MTED, I have not been trained on/logged in to the SIMs system to date. Therefore, this message contains the report from Michigan Department of Talent and Economic Development (MTED), due by 4:30p:

**MSHDA**

1. Allowable: Pay for the costs of water quality analysis of all MSHDA backed mortgages in Flint.
2. Allowable: Pay for the replacement of water lines owned by residents with MSHDA mortgages within the city that need to be replaced or lines to homes with MSHDA backed mortgages or incomes less than 50% AMI.
3. Allowable: Pay for a percentage of the reconnection fee to acquire water from Detroit up to an amount not to exceed the % of MSHDA financed homes or low income households in the city (50% AMI).
4. Allowable: Pay for the replacing the city's municipal water line infrastructure associated with water lines being replaced to homes in the city with MSHDA backed mortgages or those household at or below 50% AMI.
5. Allowable: Pay for a percentage of any new infrastructure costs associated with the build out of a new water supply system so long as the amount doesn't exceed the % of MSHDA financed homes or low-income households in the city (50% AMI).
6. Allowable: Purchase of water for low income households (50% AMI).
7. Allowable: Purchase of water filters for any low income households (50% AMI).
8. Allowable: public awareness through HDF grants

- The grants staff team is already drafting the necessary background materials for a potential grant application request. We would just need to know the recipient of the grant and purpose (allowable uses).

- We are exploring CDBG grant funds or other assistance from HUD.

**MSF/MEDC**

- MSF/MEDC had offered low interest loans as part of the deep freeze crisis. While this would require legislative action to authorize, it is something that could be considered in this scenario. It would require re-purposing any remaining funds.

Please let me know if there is additional information required. I *am* receiving the SEOC emails/voicemails.
As a side note, Melanie Brown has been temporarily reassigned to DEQ during the Flint Water Crisis. Jeremy Hendges will be acting as PIO for TED (cc'd on this message).

Thank you for your assistance, Pam.

**Subject:** Flint Drinking Water Issues

Dr. Wells,

I am participating in the State's defense of a class action lawsuit filed as a result of the drinking water issues in Flint. My Division Chief, Peter Manning, was at your presentation at the emergency management meeting and he thought it might be helpful to have me speak with you about the blood lead level testing and other efforts being under taken by DHHS in Flint. Do you have any time to meet with me and a few of our other attorneys in the near future? I appreciate any time that you can give us. If you think it would be more helpful for us to speak to somebody else at DHHS, please let me know.

**Sent:** Tuesday, January 05, 2016 4:46 PM
**To:** MSP-EMHSD-Division
**Subject:** URGENT - SEOC Activation

On January 4, 2016, Genesee County requested that a "State of Emergency/Disaster" be issued by Governor Snyder. *Today, the Governor issued a State of Emergency declaration.* EMHSD will **activate the SEOC tomorrow at 0800** and will conduct a briefing at 0900 on the event. All state agencies will be represented. I ask that only those personnel requested to play SEOC roles and section managers attend the 0900 briefing due to space constraints. The initial focus of the SEOC will be to:

- Identify and implement any needed protective actions to protect public health and safety;
- Develop situational awareness;
- Develop understanding of technical aspects;
- Coordinate damage assessment;
- Coordinate public information; and
- Identify programs to assist in remediating damage.

If you have any questions, please let me know.

**Subject:** URGENT - SEOC Activation

On January 4, 2016, Genesee County requested that a "State of Emergency/Disaster" be issued by Governor Snyder. Today, the Governor issued a State of Emergency declaration.

EMHSD will activate the SEOC tomorrow at 0800 and will conduct a briefing at 0900 on the event. All state agencies are to send a representative to the 0900 briefing. MDHHS and MDEQ have been directed to brief on the situation. Following initial SEOC briefings, each state agency, in consultation with the State Director, must determine if they need to play a role in ongoing SEOC operations to contribute to addressing the problem. At minimum, MDEQ, MDHHS, Education, DTED, DTMB, and MDARD should maintain a presence in the SEOC. The initial focus of the SEOC will be to:

- Identify and implement any needed protective actions to protect public health and safety;
- Develop situational awareness;
- Develop understanding of technical aspects;
- Coordinate damage assessment;
- Coordinate public information; and
- Identify programs to assist in remediating damage.

If you require anything in the interim, please contact me by email or cell (517-242-5371).

Lab Bottle Ordering and Preparation Procedure

1. The Lab will order bottle quantities based on the EOC's request and confirm to the EOC the order has been placed and quantity ordered.

2. The Lab initiated bottle orders will be shipped to the GCCARD directly from the vendor to the following address with one box from the order shipped to the Lab for lot testing.

   Attention: Matt Persel

   GCCARD, 2727 Lippencott, Flint, MI 48507

3. Upon receipt of the bottle order shipment, GCCARD will confirm from the shipment's packing slip, that the received quantity matches the ordered quantity. If the received quantity does not match the ordered quantity, GCCARD will immediately notify Kirby Shane, Julia Pieper, or Carol Smith at 517-335-9800. GCCARD will write the receipt date and lot number, and send the packing slip to the Lab to retain.

4. GCCARD will call the Lab immediately with the lot number on the shipment boxes and confirm that all boxes in the shipment are identified with the same lot number. The Lab will verify that the one box received at the Lab is identified with the same lot number. If additional lot numbers are identified in the shipment to GCCARD, or the lot numbers from GCCARD and the Lab do not match, GCCARD will send one box from the additional lot numbers to the Lab for lot testing.

5. The Lab will complete lot testing from the one box shipped to the Lab. Any additional lot numbers identified in the shipment by GCCARD, and sent to the Lab, will also be tested. Upon successful lot testing, the Lab will assign a lot number or lot numbers to the shipment of bottles.

6. The Lab will print enough bottle labels, identifying the bottle type and lot number, to label the entire shipment of bottles. The Lab will Label the bottles in the one box received and any additional boxes sent to the Lab by GCCARD for lot testing, and send these and printed labels to GCCARD.

7. GCCARD will firmly place one printed label on each bottle from the shipment, horizontally, at the approximate center of the bottle, from the labels supplied by the Lab for this shipment. **Do Not Use any extra previously supplied Labels unless the lot number of the previously acquired labels match the lot number of the new labels.**

### Filters provide best access to safe drinking water in Flint

*Focus remains on ground stabilization, distribution of water resources*

LANSING, Mich. – Flint residents are encouraged to use water filters as their primary source for water consumption and cooking needs.

"The best way to ensure safe drinking water in your home is to have a water filter properly installed on your tap," said Dr. Eden Wells, chief medical executive with the Michigan Department of Health and Human Services. "Filters make your water safe to consume, and provide the most sustainable solution for having access to safe water in your home."

Donated water continues to be distributed to the five water resource sites at Flint fire stations. Residents should install filters to their taps to ensure they have immediate, ongoing access to safe water. Free filters and replacement cartridges are available at the water resource sites.

"We recognize the urgency of getting water resources to the residents of Flint," Capt. Chris Kelenske, Deputy State Director of Emergency Management and Homeland Security and commander of the Michigan State Police Emergency Management and Homeland Security Division. "To help ensure the necessary resources continue to be available at the water resource sites, the state is expanding their partnership with the American Red Cross to utilize their warehousing and inventory management capabilities for stored water resources."

In addition, water resource teams will begin going door-to-door in Flint neighborhoods on Tuesday to distribute clean water resources. The water resource teams, consisting of state personnel and Michigan State Police (MSP) troopers, will be distributing bottled water, water filters, replacement cartridges and water testing kits.

If a resident is not home when a team stops by, a flyer with information on how to receive these free water resources will be left at their residence.

Additional resources, including a video on how to install filters, are available at www.michigan.gov/flintwater and by calling 2-1-1.

Flint Water Crisis – Emergency Response

Plan for

Management and Operation of Points of Distribution

Beginning at 09:00 (9 am.) Friday, 1-15-16, The Michigan National Guard will be stationing 3 (three) soldiers at each of the 5 (five) fire stations being used as Points of Distribution (PODs). At this point, responsibility for operation of the PODs becomes the Guard's mission.

The Red Cross will continue to supply volunteer staffing at these PODs through the weekend (Friday through Sunday) at 2 (two) volunteers for each POD (or fewer at any specific site where all parties agree). This is to provide sufficient coverage that any surge in clientele can be readily handled.

A mutual decision will be made on Sunday, 1-17-16, regarding the need for further Red Cross staffing of the PODs.

the principal point of contact regarding coordination of State and local disaster relief activities, and implementation of the State emergency plan. The functions, responsibilities, and authorities of the SCO are set forth in the State emergency plan. It is the responsibility of the SCO to ensure that all affected local jurisdictions are informed of the declaration, the types of assistance authorized, and the areas eligible to receive such assistance.

**§ 206.43 Emergency support teams.**

The Federal Coordinating Officer may activate emergency support teams, composed of Federal program and support personnel, to be deployed into an area affected by a major disaster or emergency. These emergency support teams assist the FCO in carrying out his/her responsibilities under the Stafford Act and these regulations. Any Federal agency can be directed to detail personnel within the agency's administrative jurisdiction to temporary duty with the FCO. Each detail shall be without loss of seniority, pay, or other employee status.

**§ 206.44 FEMA-State Agreements.**

(a) *General.* Upon the declaration of a major disaster or an emergency, the Governor, acting for the State, and the FEMA Regional Administrator or his/her designee, acting for the Federal Government, shall execute a FEMA-State Agreement. The FEMA-State Agreement states the understandings, commitments, and conditions for assistance under which FEMA disaster assistance shall be provided. This Agreement imposes binding obligations on FEMA, States, their local governments, and private nonprofit organizations within the States in the form of conditions for assistance which are legally enforceable. No FEMA funding will be authorized or provided to any grantees or other recipients, nor will direct Federal assistance be authorized by mission assignment, until such time as this Agreement for the Presidential declaration has been signed, except where it is deemed necessary by the Regional Administrator to begin the process of providing essential emergency services or housing assistance under the Individuals and Households Program.

(b) *Terms and conditions.* This Agreement describes the incident and the incident period for which assistance will be made available, the type and extent of the Federal assistance to be made available, and contains the commitment of the State and local government(s) with respect to the amount of funds to be expended in alleviating damage and suffering caused by the major disaster or emergency. The Agreement also contains such other terms and conditions consistent with the declaration and the provisions of applicable laws, Executive Order and regulations.

(c) *Provisions for modification.* In the event that the conditions stipulated in the original Agreement are changed or modified, such changes will be reflected in properly executed amendments to the Agreement, which may be signed by the GAR and the Regional Administrator or his/her designee for the specified major disaster or emergency. Amendments most often occur to close or amend the incident period, to add forms of assistance not originally authorized, or to designate additional areas eligible for assistance.

(d) In a modified declaration for a Federal emergency, a FEMA-State Agreement may or may not be required based on the type of assistance being provided.

[55 FR 2292, Jan. 23, 1990, as amended at 67 FR 61460, Sept. 30, 2002]

**§ 206.45 Loans of non-Federal share.**

(a) *Conditions for making loans.* At the request of the Governor, the Assistant Administrator for the Disaster Assistance Directorate together with the Chief Financial Officer may lend or advance to a State, either for its own use or for the use of public or private nonprofit applicants for disaster assistance under the Stafford Act, the portion of assistance for which the State or other eligible disaster assistance applicant is responsible under the cost-sharing provisions of the Stafford Act in any case in which:

(1) The State or other eligible disaster assistance applicant is unable to assume their financial responsibility under such cost sharing provisions:

(i) As a result of concurrent, multiple major disasters in a jurisdiction, or

(ii) After incurring extraordinary costs as a result of a particular disaster;

(2) The damages caused by such disasters or disaster are so overwhelming and severe that it is not possible for the State or other eligible disaster assistance applicant to immediately assume their financial responsibility under the Act; and

(3) The State and the other eligible disaster applicants are not delinquent in payment of any debts to FEMA incurred as a result of Presidentially declared major disasters or emergencies.

(b) *Repayment of loans.* Any loan made to a State under paragraph (a) of this section must be repaid to the United States. The Governor must include a repayment schedule as part of the request for advance.

(1) The State shall repay the loan (the principal disbursed plus interest) in accordance with the repayment schedule approved by the Assistant Administrator for the Disaster Assistance Directorate together with the Chief Financial Officer.

(2) If the State fails to make payments in accordance with the approved repayment schedule, FEMA will offset delinquent amounts against the current, prior, or any subsequent disasters, or monies due the State under other FEMA programs, in accordance with the established Claims Collection procedures.

(c) *Interest.* Loans or advances under paragraph (a) of this section shall bear interest at a rate determined by the Secretary of the Treasury, taking into consideration the current market yields on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the reimbursement period of the loan or advance. Simple interest will be computed from the date of the disbursement of each drawdown of the loan/advance by the State based on 365 days/year.

**§ 206.46 Appeals.**

(a) *Denial of declaration request.* When a request for a major disaster declaration or for any emergency declaration is denied, the Governor may appeal the decision. An appeal must be made within 30 days after the date of the letter denying the request. This one-time request for reconsideration, along with appropriate additional information, is submitted to the President through the appropriate Regional Administrator. The processing of this request is similar to the initial request.

(b) *Denial of types of assistance or areas.* In those instances when the type of assistance or certain areas requested by the Governor are not designated or authorized, the Governor, or the GAR, may appeal the decision. An appeal must be submitted in writing within 30 days of the date of the letter denying the request. This one-time request for reconsideration, along with justification and/or additional information, is sent to the Assistant Administrator for the Disaster Assistance Directoratethrough the appropriate Regional Administrator.

(c) *Denial of advance of non-Federal share.* In those instances where the Governor's request for an advance is denied, the Governor may appeal the decision. An appeal must be submitted in writing within 30 days of the date of the letter denying the request. This one-time request for reconsideration, along with justification and/or additional information, is sent to the Assistant Administrator for the Disaster Assistance Directoratethrough the appropriate Regional Administrator.

(d) *Extension of time to appeal.* The 30-day period referred to in paragraphs (a), (b), or (c) of this section may be extended by the Assistant Administrator for the Disaster Assistance Directorate provided that a written request for such an extension, citing reasons for the delay, is made during this 30-day period, and if the Assistant Administrator for the Disaster Assistance Directorate agrees that there is a legitimate basis for extension of the 30-day period. Only the Governor may request a time extension for appeals covered in paragraphs (a) and (c) of this section. The Governor, or the GAR if one has been named, may submit the time extension request for appeals covered in paragraph (b) of this section.

**§ 206.47 Cost-share adjustments.**

(a) We pay seventy-five percent (75%) of the eligible cost of permanent restorative work under section 406 of the Stafford Act and for emergency work under section 403 and section 407 of the Stafford Act, unless the Federal share is increased under this section.

(b) We recommend an increase in the Federal cost share from seventy-five percent (75%) to not more than ninety percent (90%) of the eligible cost of permanent work under section 406 and of emergency work under section 403 and section 407 whenever a disaster is so extraordinary that actual Federal obligations under the Stafford Act, excluding FEMA administrative cost, meet or exceed a qualifying threshold of:

(1) Beginning in 1999 and effective for disasters declared on or after May 21, 1999, $75 per capita of State population;

(2) Effective for disasters declared after January 1, 2000, and through December 31, 2000, $85 per capita of State population;

(3) Effective for disasters declared after January 1, 2001, $100 per capita of State population; and,

(4) Effective for disasters declared after January 1, 2002 and for later years, $100 per capita of State population, adjusted annually for inflation using the Consumer Price Index for All Urban Consumers published annually by the Department of Labor.

(c) When we determine whether to recommend a cost-share adjustment we consider the impact of major disaster declarations in the State during the preceding twelve-month period.

(d) If warranted by the needs of the disaster, we recommend up to one hundred percent (100%) Federal funding for emergency work under section 403 and section 407, including direct Federal assistance, for a limited period in the initial days of the disaster irrespective of the per capita impact.

[64 FR 19498, Apr. 21, 1999]

**§ 206.48 Factors considered when evaluating a Governor's request for a major disaster declaration.**

When we review a Governor's request for major disaster assistance under the Stafford Act, these are the primary factors in making a recommendation to the President whether assistance is warranted. We consider other relevant information as well.

(a) *Public Assistance Program.* We evaluate the following factors to evaluate the need for assistance under the Public Assistance Program.

(1) *Estimated cost of the assistance.* We evaluate the estimated cost of Federal and nonfederal public assistance against the statewide population to give some measure of the per capita impact within the State. We use a figure of $1 per capita as an indicator that the disaster is of such size that it might warrant Federal assistance, and adjust this figure annually based on the Consumer Price Index for all Urban Consumers. We are establishing a minimum threshold of $1 million in public assistance damages per disaster in the belief that we can reasonably expect even the lowest population States to cover this level of public assistance damage.

(2) *Localized impacts.* We evaluate the impact of the disaster at the county and local government level, as well as impacts at the American Indian and Alaskan Native Tribal Government levels, because at times there are extraordinary concentrations of damages that might warrant Federal assistance even if the statewide per capita is not met. This is particularly true where critical facilities are involved or where localized per capita impacts might be extremely high. For example, we have at times seen localized damages in the tens or even hundreds of dollars per capita though the statewide per capita impact was low.

(3) *Insurance coverage in force.* We consider the amount of insurance coverage that is in force or should have been in force as required by law and regulation at the time of the disaster, and reduce the amount of anticipated assistance by that amount.

(4) *Hazard mitigation.* To recognize and encourage mitigation, we consider the extent to which State and local government measures contributed to the reduction of disaster damages for the disaster under consideration. For example, if a State can demonstrate in its disaster request that a Statewide building code or other mitigation

measures are likely to have reduced the damages from a particular disaster, we consider that in the evaluation of the request. This could be especially significant in those disasters where, because of mitigation, the estimated public assistance damages fell below the per capita indicator.

(5) *Recent multiple disasters.* We look at the disaster history within the last twelve-month period to evaluate better the overall impact on the State or locality. We consider declarations under the Stafford Act as well as declarations by the Governor and the extent to which the State has spent its own funds.

(6) *Programs of other Federal assistance.* We also consider programs of other Federal agencies because at times their programs of assistance might more appropriately meet the needs created by the disaster.

(b) *Factors for the Individual Assistance Program.* We consider the following factors to measure the severity, magnitude and impact of the disaster and to evaluate the need for assistance to individuals under the Stafford Act.

(1) *Concentration of damages.* We evaluate the concentrations of damages to individuals. High concentrations of damages generally indicate a greater need for Federal assistance than widespread and scattered damages throughout a State.

(2) *Trauma.* We consider the degree of trauma to a State and to communities. Some of the conditions that might cause trauma are:

(i) Large numbers of injuries and deaths;

(ii) Large scale disruption of normal community functions and services; and

(iii) Emergency needs such as extended or widespread loss of power or water.

(3) *Special populations.* We consider whether special populations, such as low-income, the elderly, or the unemployed are affected, and whether they may have a greater need for assistance. We also consider the effect on American Indian and Alaskan Native Tribal populations in the event that there are any unique needs for people in these governmental entities.

(4) *Voluntary agency assistance.* We consider the extent to which voluntary agencies and State or local programs can meet the needs of the disaster victims.

(5) *Insurance.* We consider the amount of insurance coverage because, by law, Federal disaster assistance cannot duplicate insurance coverage.

(6) *Average amount of individual assistance by State.* There is *no set threshold* for recommending Individual Assistance, but the following averages may prove useful to States and voluntary agencies as they develop plans and programs to meet the needs of disaster victims.

AVERAGE AMOUNT OF ASSISTANCE PER DISASTER

[July 1994 to July 1999]

| | Small states (under 2 million pop.) | Medium states (2–10 million pop.) | Large states (over 10 million pop.) |
|---|---|---|---|
| Average Population (1990 census data) | 1,000,057 | 4,713,548 | 15,522,791 |
| Number of Disaster Housing Applications Approved | 1,507 | 2,747 | 4,679 |
| Number of Homes Estimated Major Damage/Destroyed | 173 | 582 | 801 |
| Dollar Amount of Housing Assistance | $2.8 million | $4.6 million | $9.5 million |
| Number of Individual and Family Grant Applications Approved | 495 | 1,377 | 2,071 |
| Dollar Amount of Individual and Family Grant Assistance | 1.1 million | 2.9 million | 4.8 million |
| Disaster Housing/IFG Combined Assistance | 3.9 million | 7.5 million | 14.1 million |

NOTE: The high 3 and low 3 disasters, based on Disaster Housing Applications, are not considered in the averages. Number of Damaged/Destroyed Homes is estimated based on the number of owner-occupants who qualify for Eligible Emergency Rental Resources. Data source is FEMA's National Processing Service Centers. Data are only available from July 1994 to the present.

*Small Size States (under 2 million population, listed in order of 1990 population):* Wyoming, Alaska, Vermont, District of Columbia, North Dakota, Delaware, South Dakota, Montana, Rhode Island, Idaho, Hawaii, New

Hampshire, Nevada, Maine, New Mexico, Nebraska, Utah, West Virginia. U.S. Virgin Islands and all Pacific Island dependencies.

*Medium Size States (2–10 million population, listed in order of 1990 population):* Arkansas, Kansas, Mississippi, Iowa, Oregon, Oklahoma, Connecticut, Colorado, South Carolina, Arizona, Kentucky, Alabama, Louisiana, Minnesota, Maryland, Washington, Tennessee, Wisconsin, Missouri, Indiana, Massachusetts, Virginia, Georgia, North Carolina, New Jersey, Michigan. Puerto Rico.

*Large Size States (over 10 million population, listed in order of 1990 population):* Ohio, Illinois, Pennsylvania, Florida, Texas, New York, California.

[64 FR 47698, Sept. 1, 1999]

**§§ 206.49–206.60 [Reserved]**

## Subpart C—Emergency Assistance

SOURCE: 55 FR 2296, Jan. 23, 1990, unless otherwise noted.

### § 206.61 Purpose.

The purpose of this subpart is to identify the forms of assistance which may be made available under an emergency declaration.

### § 206.62 Available assistance.

In any emergency declaration, the Regional Administrator or Administrator may provide assistance, as follows:

(a) Direct any Federal agency, with or without reimbursement, to utilize its authorities and the resources granted to it under Federal law (including personnel, equipment, supplies, facilities, and managerial, technical and advisory services) in support of State and local emergency assistance efforts to save lives, protect property and public health and safety, and lessen or avert the threat of a catastrophe;

(b) Coordinate all disaster relief assistance (including voluntary assistance) provided by Federal agencies, private organizations, and State and local governments;

(c) Provide technical and advisory assistance to affected State and local governments for:

(1) The performance of essential community services;

(2) Issuance of warnings of risks or hazards;

(3) Public health and safety information, including dissemination of such information;

(4) Provision of health and safety measures; and

(5) Management, control, and reduction of immediate threats to public health and safety;

(d) Provide emergency assistance under the Stafford Act through Federal agencies;

(e) Remove debris in accordance with the terms and conditions of section 407 of the Stafford Act;

(f) Provide assistance in accordance with section 408 of the Stafford Act; and

(g) Assist State and local governments in the distribution of medicine, food, and other consumable supplies, and emergency assistance.

[55 FR 2296, Jan. 23, 1990, as amended at 67 FR 61460, Sept. 30, 2002]

### § 206.63 Provision of assistance.

Assistance authorized by an emergency declaration is limited to immediate and short-term assistance, essential to save lives, to protect property and public health and safety, or to lessen or avert the threat of a catastrophe.

### § 206.64 Coordination of assistance.

After an emergency declaration by the President, all Federal agencies, voluntary organizations, and State and local governments providing assistance shall operate under the coordination of the Federal Coordinating Officer.

### § 206.65 Cost sharing.

The Federal share for assistance provided under this title shall not be less than 75 percent of the eligible costs.

### § 206.66 Limitation on expenditures.

Total assistance provided in any given emergency declaration may not exceed $5,000,000, except when it is determined by the Administrator that:

(a) Continued emergency assistance is immediately required;

(b) There is a continuing and immediate risk to lives, property, public health and safety; and

(c) Necessary assistance will not otherwise be provided on a timely basis.

**§ 206.67 Requirement when limitation is exceeded.**

Whenever the limitation described in § 206.66 is exceeded, the Administrator must report to the Congress on the nature and extent of continuing emergency assistance requirements and shall propose additional legislation if necessary.

**§§ 206.68–206.100 [Reserved]**

## Subpart D—Federal Assistance to Individuals and Households

**§ 206.101 Temporary housing assistance for emergencies and major disasters declared on or before October 14, 2002.**

(a) *Purpose.* This section prescribes the policy to be followed by the Federal Government or any other organization when implementing section 408 of the Stafford Act for Presidentially-declared emergencies and major disasters declared on or before October 14, 2002 (Note that the reference to section 408 of the Stafford Act refers to prior legislation amended by the Disaster Mitigation Act 2000).

(b) *Program intent.* Assistance under this program is made available to applicants who require temporary housing as a result of a major disaster or emergency that is declared by the President. Eligibility for assistance is based on need created by disaster-related unlivability of a primary residence or other disaster-related displacement, combined with a lack of adequate insurance coverage. Eligible applicants may be paid for authorized accommodations and/or repairs. In the interest of assisting the greatest number of people in the shortest possible time, applicants who are able to do so will be encouraged to make their own arrangements for temporary housing. Although numerous instances of minor damage may cause some inconvenience to the applicant, the determining eligibility factor must be the livability of the primary residence. FEMA has also determined that it is reasonable to expect applicants or their landlords to make some repairs of a minor nature. Temporary housing will normally consist of a check to cover housing-related costs wherever possible.

(c) *Definitions*—(1) *Adequate alternate housing* means housing that:

(i) Accommodates the needs of the occupants.

(ii) Is within reasonable commuting distance of work, school, or agricultural activities which provide over 25% of the household income.

(iii) Is within the financial ability of the occupant in the realization of a permanent housing plan.

(2) *Effective date of assistance* means the date the eligible applicant received temporary housing assistance but, where applicable, only after appropriate insurance benefits are exhausted.

(3) *Essential living area* means that area of the residence essential to normal living, i.e., kitchen, one bathroom, dining area, living room, entrances and exits, and essential sleeping areas. It does not include family rooms, guest rooms, garages, or other nonessential areas, unless hazards exist in these areas which impact the safety of the essential living area.

(4) *Fair market rent* means a reasonable amount to pay in the local area for the size and type of accommodations which meets the applicant's needs.

(5) *Financial ability* is the determination of the occupant's ability to pay housing costs. The determination is based upon the amount paid for housing before the disaster, provided the household income has not changed subsequent to or as a result of the disaster or 25 percent of gross post disaster income if the household income changed as a result of the disaster. When computing financial ability, extreme or unusual financial circumstances may be considered by the Regional Administrator.

(6) *Household* means all residents of the predisaster residence who request temporary housing assistance, plus any additions during the temporary housing period, such as infants, spouses, or part-time residents who were not present at the time of the disaster but who are expected to return during the temporary housing period.

(7) *Housing costs* means shelter rent and mortgage payments including principal, interest, real estate taxes, real

property insurance, and utility costs, where appropriate.

(8) *Occupant* means an eligible applicant residing in temporary housing provided under this section.

(9) *Owner-occupied* means that the residence is occupied by: the legal owner; a person who does not hold formal title to the residence and pays no rent but is responsible for the payment of taxes, or maintenance of the residence; or a person who has lifetime occupancy rights with formal title vested in another.

(10) *Primary residence* means the dwelling where the applicant normally lives during the major portion of the calendar year, a dwelling which is required because of proximity to employment, or to agricultural activities as referenced in paragraph (c)(1)(ii) of this section.

(d) *Duplication of benefits*—(1) *Requirement to avoid duplication.* Temporary housing assistance shall not be provided to an applicant if such assistance has been provided by any other source. If any State or local government or voluntary agency has provided temporary housing, the assistance under this section begins at the expiration of such assistance, and may continue for a period not to exceed 18 months from the date of declaration, provided the criteria for continued assistance in paragraph (k)(3) of this section are met. If it is determined that temporary housing assistance will be provided under this section, notification shall be given those agencies which have the potential for duplicating such assistance. In the instance of insured applicants, temporary housing assistance shall be provided only when:

(i) Payment of the applicable benefits has been significantly delayed;

(ii) Applicable benefits have been exhausted;

(iii) Applicable benefits are insufficient to cover the temporary housing need; or

(iv) Housing is not available on the private market.

(2) *Recovery of funds.* Prior to provision of assistance, the applicant must agree to repay to FEMA from insurance proceeds or recoveries from any other source an amount equivalent to the value of the temporary housing assistance provided. In no event shall the amount repaid to FEMA exceed the amount recovered by the applicant. All claims shall be collected in accordance with agency procedures for debt collection.

(e) *Applications*—(1) *Application period.* The standard FEMA application period is the 60 days following the date the President declares an incident a major disaster or an emergency. The Regional Administrator may, however, extend the application period, when we anticipate that we need more time to collect applications from the affected population or to establish the same application deadline for contiguous Counties or States. After the application period has ended, FEMA will accept and process applications for an additional 60 days only from persons who can provide an acceptable explanation (and documentation to substantiate their explanation) for why they were not able to contact FEMA before the application period ended.

(2) *Household composition.* Members of a household shall be included on a single application and be provided one temporary housing residence unless it is determined by the Regional Administrator that the size of the household requires that more than one residence be provided.

(f) *General eligibility guidelines.* Temporary housing assistance may be made available to those applicants who, as a result of a major disaster or emergency declared by the President, are qualified for such assistance.

(1) *Conditions of eligibility.* Temporary housing assistance may be provided only when *both* of the following conditions are met:

(i) The applicant's primary residence has been made unlivable or the applicant has been displaced as the result of a major disaster or emergency because:

(A) The residence has been destroyed, essential utility service has been interrupted, or the essential living area has been damaged as a result of the disaster to such an extent as to constitute a serious health or safety hazard which did not exist prior to the disaster. The Regional Administrator shall prepare additional guidelines when necessary to respond to a particular disaster;

(B) The residence has been made inaccessible as a result of the incident to the extent that the applicant cannot reasonably be expected to gain entry due to the disruption or destruction of transportation routes, other impediments to access, or restrictions placed on movement by a responsible official due to continued health and safety problems;

(C) The owner of the applicant's residence requires the residence to meet their personal needs because the owner's predisaster residence was made unlivable as a result of the disaster;

(D) Financial hardship resulting from the disaster has led to eviction or dispossession; or

(E) Other circumstances resulting from the disaster, as determined by the Regional Administrator, prevent the applicant from occupying their predisaster primary residence.

(ii) Insured applicants have made every reasonable effort to secure insurance benefits, and the insured has agreed to repay FEMA from whatever insurance proceeds are later received, pursuant to paragraph (d)(2) of this section.

(2) *Conditions of ineligibility.* Except as provided for in section 408(b), Temporary Housing Assistance shall not be provided:

(i) To an applicant who is displaced from other than their primary residence; or

(ii) When the residence in question is livable, i.e., only minor damage exists and it can reasonably be expected to be repaired by the applicant/owner or the landlord; or

(iii) When the applicant owns a secondary or vacation residence, or unoccupied rental property which meets their temporary housing needs; or

(iv) To an applicant who has adequate rent-free housing accommodations; or

(v) To an applicant who has adequate insurance coverage and there is no indication that benefits will be delayed; or

(vi) When a late application is not approved for processing by the Regional Administrator; or

(vii) To an applicant who evacuated the residence in response to official warnings solely as a precautionary measure, and who is able to return to the residence immediately after the incident (i.e., the applicant is not otherwise eligible for temporary housing assistance).

(g) *Forms of Temporary Housing Assistance.* All proceeds received or receivable by the applicant under §206.101 shall be exempt from garnishment, seizure, encumbrance, levy, execution, pledge, attachment, release, or waiver. No rights under this provision are assignable or transferable.

(1) Temporary Housing Assistance is normally provided in the form of a check to cover the cost of rent or essential home repairs. The exceptions to this are when existing rental resources are not available and repairs to the home will not make it livable in a reasonable period of time, or when the eligible applicant is unable to physically leave the home due to the need to tend crops or livestock.

(i) *Government-owned, private, and commercial properties.* When an eligible applicant is unable to obtain an available temporary housing unit, FEMA may enter into a leasing agreement for the eligible applicant. Rent payments shall be in accordance with the fair market rent (FMR) rates established for each operation for the type and size residence.

(ii) *Transient accommodations.* Immediately following a Presidentially declared major disaster or emergency, disaster victims are expected to stay with family or friends without FEMA assistance, or to make use of mass shelters to the fullest extent possible for short-term housing. Transient accommodations may be provided when individual circumstances warrant such assistance for only a short period of time or pending provision of other temporary housing resources. Transient accommodations may be provided for up to 30 days unless this period is extended by the Regional Administrator. Authorized expenditures for transient accommodations shall be restricted to the rental cost including utilities except for those which are separately metered. Payment for food, telephone, or other similar services is not authorized under this section.

(2) Mobile homes, travel trailers, and other manufactured housing units.

Government-owned or privately owned mobile homes, travel trailers, and other manufactured housing units may be placed on commercial, private, or group sites. The placement must comply with applicable State and local codes and ordinances as well as FEMA'S regulations at 44 CFR part 9, Floodplain Management and Protection of Wetlands, and the regulations at 44 CFR part 10, Environmental Considerations.

(i) A commercial site is a site customarily leased for a fee because it is fully equipped to accommodate a housing unit. In accordance with section 408(a)(2)(B), the Assistant Administrator for the Disaster Assistance Directorate has determined that leasing commercial sites at Federal expense is in the public interest. When the Regional Administrator determines that upgrading of commercial sites or installation of utilities on such sites will provide more cost-effective, timely, and suitable temporary housing than other types of resources, they may authorize such action at Federal expense.

(ii) A private site is a site provided or obtained by the applicant at no cost to the Federal Government. Also in accordance with section 408(a)(2)(B), the Assistant Administrator for the Disaster Assistance Directorate has determined that the cost of installation or repairs of essential utilities on private sites is authorized at Federal expense when such actions will provide more cost-effective, timely, and suitable temporary housing than other types of resources.

(iii) A group site is a site which accommodates two or more units. In accordance with section 408(a)(2)(A), locations for group sites shall be provided by State or local government complete with utilities. However, the Assistant Administrator for the Disaster Assistance Directorate may authorize development of group sites, including installation of essential utilities, by the Federal Government, based on a recommendation from the Regional Administrator; provided, however, that the Federal expense is limited to 75 percent of the cost of construction and development (including installation of utilities). In accordance with section 408(a)(4) of the Stafford Act, the State or local government shall pay any cost which is not paid for from the Federal share, including long-term site maintenance such as snow removal, street repairs and other services of a governmental nature.

(3) *Temporary mortgage and rental payments.* Assistance in the form of mortgage or rental payments may be paid to or be provided on behalf of eligible applicants who, as a result of a major disaster or emergency, have received written notice of dispossession or eviction from their primary residence by foreclosure of any mortgage or lien, cancellation of any contract of sale, or termination of any lease entered into prior to the disaster. Written notice, for the purpose of this paragraph, means a communication in writing by a landlord, mortgage holder, or other party authorized under State law to file such notice. The purpose of such notice is to notify a person of impending termination of a lease, foreclosure of a mortgage or lien, or cancellation of any contract of sale, which would result in the person's dispossession or eviction. Applications for this type of assistance may be filed for up to 6 months following the date of declaration. This assistance may be provided for a period not to exceed 18 months or for the duration of the period of financial hardship, as determined by the Regional Administrator, whichever is less. The location of the residence of an applicant for assistance under this section shall not be a consideration of eligibility.

(4) *Home repairs.* Repairs may be authorized to quickly repair or restore to a livable condition that portion of or areas affecting the essential living area of, or private access to, an owner-occupied primary residence which was damaged as a result of the disaster. Installation of utilities or conveniences not available in the residence prior to the disaster shall not be provided. However, repairs which are authorized shall conform to applicable local and/or State building codes; upgrading of existing damaged utilities may be authorized when required by these codes.

(i) *Options for repairs.* Eligible applicants approved for repairs may be assisted through one or a combination of the following methods:

(A) *Cash payment.* Payment shall be limited to the reasonable costs for the repairs and replacements in the locality, as determined by the Regional Administrator. This will be the method normally used, unless unusual circumstances warrant the methods listed under paragraph (g)(4), (i) (B) or (C) of this section.

(B) Provision of materials and replacement items.

(C) Government awarded repair contracts when authorized by the Assistant Administrator for the Disaster Assistance Directorate.

(ii) *Feasibility.* Repairs may be provided to those eligible applicants:

(A) Who are owner-occupants of the residence to be made livable;

(B) Whose residence can be made livable by repairs to the essential living area within 30 days following the feasibility determination. The Regional Administrator may extend this period for extenuating circumstances by determining that this type of assistance is still more cost effective, timely and otherwise suitable than other forms for temporary housing; and

(C) Whose residence can be made livable by repairs to the essential living area, the cost of which do not exceed the dollar limitations established by the Assistant Administrator for the Disaster Assistance Directorate. The Regional Administrator may, on a case-by-case basis, waive the dollar limitations when repairs are more cost effective and appropriate than other forms of housing assistance or when extenuating circumstances warrant.

(iii) *Scope of work.* The type of repair or replacement authorized may vary depending upon the nature of the disaster. Items will be repaired where feasible or replaced only when necessary to insure the safety or health of the occupant. Replacement items shall be of average quality, size, and capacity taking into consideration the needs of the occupant. Repairs shall be disaster related and shall be limited to:

(A) Repairs to the plumbing system, including repairs to or replacement of fixtures, providing service to the kitchen and one bathroom;

(B) Repairs to the electrical system providing service to essential living areas, including repairs to or replacement of essential fixtures;

(C) Repairs to the heating unit, including repairs to duct work, vents, and integral fuel and electrical systems. If repair or replacement through other forms of assistance cannot be accomplished before the start of the season requiring heat, home repairs may be authorized by the Regional Administrator when an inspection shows that the unit has been damaged beyond repair, or when the availability of necessary parts or components makes repair impossible;

(D) Repairs to or replacement of essential components of the fuel system to provide for cooking;

(E) Pumping and cleaning of the septic system, repairs to or replacement of the tank, drainfield, or repairs to sewer lines;

(F) Flushing and/or purifying the water well, and repairs to or replacement of the pump, controls, tank, and pipes;

(G) Repairs to or replacement of exterior doors, repair of windows and/or screens needed for health purposes;

(H) Repairs to the roof, when the damages affect the essential living area;

(I) Repairs to interior floors, when severe buckling or deterioration creates a serious safety hazard;

(J) Blocking, leveling, and anchoring of a mobile home; and reconnecting and/or resetting mobile home sewer, water, electrical and fuel lines, and tanks;

(K) Emergency repairs to private access routes, limited to those repairs that meet the minimum safety standards and using the most economical materials available. Such repairs are provided on a one-time basis when no alternative access facilities are immediately available and when the repairs are more cost effective, timely or otherwise suitable than other forms of temporary housing.

(L) Repairs to the foundation piers, walls or footings when the damages affect the structural integrity of the essential living area;

(M) Repairs to the stove and refrigerator, when feasible; and

(N) Elimination of other health and safety hazards or performance of essential repairs which are authorized by the Regional Administrator as not available through emergency services provided by voluntary or community agencies, and cannot reasonably be expected to be completed on a timely basis by the occupant without FEMA assistance.

(iv) Requirements of the Flood Disaster Protection Act. FEMA has determined that flood insurance purchase requirements need not be imposed as a condition of receiving assistance under paragraph (g)(4) of this section. Repair recipients will normally receive assistance for further repairs from other programs which will impose the purchase and maintenance requirements. Home repairs may not be provided in Zones A or V of a sanctioned or suspended community except for items that are not covered by flood insurance.

(h) *Appropriate form of temporary housing.* The form of temporary housing provided should not exceed occupants' minimum requirements, taking into consideration items such as timely availability, cost effectiveness, permanent housing plans, special needs (handicaps, the location of crops and livestock, etc.) of the occupants, and the requirements of FEMA'S floodplain management regulations at 44 CFR part 9. An eligible applicant shall receive one form of temporary housing, except for transient accommodations or when provision of an additional form is in the best interest of the Government. An eligible applicant is expected to accept the first offer of temporary housing; unwarranted refusal shall result in forfeiture of temporary housing assistance. Existing rental resources and home repairs shall be utilized to the fullest extent practicable prior to provision of government-owned mobile homes.

(i) *Utility costs and security deposits.* All utility costs shall be the responsibility of the occupant, except where utility services are not metered separately and are therefore a part of the rental charge. Utility use charges and deposits shall always be the occupants responsibility. When authorized by the Regional Administrator, the Federal Government may pay security deposits; however, the owner or occupant shall reimburse the full amount of the security deposit to the Federal Government before or at the time that the temporary housing assistance is terminated.

(j) *Furniture.* An allowance for essential furniture may be provided to occupants when such assistance is required to occupy the primary or temporary housing residence. However, loss of furniture does not in and of itself constitute eligibility for temporary housing assistance. Luxury items shall not be provided.

(k) *Duration of assistance*—(1) *Commencement.* Temporary housing assistance may be provided as of the date of the incident of the major disaster or emergency as specified in the FEDERAL REGISTER notice and may continue for 18 months from the date of declaration. An effective date of assistance shall be established for each applicant.

(2) *Continued assistance.* Predisaster renters normally shall be provided no more than 1 month of assistance unless the Regional Administrator determines that continued assistance is warranted in accordance with paragraph (k)(3) of this section. All other occupants of temporary housing shall be certified eligible for continued assistance in increments not to exceed 3 months. Recertification of eligibility for continued assistance shall be in accordance with paragraph (k)(3) of this section, taking into consideration the occupant's permanent housing plan. A realistic permanent housing plan shall be established for each occupant requesting additional assistance no later than at the time of the first recertification.

(3) *Criteria for continued assistance.* A temporary housing occupant shall make every effort to obtain and occupy permanent housing at the earliest possible time. A temporary housing occupant will be required to provide receipts documenting disaster related housing costs and shall be eligible for continued assistance when:

(i) Adequate alternate housing is not available;

(ii) The permanent housing plan has not been realized through no fault of the occupant; or

(iii) In the case of FEMA-owner leases, the occupant is in compliance

with the terms of the lease/rental agreement.

(l) *Period of assistance.* Provided the occupant is eligible for continued assistance, assistance shall be provided for a period not to exceed 18 months from the declaration date.

(m) *Appeals.* Occupants shall have the right to appeal a program determination in accordance with the following:

(1) An applicant declared ineligible for temporary housing assistance, an applicant whose application has been cancelled for cause, an applicant whose application has been refused because of late filing, and an occupant who received a direct housing payment but is not eligible for continued assistance in accordance with paragraph (k) of this section, shall have the right to dispute such a determination within 60 calendar days following notification of such action. The Regional Administrator shall reconsider the original decision within 15 calendar days after its receipt. The appellant shall be given a written notice of the disposition of the dispute. The decision of the Regional Administrator is final.

(2) An occupant who has been notified that his/her request to purchase a mobile home or manufactured housing unit or that a request for an adjustment to the sales price has been denied shall have the right to dispute such a determination within 60 business days after receipt of such notice. The Regional Administrator shall reconsider the original decision within 15 calendar days after receipt of the appeal. The appellant shall receive written notice of the disposition of the dispute. The decision of the Regional Administrator is final.

(3) Termination of assistance provided through a FEMA lease agreement shall be initiated with a 15-day written notice after which the occupant shall be liable for such additional charges as are deemed appropriate by the Regional Administrator including, but not limited to, the fair market rental for the temporary housing residence.

(i) *Grounds for termination.* Temporary housing assistance may be terminated for reasons including, but not limited to the following:

(A) Adequate alternate housing is available to the occupant(s);

(B) The temporary housing assistance was obtained either through misrepresentation or fraud; or

(C) Failure to comply with any term of the lease/rental agreement.

(ii) *Termination procedures.* These procedures shall be utilized in all instances except when a State is administering the Temporary Housing Assistance program. States shall be subject to their own procedures provided they afford the occupant(s) with due process safeguards described in paragraph (m)(2)(v)(B) of this section.

(A) *Notification to occupant.* Written notice shall be given by FEMA to the occupant(s) at least 15 days prior to the proposed termination of assistance. This notice shall specify: the reasons for termination of assistance/occupancy; the date of termination, which shall be not less than 15 days after receipt of the notice; the administrative procedure available to the occupant if they wish to dispute the action; and the occupant's liability after the termination date for additional charges.

(B) *Filing of appeal.* If the occupant desires to dispute the termination, upon receipt of the written notice specified in paragraph (m)(2)(i) of this section, he/she shall present an appeal in writing to the appropriate office in person or by mail within 60 days from the date of the termination notice. The appeal must be signed by the occupant and state the reasons why the assistance or occupancy should not be terminated. If a hearing is desired, the appeal should so state.

(C) *Response to appeal.* If a hearing pursuant to paragraph (m)(2)(ii) of this section has not been requested, the occupant has waived the right to a hearing. The appropriate program official shall deliver or mail a written response to the occupant within 5 business days after the receipt of the appeal.

(D) *Request for hearing.* If the occupant requests a hearing pursuant to paragraph (m)(2)(ii) of this section, FEMA shall schedule a hearing date within 10 business days from the receipt of the appeal, at a time and place reasonably convenient to the occupant, who shall be notified promptly thereof in writing. The notice of hearing shall specify the procedure governing the hearing.

(E) *Hearing—(1) Hearing officer.* The hearing shall be conducted by a Hearing Officer, who shall be designated by the Regional Administrator, and who shall not have been involved with the decision to terminate the occupant's temporary housing assistance, nor be a subordinate of any individual who was so involved.

(2) *Due process.* The occupant shall be afforded a fair hearing and provided the basic safeguards of due process, including cross-examination of the responsible official(s), access to the documents on which FEMA is relying, the right to counsel, the right to present evidence, and the right to a written decision.

(3) *Failure to appear.* If an occupant fails to appear at a hearing, the Hearing Officer may make a determination that the occupant has waived the right to a hearing, or may, for good cause shown, postpone the hearing for no more than 5 business days.

(4) *Proof.* At the hearing, the occupant must first attempt to establish that continued assistance is appropriate; thereafter, FEMA must sustain the burden of proof in justifying that termination of assistance is appropriate. The occupant shall have the right to present evidence and arguments in support of their complaint, to controvert evidence relied on by FEMA, and to cross examine all witnesses on whose testimony or information FEMA relies. The hearing shall be conducted by the Hearing Officer, and any evidence pertinent to the facts and issues raised may be received without regard to its admissibility under rules of evidence employed in formal judicial proceedings.

(F) *Decision.* The decision of the Hearing Officer shall be based solely upon applicable Federal and State law, and FEMA regulations and requirements promulgated thereunder. The Hearing Officer shall prepare a written decision setting forth a statement of findings and conclusions together with the reasons therefor, concerning all material issues raised by the complainant within 5 business days after the hearing. The decision of the Hearing Officer shall be binding on FEMA, which shall take all actions necessary to carry out the decision or refrain from any actions prohibited by the decision.

(*1*) The decision shall include a notice to the occupant that he/she must vacate the premises within 3 days of receipt of the written notice or on the termination date stated in the original notice of termination, as required in paragraph (m)(2)(i) of this section, whichever is later. If the occupant does not quit the premises, appropriate action shall be taken and, if suit is brought, the occupant may be required to pay court costs and attorney fees.

(2) If the occupant is required to give a specific number of days' notice which exceeds the number of days in the termination notice, the Regional Administrator may approve the payment of rent for this period of time if requested by the occupant.

(n) *Disposition of temporary housing units—(1) Acquisition.* The Assistant Administrator for the Disaster Assistance Directorate may purchase mobile homes or other manufactured housing units for those who require temporary housing. After such temporary housing is vacated, it shall be returned to one of the FEMA-operated Strategic Storage Centers for refurbishment and storage until needed in a subsequent major disaster or emergency. When returning the unit to a Strategic Storage Center is not feasible or cost effective, the Assistant Administrator for the Disaster Assistance Directorate may prescribe a different method of disposition in accordance with applicable Federal statutes and regulations.

(2) *Sales—(i) Eligibility.* When adequate alternate housing is not available, the Regional Administrator shall make available for sale directly to a temporary housing occupant(s) any mobile home or manufactured housing unit acquired by purchase, in accordance with the following:

(A) The unit is to be used as a primary residence;

(B) The purchaser has a site that complies with local codes and ordinances as well as FEMA's floodplain management regulations at 44 CFR part 9 (in particular §9.13(e)); and

(C) The purchaser has sufficient funds to purchase and, if necessary, relocate the unit. The Assistant Administrator for the Disaster Assistance Directorate may approve the sale of a mobile home or manufactured housing unit to a temporary housing occupant when adequate alternate housing is available but only when such sales are clearly in the best interest of the Government.

(ii) *Sales price.* Units shall be sold at prices that are fair and equitable to the purchaser and to the Government, as determined by the Assistant Administrator for the Disaster Assistance Directorate. The purchaser shall pay the total sales price at the time of sale.

(iii) Adjustment to the sales price.

(A) Adjustments to the sales price may be provided only when both of the following conditions are met:

(*1*) There is a need to purchase the unit for use as the purchaser's primary residence because other adequate alternate housing is unavailable. Adequate alternate housing must meet the criteria in paragraph (c)(1) of this section, and may consist of:

(*i*) Existing housing;

(*ii*) Additional resources such as disaster-damaged rental accommodations which can reasonably be expected to be repaired and become available in the near future;

(*iii*) New housing construction or housing to be made available through Government subsidy which is included in the immediate recovery plans for the area; and

(*iv*) Residences which can be repaired by the predisaster owner/occupant through funds available from insurance, other disaster assistance programs, or through their own resources.

(*2*) In addition to his/her resources, the purchaser cannot obtain sufficient funds through insurance proceeds, disaster loans, grants, and commercial lending institutions to cover the sales price.

(B) To determine the adjusted sales price, the current available financial resources of the purchaser shall be calculated. If the financial resources are equal to or greater than the basic sales price, then no adjustment shall be approved. If the purchaser's financial resources are less than the basic sales price, the sales price shall be adjusted to take into consideration the financial resources available but shall include some consideration. Deviations from this rule may be reviewed on a case-by-case basis by the Assistant Administrator for the Disaster Assistance Directorate.

(C) The Regional Administrator must approve all adjustments to the sales price of a mobile home.

(iv) Other conditions of sale.

(A) A unit shall be sold "as is, where is" except for repairs necessary to protect health or safety, which are to be completed prior to sale. There shall be no implied warranties. In addition, the purchaser must be informed that he/she may have to bring the unit up to codes and standards which are applicable at the proposed site.

(B) In accordance with the Flood Disaster Protection Act of 1973, Public Law 93–234, as amended, the sale of a unit for the purpose of meeting the permanent housing need of an individual or family may not be approved where the unit would be placed in a designated special flood hazard area which has been identified by the Administrator for at least 1 year as floodprone unless the community in which the unit is to be located after the sale is, at the time of approval, participating in the National Flood Insurance Program. The purchaser must agree to buy and maintain an adequate flood insurance policy for as long as the unit is occupied by the purchaser. An adequate policy for purposes of this paragraph shall mean one which provides coverage for the basic sales price of the unit. The purchaser must provide proof of purchase of the initial flood insurance policy.

(*3*) *Transfer.* The Assistant Administrator for the Disaster Assistance Directorate may lend temporary housing units purchased under section 408(a) of the Act directly to States, other Governmental entities, or voluntary organizations. Such transfers may be made only in connection with a Presidential declaration of a major disaster or emergency. Donations may be made only when it is in the best interest of the Government, such as when future re-use by the Federal Government would not be economically feasible. As

a condition of such transfers, the Assistant Administrator for the Disaster Assistance Directorate shall require that the recipient:

(i) Utilize the units for the purpose of providing temporary housing for victims of major disasters or emergencies in accordance with the written agreement; and

(ii) Comply with the current applicable FEMA policies and regulations, including this section; 44 CFR part 9 (especially §§9.13 and 9.14), Floodplain Management and Protection of Wetlands; 44 CFR part 10, Environmental Considerations. The Assistant Administrator for the Disaster Assistance Directorate may order returned any temporary housing unit made available under this section which is not used in accordance with the terms of transfer.

(o) *Reports.* The Assistant Administrator for the Disaster Assistance Directorate, Regional Administrator, or Federal Coordinating Officer may require from field operations such reports, plans, and evaluations as they deem necessary to carry out their responsibilities under the Act and these regulations.

(p) *Federal responsibility.* The Federal financial and operational responsibility for the Temporary Housing Assistance program shall not exceed 18 months from the date of the declaration of the major disaster or emergency. This period may be extended in writing by the Assistant Administrator for the Disaster Assistance Directorate, based on a determination that an extension is necessary and in the public interest. The Regional Administrator may authorize continued use on a non-reimbursable basis of Government property, office space, and equipment by a State, other Government entity, or voluntary organization after the 18 month period.

(q) *Applicant notification*—(1) *General.* All applicants for temporary housing assistance will be notified regarding the type and amount of assistance for which they are qualified. Whenever practicable, such notification will be provided within 7 days of their application and will be in writing.

(2) Eligible applicants for temporary housing assistance will be provided information regarding:

(i) All forms of housing assistance available;

(ii) The criteria which must be met to qualify for each type of assistance;

(iii) Any limitations which apply to each type of assistance; and

(iv) The address and telephone number of offices responsible for responding to appeals and requests for changes in the type or amount of assistance provided.

(r) *Location.* In providing temporary housing assistance, consideration will be given to the location of:

(1) The eligible applicants' home and place of business;

(2) Schools which the eligible applicant or members of the household attend; and

(3) Agricultural activities which provide 25 percent or more of the eligible applicants' annual income.

(s) *NonFederal administration of temporary housing assistance.* A State may request authority to administer all or part of the temporary housing assistance program in the Governor's request for a declaration or in a subsequent written request to the Regional Administrator from the Governor or his/her authorized representative. The Associate Director shall approve such a request based on the Regional Administrator's recommendation and based on a finding that State administration is both in the interest of the Federal Government and those needing temporary housing assistance. The State must have an approved plan prior to the incident and an approved operational annex within 3 days of the declaration in order to administer the program. When administering the program the State must comply with FEMA program regulations and policies.

(1) *State temporary housing assistance plan.* (i) States which have an interest in administering the Temporary Housing Assistance program shall be required to develop a plan that includes, at a minimum, the items listed below:

(A) Assignment of temporary housing assistance responsibilities to State and/or local officials and agencies;

(B) A description of the program, its functions, goals and objectives of the program, and proposed organization and staffing plan;

(C) Procedures for:

(*1*) Accepting applications at Disaster Application Centers and subsequently at a State established disaster housing office;

(*2*) Determining eligibility utilizing FEMA's habitability contract and notifying applicants of the determination;

(*3*) Preventing duplication of benefits between temporary housing assistance and assistance from other means, as well as a recoupment procedure when duplication occurs;

(*4*) Providing the various types of assistance (home repairs, existing rental resources, transient accommodations, and mobile homes);

(*5*) Providing furniture assistance;

(*6*) Recertifying occupants for continued assistance;

(*7*) Terminating assistance;

(*8*) Contracting for services and/or supplies;

(*9*) Quality control;

(*10*) Maintaining a management information system;

(*11*) Financial management;

(*12*) Public information;

(*13*) Processing appeals; and

(*14*) Arranging for a program review.

(ii) The Governor or his/her designee may request the Regional Administrator to provide technical assistance in the preparation of an administrative plan.

(iii) The Governor or designee shall submit the plan to the Regional Administrator for approval. Plans shall be revised, as necessary, and shall be reviewed at least annually by the Regional Administrator.

(2) *Operational annex.* Prior to the State administering the program, the state must submit an operational annex which tailors the approved State plan to the particular disaster or emergency. The annex must be reviewed and approved by the Regional Administrator within 3 days of the declaration or the State shall not be permitted to administer the program. The operational annex shall include but not be limited to:

(i) Organization and staffing specific to the major disaster or emergency;

(ii) Pertinent goals and management objectives;

(iii) A proposed budget; and

(iv) A narrative which describes methods for orderly tracking and processing of applications; assuring timely delivery of assistance; identification of potential problem areas; and any deviations from the approved plan. The Regional Administrator may require additional annexes as necessary for subsequent phases of the operation.

(3) *Evaluation of capability.* State and local government assumption of the temporary housing assistance program for a particular disaster shall be approved by the Assistant Administrator for the Disaster Assistance Directorate based on an evaluation of the capabilities and commitment of the entity by the Regional Administrator. At a minimum, the evaluation shall include a review of the following:

(i) The State temporary housing assistance plan which has been approved by the Regional Administrator prior to the incident, and the specific operational annex which has been approved in accordance with paragraph (s)(2) of this section.

(ii) Past performance in administration of temporary housing assistance or other similar operations;

(iii) Management and staff capabilities; and

(iv) Demonstrated understanding of the tasks to be performed.

(4) *Grant application.* Approval of funding shall be obtained through submission of a project application by the State or local government through the Governor's Authorized Representative. The State shall maintain adequate documentation according to the requirements of 44 CFR part 13, Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments, to enable analysis of the program. Final reimbursement to the State, or final debt collection, shall be based on an examination of the voucher filed by the State.

(5) *Authorized costs.* All expenditures associated with administering the program are authorized if in compliance with 44 CFR 13.22, Allowable Costs, and the associated OMB Circular A–87, Cost Principles for State and Local Governments. Examples of program costs allowable under the Temporary Housing Assistance program include home repairs, costs associated with rental payments, reimbursements for temporary

housing including transient accommodations and commercial site rental, mobile home installation and maintenance, mobile home private site development, cost of supplemental assistance, mortgage and rental payments, other necessary costs, when approved by the Assistant Administrator for the Disaster Assistance Directorate. All contracts require the review and approval of the Regional Administrator prior to award, in order to be considered as an authorized expenditure.

(6) *Federal monitoring and oversight.* The Regional Administrator shall monitor State-administered activities since he/she remains responsible for the overall delivery of temporary housing assistance. In addition, policy guidance and interpretations to meet specific needs of a disaster shall be provided through the oversight function.

(7) *Technical assistance.* The Regional Administrator shall provide technical assistance as necessary to support State-administered operations through training, procedural issuances, and by providing experienced personnel to assist the State and local staff.

(8) *Operational resources.* The Regional Administrator shall make available for use in State or locally administered temporary housing programs Federal stand-by contracts, memoranda of understanding with Government and voluntary agencies, and Federal property, such as government-owned mobile homes and travel trailers.

(9) *Program reviews and audits.* The State shall conduct program review of each operation. All operations are subject to Federal audit.

[55 FR 2296, Jan. 23, 1990, as amended at 61 FR 7224, Feb. 27, 1996; 64 FR 46853, Aug. 27, 1999; 67 FR 61490, Sept. 30, 2002; 74 FR 15347, Apr. 3, 2009]

**§§ 206.102–206.109 [Reserved]**

**§ 206.110 Federal assistance to individuals and households.**

(a) *Purpose.* This section implements the policy and procedures set forth in section 408 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5174, as amended by the Disaster Mitigation Act of 2000. This program provides financial assistance and, if necessary, direct assistance to eligible individuals and households who, as a direct result of a major disaster or emergency, have uninsured or under-insured, necessary expenses and serious needs and are unable to meet such expenses or needs through other means.

(b) *Maximum amount of assistance.* No individual or household will receive financial assistance greater than $25,000 under this subpart with respect to a single major disaster or emergency. FEMA will adjust the $25,000 limit annually to reflect changes in the Consumer Price Index (CPI) for All Urban Consumers that the Department of Labor publishes.

(c) *Multiple types of assistance.* One or more types of housing assistance may be made available under this section to meet the needs of individuals and households in the particular disaster situation. FEMA shall determine the appropriate types of housing assistance to be provided under this section based on considerations of cost effectiveness, convenience to the individuals and households and the suitability and availability of the types of assistance. An applicant is expected to accept the first offer of housing assistance; unwarranted refusal of assistance may result in the forfeiture of future housing assistance. Temporary housing and repair assistance shall be utilized to the fullest extent practicable before other types of housing assistance.

(d) *Date of eligibility.* Eligibility for Federal assistance under this subpart will begin on the date of the incident that results in a presidential declaration that a major disaster or emergency exists, except that reasonable lodging expenses that are incurred in anticipation of and immediately preceding such event may be eligible for Federal assistance under this chapter.

(e) *Period of assistance.* FEMA may provide assistance under this subpart for a period not to exceed 18 months from the date of declaration. The Assistant Administrator for the Disaster Assistance Directorate may extend this period if he/she determines that due to extraordinary circumstances an extension would be in the public interest.

(f) *Assistance not counted as income.* Assistance under this subpart is not to

be counted as income or a resource in the determination of eligibility for welfare, income assistance or income-tested benefit programs that the Federal Government funds.

(g) *Exemption from garnishment.* All assistance provided under this subpart is exempt from garnishment, seizure, encumbrance, levy, execution, pledge, attachment, release or waiver. Recipients of rights under this provision may not reassign or transfer the rights. These exemptions do not apply to FEMA recovering assistance fraudulently obtained or misapplied.

(h) *Duplication of benefits.* In accordance with the requirements of section 312 of the Stafford Act, 42 U.S.C. 5155, FEMA will not provide assistance under this subpart when any other source has already provided such assistance or when such assistance is available from any other source. In the instance of insured applicants, we will provide assistance under this subpart only when:

(1) Payment of the applicable benefits are significantly delayed;

(2) Applicable benefits are exhausted;

(3) Applicable benefits are insufficient to cover the housing or other needs; or

(4) Housing is not available on the private market.

(i) *Cost sharing.* (1) Except as provided in paragraph (i)(2) of this section, the Federal share of eligible costs paid under this subpart shall be 100 percent.

(2) Federal and State cost shares for "Other Needs" assistance under subsections 408 (e) and (f) of the Stafford Act will be as follows;

(i) The Federal share shall be 75 percent; and

(ii) The non-federal share shall be paid from funds made available by the State. If the State does not provide the non-Federal share to FEMA before FEMA begins to provide assistance to individuals and households under subsection 408(e) of the Stafford Act, FEMA will still process applications. The State will then be obliged to reimburse FEMA for the non-Federal cost share of such assistance on a monthly basis. If the State does not provide such reimbursement on a monthly basis, then FEMA will issue a Bill for Collection to the State on a monthly basis for the duration of the program. FEMA will charge interest, penalties, and administrative fees on delinquent Bills for Collection in accordance with the Debt Collection Improvement Act. Cost shared funds, interest, penalties and fees owed to FEMA through delinquent Bills for Collections may be offset from other FEMA disaster assistance programs (*i.e.* Public Assistance) from which the State is receiving, or future grant awards from FEMA or other Federal Agencies. Debt Collection procedures will be followed as outlined in 44 CFR part 11.

(j) *Application of the Privacy Act.* (1) All provisions of the Privacy Act of 1974, 5 U.S.C. 552a, apply to this subpart. FEMA may not disclose an applicant's record except:

(i) In response to a release signed by the applicant that specifies the purpose for the release, to whom the release is to be made, and that the applicant authorizes the release;

(ii) In accordance with one of the published routine uses in our system of records; or

(iii) As provided in paragraph (j)(2) of this section.

(2) Under section 408(f)(2) of the Stafford Act, 42 U.S.C. 5174(f)(2), FEMA must share applicant information with States in order for the States to make available any additional State and local disaster assistance to individuals and households.

(i) States receiving applicant information under this paragraph must protect such information in the same manner that the Privacy Act requires FEMA to protect it.

(ii) States receiving such applicant information shall not further disclose the information to other entities, and shall not use it for purposes other than providing additional State or local disaster assistance to individuals and households.

(k) *Flood Disaster Protection Act requirement.* (1) The Flood Disaster Protection Act of 1973, Public Law 93–234, as amended (42 U.S.C. 4106), imposes certain restrictions on federal financial assistance for acquisition and construction purposes. For the purpose of this paragraph, *financial assistance for acquisition or construction purposes* means assistance to an individual or

household to buy, receive, build, repair or improve insurable portions of a home and/or to purchase or repair insurable contents. For a discussion of what elements of a home and contents are insurable, *See* 44 CFR part 61, Insurance Coverage and Rates.

(2) Individuals or households that are located in a special flood hazard area may not receive Federal Assistance for National Flood Insurance Program (NFIP)—insurable real and/or personal property, damaged by a flood, unless the community in which the property is located is participating in the NFIP (*See* 44 CFR part 59.1), or the exception in 42 U.S.C. 4105(d) applies. However, if the community in which the damaged property is located qualifies for and enters the NFIP during the six-month period following the declaration, the Governor's Authorized Representative may request a time extension for FEMA (*See* §206.112) to accept registrations and to process assistance applications in that community.

(3) *Flood insurance purchase requirement:* (i) As a condition of the assistance and in order to receive any Federal assistance for future flood damage to any insurable property, individuals and households named by FEMA as eligible recipients under section 408 of the Stafford Act who receive assistance, due to flood damages, for acquisition or construction purposes under this subpart must buy and maintain flood insurance, as required in 42 U.S.C. 4012a, for at least the assistance amount. This applies only to real and personal property that is in or will be in a designated Special Flood Hazard Area and that can be insured under the National Flood Insurance Program.

(A) If the applicant is a homeowner, flood insurance coverage must be maintained at the address of the flood-damaged property for as long as the address exists. The flood insurance requirement is reassigned to any subsequent owner of the flood-damaged address.

(B) If the applicant is a renter, flood insurance coverage must be maintained on the contents for as long as the renter resides at the flood-damaged rental unit. The restriction is lifted once the renter moves from the rental unit.

(C) When financial assistance is used to purchase a dwelling, flood insurance coverage must be maintained on the dwelling for as long as the dwelling exists and is located in a designated Special Flood Hazard Area. The flood insurance requirement is reassigned to any subsequent owner of the dwelling.

(ii) FEMA may not provide financial assistance for acquisition or construction purposes to individuals or households who fail to buy and maintain flood insurance required under paragraph (k)(3)(i) of this section or required by the Small Business Administration.

(l) *Environmental requirements.* Assistance provided under this subpart must comply with the National Environmental Policy Act (NEPA) and other environmental laws and Executive Orders, consistent with 44 CFR part 10.

(m) *Historic preservation.* Assistance provided under this subpart generally does not have the potential to affect historic properties and thus is exempted from review in accordance with section 106 of the National Historic Preservation Act, with the exception of ground disturbing activities and construction related to §§206.117(b)(1)(ii) (Temporary housing), 206.117(b)(3) (Replacement housing), and 206.117(b)(4) (Permanent housing construction).

[67 FR 61452, Sept. 30, 2002; 67 FR 62896, Oct. 9, 2002]

### §206.111 Definitions.

*Adequate, alternate housing* means housing that accommodates the needs of the occupants; is within the normal commuting patterns of the area or is within reasonable commuting distance of work, school, or agricultural activities that provide over 50 percent of the household income; and is within the financial ability of the occupant.

*Alternative housing resources* means any housing that is available or can quickly be made available in lieu of permanent housing construction and is cost-effective when compared to permanent construction costs. Some examples are rental resources, mobile homes and travel trailers.

*Applicant* means an individual or household who has applied for assistance under this subpart.

*Assistance from other* means includes monetary or in-kind contributions from voluntary or charitable organizations, insurance, other governmental programs, or from any sources other than those of the applicant.

*Dependent* means someone who is normally claimed as such on the Federal tax return of another, according to the Internal Revenue Code. It may also mean the minor children of a couple not living together, where the children live in the affected residence with the parent or guardian who does not actually claim them on the tax return.

*Displaced applicant* means one whose primary residence is uninhabitable, inaccessible, made unavailable by the landlord (to meet their disaster housing need) or not functional as a direct result of the disaster and has no other housing available in the area, *i.e.*, a secondary home or vacation home.

*Effective date of assistance* means the date that the applicant was determined eligible for assistance.

*Eligible hazard mitigation measures* are home improvements that an applicant can accomplish in order to reduce or prevent future disaster damages to essential components of the home.

*Fair market rent* means housing market-wide estimates of rents that provide opportunities to rent standard quality housing throughout the geographic area in which rental housing units are in competition. The fair market rent rates applied are those identified by the Department of Housing and Urban Development as being adequate for existing rental housing in a particular area.

*Financial ability* means the applicant's capability to pay housing costs. If the household income has not changed subsequent to or as a result of the disaster then the determination is based upon the amount paid for housing before the disaster. If the household income is reduced as a result of the disaster then the applicant will be deemed capable of paying 30 percent of gross post disaster income for housing. When computing financial ability, extreme or unusual financial circumstances may be considered by the Regional Administrator.

*Financial assistance* means cash that may be provided to eligible individuals and households, usually in the form of a check or electronic funds transfer.

*Functional* means an item or home capable of being used for its intended purpose.

*Household* means all persons (adults and children) who lived in the pre-disaster residence who request assistance under this subpart, as well as any persons, such as infants, spouse, or part-time residents who were not present at the time of the disaster, but who are expected to return during the assistance period.

*Housing costs* means rent and mortgage payments, including principal, interest, real estate taxes, real property insurance, and utility costs.

*Inaccessible* means as a result of the incident, the applicant cannot reasonably be expected to gain entry to his or her pre-disaster residence due to the disruption, or destruction, of access routes or other impediments to access, or restrictions placed on movement by a responsible official due to continued health, safety or security problems.

*In-kind contributions* mean something other than monetary assistance, such as goods, commodities or services.

*Lodging expenses* means expenses for reasonable short-term accommodations that individuals or households incur in the immediate aftermath of a disaster. Lodging expenses may include but are not limited to the cost of brief hotel stays.

*Manufactured housing sites* means those sites used for the placement of government or privately owned mobile homes, travel trailers, and other manufactured housing units, including:

(1) *Commercial site*, a site customarily leased for a fee, which is fully equipped to accommodate a housing unit;

(2) *Private site*, a site that the applicant provides or obtains at no cost to the Federal Government, complete with utilities; and

(3) *Group site*, a site provided by the State or local government that accommodates two or more units and is complete with utilities.

*Necessary expense* means the cost associated with acquiring an item or items, obtaining a service, or paying for any other activity that meets a serious need.

*Occupant* means a resident of a housing unit.

*Owner-occupied* means that the residence is occupied by:

(1) The legal owner;

(2) A person who does not hold formal title to the residence and pays no rent, but is responsible for the payment of taxes or maintenance of the residence; or

(3) A person who has lifetime occupancy rights with formal title vested in another.

*Permanent housing plan* means a realistic plan that, within a reasonable timeframe, puts the disaster victim back into permanent housing that is similar to the victim's pre-disaster housing situation. A reasonable timeframe includes sufficient time for securing funds, locating a permanent dwelling, and moving into the dwelling.

*Primary residence* means the dwelling where the applicant normally lives, during the major portion of the calendar year; or the dwelling that is required because of proximity to employment, including agricultural activities, that provide 50 percent of the household's income.

*Reasonable commuting distance* means a distance that does not place undue hardship on an applicant. It also takes into consideration the traveling time involved due to road conditions, *e.g.*, mountainous regions or bridges out and the normal commuting patterns of the area.

*Safe* means secure from disaster-related hazards or threats to occupants.

*Sanitary* means free of disaster-related health hazards.

*Serious need* means the requirement for an item, or service, that is essential to an applicant's ability to prevent, mitigate, or overcome a disaster-related hardship, injury or adverse condition.

*Significantly delayed* means the process has taken more than 30 days.

*Uninhabitable* means the dwelling is not safe, sanitary or fit to occupy.

*We, our,* and *us* mean FEMA.

[67 FR 61452, Sept. 30, 2002; 67 FR 62896, Oct. 9, 2002]

### § 206.112 Registration period.

(a) *Initial period.* The standard FEMA registration period is 60 days following the date that the President declares an incident a major disaster or an emergency.

(b) *Extension of the registration period.* The regional administrator or his/her designee may extend the registration period when the State requests more time to collect registrations from the affected population. The Regional Administrator or his/her designee *may* also extend the standard registration period when necessary to establish the same registration deadline for contiguous counties or States.

(c) *Late registrations.* After the standard or extended registration period ends, FEMA will accept late registrations for an additional 60 days. We will process late registrations for those registrants who provide suitable documentation to support and justify the reason for the delay in their registration.

[67 FR 61452, Sept. 30, 2002; 67 FR 62896, Oct. 9, 2002]

### § 206.113 Eligibility factors.

(a) *Conditions of eligibility.* In general, FEMA may provide assistance to individuals and households who qualify for such assistance under section 408 of the Stafford Act and this subpart. FEMA may only provide assistance:

(1) When the individual or household has incurred a disaster-related necessary expense or serious need in the state in which the disaster has been declared, without regard to their residency in that state;

(2) In a situation where the applicant has insurance, when the individual or household files a claim with their insurance provider for all potentially applicable types of insurance coverage and the claim is denied;

(3) In a situation where the applicant has insurance, when the insured individual or household's insurance proceeds have been significantly delayed through no fault of his, her or their own, and the applicant has agreed to repay the assistance to FEMA or the State from insurance proceeds that he, she or they receive later;

(4) In a situation where the applicant has insurance, when the insured individual or household's insurance proceeds are less than the maximum

amount of assistance FEMA can authorize and the proceeds are insufficient to cover the necessary expenses or serious needs;

(5) In a situation where the applicant has insurance, when housing is not available on the private market;

(6) In a situation where the applicant has insurance, when the insured individual or household has accepted all assistance from other sources for which he, she, or they are eligible, including insurance, when the insured individual or household's insurance proceeds and all other assistance are less than the maximum amount of assistance FEMA can authorize and the proceeds are insufficient to cover the necessary expense or serious needs;

(7) When the applicant agrees to refund to FEMA or the State any portion of the assistance that the applicant receives or is eligible to receive as assistance from another source;

(8) With respect to housing assistance, if the primary residence has been destroyed, is uninhabitable, or is inaccessible; and

(9) With respect to housing assistance, if a renter's primary residence is no longer available as a result of the disaster.

(b) *Conditions of ineligibility.* We may not provide assistance under this subpart:

(1) For housing assistance, to individuals or households who are displaced from other than their pre-disaster primary residence;

(2) For housing assistance, to individuals or households who have adequate rent-free housing accommodations;

(3) For housing assistance, to individuals or households who own a secondary or vacation residence within reasonable commuting distance to the disaster area, or who own available rental property that meets their temporary housing needs;

(4) For housing assistance, to individuals or households who evacuated the residence in response to official warnings solely as a precautionary measure and who are able to return to the residence immediately after the incident;

(5) For housing assistance, for improvements or additions to the pre-disaster condition of property, except those required to comply with local and State ordinances or eligible mitigation measures;

(6) To individuals or households who have adequate insurance coverage and where there is no indication that insurance proceeds will be significantly delayed, or who have refused assistance from insurance providers;

(7) To individuals or households whose damaged primary residence is located in a designated special flood hazard area, and in a community that is not participating in the National Flood Insurance Program, except that financial assistance may be provided to rent alternate housing and for medical, dental, funeral expenses and uninsurable items to such individuals or households. However, if the community in which the damaged property is located qualifies for and enters the NFIP during the six-month period following the declaration then the individual or household may be eligible;

(8) To individuals or households who did not fulfill the condition to purchase and maintain flood insurance as a requirement of receiving previous Federal disaster assistance;

(9) For business losses, including farm businesses and self-employment; or

(10) For any items not otherwise authorized by this section.

[67 FR 61452, Sept. 30, 2002; 67 FR 62896, Oct. 9, 2002]

### § 206.114 Criteria for continued assistance.

(a) FEMA expects all recipients of assistance under this subpart to obtain and occupy permanent housing at the earliest possible time. FEMA may provide continued housing assistance during the period of assistance, but not to exceed the maximum amount of assistance for the program, based on need, and generally only when adequate, alternate housing is not available or when the permanent housing plan has not been fulfilled through no fault of the applicant.

(b) *Additional criteria for continued assistance.* (1) All applicants requesting continued rent assistance must establish a realistic permanent housing plan no later than the first certification for continued assistance. Applicants will be required to provided documentation

showing that they are making efforts to obtain permanent housing.

(2) Applicants requesting continued rent assistance must submit rent receipts to show that they have exhausted the FEMA rent funds, and provide documentation identifying the continuing need.

(3) FEMA generally expects that pre-disaster renters will use their initial rental assistance to obtain permanent housing. However, we may certify them, during the period of assistance, for continued rent assistance when adequate, alternate housing is not available, or when they have not realized a permanent housing plan through no fault of their own.

(4) FEMA may certify pre-disaster owners for continued rent assistance, during the period of assistance, when adequate, alternate housing is not available, or when they have not realized a permanent housing plan through no fault of their own.

(5) Individuals or households requesting additional repair assistance will be required to submit information and/or documentation identifying the continuing need.

(6) Individuals or households requesting additional assistance for personal property, transportation, medical, dental, funeral, moving and storage, or other necessary expenses and serious needs will be required to submit information and/or documentation identifying the continuing need.

[67 FR 61452, Sept. 30, 2002; 67 FR 62896, Oct. 9, 2002]

**§206.115 Appeals.**

(a) Under the provisions of section 423 of the Stafford Act, applicants for assistance under this subpart may appeal any determination of eligibility for assistance made under this subpart. Applicants must file their appeal within 60 days after the date that we notify the applicant of the award or denial of assistance. Applicants may appeal the following:

(1) Eligibility for assistance, including recoupment;

(2) Amount or type of assistance;

(3) Cancellation of an application;

(4) The rejection of a late application;

(5) The denial of continued assistance under §206.114, Criteria for continued assistance;

(6) FEMA's intent to collect rent from occupants of a housing unit that FEMA provides;

(7) Termination of direct housing assistance;

(8) Denial of a request to purchase a FEMA-provided housing unit at the termination of eligibility;

(9) The sales price of a FEMA-provided housing unit they want to purchase; or

(10) Any other eligibility-related decision.

(b) Appeals must be in writing and explain the reason(s) for the appeal. The applicant or person who the applicant authorizes to act on his or her behalf must sign the appeal. If someone other than the applicant files the appeal, then the applicant must also submit a signed statement giving that person authority to represent him, her or them.

(c) Applicants must appeal to the Regional Administrator or his/her designee for decisions made under this subpart, unless FEMA has made a grant to the State to provide assistance to individuals and households under §206.120(a), State administration of other needs assistance; then the applicant must appeal to the State.

(d) An applicant may ask for a copy of information in his or her file by writing to FEMA or the State as appropriate. If someone other than the applicant is submitting the request, then the applicant must also submit a signed statement giving that person authority to represent him or her.

(e) The appropriate FEMA or State program official will notify the applicant in writing of the receipt of the appeal.

(f) The Regional Administrator or his/her designee or appropriate State official will review the original decision after receiving the appeal. FEMA or the State, as appropriate, will give the appellant a written notice of the disposition of the appeal within 90 days of the receiving the appeal. The decision of the appellate authority is final.

[67 FR 61452, Sept. 30, 2002; 67 FR 62896, Oct. 9, 2002]

**§ 206.116 Recovery of funds.**

(a) The applicant must agree to repay to FEMA (when funds are provided by FEMA) and/or the State (when funds are provided by the State) from insurance proceeds or recoveries from any other source an amount equivalent to the value of the assistance provided. In no event must the amount repaid to FEMA and/or the State exceed the amount that the applicant recovers from insurance or any other source.

(b) An applicant must return funds to FEMA and/or the State (when funds are provided by the State) when FEMA and/or the State determines that the assistance was provided erroneously, that the applicant spent the funds inappropriately, or that the applicant obtained the assistance through fraudulent means.

[67 FR 61452, Sept. 30, 2002; 67 FR 62896, Oct. 9, 2002]

**§ 206.117 Housing assistance.**

(a) *Purpose.* FEMA may provide financial or direct assistance under this section to respond to the disaster-related housing needs of individuals and households.

(b) *Types of housing assistance*—(1) *Temporary housing assistance*—(i) *Financial assistance.* Eligible individuals and households may receive financial assistance to rent alternate housing resources, existing rental units, manufactured housing, recreational vehicles, or other readily fabricated dwellings. FEMA may also provide assistance for the reasonable cost of any transportation, utility hookups, or installation of a manufactured housing unit or recreational vehicle to be used for housing. This includes reimbursement for reasonable short-term lodging expenses that individuals or households incur in the immediate aftermath of a disaster.

(A) FEMA will include all members of a pre-disaster household in a single registration and will provide assistance for one temporary housing residence, unless the Regional Administrator or his/her designee determines that the size or nature of the household requires that we provide assistance for more than one residence.

(B) FEMA will base the rental assistance on the Department of Housing and Urban Development's current fair market rates for existing rental units. FEMA will further base the applicable rate on the household's bedroom requirement and the location of the rental unit.

(C) All utility costs and utility security deposits are the responsibility of the occupant except where the utility does not meter utility services separately and utility services are a part of the rental charge.

(D) The occupant is responsible for all housing security deposits. In extraordinary circumstances, the Regional Administrator or his/her designee may authorize the payment of security deposits; however, the owner or occupant must reimburse the full amount of the security deposit to the Federal Government before or at the time that the temporary housing assistance ends.

(ii) *Direct assistance.* (A) FEMA may provide direct assistance in the form of purchased or leased temporary housing units directly to individuals or households who lack available housing resources and would be unable to make use of the assistance provided under paragraph (b)(1)(i) of this section.

(B) FEMA will include all members of a pre-disaster household in a single application and will provide assistance for one temporary housing residence, unless the Regional Administrator or his/her designee determines that the size or nature of the household requires that we provide assistance for more than one residence.

(C) Any site upon which a FEMA-provided housing unit is placed must comply with applicable State and local codes and ordinances, as well as 44 CFR part 9, Floodplain Management and Protection of Wetlands, and 44 CFR part 10, Environmental Considerations, and all other applicable environmental laws and Executive Orders.

(D) All utility costs and utility security deposits are the responsibility of the occupant except where the utility does not meter utility services separately and utility services are a part of the rental charge.

(E) FEMA-provided or funded housing units may be placed in the following locations:

(*1*) A commercial site that is complete with utilities; when the Regional Administrator or his/her designee determines that the upgrading of commercial sites, or installation of utilities on such sites, will provide more cost-effective, timely and suitable temporary housing than other types of resources, then Federal assistance may be authorized for such actions.

(*2*) A private site that an applicant provides, complete with utilities; when the Regional Administrator or his/her designee determines that the cost of installation or repairs of essential utilities on private sites will provide more cost effective, timely, and suitable temporary housing than other types of resources, then Federal assistance may be authorized for such actions.

(*3*) A group site that the State or local government provides that accommodates two or more units and is complete with utilities; when the Regional Administrator or his/her designee determines that the cost of developing a group site provided by the State or local government, to include installation or repairs of essential utilities on the sites, will provide more cost effective, timely, and suitable temporary housing than other types of resources, then Federal assistance may be authorized for such actions.

(*4*) A group site provided by FEMA, if the Regional Administrator or his/her designee determines that such a site would be more economical or accessible than one that the State or local government provides.

(F) After the end of the 18-month period of assistance, FEMA may begin to charge up to the fair market rent rate for each temporary housing unit provided. We will base the rent charged on the number of bedrooms occupied and needed by the household. When establishing the amount of rent, FEMA will take into account the financial ability of the household.

(G) We may terminate direct assistance for reasons that include, but are not limited to, the following:

(*1*) The period of assistance expired under §206.110(e) and has not been extended;

(*2*) Adequate alternate housing is available to the occupant(s);

(*3*) The occupant(s) obtained housing assistance through either misrepresentation or fraud;

(*4*) The occupant(s) failed to comply with any term of the lease/rental agreement or other rules of the site where the unit is located.

(*5*) The occupant(s) does not provide evidence documenting that they are working towards a permanent housing plan.

(H) FEMA will provide a 15 day written notice when initiating the termination of direct assistance that we provide under our lease agreements. This notice will specify the reasons for termination of assistance and occupancy, the date of termination, the procedure for appealing the determination, and the occupant's liability for such additional charges as the Regional Administrator or his/her designee deems appropriate after the termination date, including fair market rent for the unit.

(I) Duplication of benefits may occur when an applicant has additional living expense insurance benefits to cover the cost of renting alternate housing. In these instances, FEMA may provide a temporary housing unit if adequate alternate housing is not available, or if doing so is in the best interest of the household and the government. We will establish fair market rent, not to exceed insurance benefits available.

(2) *Repairs.* (i) FEMA may provide financial assistance for the repairs of uninsured disaster-related damages to an owner's primary residence. The funds are to help return owner-occupied primary residences to a safe and sanitary living or functioning condition. Repairs may include utilities and residential infrastructure (such as private access routes, privately owned bridge, wells and/or septic systems) damaged by a major disaster.

(ii) The type of repair FEMA authorizes may vary depending upon the nature of the disaster. We may authorize repair of items where feasible or replacement when necessary to insure the safety or health of the occupant and to make the residence functional.

(iii) FEMA may also provide assistance for eligible hazard mitigation measures that reduce the likelihood of future damage to damaged residences, utilities or infrastructure.

(iv) Eligible individuals or households may receive up to $5,000 under this paragraph, adjusted annually to reflect changes in the CPI, to repair damages to their primary residence without first having to show that the assistance can be met through other means, except insurance proceeds.

(v) The individual or household is responsible for obtaining all local permits or inspections that applicable State or local building codes may require.

(3) *Replacement.* FEMA may provide financial assistance under this paragraph to replace the primary residence of an owner-occupied dwelling if the dwelling was damaged by the disaster and there was at least $10,000 of damage (as adjusted annually to reflect changes in the CPI). The applicant may either replace the dwelling in its entirety for $10,000 (as adjusted annually to reflect changes in the CPI) or less, or may use the assistance toward the cost of acquiring a new permanent residence that is greater in cost than $10,000 (as adjusted annually to reflect changes in the CPI). All replacement assistance awards must be individually approved by the Assistant Administrator for the Disaster Assistance Directorate. The Assistant Administrator for the Disaster Assistance Directorate may approve replacement assistance for applicants whose damages are less than $10,000 in extraordinary circumstances where replacement assistance is more appropriate than other forms of housing assistance.

(4) *Permanent housing construction.* FEMA may provide financial or direct assistance to applicants for the purpose of constructing permanent housing in insular areas outside the continental United States and in other remote locations when alternative housing resources are not available and the types of financial or direct temporary housing assistance described at paragraph (b)(1) of this section are unavailable, infeasible, or not cost-effective.

(c) *Eligible costs.* (1) Repairs to the primary residence or replacement of items must be disaster-related and must be of average quality, size, and capacity, taking into consideration the needs of the occupant. Repairs to the primary residence are limited to restoration of the dwelling to a safe and sanitary living or functioning condition and may include:

(i) Repair or replacement of the structural components, including foundation, exterior walls, and roof;

(ii) Repair or replacement of the structure's windows and doors;

(iii) Repair or replacement of the structure's Heating, Ventilation and Air Conditioning System;

(iv) Repair or replacement of the structure's utilities, including electrical, plumbing, gas, water and sewage systems;

(v) Repair or replacement of the structure's interior, including floors, walls, ceilings, doors and cabinetry;

(vi) Repair to the structure's access and egress, including privately owned access road and privately owned bridge;

(vii) Blocking, leveling, and anchoring of a mobile home, and reconnecting or resetting mobile home sewer, water, electrical and fuel lines and tanks; and

(viii) Items or services determined to be eligible hazard mitigation measures.

(2) Replacement assistance, will be based on the verified disaster-related level of damage to the dwelling, or the statutory maximum, whichever is less.

(3) Permanent housing construction, in general, must be consistent with current minimal local building codes and standards where they exist, or minimal acceptable construction industry standards in the area, including reasonable hazard mitigation measures, and federal environmental laws and regulations Dwellings will be of average quality, size and capacity, taking into consideration the needs of the occupant.

[67 FR 61452, Sept. 30, 2002; 67 FR 62896, Oct. 9, 2002]

### § 206.118 Disposal of housing units.

(a) FEMA may sell housing units purchased under § 206.117(b)(1)(ii), Temporary housing, direct assistance, as follows:

(1) Sale to an applicant.

(i) Sale to the individual or household occupying the unit, if the occupant lacks permanent housing, has a site that complies with local codes and ordinances and part 9 of this Title.

(ii) Adjustment to the sales price. FEMA may approve adjustments to the

sales price when selling a housing unit to the occupant of a unit if the purchaser is unable to pay the fair market value of the home or unit and when doing so is in the best interest of the applicant and FEMA.

(iii) FEMA may sell a housing unit to the occupant only on the condition that the purchaser agrees to obtain and maintain hazard insurance, as well as flood insurance on the unit if it is or will be in a designated Special Flood Hazard Area.

(2) Other methods of disposal:

(i) FEMA may sell, transfer, donate, or otherwise make a unit available directly to a State or other governmental entity, or to a voluntary organization, for the sole purpose of providing temporary housing to disaster victims in major disasters and emergencies. As a condition of the sale, transfer, or donation, or other method of provision, the State, governmental entity, or voluntary organization must agree to:

(A) Comply with the nondiscrimination provisions of the Stafford Act, 42 U.S.C. 5151; and

(B) Obtain and maintain hazard insurance on the unit, as well as flood insurance if the housing unit is or will be in a designated Special Flood Hazard Area.

(ii) FEMA may also sell housing units at a fair market value to any other person.

(b) A unit will be sold "as is, where is", except for repairs FEMA deems necessary to protect health or safety, which are to be completed before the sale. There will be no implied warranties. In addition, FEMA will inform the purchaser that he/she may have to bring the unit up to codes and standards that are applicable at the proposed site.

[67 FR 61452, Sept. 30, 2002; 67 FR 62896, Oct. 9, 2002]

### §206.119 Financial assistance to address other needs.

(a) *Purpose.* FEMA and the State may provide financial assistance to individuals and households who have other disaster-related necessary expenses or serious needs. To qualify for assistance under this section, an applicant must also:

(1) Apply to the United States Small Business Administration's (SBA) Disaster Home Loan Program for all available assistance under that program; and

(2) Be declined for SBA Disaster Home Loan Program assistance; or

(3) Demonstrate that the SBA assistance received does not satisfy their total necessary expenses or serious needs arising out of the major disaster.

(b) *Types of assistance.* (1) Medical, dental, and funeral expenses. FEMA may provide financial assistance for medical, dental and funeral items or services to meet the disaster-related necessary expenses and serious needs of individuals and households.

(2) Personal property, transportation, and other expenses.

(i) FEMA may provide financial assistance for personal property and transportation items or services to meet the disaster-related necessary expenses and serious needs of individuals and households.

(ii) FEMA may provide financial assistance for other items or services that are not included in the specified categories for other assistance but which FEMA approves, in coordination with the State, as eligible to meet unique disaster-related necessary expenses and serious needs of individuals and households.

(c) *Eligible costs*—(1) *Personal property.* Necessary expenses and serious needs for repair or replacement of personal property are generally limited to the following:

(i) Clothing;

(ii) Household items, furnishings or appliances;

(iii) Tools, specialized or protective clothing, and equipment required by an employer as a condition of employment;

(iv) Computers, uniforms, schoolbooks and supplies required for educational purposes; and

(v) Cleaning or sanitizing any eligible personal property item.

(2) *Transportation.* Necessary expenses or serious needs for transportation are generally limited to the following:

(i) Repairing or replacing vehicles; and

(ii) Financial assistance for public transportation and any other transportation related costs or services.

(3) *Medical expenses.* Medical expenses are generally limited to the following:

(i) Medical costs;

(ii) Dental costs; and

(iii) Repair or replacement of medical equipment.

(4) *Funeral expenses.* Funeral expenses are generally limited to the following

(i) Funeral services;

(ii) Burial or cremation; and

(iii) Other related funeral expenses.

(5) *Moving and storage expenses.* Necessary expenses and serious needs related to moving and storing personal property to avoid additional disaster damage generally include storage of personal property while disaster-related repairs are being made to the primary residence, and return of the personal property to the individual or household's primary residence.

(6) *Other.* Other disaster-related expenses not addressed in this section may include:

(i) The purchase of a Group Flood Insurance Policy as described in paragraph (d) of this section.

(ii) Other miscellaneous items or services that FEMA, in consultation with the State, determines are necessary expenses and serious needs.

(d) *Group Flood Insurance purchase.* Individuals identified by FEMA as eligible for "Other Needs" assistance under section 408 of the Stafford Act as a result of flood damage caused by a Presidentially-declared major disaster and who reside in a special flood hazard area (SFHA) may be included in a Group Flood Insurance Policy (GFIP) established under the National Flood Insurance Program (NFIP) regulations at 44 CFR 61.17.

(1) The premium for the GFIP is a necessary expense within the meaning of this section. FEMA or the State shall withhold this portion of the Other Needs award and provide it to the NFIP on behalf of individuals and households who are eligible for coverage. The coverage shall be equivalent to the maximum assistance amount established under section 408 of the Stafford Act.

(2) FEMA or the State IHP staff shall provide the NFIP with records of individuals who received an "Other Needs" award and are to be insured through the GFIP. Records of "Other Needs" applicants to be insured shall be accompanied by payments to cover the premium amounts for each applicant for the 3-year policy term. The NFIP will then issue a Certificate of Flood Insurance to each applicant. Flood insurance coverage becomes effective on the 30th day following the receipt of records of GFIP insureds and their premium payments from the State or FEMA, and such coverage terminates 36 months from the inception date of the GFIP, which is 60 days from the date of the disaster declaration.

(3) Insured applicants would not be covered if they are determined to be ineligible for coverage based on a number of exclusions established by the NFIP. Therefore, once applicants/policyholders receive the Certificate of Flood Insurance that contains a list of the policy exclusions, they should review that list to see if they are ineligible for coverage. Those applicants who fail to do this may find that their property is, in fact, not covered by the insurance policy when the next flooding incident occurs and they file for losses. Once the applicants find that their damaged buildings, contents, or both, are ineligible for coverage, they should notify the NFIP in writing in order to have their names removed from the GFIP, and to have the flood insurance maintenance requirement expunged from the data-tracking system.

[67 FR 61452, Sept. 30, 2002; 67 FR 62896, Oct. 9, 2002]

### § 206.120 State administration of other needs assistance.

(a) *State administration of other needs assistance.* A State may request a grant from FEMA to provide financial assistance to individuals and households in the State under § 206.119. The State may also expend administrative costs not to exceed 5 percent of the amount of the grant in accordance with section 408(f)(1)(b) of the Stafford Act. Any State that administers the program to provide financial assistance to individuals and households must administer the program consistent with § 206.119 and the State Administrative Option and the State Administrative Plan

that we describe at paragraph (b) and (c) of this section.

(b) *State administrative options.* The delivery of assistance under §206.119 is contingent upon the State choosing an administrator for the assistance. The State may either request that FEMA administer the assistance or the State may request a grant from FEMA for State administration. The Governor or designee will execute the State Administrative Option annually. During non-disaster periods the State may submit any proposed amendments to the administrative option in writing to the FEMA Regional Administrator. FEMA shall review the request and respond to the Governor or his/her designee within 45 days of receipt of the proposed amendment;

(c) *State Administrative Plan (SAP).* The delivery of assistance by a State under this section is contingent upon approval of a SAP, which describes the procedures the State will use to deliver assistance under section 408 of the Stafford Act, 42 U.S.C. 5174, when a State requests a grant to administer Other Needs assistance. All implementation procedures must be in compliance with Federal laws and requirements, State laws and procedures, and paragraphs (c) and (d) of this section.

(1) *Timeframe for submission of SAP.* A signed SAP, or renewal, must be provided to the FEMA Regional Administrator prior to November 30 of each year. A SAP shall be effective for at least one year, and must be resubmitted in full every three years.

(2) *Renewals.* Annual updates/revisions to the SAP must be submitted by November 30 of each year for FEMA's review and approval by December 31. If the SAP does not need to be updated/revised, a letter from the State stating the SAP is still current must be submitted by November 30 to document the SAP submission requirement.

(3) *Amendments.* The State may request amendments to the SAP at any time. An amendment is effective upon signature by the FEMA Regional Administrator and the Governor or his/her designee. The State may request an amendment to the administrative plan as follows:

(i) *During non-disaster periods.* The State may submit any proposed amendments to the SAP in writing to the FEMA Regional Administrator. FEMA shall review the request and respond to the Governor or his/her designee within 45 days of receipt of the proposed amendment;

(ii) *During Presidentially-declared disasters.* The State shall submit any proposed amendments to the SAP in writing to FEMA within three days after disaster declaration. FEMA shall review the request and respond to the Governor or his/her designee within three days of receipt.

(d) *State administrative plan requirements.* The State shall develop a plan for the administration of the Other Needs assistance that describes, at a minimum, the following items:

(1) Assignment of grant program responsibilities to State officials or agencies.

(2) Staffing Schedule that identifies the position, salary and percent of time for each staff person assigned to program administration and/or implementation.

(3) Procedures for interaction with applicants:

(i) Procedures for notifying potential applicants of the availability of the program, to include the publication of application deadlines, pertinent program descriptions, and further program information on the requirements which must be met by the applicant in order to receive assistance;

(ii) Procedures for registration and acceptance of applications, including late applications, up to the prescribed time limitations as described in §206.112;

(iii) Procedures for damage inspection and/or other verifications.

(iv) Eligibility determinations.

(A) *Under a cooperative agreement:* The procedure for eligibility determinations when the FEMA application and inspection systems are used by the State but additional eligibility criteria are necessary to make State eligibility determinations.

(B) *Under a grant:* The procedure for eligibility determinations when the FEMA application and inspection systems are not used by the State, including the method for determination of costs for personal property and provision of a standard list for personal

property items with allowable costs identified for each item.

(v) Procedures for checking compliance for mandated flood insurance in accordance with § 206.110(k);

(vi) Procedures for notifying applicants of the State's eligibility decision;

(vii) Procedures for disbursement of funds to applicants;

(viii) Procedures for applicant appeal processing. Procedures must provide for any appealable determination as identified in § 206.115(a);

(ix) Procedures for expeditious reporting of allegations of fraud, waste or abuse to DHS Office of Inspector General.

(x) Capacity to investigate allegations of waste, fraud and abuse independently if requested by DHS OIG, or in conjunction with DHS OIG.

(xi) Provisions for safeguarding the privacy of applicants and the confidentiality of information, in accordance with § 206.110(j).

(xii) Provisions for complying with § 206.116(b), Recovery of funds.

(4) Procedures for financial management, accountability and oversight.

(i) Procedures for verifying by random sample that assistance funds are meeting applicants' needs, are not duplicating assistance from other means, and are meeting flood insurance requirements.

(ii) Provisions for specifically identifying, in the accounts of the State, all Federal and State funds committed to each grant program; and for immediately returning, upon discovery, all Federal funds that are excess to program needs.

(iii) Provisions for accounting for cash in compliance with State law and procedure and the Cash Management Improvement Act of 1990, as amended.

(iv) Reports.

(A) Procedures for preparing and submitting quarterly and final Financial Status Reports in compliance with 44 CFR 13.41.

(B) Procedures for submitting Program Status Reports in compliance with paragraph (f)(2)(iii) of this section.

(C) Procedures for preparing and submitting the PSC 272, Federal Cash Transactions Report.

(v) Procedures for inventory control, including a system for identifying and tracking placement of equipment purchased with grant funds or loaned by FEMA to the State for purposes of administering the Individuals and Households Program.

(vi) Procedures for return of funds to FEMA.

(vii) State criteria and requirements for closing out Federal grants.

(viii) Process for retention of records.

(e) *Application for assistance procedure.* This section describes the procedures that must be followed by the State to submit an application to administer the Individuals and Households Program through a Grant Award or a Cooperative Agreement.

(1) The State must submit an Other Needs assistance application to the Regional Administrator within 72 hours of the major disaster declaration before IHP assistance may be provided. FEMA will work with the State to approve the application or to modify it so it can be approved.

(2) The application shall include:

(i) Standard Form (SF) 424, Application for Federal Assistance;

(ii) FEMA Form (FF) 20-20 Budget Information—Non Construction Programs;

(iii) Copy of approved indirect cost rate from a Federal cognizant agency if indirect costs will be charged to the grant. Indirect costs will be included in the administrative costs of the grant allowed under paragraph (a) of this section; and

(iv) Disaster specific changes to the State Administrative Plan, if applicable.

(f) *Grants management oversight*—(1) *Period of assistance.* All costs must be incurred within the period of assistance, which is 18 months from the date of the disaster declaration. This period of assistance may be extended if requested in writing by the State and approved in writing by the Assistant Administrator for the Disaster Assistance Directorate. The State must include a justification for an extension of the assistance period.

(2) *Reporting requirements.* (i) The State shall provide financial status reports, as required by 44 CFR 13.41.

(ii) The State shall provide copies of PSC 272, Federal Cash Transactions Report to FEMA. The PSC 272 is required quarterly by the Department of Health and Human Services from users of its SMARTLINK service.

(iii) The State shall provide weekly program status reports which include the number and dollar amount of applications approved, the amount of assistance disbursed and the number of appeals received.

(3) *Ineligible costs.* Funds provided to the State for the administrative costs of administering Other Needs assistance shall not be used to pay regular time for State employees, but may be used to pay overtime for those employees.

(4) *Closeout.* The State has primary responsibility to closeout the tasks approved under the Grant Award. In compliance with the period of assistance, as identified in the award, the State must reconcile costs and payments, resolve negative audit findings, and submit final reports within 90 days of the end of the period of assistance. The State must also provide an inventory of equipment purchased with grant funds and loaned to it by FEMA for purposes of administering IHP, which lists the items, dates, and costs of equipment purchased.

(5) *Recovery of funds.* The State is responsible for recovering assistance awards from applicants obtained fraudulently, expended for unauthorized items or services, expended for items for which assistance is received from other means, and awards made in error.

(i) Adjustments to expenditures will be made as funding is recovered and will be reported quarterly on the Financial Status Report.

(ii) A list of applicants from whom recoveries are processed will be submitted on the quarterly progress report to allow FEMA to adjust its program and financial information systems.

(iii) The State will reimburse FEMA for the Federal share of awards not recovered through quarterly financial adjustments within the 90 day close out liquidation period of the grant award.

(iv) If the State does not reimburse FEMA within the 90 day close out liquidation period, a bill for collection will be issued. FEMA will charge interest, penalties, and administrative fees on delinquent bills for collection in accordance with the Debt Collection Improvement Act. Recovered funds, interest, penalties, and fees owed to FEMA through delinquent bills for collection may be offset from other FEMA disaster assistance programs from which the State is receiving funds or future grant awards from FEMA or other Federal agencies. Debt collection procedures will be followed as outlined in 44 CFR part 11.

(6) *Audit requirements.* Pursuant to 44 CFR 13.26, uniform audit requirements apply to all grants provided under this subpart.

(7) *Document retention.* Pursuant to 44 CFR 13.42, States are required to retain records, including source documentation, to support expenditures/costs incurred against the grant award, for 3 years from the date of submission to FEMA of the final Financial Status Report. The State is responsible for resolving questioned costs that may result from an audit conducted during the three-year record retention period and for returning disallowed costs from ineligible activities.

[67 FR 61452, Sept. 30, 2002; 67 FR 62896, 62897, Oct. 9, 2002]

**§§ 206.121–206.130 [Reserved]**

## Subpart E—Individual and Family Grant Programs

### §206.131 Individual and Family Grant Program for major disasters declared on or before October 14, 2002.

(a) *General.* The Governor may request that a Federal grant be made to a State for the purpose of such State making grants to individuals or families who, as a result of a major disaster, are unable to meet disaster-related necessary expenses or serious needs for Presidentially-declared major disasters declared on or before October 14, 2002 (Note that the reference to section 411 of the Stafford Act refers to prior legislation amended by the Disaster Mitigation Act 2000). The total Federal grant under this section will be equal to 75 percent of the actual cost of meeting necessary expenses or serious needs of individuals and families, plus

State administrative expenses not to exceed 5 percent of the Federal grant (see paragraph (g) of this section). The total Federal grant is made only on condition that the remaining 25 percent of the actual cost of meeting individuals' or families' necessary expenses or serious needs is paid from funds made available by the State. With respect to any one major disaster, an individual or family may not receive a grant or grants under this section totaling more than $10,000 including both the Federal and State shares. The $10,000 limit will be adjusted annually, at the beginning of each fiscal year, to reflect changes in the Consumer Price Index for all Urban Consumers. IFG assistance for damages or losses to real or personal property, or both, will be provided to individuals or families with those IFG-eligible losses totaling $201 or more; those individuals with damages or losses of $200 or less to real or personal property, or both, are ineligible. The Governor or his/her designee is responsible for the administration of the grant program. The provisions of this regulation are in accordance with 44 CFR Part 13, Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments.

(b) *Purpose.* The grant program is intended to provide funds to individuals or families to permit them to meet those disaster-related necessary expenses or serious needs for which assistance from other means is either unavailable or inadequate. Meeting those expenses and needs as expeditiously as possible will require States to make an early commitment of personnel and resources. States may make grants in instances where the applicant has not received other benefits to which he/she may be entitled by the time of application to the IFG program, and if the applicant agrees to repay all duplicated assistance to the State. The grant program is not intended to indemnify disaster losses or to permit purchase of items or services which may generally be characterized as nonessential, luxury, or decorative. Assistance under this program is not to be counted as income or a resource in the determination of eligibility for welfare or other income-tested programs supported by the Federal Government, in that IFG assistance is intended to address only disaster-related needs.

(c) *Definitions used in this section.* (1) *Necessary expense* means the cost of a serious need.

(2) *Serious need* means the requirement for an item or service essential to an individual or family to prevent, mitigate, or overcome a disaster-related hardship, injury, or adverse condition.

(3) *Family* means a social unit living together and composed of:

(i) Legally married individuals or those couples living together as if they were married and their dependents; or

(ii) A single person and his/her dependents; or

(iii) Persons who jointly own the residence and their dependents.

(4) *Individual* means anyone who is not a member of a family as described above.

(5) *Dependent* means someone who is normally claimed as such on the Federal tax return of another, according to the Internal Revenue Code. It may also mean the minor children of a couple not living together where the children live in the affected residence with the parent who does not actually claim them on the tax return.

(6) *Expendable items* means consumables, as follows: linens, clothes, and basic kitchenware (pots, pans, utensils, dinnerware, flatware, small kitchen appliances).

(7) *Assistance from other means* means assistance including monetary or in-kind contributions, from other governmental programs, insurance, voluntary or charitable organizations, or from any sources other than those of the individual or family. It does not include expendable items.

(8) *Owner-occupied* means that the residence is occupied by: The legal owner; a person who does not hold formal title to the residence but is responsible for payment of taxes, maintenance of the residence, and pays no rent; or a person who has lifetime occupancy rights in the residence with formal title vested in another. In States where documentation proving ownership is not recorded or does not exist, the State is required to include in its administrative plan a State Attorney

General approved set of conditions describing adequate proof of ownership.

(9) *Flowage easement* means an area where the landowner has given the right to overflow, flood, or submerge the land to the government or other entity for a public purpose.

(d) *National eligibility criteria.* In administering the IFG program, a State shall determine the eligibility of an individual or family in accordance with the following criteria:

(1) *General.* (i) To qualify for a grant under this section, an individual or family representative must:

(A) Make application to all applicable available governmental disaster assistance programs for assistance to meet a necessary expense or serious need, and be determined not qualified for such assistance, or demonstrate that the assistance received does not satisfy the total necessary expense or serious need;

(B) Not have previously received or refused assistance from other means for the specific necessary expense or serious need, or portion thereof, for which application is made; and

(C) Certify to refund to the State that part of the grant for which assistance from other means is received, or which is not spent as identified in the grant award document.

(ii) Individuals and families who incur a necessary expense or serious need in the major disaster area may be eligible for assistance under this section without regard to their alienage, their residency in the major disaster area, or their residency within the State in which the major disaster has been declared except that for assistance in the "housing" category, ownership and residency in the declared disaster area are required (see paragraph (d)(2)(i) of this section).

(iii) The Flood Disaster Protection Act of 1973, Public Law 93-234, as amended, imposes certain restriction on approval of Federal financial assistance for acquisition and construction purposes. This paragraph states those requirements for the IFG program.

(A) For the purpose of this paragraph, *financial assistance for acquisition or construction purposes* means a grant to an individual or family to repair, replace, or rebuild the insurable portions of a home, and/or to purchase or repair insurable contents. For a discussion of what elements of a home and contents are insurable, see 44 CFR part 61, Insurance Coverage and Rates.

(B) A State may not make a grant for acquisition or construction purposes where the structure to which the grant assistance relates is located in a designated special flood hazard area which has been identified by the Assistant Administrator for Mitigation for at least 1 year as floodprone, unless the community in which the structure is located is participating in the National Flood Insurance Program (NFIP). However, if a community qualifies for and enters the NFIP during the 6-month period following the major disaster declaration, the Governor's Authorized Representative (GAR) may request a time extension (see paragraph (j)(1)(ii) of this section) from the Regional Administrator for the purpose of accepting and processing grant applications in that community. The Regional Administrator or Assistant Administrator for the Disaster Assistance Directorate, as appropriate, may approve the State's request if those applicable governmental disaster assistance programs which were available during the original application period are available to the grant applicants during the extended application period.

(C)(*1*) The State may not make a grant for acquisition or construction purposes in a designated special flood hazard area in which the sale of flood insurance is available under the NFIP unless the individual or family obtains adequate flood insurance and maintains such insurance for as long as they live at that property address. The coverage shall equal the maximum grant amount established under §411(f) of the Stafford Act. If the grantee is a homeowner, flood insurance coverage must be maintained on the residence at the flood-damaged property address for as long as the structure exists if the grantee, or any subsequent owner of that real estate, ever wishes to be assisted by the Federal government with any subsequent flood damages or losses to real or personal property, or both. If the grantee is a renter, flood insurance coverage must be maintained on the

contents for as long as the renter resides at the flood-damaged property address. The restriction is lifted once the renter moves from the rental unit.

(2) Individuals named by a State as eligible recipients under §411 of the Stafford Act for an IFG program award for flood damage as a result of a Presidential major disaster declaration will be included in a Group Flood Insurance Policy (GFIP) established under the National Flood Insurance Program (NFIP) regulations, at 44 CFR 61.17.

(i) The premium for the GFIP is a necessary expense within the meaning of this section. The State shall withhold this portion of the IFG award and provide it to the NFIP on behalf of individuals and families who are eligible for coverage. The coverage shall be equivalent to the maximum grant amount established under §411(f) of the Stafford Act.

(ii) The State IFG program staff shall provide the NFIP with records of individuals who received an IFG award and are, therefore, to be insured. Records of IFG grantees to be insured shall be accompanied by payments to cover the premium amounts for each grantee for the 3-year policy term. The NFIP will then issue a Certificate of Flood Insurance to each grantee. Flood insurance coverage becomes effective on the 30th day following the receipt of records of GFIP insureds and their premium payments from the State, and terminates 36 months from the inception date of the GFIP, i.e., 60 days from the date of the disaster declaration.

(iii) Insured grantees would not be covered if they are determined to be ineligible for coverage based on a number of exclusions established by the NFIP. Therefore, once grantees/policyholders receive the Certificate of Flood Insurance that contains a list of the policy exclusions, they should review that list to see if they are ineligible for coverage. Those grantees who fail to do this may find that their property is, in fact, not covered by the insurance policy when the next flooding incident occurs and they file for losses. Once the grantees find that their damaged buildings, contents, or both, are ineligible for coverage, they should notify the NFIP in writing in order to have their names removed from the GFIP, and to have the flood insurance maintenance requirement expunged from the NFIP data-tracking system. (If the grantee wishes to refer to or review a Standard Flood Insurance Policy, it will be made available by the NFIP upon request.)

(D) A State may not make a grant to any individual or family who received Federal disaster assistance for flood damage occurring after September 23, 1994, if that property has already received Federal flood-disaster assistance in a disaster declared after September 23, 1994, a flood insurance purchase and maintenance requirement was levied as a condition or result of receiving that Federal disaster assistance, and flood insurance was, in fact, not maintained in an amount at least equal to the maximum IFG grant amount. However, if that property was determined to be ineligible for NFIP flood insurance coverage and is in a special flood hazard area located in a community participating in the NFIP, then the State may continue to make grants to those individuals or families that receive additional damage in all subsequent Presidentially declared major disasters involving floods.

(iv) In order to comply with the President's Executive Orders on Floodplain Management (E.O. 11988) and Protection of Wetlands (E.O. 11990), the State must implement the IFG program in accordance with FEMA regulations 44 CFR part 9. That part specifies which IFG program actions require a floodplain management decisionmaking process before a grant may be made, and also specifies the steps to follow in the decisionmaking process. Should the State determine that an individual or family is otherwise eligible for grant assistance, the State shall accomplish the necessary steps in accordance with that section, and request the Regional Administrator to make a final floodplain management determination.

(2) *Eligible categories.* Assistance under this section shall be made available to meet necessary expenses or serious needs by providing essential items or services in the following categories:

(i) Housing. With respect to primary residences (including mobile homes) which are owner-occupied at the time

of the disaster, grants may be authorized to:

(A) Repair, replace, or rebuild;

(B) Provide access. When an access serves more than one individual or family, an owner-occupant whose primary residence is served by the access may be eligible for a proportionate share of the cost of jointly repairing or providing such access. The owner-occupant may combine his/her grant funds with funds made available by the other individuals or families if a joint use agreement is executed (with no cost or charge involved) or if joint ownership of the access is agreed to;

(C) Clean or make sanitary;

(D) Remove debris from such residences. Debris removal is limited to the minimum required to remove health or safety hazards from, or protect against additional damage to the residence;

(E) Provide or take minimum protective measures required to protect such residences against the immediate threat of damage, which means that the disaster damage is causing a potential safety hazard and, if not repaired, will cause actual safety hazards from common weather or environmental events (example: additional rain, flooding, erosion, wind); and

(F) Minimization measures required by owner-occupants to comply with the provision of 44 CFR part 9 (Floodplain Management and Protection of Wetlands), to enable them to receive assistance from other means, and/or to enable them to comply with a community's floodplain management regulations.

(ii) Personal property. Proof of ownership of personal property is not required. This category includes:

(A) Clothing;

(B) Household items, furnishings, or appliances. If a predisaster renter receives a grant for household items, furnishings, or appliances and these items are an integral part of mobile home or other furnished unit, the predisaster renter may apply the funds awarded for these specific items toward the purchase of the furnished unit, and toward mobile home site development, towing, set-up, connecting and/or reconnecting;

(C) Tools, specialized or protective clothing, and equipment which are required by an employer as a condition of employment;

(D) Repairing, cleaning or sanitizing any eligible personal property item; and

(E) Moving and storing to prevent or reduce damage.

(iii) Transportation. Grants may be authorized to repair, replace, or provide privately owned vehicles or to provide public transportation.

(iv) Medical or dental expenses.

(v) Funeral expenses. Grants may include funeral and burial (and/or cremation) and related expenses.

(vi) Cost of the first year's flood insurance premium to meet the requirement of this section.

(vii) Costs for estimates required for eligibility determinations under the IFG program. Housing and personal property estimates will be provided by the government. However, an applicant may appeal to the State if he/she feels the government estimate is inaccurate. The cost of an applicant-obtained estimate to support the appeal is not an eligible cost.

(viii) Other. A State may determine that other necessary expenses and serious needs are eligible for grant assistance. If such a determination is made, the State must summarize the facts of the case and thoroughly document its findings of eligibility. Should the State require technical assistance in making a determination of eligibility, it may provide a factual summary to the Regional Administrator and request guidance. The Assistant Administrator for the Disaster Assistance Directorate also may determine that other necessary expenses and serious needs are eligible for grant assistance. Following such a determination, the Assistant Administrator for the Disaster Assistance Directorate shall advise the State, through the Regional Administrator, and provide the necessary program guidance.

(3) *Ineligible categories.* Assistance under this section shall not be made available for any item or service in the following categories:

(i) Business losses, including farm businesses and self-employment;

(ii) Improvements or additions to real or personal property, except those

required to comply with paragraph (d)(2)(i)(F) of this section;

(iii) Landscaping;

(iv) Real or personal property used exclusively for recreation; and

(v) Financial obligations incurred prior to the disaster.

(4) *Verification.* The State will be provided most verification data on IFG applicants who were not required to first apply to the SBA. The FEMA Regional Administrator shall be responsible for performing most of the required verifications in the categories of housing (to include documentation of home ownership and primary residency); personal property; and transportation (to include notation of the plate or title number of the vehicle; the State may wish to follow up on this). Certain verifications may still be required to be performed by the State, such as on late applicants or reverifications, when FEMA or its contractors are no longer available, and on medical/dental, funeral and "other" categories. Eligibility determination functions shall be performed by the State. The SBA will provide copies of verification performed by SBA staff on housing and personal property (including vehicles) for those applicants who were first required to apply to SBA. This will enable the State to make an eligibility determination on those applicants. When an applicant disagrees with the grant award, he/she may appeal to the State. The cost of any estimate provided by the applicant in support of his/her appeal is not eligible under the program.

(e) *State administrative plan.* (1) The State shall develop a plan for the administration of the IFG program that includes, as a minimum, the items listed below.

(i) Assignment of grant program responsibilities to State officials or agencies.

(ii) Procedures for:

(A) Notifying potential grant applicants of the availability of the program, to include the publication of application deadlines, pertinent program descriptions, and further program information on the requirements which must be met by the applicant in order to receive assistance;

(B) Participating with FEMA in the registration and acceptance of applications, including late applications, up to the prescribed time limitations;

(C) Reviewing verification data provided by FEMA and performing verifications for medical, dental, funeral, and "other" expenses, and also for all grant categories in the instance of late applications and appeals. FEMA will perform any necessary reverifications while its contract personnel are in the disaster area, and the State will perform any others;

(D) Determining applicant eligibility and grant amounts, and notifying applicants of the State's decision;

(E) Determining the requirement for flood insurance;

(F) Preventing duplication of benefits between grant assistance and assistance from other means;

(G) At the applicant's request, and at the State's option, reconsidering the State's determinations;

(H) Processing applicant appeals, recognizing that the State has final authority. Such procedures must provide for:

(*1*) The receipt of oral or written evidence from the appellate or representative;

(*2*) A determination on the record; and

(*3*) A decision by an impartial person or board;

(I) Disbursing grants in a timely manner;

(J) Verifying by random sample that grant funds are meeting applicants' needs, are not duplicating assistance from other means, and are meeting floodplain management and flood insurance requirements. Guidance on the sample size will be provided by the Regional Administrator;

(K) Recovering grant funds obtained fraudulently, expended for unauthorized items or services, expended for items for which assistance is received from other means, or authorized for acquisition or construction purposes where proof of purchase of flood insurance is not provided to the State. Except for those mentioned in the previous sentence, grants made properly by the State on the basis of federally sponsored verification information are not subject to recovery by the State,

i.e., FEMA will not hold the State responsible for repaying to FEMA the Federal share of those grants. The State is responsible for its 25 percent share of those grants. As an attachment to its voucher, the State must identify each case where recovery actions have been taken or are to be taken, and the steps taken or to be taken to accomplish recovery;

(L) Conducting any State audits that might be performed in compliance with the Single Audit Act of 1984; and ensuring that appropriate corrective action is taken within 6 months after receipt of the audit report in instances of noncompliance with Federal laws and regulations;

(M) Reporting to the Regional Administrator, and to the Federal Coordinating Officer as required; and

(N) Reviewing and updating the plan each January.

(iii) National eligibility criteria as defined in paragraph (d) of this section.

(iv) Provisions for compliance with 44 CFR part 13, Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments; 44 CFR part 11, Claims; the State's own debt collection procedures; and all applicable Federal laws and regulations.

(v) Pertinent time limitations for accepting applications, grant award activities, and administrative activities, to comply with Federal time limitations.

(vi) Provisions for specifically identifying, in the accounts of the State, all Federal and State funds committed to each grant program; for repaying the loaned State share as of the date agreed upon in the FEMA-State Agreement; and for immediately returning, upon discovery, all Federal funds that are excess to program needs.

(vii) Provisions for safeguarding the privacy of applicants and the confidentiality of information, except that the information may be provided to agencies or organizations who require it to make eligibility decisions for assistance programs, or to prevent duplication of benefits, to State agencies responsible for audit or program review, and to FEMA or the Government Accountability Office for the purpose of making audits or conducting program reviews.

(viii) A section identifying the management and staffing functions in the IFG program, the sources of staff to fill these functions, and the management and oversight responsibilities of:

(A) The GAR;

(B) The department head responsible for the IFG program;

(C) The Grant Coordinating Officer, i.e., the State official assigned management responsibility for the IFG program; and

(D) The IFG program manager, where management responsibilities are assigned to such a person on a day-to-day basis.

(2) The Governor or his/her designee may request the Regional Administrator to provide technical assistance in the preparation of an administrative plan to implement this program.

(3) The Governor shall submit a revised State administrative plan each January to the Regional Administrator. The Regional Administrator shall review and approve the plan annually. In each disaster for which assistance under this section is requested, the Regional Administrator shall request the State to prepare any amendments required to meet current policy guidance. The Regional Administrator must then work with the State until the plan and amendment(s) are approved.

(4) The State shall make its approved administrative plan part of the State emergency plan, as described in subpart A of these regulations.

(f) *State initiation of the IFG program.* To make assistance under this section available to disaster victims, the Governor must, either in the request of the President for a major disaster declaration or by separate letter to the Regional Administrator, express his/her intention to implement the program. This expression of intent must include an estimate of the size and cost of the program. In addition, this expression of intent represents the Governor's agreement to the following:

(1) That the program is needed to satisfy necessary expenses and serious needs of disaster victims which cannot otherwise be met;

(2) That the State will pay its 25 percent share of all grants to individuals and families;

(3) That the State will return immediately upon discovery advanced Federal funds that exceed actual requirements;

(4) To implement an administrative plan as identified in paragraph (e) of this section;

(5) To implement the grant program throughout the area designated as eligible for assistance by the Assistant Administrator for the Disaster Assistance Directorate; and

(6) To maintain close coordination with and provide reports to the Regional Administrator.

(g) *Funding.* (1) The Regional Administrator may obligate the Federal share of the IFG program based upon the determination that:

(i) The Governor has indicated the intention to implement the program, in accordance with paragraph (f) of this section;

(ii) The State's administrative plan meets the requirements of this section and current policy guidance; and

(iii) There is no excess advance of the Federal share due FEMA from a prior IFG program. The State may eliminate any such debt by paying it immediately, or by accepting an offset of the owed funds against other funds payable by FEMA to the State. When the excess Federal share has been repaid, the Regional Administrator may then obligate funds for the Federal share for the current disaster.

(2) The Regional Administrator may increase the State's letter of credit to meet the Federal share of program needs if the above conditions are met. The State may withdraw funds for the Federal share in the amount made available to it by the Regional Administrator. Advances to the State are governed by 44 CFR 13.21, Payment.

(3) The Regional Administrator may lend to the State its share in accordance with subpart A of these regulations.

(4) Payable costs are governed by 44 CFR 13.22, Allowable Costs, and the associated OMB Circular A–87, Cost Principles for State and Local Governments. Also, the costs must be in accordance with the national eligibility criteria stated in paragraph (d) of this section, and the State's administrative plan, as stated in paragraph (e) of this section. The Federal contribution to this program shall be 75 percent of program costs and shall be made in accordance with 44 CFR 13.25, Matching or Cost-Sharing.

(h) *Final payment.* Final payment to the State for the Federal share of the IFG program plus administrative costs, is governed by 44 CFR 13.21, Payment, and 44 CFR 13.50, Closeout. The voucher is Standard Form 270, Request for Advance or Reimbursement). A separate voucher for the State share will be prepared, to include all disaster programs for which the State is requesting a loan of the nonFederal share. The FEMA Regional Administrator will analyze the voucher and approve, disapprove, or suspend approval until deficiencies are corrected.

(i) *Audits.* The State should perform the audits required by the Single Audit Act of 1984. Refer to 44 CFR part 13. All programs are subject to Federal audit.

(j) *Time limitations.* (1) In the administration of the IFG program:

(i) The Governor shall indicate his/her intention to implement the IFG program no later than 7 days following the day on which the major disaster was declared and in the manner set forth in paragraph (f) of this section;

(ii) Applications shall be accepted from individuals or families for a period of 60 days following the declaration, and for no longer than 30 days thereafter when the State determines that extenuating circumstances beyond the applicants' control (such as, but not limited to, hospitalization, illness, or inaccessibility to application centers) prevented them from applying in a timely manner. *Exception:* If applicants exercising their responsibility to first apply to the Small Business Administration do so after SBA's deadline, and SBA accepts their case for processing because of "substantial causes essentially beyond the control of the applicant," and provides a formal decline or insufficient loan based on lack of repayment ability, unsatisfactory credit, or unsatisfactory experience with prior loans (i.e., the reasons a loan denial client would normally be eligible for IFG assistance),

then such an application referred to the State by the SBA is considered as meeting the IFG filing deadline. The State may then apply its own criteria in determining whether to process the case for grant assistance. The State automatically has an extension of time to complete the processing, eligibility, and disbursement functions. However, the State must still complete all administrative activity within the 270-day period described in this section.

(iii) The State shall complete all grant award activity, including eligibility determinations, disbursement, and disposition of State level appeals, within 180 days following the declaration date. The Regional Administrator shall suspend all grant awards disbursed after the specified completion date; and

(iv) The State shall complete all administrative activities and submit final reports and vouchers to the Regional Administrator within 90 days of the completion of all grant award activity.

(2) The GAR may submit a request with appropriate justification for the extension of any time limitation. The Regional Administrator may approve the request for a period not to exceed 90 days. The Assistant Administrator for the Disaster Assistance Directorate may approve any request for a further extension of the time limitations.

(k) *Appeals*—(1) *Bills for collection (BFC's).* The State may appeal the issuance of a BFC by the Regional Administrator. Such an appeal shall be made in writing within 60 days of the issuance of the bill. The appeal must include information justifying why the bill is incorrect. The Regional Administrator shall review the material submitted and notify the State, in writing, within 15 days of receipt of the appeal, of his/her decision. Interest on BFC's starts accruing on the date of issuance of the BFC, but is not charged if the State pays within 30 days of issuance. If the State is successful in its appeal, interest will not be charged; if unsuccessful, interest is due and payable, as above.

(2) *Other appeals.* The State may appeal any other decision of the regional Administrator. Such appeals shall be made in writing within 60 days of the Regional Administrator 's decision. The appeal must include information justifying a reversal of the decision. The Regional Administrator shall review the material submitted and notify the State, in writing, within 15 days of receipt of the appeal, of his/her decision.

(3) *Appeals to the Assistant Administrator for the Disaster Assistance Directorate.* The State may further appeal the Regional Administrator 's decisions to the Assistant Administrator for the Disaster Assistance Directorate. This appeal shall be made in writing within 60 days of the Regional Administrator 's decision. The appeal must include information justifying a reversal of the decision. The Assistant Administrator for the Disaster Assistance Directorate shall review the material submitted and notify the State, in writing, within 15 days of receipt of the appeal, of his/her decision.

(l) *Exemption from garnishment.* All proceeds received or receivable under the IFG program shall be exempt from garnishment, seizure, encumbrance, levy, execution, pledge, attachment, release, or waiver. No rights under this provision are assignable or transferable. The above exemptions will not apply to the requirement imposed by paragraph (e)(1)(ii)(K) of this section.

(m) *Debt collection.* If the State has been unable to recover funds as stated in paragraph (e)(1)(k) of this section, the Regional Administrator shall institute debt collection activities against the individual according to the procedures outlined in 44 CFR part 11, Claims, and 44 CFR 13.52, Collection of Amounts Due.

[54 FR 11615, Mar. 21, 1989, as amended at 55 FR 28627, July 12, 1990; 60 FR 7130, Feb. 7, 1995; 61 FR 19201, May 1, 1996; 67 FR 61460, Sept. 30, 2002; 74 FR 15348, Apr. 3, 2009]

**§§ 206.132–206.140 [Reserved]**

## Subpart F—Other Individual Assistance

### § 206.141 Disaster unemployment assistance.

The authority to implement the disaster unemployment assistance (DUA) program authorized by section 410 of the Stafford Act, and the authority to

issue regulations, are currently delegated to the Secretary of Labor.

**§§ 206.142–206.150 [Reserved]**

**§ 206.151 Food commodities.**

(a) The Administrator will assure that adequate stocks of food will be ready and conveniently available for emergency mass feeding or distribution in any area of the United States which suffers a major disaster or emergency.

(b) In carrying out the responsibilities in paragraph (a) of this section, the Administrator may direct the Secretary of Agriculture to purchase food commodities in accordance with authorities prescribed in section 413(b) of the Stafford Act.

**§§ 206.152–206.160 [Reserved]**

**§ 206.161 Relocation assistance.**

Notwithstanding any other provision of law, no person otherwise eligible for any kind of replacement housing payment under the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Pub. L. 91–646) shall be denied such eligibility as a result of his being unable, because of a major disaster as determined by the President, to meet the occupancy requirements set by such Act.

**§§ 206.162–206.163 [Reserved]**

**§ 206.164 Disaster legal services.**

(a) *Legal services,* including legal advice, counseling, and representation in *non fee-generating* cases, except as provided in paragraph (b) of this section, may be provided to low-income individuals who require them as a result of a major disaster. For the purpose of this section, *low-income individuals* means those disaster victims who have insufficient resources to secure adequate legal services, whether the insufficiency existed prior to or results from the major disaster. In cases where questions arise about the eligibility of an individual for legal services, the Regional Administrator or his/her representative shall make a determination.

(b) Disaster legal services shall be provided free to such individuals. Fee-generating cases shall not be accepted by lawyers operating under these regulations. For purposes of this section, a fee-generating case is one which would not ordinarily be rejected by local lawyers as a result of its lack of potential remunerative value. Where any question arises as to whether a case is fee-generating as defined in this section, the Regional Administrator or his/her representative, after any necessary consultation with local or State bar associations, shall make the determination. Any fee-generating cases shall be referred by the Regional Administrator or his/her representative to private lawyers, through existing lawyer referral services, or, where that is impractical or impossible, the Regional Director may provide a list of lawyers from which the disaster victim may choose. Lawyers who have rendered voluntary legal assistance under these regulations are not precluded from taking fee-generating cases referred to them in this manner while in their capacity as private lawyers.

(c) When the Regional Administrator determines after any necessary consultation with the State Coordinating Officer, that implementation of this section is necessary, provision of disaster legal services may be accomplished by:

(1) Use of volunteer lawyers under the terms of appropriate agreements;

(2) Use of Federal lawyers, provided that these lawyers do not represent an eligible disaster victim before a court or Federal agency in a matter directly involving the United States, and further provided that these lawyers do not act in a way which will violate the standards of conduct of their respective agencies or departments;

(3) Use of private lawyers who may be paid by the Federal Emergency Management Agency when the Regional Administrator has determined that there is no other means of obtaining adequate legal assistance for qualified disaster victims; or

(4) Any other arrangement the Regional Administrator deems appropriate.

The Assistant Administrator for the Disaster Assistance Directorate shall coordinate with appropriate Federal agencies and the appropriate national,

state and local bar associations, as necessary, in the implementation of the disaster legal services programs.

(d) In the event it is necessary for FEMA to pay lawyers for the provision of legal services under these regulations, the Regional Administrator, in consultation with State and local bar associations, shall determine the amount of reimbursement due to the lawyers who have provided disaster legal services at the request of the Regional Administrator. At the Regional Administrator 's discretion, administrative costs of lawyers providing legal services requested by him or her may also be paid.

(e) Provision of disaster legal services is confined to the securing of benefits under the Act and claims arising out of a major disaster.

(f) Any disaster legal services shall be provided in accordance with subpart A of these regulations, Non-discrimination in disaster assistance.

**§§ 206.165-206.170 [Reserved]**

**§ 206.171 Crisis counseling assistance and training.**

(a) *Purpose.* This section establishes the policy, standards, and procedures for implementing section 416 of the Act, Crisis Counseling Assistance and Training. FEMA will look to the Director, National Institute of Mental Health (NIMH), as the delegate of the Secretary of the Department of Health and Human Services (DHHS).

(b) *Definitions.* (1) *Assistant Administrator* means the head of the Disaster Assistance Directorate; the official who approves or disapproves a request for assistance under section 416 of the Act, and is the final appeal authority.

(2) *Crisis* means any life situation resulting from a major disaster or its aftermath which so affects the emotional and mental equilibrium of a disaster victim that professional mental health counseling services should be provided to help preclude possible damaging physical or psychological effects.

(3) *Crisis counseling* means the application of individual and group treatment procedures which are designed to ameliorate the mental and emotional crises and their subsequent psychological and behavioral conditions resulting from a major disaster or its aftermath.

(4) *Federal Coordinating Officer (FCO)* means the person appointed by the Administrator or Deputy Administrator to coordinate Federal assistance in an emergency or a major disaster.

(5) *Grantee* means the State mental health agency or other local or private mental health organization which is designated by the Governor to receive funds under section 416 of the Act.

(6) *Immediate services* means those screening or diagnostic techniques which can be applied to meet mental health needs immediately after a major disaster. Funds for immediate services may be provided directly by the Regional Administrator to the State or local mental health agency designated by the Governor, prior to and separate from the regular program application process of crisis counseling assistance.

(7) *Major disaster* means any natural catastrophe (including any hurricane, tornado, storm, high water, winddriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm or drought), or, regardless of cause, any fire, flood, or explosion, in any part of the United States, which in the determination of the President causes damage of sufficient severity and magnitude to warrant major disaster assistance under this Act to supplement the efforts and available resources of States, local governments, and disaster relief organizations in alleviating the damage, loss, hardship, or suffering caused thereby.

(8) *Project Officer* means the person assigned by the Secretary, DHHS, to monitor a crisis counseling program, provide consultation, technical assistance, and guidance, and be the contact point within the DHHS for program matters.

(9) *Regional Administrator* means the director of a regional office of FEMA, or the Disaster Recovery Manager, as the delegate of the Regional Administrator.

(10) *Secretary* means the Secretary of DHHS or his/her delegate.

(11) *State Coordinating Officer (SCO)* means the person appointed by the

Governor to act in cooperation with the FCO.

(c) *Agency policy.* (1) It is agency policy to provide crisis counseling services, when required, to victims of a major disaster for the purpose of relieving mental health problems caused or aggravated by a major disaster or its aftermath. Assistance provided under this section is short-term in nature and is provided at no cost to eligible disaster victims.

(2) The Regional Administrator and Assistant Administrator for the Disaster Assistance Directorate, in fulfilling their responsibilities under this section, shall coordinate with the Secretary.

(3) In meeting the responsibilities under this section, the Secretary or his/her delegate will coordinate with the Assistant Administrator for the Disaster Assistance Directorate.

(d) *State initiation of the crisis counseling program.* To obtain assistance under this section, the Governor or his/her authorized representative must initiate an assessment of the need for crisis counseling services within 10 days of the date of the major disaster declaration. The purpose of the assessment is to provide an estimate of the size and cost of the program needed and to determine if supplemental Federal assistance is required. The factors of the assessment must include those described in paragraphs (f)(2) (ii) and (iii) and (g)(2) (iii) and (iv) of this section.

(e) *Public or private mental health agency programs.* If the Governor determines during the assessment that because of unusual circumstances or serious conditions within the State or local mental health network, the State cannot carry out the crisis counseling program, he/she may identify a public or private mental health agency or organization to carry out the program or request the Regional Administrator to identify, with the assistance of the Secretary, such an agency or organization. Preference should be given to the extent feasible and practicable to those public and private agencies or organizations which are located in or do business primarily in the major disaster area.

(f) *Immediate services.* If, during the course of the assessment, the State determines that immediate mental health services are required because of the severity and magnitude of the disaster, and if State or local resources are insufficient to provide these services, the State may request and the Regional Administrator, upon determining that State resources are insufficient, may provide funds to the State, separate from the application process for regular program funds (described at paragraph (g) of this section).

(1) The application must be submitted to the Regional Administrator no later than 14 days following the declaration of the major disaster. This application represents the Governor's agreement and/or certification:

(i) That the requirements are beyond the State and local governments' capabilities;

(ii) That the program, if approved, will be implemented according to the plan contained in the application approved by the Regional Administrator;

(iii) To maintain close coordination with and provide reports to the Regional Administrator; and

(iv) To include mental health disaster planning in the State's emergency plan prepared under title II of the Stafford Act.

(2) The application must include:

(i) The geographical areas within the designated disaster area for which services will be provided;

(ii) An estimate of the number of disaster victims requiring assistance;

(iii) A description of the State and local resources and capabilities, and an explanation of why these resources cannot meet the need;

(iv) A description of response activities from the date of the disaster incident to the date of application;

(v) A plan of services to be provided to meet the identified needs; and

(vi) A detailed budget, showing the cost of proposed services separately from the cost of reimbursement for any eligible services provided prior to application.

(3) *Reporting requirements.* The State shall submit to the Regional Administrator:

(i) A mid-program report only when a regular program grant application is

being prepared and submitted. This report will be included as part of the regular program grant application;

(ii) A final program report, a financial status report, and a final voucher 90 days after the last day of immediate services funding.

(4) Immediate services program funding:

(i) Shall not exceed 60 days following the declaration of the major disaster, except when a regular program grant application has been submitted;

(ii) May continue for up to 30 additional days when a regular program grant application has been submitted;

(iii) May be extended by the Regional Administrator, upon written request from the State, documenting extenuating circumstances; and

(iv) May reimburse the State for documented, eligible expenses from the date of the occurrence of the event or incurred in anticipation of and immediately preceding the disaster event which results in a declaration.

(v) Any funds granted pursuant to an immediate services program, paragraph (f) of this section, shall be expended solely for the purposes specified in the approved application and budget, these regulations, the terms and conditions of the award, and the applicable principles prescribed in 44 CFR part 13.

(5) *Appeals.* There are two levels of appeals. If a State submits appeals at both levels, the first appeal must be submitted early enough to allow the latter appeal to be submitted within 60 days following the date of the funding determination on the immediate services program application.

(i) The State may appeal the Regional Administrator 's decision. This appeal must be submitted in writing within 60 days of the date of notification of the application decision, but early enough to allow for further appeal if desired. The appeal must include information justifying a reversal of the decision. The Regional Director shall review the material submitted, and after consultation with the Secretary, notify the State, in writing within 15 days of receipt of the appeal, of his/her decision;

(ii) The State may further appeal the Regional Administrator 's decision to the Assistant Administrator for the Disaster Assistance Directorate. This appeal shall be made in writing within 60 days of the date of the Regional Administrator 's notification of the decision on the immediate services application. The appeal must include information justifying a reversal of the decision. The Assistant Administrator for the Disaster Assistance Directorate, or other impartial person, shall review the material submitted, and after consultation with the Secretary and Regional Administrator, notify the State, in writing, within 15 days of receipt of the appeal, of his/her decision.

(g) *Regular program.* (1) The application must be submitted by the Governor or his/her authorized representative to the Assistant Administrator for the Disaster Assistance Directorate through the Regional Administrator, and simultaneously to the Secretary no later than 60 days following the declaration of the major disaster. This application represents the Governor's agreement and/or certification:

(i) That the requirements are beyond the State and local governments' capabilities;

(ii) That the program, if approved, will be implemented according to the plan contained in the application approved by the Assistant Administrator for the Disaster Assistance Directorate;

(iii) To maintain close coordination with and provide reports to the Regional Administrator, the Assistant Administrator for the Disaster Assistance Directorate, and the Secretary; and

(iv) To include mental health disaster planning in the State's emergency plan prepared under title II of the Stafford Act.

(2) The application must include:

(i) Standard Form 424, Application for Federal Assistance;

(ii) The geographical areas within the designated disaster area for which services will be supplied;

(iii) An estimate of the number of disaster victims requiring assistance. This documentation of need should include the extent of physical, psychological, and social problems observed, the types of mental health problems encountered by victims, and a description of how the estimate was made;

(iv) A description of the State and local resources and capabilities, and an explanation of why these resources cannot meet the need;

(v) A plan of services which must include at a minimum:

(A) The manner in which the program will address the needs of the affected population, including the types of services to be offered, an estimate of the length of time for which mental health services will be required, and the manner in which long-term cases will be handled;

(B) A description of the organizational structure of the program, including designation by the Governor of an individual to serve as administrator of the program. If more than one agency will be delivering services, the plan to coordinate services must also be described;

(C) A description of the training program for project staff, indicating the number of workers needing such training;

(D) A description of the facilities to be utilized, including plans for securing office space if necessary to the project; and

(E) A detailed budget, including identification of the resources the State and local governments will commit to the project, proposed funding levels for the different agencies if more than one is involved, and an estimate of the required Federal contribution.

(3) *Reporting requirements.* The State shall submit the following reports to the Regional Administrator, the Secretary, and the State Coordinating Officer:

(i) Quarterly progress reports, as required by the Regional Administrator or the Secretary, due 30 days after the end of the reporting period. This is consistent with 44 CFR 13.40, Monitoring and Reporting Program Performance;

(ii) A final program report, to be submitted within 90 days after the end of the program period. This is also consistent with 44 CFR 13.40, Monitoring and Reporting Program Performance;

(iii) An accounting of funds, in accordance with 44 CFR 13.41, Financial Reporting, to be submitted with the final program report; and

(iv) Such additional reports as the Regional Administrator, Secretary, or SCO may require.

(4) Regular program funding:

(i) Shall not exceed 9 months from the date of the DHHS notice of grant award, except that upon the request of the State to the Regional Administrator and the Secretary, the Assistant Administrator for the Disaster Assistance Directorate may authorize up to 90 days of additional program period because of documented extraordinary circumstances. In limited circumstances, such as disasters of a catastrophic nature, the Assistant Administrator for the Disaster Assistance Directorate may extend the program period for more than 90 days where he or she deems it to be in the public interest.

(ii) The amount of the regular program grant award will take into consideration the Secretary's estimate of the sum necessary to carry out the grant purpose.

(iii) Any funds granted pursuant to a regular program, paragraph (g) of this section, shall be expended solely for the purposes specified in the approved application and budget, these regulations, the terms and conditions of the award, and the applicable cost principles prescribed in subpart Q of 45 CFR part 92.

(5) *Appeals.* The State may appeal the Assistant Administrator for the Disaster Assistance Directorate 's decision, in writing, within 60 days of the date of notification of the decision. The appeal must include information justifying a reversal of the decision. The Assistant Administrator for the Disaster Assistance Directorate, or other impartial person, in consultation with the Secretary and Regional Administrator, shall review the material submitted and notify the State, in writing within 15 days of receipt of the appeal, of his/her decision.

(h) *Eligibility guidelines.* (1) For services. An individual may be eligible for crisis counseling services if he/she was a resident of the designated major disaster areas or was located in the area at the time of the disaster event and if:

(i) He/she has a mental health problem which was caused or aggravated by the major disaster or its aftermath; or

(ii) He/she may benefit from preventive care techniques.

(2) *For training.* (i) The crisis counseling project staff or consultants to the project are eligible for the specific instruction that may be required to enable them to provide professional mental health crisis counseling to eligible individuals;

(ii) All Federal, State, and local disaster workers responsible for assisting disaster victims are eligible for general instruction designed to enable them to deal effectively and humanely with disaster victims.

(i) *Assignment of responsibilities.* (1) The Regional Administrator shall:

(i) In the case of an immediate services program application, acknowledge receipt of the request, verify (with assistance from the Secretary) that State resources are insufficient, approve or disapprove the State's application, obligate and advance funds for this purpose, review appeals, make a determination (with assistance from the Secretary), and notify the State;

(ii) In the case of a regular program grant application:

(A) Acknowledge receipt of the request;

(B) Request the Secretary to conduct a review to determine the extent to which assistance requested by the Governor or his/her authorized representative is warranted;

(C) Considering the Secretary's recommendation, recommend approval or disapproval of the application for assistance under this section; and forward the Regional Administrator 's and Secretary's recommendations and documentation to the Assistant Administrator for the Disaster Assistance Directorate;

(D) Assist the State in preliminary surveys and provide guidance and technical assistance if requested to do so; and

(E) Maintain liaison with the Secretary and look to the Secretary for program oversight and monitoring.

(2) The Secretary shall:

(i) Provide technical assistance, consultation, and guidance to the Regional Administrator in reviewing a State's application, to a State during program implementation and development, and to mental health agencies, as appropriate;

(ii) At the request of the Regional Administrator, conduct a review to verify the extent to which the requested assistance is needed and provide a recommendation on the need for supplementary Federal assistance. The review must include:

(A) A verification of the need for services with an indication of how the verification was conducted;

(B) Identification of the Federal mental health programs in the area, and the extent to which such existing programs can help alleviate the need;

(C) An identification of State, local, and private mental health resources, and the extent to which these resources can assume the workload without assistance under this section and the extent to which supplemental assistance is warranted;

(D) A description of the needs; and

(E) A determination of whether the plan adequately addresses the mental health needs;

(iii) If the application is approved, provide grant assistance to States or the designated public or private entities;

(iv) If the application is approved, monitor the progress of the program and perform program oversight;

(v) Coordinate with, and provide program reports to, the Regional Administrator, and the Assistant Administrator for the Disaster Assistance Directorate;

(vi) Make the appeal determination, for regular program grants, involving allowable costs and termination for cause as described in paragraph (j)(2) of this section;

(vii) As part of the project monitoring responsibilities, report to the Regional Administrator and Assistant Administrator for the Disaster Assistance Directorate at least quarterly on the progress of crisis counseling programs, in a report format jointly agreed upon by the Secretary and FEMA; provide special reports, as requested by the Regional Administrator, FCO, or Assistant Administrator for the Disaster Assistance Directorate;

(viii) Require progress reports and other reports from the grantee to facilitate his/her project monitoring responsibilities;

(ix) Properly account for all Federal funds made available to grantees under this section. Submit to the Assistant Administrator for the Disaster Assistance Directorate, within 120 days of completion of a program, a final accounting of all expenditures for the program and return to FEMA all excess funds. Attention is called to the reimbursement requirements of this part.

(3) The Assistant Administrator for the Disaster Assistance Directorate shall:

(i) Approve or disapprove a State's request for assistance based on recommendations of the Regional Administrator and the Secretary;

(ii) Obligate funds and authorize advances of funds to the DHHS;

(iii) Request that the Secretary designate a Project Officer;

(iv) Maintain liaison with the Secretary and Regional Administrator; and

(v) Review and make determinations on appeals, except for regular program appeals involving allowable costs and termination for cause as described in paragraph (j)(2) of this section, and notify the State of the decision.

(j) *Grant awards.* (1) Neither the approval of any application nor the award of any grant commits or obligates the United States in any way to make any additional, supplemental, continuation, or other award with respect to any approved application or portion of any approved application.

(2) Several other regulations of the DHHS apply to grants under this section. These include, but are not limited to:

45 CFR part 16—DHHS grant appeals procedures
42 CFR part 50, subpart D—PHS grant appeals procedures
45 CFR part 74—Administration of grants
45 CFR part 75—Informal grant appeals procedures (indirect cost rates and other cost allocations)
45 CFR part 80—Nondiscrimination under programs receiving Federal assistance through the DHHS (effectuation of Title VI of the Civil Rights Act of 1964)
45 CFR part 81—Practice and procedure for hearings under part 80
45 CFR part 84—Nondiscrimination on the basis of handicap in federally assisted programs
45 CFR part 86—*Nondiscrimination* on the basis of sex in federally assisted programs
45 CFR part 91—Nondiscrimination on the basis of age in federally assisted programs
45 CFR part 92—Uniform administrative requirements for grants and cooperative agreements to State and local governments

(k) *Federal audits.* The crisis counseling program is subject to Federal audit. The Assistant Administrator for the Disaster Assistance Directorate, the Regional Administrator, the DHS Inspector General, The Secretary, and the Comptroller General of the United States, or their duly authorized representatives, shall have access to any books, documents, papers, and records that pertain to Federal funds, equipment, and supplies received under this section for the purpose of audit and examination.

[54 FR 11615, Mar. 21, 1989, as amended at 68 FR 9900, Mar. 3, 2003]

### §§ 206.172–206.180 [Reserved]

### § 206.181 Use of gifts and bequests for disaster assistance purposes.

(a) *General.* FEMA sets forth procedures for the use of funds made possible by a bequest of funds from the late Cora C. Brown of Kansas City, Missouri, who left a portion of her estate to the United States for helping victims of natural disasters and other disasters not caused by or attributable to war. FEMA intends to use the funds, and any others that may be bequeathed under this authority, in the manner and under the conditions described below.

(b) *Purposes for awarding funds.* Money from the Cora Brown Fund may only be used to provided for disaster-related needs that have not been or will not be met by governmental agencies or any other organizations which have programs to address such needs; however, the fund is not intended to replace or supersede these programs. For example, if assistance is available from another source, including the Individual and Family Grant program and government-sponsored disaster loan assistance, then money from the Cora Brown Fund will not be available to

the applicant for the same purpose. Listed below are the general categories of assistance which can be provided by the Cora Brown Fund:

(1) Disaster-related home repair and rebuilding assistance to families for permanent housing purposes, including site acquisition and development, relocation of residences out of hazardous areas, assistance with costs associated with temporary housing or permanent rehousing (e.g., utility deposits, access, transportation, connection of utilities, etc.);

(2) Disaster-related unmet needs of families who are unable to obtain adequate assistance under the Act or from other sources. Such assistance may include but is not limited to: health and safety measures; evacuation costs; assistance delineated in the Act or other Federal, State, local, or volunteer programs; hazard mitigation or floodplain management purposes; and assistance to self-employed persons (with no employees) to reestablish their businesses; and

(3) Other services which alleviate human suffering and promote the well being of disaster victims. For example, services to the elderly, to children, or to handicapped persons, such as transportation, recreational programs, provision of special ramps, or hospital or home visiting services. The funds may be provided to individual disaster victims, or to benefit a group of disaster victims.

(c) *Conditions for use of the Cora Brown Fund.* (1) The Cora Brown Fund is available only when the President declares that a major disaster or emergency exists under the Act, only in areas designated as eligible for Federal disaster assistance through notice in the FEDERAL REGISTER, and only at the discretion of the Assistant Administrator for the Disaster Assistance Directorate. The fund is limited to the initial endowment plus accrued interest, and this assistance program will cease when the fund is used up.

(2) A disaster victim normally will receive no more than $2,000 from this fund in any one declared disaster unless the Assistant Administrator for the Disaster Assistance Directorate determines that a larger amount is in the best interest of the disaster victim and the Federal Government. Funds to provide service which benefit a group may be awarded in an amount determined by the Assistant Administrator for the Disaster Assistance Directorate, based on the Regional Administrator 's recommendation.

(3) The fund may not be used in a way that is inconsistent with other federally mandated disaster assistance or insurance programs, or to modify other generally applicable requirements.

(4) Funds awarded to a disaster victim may be provided by FEMA jointly to the disaster victim and to a State or local agency, or volunteer organization, to enable such an agent to assist in providing the approved assistance to an applicant. Example: Repair funds may be provided jointly to an applicant and the Mennonite Disaster Service, who will coordinate the purchase of supplies and provide the labor.

(5) Money from this fund will not duplicate assistance for which a person is eligible from other sources.

(6) In order to comply with the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), as amended, any award for acquisition or construction purposes shall carry a requirement that any adequate flood insurance policy be purchased and maintained. The Assistant Administrator for the Disaster Assistance Directorate shall determine what is adequate based on the purpose of the award.

(7) The fund shall be administered in an equitable and impartial manner without discrimination on the grounds of race, color, religion, national origin, sex, age, or economic status.

(8) Funds awarded to a disaster victim from this fund may be combined with funds from other sources.

(d) *Administrative procedures.* (1) The Assistant Administrator for the Disaster Assistance Directorate, shall be responsible for awarding funds and authorizing disbursement.

(2) The Chief Financial Officer shall be responsible for fund accountability and, in coordination with the Assistant Administrator for the Disaster Assistance Directorate, for liaison with the Department of the Treasury concerning the investment of excess

money in the fund pursuant to the provisions contained in section 601 of the Act.

(3) Each FEMA Regional Administrator may submit requests to the Assistant Administrator for the Disaster Assistance Directorate on a disaster victim's behalf by providing documentation describing the needs of the disaster victim, a verification of the disaster victim's claim, a record of other assistance which has been or will be available for the same purpose, and his/her recommendation as to the items and the amount. The Assistant Administrator for the Disaster Assistance Directorate shall review the facts and make a determination. If the award amount is below $2,000, the Assistant Administrator for the Disaster Assistance Directorate may appoint a designee to have approval authority; approval authority of $2,000 or above shall be retained by the Assistant Administrator for the Disaster Assistance Directorate. The Assistant Administrator for the Disaster Assistance Directorate shall notify the Chief Financial Officer of a decision for approval, and the Chief Financial Officer shall order a check to be sent to the disaster victim (or jointly to the disaster victim and an assistance organization), through the Regional Administrator. The Assistant Administrator for the Disaster Assistance Directorate shall also notify the Regional Administrator of the decision, whether for approval or disapproval. The Regional Administrator shall notify the disaster victim in writing, identify any award as assistance from the Cora Brown Fund, and advise the recipient of appeal procedures.

(4) If the award is to be for a service to a group of disaster victims, the Regional Administrator shall submit his/her recommendation and supporting documentation to the Assistant Administrator for the Disaster Assistance Directorate (or his/her designee if the award is below $2,000), who shall review the information and make a determination. In cases of approval, the Assistant Administrator for the Disaster Assistance Directorate shall request the Chief Financial Officer to send a check to the intended recipient or provider, as appropriate. The Assistant Administrator for the Disaster Assistance Directorate shall notify the Regional Administrator of the decision. The Regional Administrator shall notify a representative of the group in writing.

(5) The Chief Financial Officer shall process requests for checks, shall keep records of disbursements and balances in the account, and shall provide the Assistant Administrator for the Disaster Assistance Directorate with quarterly reports.

(e) *Audits.* The Inspector General of DHS may audit the use of money in this account to determine whether the funds are being administered according to these regulations and whether the financial management of the account is adequate. The Inspector General shall provide his/her findings to the Administrator, for information, comments and appropriate action. A copy shall be provided to the Chief Financial Officer for the same purpose.

**§§ 206.182–206.190 [Reserved]**

**§ 206.191 Duplication of benefits.**

(a) *Purpose.* This section establishes the policies for implementing section 312 of the Stafford Act, entitled Duplication of Benefits. This section relates to assistance for individuals and families.

(b) *Government policy.* (1) Federal agencies providing disaster assistance under the Act or under their own authorities triggered by the Act, shall cooperate to prevent and rectify duplication of benefits, according to the general policy guidance of the Federal Emergency Management Agency. The agencies shall establish appropriate agency policies and procedures to prevent duplication of benefits.

(2) Major disaster and emergency assistance provided to individuals and families under the Act, and comparable disaster assistance provided by States, local governments, and disaster assistance organizations, is not considered as income or a resource when determining eligibility for or benefit levels under federally funded income assistance or resource-tested programs. Examples of federally funded income assistance or resource-tested programs are the food

stamp program and welfare assistance programs.

(c) *FEMA policy.* It is FEMA policy:

(1) To prevent duplication of benefits between its own programs and insurance benefits, and between its own programs and other disaster assistance. Assistance under the Act may be provided in instances where the applicant has not received other benefits to which he/she may be entitled by the time of application and if the applicant agrees to repay all duplicated assistance to the agency providing the Federal assistance;

(2) To examine a debt resulting from duplication to determine that the likelihood of collecting the debt and the best interests of the Federal Government justify taking the necessary recovery actions to remedy duplication which has occurred when other assistance has become available;

(3) To assure uniformity in preventing duplication of benefits, by consulting with other Federal agencies and by performing selected quality control reviews, that the other disaster relief agencies establish and follow policies and procedures to prevent and remedy duplication among their programs, other programs, and insurance benefits; and

(4) To coordinate the effort of agencies providing assistance so that each agency understands the prevention and remedial policies of the others and is able to fulfill its own responsibilities regarding duplication of benefits.

(d) *Guidance to prevent duplication of benefits.* (1) Delivery sequence. FEMA provides the following policy and procedural guidance to ensure uniformity in preventing duplication of benefits.

(i) Duplication occurs when an agency has provided assistance which was the primary responsibility of another agency, and the agency with primary responsibility later provides assistance. A delivery sequence establishes the order in which disaster relief agencies and organizations provide assistance. The specific sequence, in accordance with the mandates of the assistance programs, is to be generally followed in the delivery of assistance.

(ii) When the delivery sequence has been disrupted, the disrupting agency is responsible for rectifying the duplication. The delivery sequence pertains to that period of time in the recovery phase when most of the traditional disaster assistance programs are available.

(2) The delivery sequence is, in order of delivery:

(i) Volunteer agencies' emergency assistance (except expendable items such as clothes, linens, and basic kitchenware); insurance (including flood insurance);

(ii) Housing assistance pursuant to section 408 of the Stafford Act.

(iii) Small Business Administration and Farmers Home Administration disaster loans;

(iv) Other Needs assistance, pursuant to section 408 of the Stafford Act or its predecessor program, the Individual and Family Grant Program.

(v) Volunteer agencies' "additional assistance" programs; and

(vi) The "Cora Brown Fund."

(3) Two significant points about the delivery sequence are that:

(i) Each assistance agency should, in turn, offer and be responsible for delivering assistance without regard to duplication with a program later in the sequence; and

(ii) The sequence itself determines what types of assistance can duplicate other assistance (i.e., a Federal program can duplicate insurance benefits, however, insurance benefits cannot duplicate the Federal assistance). An agency's position in the sequence determines the order in which it should provide assistance and what other resources it must consider before it does so.

(4) If following the delivery sequence concept would adversely affect the timely receipt of essential assistance by a disaster victim, an agency may offer assistance which is the primary responsibility of another agency. There also may be cases when an agency (Agency B) delivers assistance which is normally the primary responsibility of another agency (Agency A) because Agency A has, for good cause, denied assistance. After the assistance is delivered, Agency A reopens the case. If the primary response Agency A then provides assistance, that Agency A is responsible for coordinating with Agency B to either:

(i) Assist Agency B in preventing the duplication of benefits, or

(ii) In the case where the disaster victim has refused assistance from Agency A, notify Agency B that it must recover assistance previously provided.

(e) *Program guidance*—(1) *Programs under the Act vs. other agency assistance.* (i) In making an eligibility determination, the FEMA Regional Administrator, in the case of federally operated programs, or the State, in the case of State operated programs, shall determine whether assistance is the primary responsibility of another agency to provide, according to the delivery sequence; and determine whether that primary response agency can provide assistance in a timely way.

(ii) If it is determined that timely assistance can be provided by the agency with primary responsibility, refrain from providing assistance under the Act. If it is determined that assistance from the agency with primary responsibility will be delayed, assistance under the Act may be provided, but then must be recovered from the applicant when the other assistance becomes available.

(2) *Programs under the Act vs. insurance.* In making an eligibility determination, the FEMA Regional Administrator or State shall:

(i) Remind the applicant about his/her responsibility to pursue an adequate settlement. The applicant must provide information concerning insurance recoveries.

(ii) Determine whether the applicant's insurance settlement will be sufficient to cover the loss or need without disaster assistance; and

(iii) Determine whether insurance benefits (including flood insurance) will be provided in a timely way. Where flood insurance is involved, the Regional Administrator shall coordinate with the Federal Insurance Administration. The purpose of this coordination is to obtain information about flood insurance coverage and settlements.

(3) *Random sample.* Each disaster assistance agency is responsible for preventing and rectifying duplication of benefits under the coordination of the Federal Coordinating Officer (FCO) and the general authority of section 312. To determine whether duplication has occurred and established procedures have been followed, the Regional Administrator shall, within 90 days after the close of the disaster assistance programs application period, for selected disaster declarations, examine on a random sample basis, FEMA's and other government and voluntary agencies' case files and document the findings in writing.

(4) *Duplication when assistance under the Act is involved.* If duplication is discovered, the Regional Administrator shall determine whether the duplicating agency followed its own remedial procedures.

(i) If the duplicating agency followed its procedures and was successful in correcting the duplication, the Regional Administrator will take no further action. If the agency was not successful in correcting the duplication, and the Regional Administrator is satisfied that the duplicating agency followed its remedial procedures, no further action will be taken.

(ii) If the duplicating agency did not follow its duplication of benefits procedures, or the Regional Administrator is not satisfied that the procedures were followed in an acceptable manner, then the Regional Administrator shall provide an opportunity for the agency to take the required corrective action. If the agency cannot fulfill its responsibilities for remedial action, the Regional Administrator shall notify the recipient of the excess assistance, and after examining the debt, if it is determined that the likelihood of collecting the debt and the best interests of the Federal Government justify taking the necessary recovery actions, then take those recovery actions in conjunction with agency representatives for each identified case in the random sample (or larger universe, at the Regional Administrator's discretion).

(5) *Duplication when assistance under other authorities is involved.* When the random sample shows evidence that duplication has occurred and corrective action is required, the Regional Administrator and the FCO shall urge the duplicating agency to follow its own procedures to take corrective action, and shall work with the agency toward that end. Under his/her authority in section

312, the Regional Administrator shall require the duplicating agency to report to him/her on its attempt to correct the duplications identified in the sample.

(f) *Recovering FEMA funds: debt collection.* Funds due to FEMA are recovered in accordance with the Department of Homeland Security's Debt Collection Regulations (6 CFR part 11—Claims).

[54 FR 11615, Mar. 21, 1989, as amended at 67 FR 61460, Sept. 30, 2002; 74 FR 15350, Apr. 3, 2009]

**§§ 206.192–206.199 [Reserved]**

## Subpart G—Public Assistance Project Administration

SOURCE: 55 FR 2304, Jan. 23, 1990, unless otherwise noted.

### § 206.200 General.

(a) *Purpose.* This subpart establishes procedures for the administration of Public Assistance grants approved under the provisions of the Stafford Act.

(b) *What policies apply to FEMA public assistance grants?* (1) The Stafford Act requires that we deliver eligible assistance as quickly and efficiently as possible consistent with Federal laws and regulations. We expect the Grantee and the subgrantee to adhere to Stafford Act requirements and to these regulations when administering our public assistance grants.

(2) The regulations entitled "Uniform Requirements for Grants and Cooperative Agreements to State and Local Governments," published at 44 CFR part 13, place requirements on the State in its role as Grantee and gives the Grantee discretion to administer federal programs under their own procedures. We expect the Grantee to:

(i) Inform subgrantees about the status of their applications, including notifications of our approvals of Project Worksheets and our estimates of when we will make payments;

(ii) Pay the full amounts due to subgrantees as soon as practicable after we approve payment, including the State contribution required in the FEMA-State Agreement; and

(iii) Pay the State contribution consistent with State laws.

[55 FR 2304, Jan. 23, 1990, as amended at 63 FR 64425, Nov. 20, 1998; 64 FR 55160, Oct. 12, 1999]

### § 206.201 Definitions used in this subpart.

(a) *Applicant* means a State agency, local government, or eligible private nonprofit organization, as identified in Subpart H of this regulation, submitting an application to the Grantee for assistance under the State's grant.

(b) *Emergency work* means that work which must be done immediately to save lives and to protect improved property and public health and safety, or to avert or lessen the threat of a major disaster.

(c) *Facility* means any publicly or privately owned building, works, system, or equipment, built or manufactured, or an improved and maintained natural feature. Land used for agricultural purposes is not a facility.

(d) *Grant* means an award of financial assistance. The grant award shall be based on the total eligible Federal share of all approved projects.

(e) *Grantee.* Grantee means the government to which a grant is awarded, and which is accountable for the use of the funds provided. The grantee is the entire legal entity even if only a particular component of the entity is designated in the grant award document. Generally, except as provided in §206.202(*l*), the State for which the emergency or major disaster is declared is the grantee. However, an Indian Tribal government may choose to be a grantee, or it may act as a subgrantee under the State. If an Indian Tribal government is the grantee, it will assume the responsibilities of the "grantee" or "State" as described in this part with respect to administration of the Public Assistance program.

(f) *Hazard mitigation* means any cost effective measure which will reduce the potential for damage to a facility from a disaster event.

(g) *Host-State.* A State or Indian Tribal government that by agreement with

FEMA provides sheltering and/or evacuation support to evacuees from an impact-State. An Indian Tribal government may also be referred to as a "Host-Tribe."

(h) *Impact-State.* The State for which the President has declared an emergency or major disaster and that, due to a need to evacuate and/or shelter affected individuals outside the State, requests such assistance from FEMA pursuant to §206.208.

(i) *Indian Tribal government* means any federally recognized governing body of an Indian or Alaska Native Tribe, band, nation, pueblo, village, or community that the Secretary of the Interior acknowledges to exist as an Indian Tribe under the Federally Recognized Tribe List Act of 1994, 25 U.S.C. 479a. This does not include Alaska Native corporations, the ownership of which is vested in private individuals.

(j) *Permanent work* means that restorative work that must be performed through repairs or replacement, to restore an eligible facility on the basis of its predisaster design and current applicable standards.

(k) *Predisaster design* means the size or capacity of a facility as originally designed and constructed or subsequently modified by changes or additions to the original design. It does not mean the capacity at which the facility was being used at the time the major disaster occurred if different from the most recent designed capacity.

(l) A *project* is a logical grouping of work required as a result of the declared major disaster or emergency. The scope of work and cost estimate for a project are documented on a Project Worksheet (FEMA Form 90–91).

(1) We must approve a scope of eligible work and an itemized cost estimate before funding a project.

(2) A project may include eligible work at several sites.

(m) *Project approval* means the process in which the Regional Administrator, or designee, reviews and signs an approval of work and costs on a Project Worksheet or on a batch of Project Worksheets. Such approval is also an obligation of funds to the Grantee.

(n) *Subgrant* means an award of financial assistance under a grant by a grantee to an eligible subgrantee.

(o) *Subgrantee* means the government or other legal entity to which a subgrant is awarded and which is accountable to the grantee for the use of the funds provided.

[55 FR 2304, Jan. 23, 1990, as amended at 63 FR 64425, Nov. 20, 1998; 64 FR 55160, Oct. 12, 1999; 74 FR 60213, Nov. 20, 2009]

### §206.202 Application procedures.

(a) *General.* This section describes the policies and procedures that we use to process public assistance grants to States. Under this section the State is the Grantee. As Grantee you are responsible for processing subgrants to applicants under 44 CFR parts 13 and 206, and your own policies and procedures.

(b) *Grantee.* You are the grant administrator for all funds provided under the Public Assistance grant program. Your responsibilities under this section include:

(1) Providing technical advice and assistance to eligible subgrantees;

(2) Providing State support for project identification activities to include small and large project formulation and the validation of small projects;

(3) Ensuring that all potential applicants are aware of available public assistance; and

(4) Submitting documents necessary for the award of grants.

(c) *Request for Public Assistance (Request).* The Grantee must send a completed *Request* (FEMA Form 90–49) to the Regional Administrator for each applicant who requests public assistance. You must send *Requests* to the Regional Administrator within 30 days after designation of the area where the damage occurred.

(d) *Project Worksheets.* (1) An applicant's authorized local representative is responsible for representing the applicant and for ensuring that the applicant has identified all eligible work and submitted all costs for disaster-related damages for funding.

(i) We or the applicant, assisted by the State as appropriate, will prepare a Project Worksheet (FEMA Form 90–91)

for each project. The Project Worksheet must identify the eligible scope of work and must include a quantitative estimate for the eligible work.

(ii) The applicant will have 60 days following its first substantive meeting with us to identify and to report damage to us.

(2) When the estimated cost of work on a project is less than $1,000, that work is not eligible and we will not approve a Project Worksheet for the project. Periodically we will review this minimum approval amount for a Project Worksheet and, if needed, will adjust the amount by regulation.

(e) *Grant approval.* (1) Before we obligate any funds to the State, the Grantee must complete and send to the Regional Administrator a Standard Form (SF) 424, Application for Federal Assistance, and a SF 424D, Assurances for Construction Programs. After we receive the SF 424 and SF 424D, the Regional Administrator will obligate funds to the Grantee based on the approved Project Worksheets. The Grantee will then approve subgrants based on the Project Worksheets approved for each applicant.

(2) When the applicant submits the Project Worksheets, we will have 45 days to obligate Federal funds. If we have a delay beyond 45 days we will explain the delay to the Grantee.

(f) *Exceptions.* The following are exceptions to the procedures and time limitations outlined in this section.

(1) *Host-State Evacuation and/or Sheltering.* (i) *General.* A grant to a host-State for sheltering and/or evacuation support is available under this section when an impact-State requests direct Federal assistance for sheltering and/or evacuation support pursuant to §206.208. To receive this grant, a host-State must enter into a FEMA–Host-State Agreement, amend its State Administrative Plan pursuant to §206.207, and submit a Standard Form SF424 *Application for Federal Assistance* directly to FEMA to apply for reimbursement of eligible costs for evacuating and/or sheltering individuals from an impact-State. Upon award, the host-State assumes the responsibilities of the "grantee" or "State" under this part with respect to its grant award.

(ii) *Force Account Labor Costs.* For the performance of eligible evacuation and sheltering support under sections 403 or 502 of the Stafford Act, the straight-time salaries and benefits of a host-State's permanently employed personnel are eligible for reimbursement. This is an exception to §206.228(a)(2).

(2) *Time limitations.* The Regional Administrator may extend the time limitations shown in paragraphs (c) and (d) of this section when the Grantees justifies and makes a request in writing. The justification must be based on extenuating circumstances beyond the grantee's or subgrantee's control.

[64 FR 55160, Oct. 12, 1999, as amended at 74 FR 15350, Apr. 3, 2009; 74 FR 60213, Nov. 20, 2009]

### §206.203 Federal grant assistance.

(a) *General.* This section describes the types and extent of Federal funding available under State disaster assistance grants, as well as limitations and special procedures applicable to each.

(b) *Cost sharing.* All projects approved under State disaster assistance grants will be subject to the cost sharing provisions established in the FEMA-State Agreement and the Stafford Act.

(c) *Project funding*—(1) *Large projects.* When the approved estimate of eligible costs for an individual project is $35,000 or greater, Federal funding shall equal the Federal share of the actual eligible costs documented by a grantee. Such $35,000 amount shall be adjusted annually to reflect changes in the Consumer Price Index for All Urban Consumers published by the Department of Labor.

(2) *Small projects.* When the approved estimate of costs for an individual project is less than $35,000, Federal funding shall equal the Federal share of the approved estimate of eligible costs. Such $35,000 amount shall be adjusted annually as indicated in paragraph (c)(1) of this section.

(d) *Funding options*—(1) *Improved projects.* If a subgrantee desires to make improvements, but still restore the predisaster function of a damaged facility, the Grantee's approval must be obtained. Federal funding for such improved projects shall be limited to the Federal share of the approved estimate of eligible costs.

(2) *Alternate projects.* In any case where a subgrantee determines that the public welfare would not be best served by restoring a damaged public facility or the function of that facility, the Grantee may request that the Regional Administrator approve an alternate project.

(i) The alternate project option may be taken only on permanent restorative work.

(ii) Federal funding for alternate projects for damaged public facilities will be 90 percent of the Federal share of the Federal estimate of the cost of repairing, restoring, reconstructing, or replacing the facility and of management expenses.

(iii) Federal funding for alternate projects for damaged private nonprofit facilities will be 75 percent of the Federal share of the Federal estimate of the cost of repairing, restoring, reconstructing, or replacing the facility and of management expenses.

(iv) Funds contributed for alternate projects may be used to repair or expand other selected public facilities, to construct new facilities, or to fund hazard mitigation measures. These funds may not be used to pay the nonFederal share of any project, nor for any operating expense.

(v) Prior to the start of construction of any alternate project the Grantee shall submit for approval by the Regional Administrator the following: a description of the proposed alternate project(s); a schedule of work; and the projected cost of the project(s). The Grantee shall also provide the necessary assurances to document compliance with special requirements, including, but not limited to floodplain management, environmental assessment, hazard mitigation, protection of wetlands, and insurance.

[55 FR 2304, Jan. 23, 1990, as amended at 66 FR 22444, May 4, 2001; 73 FR 20551, Apr. 16, 2008]

### § 206.204 Project performance.

(a) *General.* This section describes the policies and procedures applicable during the performance of eligible work.

(b) *Advances of funds.* Advances of funds will be made in accordance with 44 CFR 13.21, Payment.

(c) *Time limitations for completion of work*—(1) *Deadlines.* The project completion deadlines shown below are set from the date that a major disaster or emergency is declared and apply to all projects approved under State disaster assistance grants.

COMPLETION DEADLINES

| Type of work | Months |
|---|---|
| Debris clearance | 6 |
| Emergency work | 6 |
| Permanent work | 18 |

(2) *Exceptions.* (i) The Grantee may impose lesser deadlines for the completion of work under paragraph (c)(1) of this section if considered appropriate.

(ii) Based on extenuating circumstances or unusual project requirements beyond the control of the subgrantee, the Grantee may extend the deadlines under paragraph (c)(1) of this section for an additional 6 months for debris clearance and emergency work and an additional 30 months, on a project by project basis for permanent work.

(d) *Requests for time extensions.* Requests for time extensions beyond the Grantee's authority shall be submitted by the Grantee to the Regional Administrator and shall include the following:

(1) The dates and provisions of all previous time extensions on the project; and

(2) A detailed justification for the delay and a projected completion date. The Regional Administrator shall review the request and make a determination. The Grantee shall be notified of the Regional Administrator's determination in writing. If the Regional Administrator approves the request, the letter shall reflect the approved completion date and any other requirements the Regional Administrator may determine necessary to ensure that the new completion date is met. If the Regional Administrator denies the time extension request, the grantee may, upon completion of the project, be reimbursed for eligible project costs incurred only up to the latest approved completion date. If the project is not completed, no Federal funding will be provided for that project.

(e) *Cost Overruns.* (1) During the execution of approved work a subgrantee may find that the actual project costs exceed the approved Project Worksheet estimates. Such cost overruns normally fall into the following three categories:

(i) Variations in unit prices;

(ii) Change in the scope of eligible work; or

(iii) Delays in timely starts or completion of eligible work.

(2) The subgrantee must evaluate each cost overrun and, when justified, submit a request for additional funding through the Grantee to the Regional Administrator for a final determination. All requests for the Regional Administrator's approval will contain sufficient documentation to support the eligibility of all claimed work and costs. The Grantee must include a written recommendation when forwarding the request. The Regional Administrator will notify the Grantee in writing of the final determination. FEMA will not normally review an overrun for an individual small project. The normal procedure for small projects will be that when a subgrantee discovers a significant overrun related to the total final cost for all small projects, the subgrantee may submit an appeal for additional funding in accordance with §206.206, within 60 days following the completion of all its small projects.

(f) *Progress reports.* Progress reports will be submitted by the Grantee to the Regional Administrator quarterly. The Regional Administrator and Grantee shall negotiate the date for submission of the first report. Such reports will describe the status of those projects on which a final payment of the Federal share has not been made to the grantee and outline any problems or circumstances expected to result in noncompliance with the approved grant conditions.

[55 FR 2304, Jan. 23, 1990; 55 FR 5458, Feb. 15, 1990, as amended at 64 FR 55161, Oct. 12, 1999]

### § 206.205 Payment of claims.

(a) *Small Projects.* Final payment of the Federal share of these projects will be made to the Grantee upon approval of the Project Worksheet. The Grantee will make payment of the Federal share to the subgrantee as soon as practicable after Federal approval of funding. Before the closeout of the disaster contract, the Grantee must certify that all such projects were completed in accordance with FEMA approvals and that the State contribution to the non-Federal share, as specified in the FEMA-State Agreement, has been paid to each subgrantee. Such certification is not required to specify the amount spent by a subgrantee on small projects. The Federal payment for small projects shall not be reduced if all of the approved funds are not spent to complete a project. However, failure to complete a project may require that the Federal payment be refunded.

(b) *Large projects.* (1) The Grantee shall make an accounting to the Regional Administrator of eligible costs for each approved large project. In submitting the accounting the Grantee shall certify that reported costs were incurred in the performance of eligible work, that the approved work was completed, that the project is in compliance with the provisions of the FEMA-State Agreement, and that payments for that project have been made in accordance with 44 CFR 13.21, Payments. Each large project shall be submitted as soon as practicable after the subgrantee has completed the approved work and requested payment.

(2) The Regional Administrator shall review the accounting to determine the eligible amount of reimbursement for each large project and approve eligible costs. If a discrepancy between reported costs and approved funding exists, the Regional Administrator may conduct field reviews to gather additional information. If discrepancies in the claim cannot be resolved through a field review, a Federal audit may be conducted. If the Regional Administrator determines that eligible costs exceed the initial approval, he/she will obligate additional funds as necessary.

[55 FR 2304, Jan. 23, 1990, as amended at 64 FR 55161, Oct. 12, 1999]

### § 206.206 Appeals.

An eligible applicant, subgrantee, or grantee may appeal any determination

previously made related to an application for or the provision of Federal assistance according to the procedures below.

(a) *Format and Content.* The applicant or subgrantee will make the appeal in writing through the grantee to the Regional Administrator. The grantee shall review and evaluate all subgrantee appeals before submission to the Regional Administrator. The grantee may make grantee-related appeals to the Regional Administrator. The appeal shall contain documented justification supporting the appellant's position, specifying the monetary figure in dispute and the provisions in Federal law, regulation, or policy with which the appellant believes the initial action was inconsistent.

(b) *Levels of Appeal.* (1) The Regional Administrator will consider first appeals for public assistance-related decisions under subparts A through L of this part.

(2) The Assistant Administrator for the Disaster Assistance Directorate will consider appeals of the Regional Administrator's decision on any first appeal under paragraph (b)(1) of this section.

(c) *Time Limits.* (1) Appellants must file appeals within 60 days after receipt of a notice of the action that is being appealed.

(2) The grantee will review and forward appeals from an applicant or subgrantee, with a written recommendation, to the Regional Administrator within 60 days of receipt.

(3) Within 90 days following receipt of an appeal, the Regional Administrator (for first appeals) or Assistant Administrator for the Disaster Assistance Directorate (for second appeals) will notify the grantee in writing of the disposition of the appeal or of the need for additional information. A request by the Regional Administrator or Assistant Administrator for the Disaster Assistance Directorate for additional information will include a date by which the information must be provided. Within 90 days following the receipt of the requested additional information or following expiration of the period for providing the information, the Regional Administrator or Assistant Administrator for the Disaster Assistance Directorate will notify the grantee in writing of the disposition of the appeal. If the decision is to grant the appeal, the Regional Administrator will take appropriate implementing action.

(d) *Technical Advice.* In appeals involving highly technical issues, the Regional Administrator or Assistant Administrator for the Disaster Assistance Directorate may, at his or her discretion, submit the appeal to an independent scientific or technical person or group having expertise in the subject matter of the appeal for advice or recommendation. The period for this technical review may be in addition to other allotted time periods. Within 90 days of receipt of the report, the Regional Administrator or Assistant Administrator for the Disaster Assistance Directorate will notify the grantee in writing of the disposition of the appeal.

(e) *Transition.* (1) This rule is effective for all appeals pending on and appeals from decisions issued on or after May 8, 1998, except as provided in paragraph (e)(2) of this section.

(2) Appeals pending from a decision of an Assistant Administrator for the Disaster Assistance Directorate before May 8, 1998 may be appealed to the Administrator in accordance with 44 CFR 206.440 as it existed before May 8, 1998 (44 CFR, revised as of October 1, 1997).

(3) The decision of the FEMA official at the next higher appeal level shall be the final administrative decision of FEMA.

[63 FR 17110, Apr. 8, 1998; 63 FR 24970, May 6, 1998]

### § 206.207 Administrative and audit requirements.

(a) *General.* Uniform administrative requirements which are set forth in 44 CFR part 13 apply to all disaster assistance grants and subgrants.

(b) *State administrative plan.* (1) The State shall develop a plan for the administration of the Public Assistance program that includes at a minimum, the items listed below:

(i) The designation of the State agency or agencies which will have the responsibility for program administration.

(ii) The identification of staffing functions in the Public Assistance program, the sources of staff to fill these

functions, and the management and oversight responsibilities of each.

(iii) Procedures for:

(A) Notifying potential applicants of the availability of the program;

(B) Conducting briefings for potential applicants and application procedures, program eligibility guidance and program deadlines;

(C) Assisting FEMA in determining applicant eligibility;

(D) Participating with FEMA in conducting damage surveys to serve as a basis for obligations of funds to subgrantees;

(E) Participating with FEMA in the establishment of hazard mitigation and insurance requirements;

(F) Processing appeal requests, requests for time extensions and requests for approval of overruns, and for processing appeals of grantee decisions;

(G) Compliance with the administrative requirements of 44 CFR parts 13 and 206;

(H) Compliance with the audit requirements of 44 CFR part 13;

(I) Processing requests for advances of funds and reimbursement; and

(J) Determining staffing and budgeting requirements necessary for proper program management.

(K) Determining the reasonable percentage or amount of pass-through funds for management costs provided under 44 CFR part 207 that the grantee will make available to subgrantees, and the basis, criteria, or formula for determining the subgrantee percentage or amount.

(2) The Grantee may request the Regional Administrator to provide technical assistance in the preparation of such administrative plan.

(3) In accordance with the Interim Rule published March 21, 1989, the Grantee was to have submitted an administrative plan to the RD for approval by September 18, 1989. An approved plan must be on file with FEMA before grants will be approved in a future major disaster. Thereafter, the Grantee shall submit a revised plan to the Regional Administrator annually. In each disaster for which Public Assistance is included, the Regional Administrator shall request the Grantee to prepare any amendments required to meet current policy guidance.

(4) The Grantee shall ensure that the approved administrative plan is incorporated into the State emergency plan.

(c) *Audit*—(1) *Nonfederal audit.* For grantees or subgrantees, requirements for nonfederal audit are contained in FEMA regulations at 44 CFR part 13 or OMB Circular A–110 as appropriate.

(2) *Federal audit.* In accordance with 44 CFR part 13, FEMA may elect to conduct a Federal audit of the disaster assistance grant or any of the subgrants.

[55 FR 2304, Jan. 23, 1990; 55 FR 5458, Feb. 15, 1990, as amended at 72 FR 57875, Oct. 11, 2007; 74 FR 15350, Apr. 3, 2009]

### § 206.208 Direct Federal assistance.

(a) *General.* When the State and local government lack the capability to perform or to contract for eligible emergency work and/or debris removal, under sections 402(1) and (4), 403, 407, 502(a)(1), (5) and (7) of the Act, the Grantee may request that the work be accomplished by a Federal agency. Such assistance is subject to the cost sharing provisions outlined in § 206.203(b) of this subpart. Direct Federal assistance is also subject to the eligibility criteria contained in Subpart H of these regulations. FEMA will reimburse other Federal agencies in accordance with Subpart A of these regulations.

(b) *Requests for assistance.* All requests for direct Federal assistance shall be submitted by the Grantee to the Regional Administrator and shall include:

(1) A written agreement that the State will:

(i) Provide without cost to the United States all lands, easements and rights-of-ways necessary to accomplish the approved work;

(ii) Hold and save the United States free from damages due to the requested work, and shall indemnify the Federal Government against any claims arising from such work;

(iii) Provide reimbursement to FEMA for the nonFederal share of the cost of such work in accordance with the provisions of the FEMA-State Agreement; and

(iv) Assist the performing Federal agency in all support and local jurisdictional matters.

(2) A statement as to the reasons the State and the local government cannot perform or contract for performance of the requested work.

(3) A written agreement from an eligible applicant that such applicant will be responsible for the items in subparagraph (b)(1) (i) and (ii) of this section, in the event that a State is legally unable to provide the written agreement.

(c) *Implementation.* (1) If the Regional Administrator approves the request, a mission assignment will be issued to the appropriate Federal agency. The mission assignment letter to the agency will define the scope of eligible work, the estimated cost of the eligible work and the billing period frequency. The Federal agency must not exceed the approved funding limit without the authorization of the Regional Administrator.

(2) If all or any part of the requested work falls within the statutory authority of another Federal agency, the Regional Administrator shall not approve that portion of the work. In such case, the unapproved portion of the request will be referred to the appropriate agency for action.

(3) If an impact-State requests assistance in providing evacuation and sheltering support outside an impact-State, FEMA may directly reimburse a host-State for such eligible costs through a grant to a host-State under an impact-State's declaration, consistent with § 206.202(f)(1). FEMA may award a grant to a host-State when FEMA determines that a host-State has sufficient capability to meet some or all of the sheltering and/or evacuation needs of an impact-State, and a host-State agrees in writing to provide such support to an impact-State.

(d) *Time limitation.* The time limitation for completion of work by a Federal agency under a mission assignment is 60 days after the President's declaration. Based on extenuating circumstances or unusual project requirements, the Regional Administrator may extend this time limitation.

(e) *Project management.* (1) The performing Federal agency shall ensure that the work is completed in accordance with the Regional Administrator's approved scope of work, costs and time limitations. The performing Federal agency shall also keep the Regional Administrator and Grantee advised of work progress and other project developments. It is the responsibility of the performing Federal agency to ensure compliance with applicable Federal, State and local legal requirements. A final inspection report will be completed upon termination of all direct Federal assistance work. Final inspection reports shall be signed by a representative of the performing Federal agency and the State. Once the final eligible cost is determined (including Federal agency overhead), the State will be billed for the nonFederal share of the mission assignment in accordance with the cost sharing provisions of the FEMA-State Agreement.

(2) Pursuant to the agreements provided in the request for assistance the Grantee shall assist the performing Federal agency in all State and local jurisdictional matters. These matters include securing local building permits and rights of entry, control of traffic and pedestrians, and compliance with local building ordinances.

[55 FR 2304, Jan. 23, 1990, as amended at 64 FR 55161, Oct. 12, 1999; 74 FR 60214, Nov. 20, 2009]

### § 206.209 Arbitration for Public Assistance determinations related to Hurricanes Katrina and Rita (Major disaster declarations DR–1603, DR–1604, DR–1605, DR–1606, and DR–1607).

(a) *Scope.* Pursuant to section 601 of the American Recovery and Reinvestment Act of 2009, Public Law 111–5, this section establishes procedures for arbitration to resolve disputed Public Assistance applications under the following major disaster declarations: DR–1603, DR–1604, DR–1605, DR–1606, and DR–1607.

(b) *Applicability.* An applicant or subgrantee (hereinafter "applicant" for purposes of this section) may request arbitration of a determination made by FEMA on an application for Public Assistance, provided that the total amount of the project is greater than $500,000, and provided that:

(1) the applicant is eligible to file an appeal under § 206.206; or

(2) the applicant had a first or second level appeal pending with FEMA pursuant to §206.206 on or after February 17, 2009.

(c) *Governing rules.* An applicant that elects arbitration agrees to abide by this section and applicable guidance. The arbitration will be conducted pursuant to procedure established by the arbitration panel.

(d) *Limitations*—(1) *Election of remedies.* A request for arbitration under this section is in lieu of filing or continuing an appeal under §206.206.

(2) *Final agency action under §206.206.* Arbitration is not available for any matter that obtained final agency action by FEMA pursuant to §206.206 prior to February 17, 2009. Arbitration is *not* available for determinations for which the applicant failed to file a timely appeal under the provisions of §206.206 prior to August 31, 2009, or for determinations which received a decision on a second appeal from FEMA prior to February 17, 2009.

(e) *Request for arbitration*—(1) *Content of request.* The request for arbitration must contain a written statement and all documentation supporting the position of the applicant, the disaster number, and the name and address of the applicant's authorized representative or counsel.

(2) *Submission by the applicant to the Grantee, the FEMA Regional Administrator, and the arbitration administrator.* An applicant under paragraph (b)(1) of this section must submit its request for arbitration in writing simultaneously to the Grantee, the FEMA Regional Administrator, and the arbitration administrator within 30 calendar days after receipt of notice of the determination that is the subject of the arbitration request or by September 30, 2009, whichever is later. An applicant under paragraph (b)(2) of this section must make a request for arbitration in writing and, if FEMA has not issued a decision on the appeal, submit a withdrawal of the pending appeal, simultaneously to the Grantee, the FEMA Regional Administrator, and the arbitration administrator by October 30, 2009.

(3) *Submission by the Grantee to the arbitration administrator and FEMA.* Within 15 calendar days of receipt of the applicant's request for arbitration, the Grantee must forward the name and address of the Grantee's authorized representative or counsel, and may forward a written recommendation in support or opposition to the applicant's request for arbitration, simultaneously to the FEMA Regional Administrator, the arbitration administrator, and the applicant.

(4) *Submission of FEMA's response.* FEMA will submit a memorandum in support of its position, a copy of the Project Worksheet(s), and any other supporting information, as well as the name and address of its authorized representative or counsel, simultaneously to the arbitration administrator, the Grantee, and the applicant, within 30 calendar days of receipt of the applicant's request for arbitration.

(5) *Process for submissions.* When submitting a request for arbitration, the applicant should describe its claim with sufficient detail so that the circumstances of the dispute are clear to the arbitration panel. All papers, notices, or other documents submitted to the arbitration administrator under this section by the applicant, the Grantee, or FEMA will be served on each party's authorized representative or counsel. The submitting party will make such service by courier or overnight delivery service (such as Federal Express, DHL, United Parcel Service, or the United States Postal Service overnight delivery), addressed to the party, representative, or counsel, as applicable, at its last known address.

(f) *Selection of arbitration panel.* The arbitration administrator will select the arbitration panel for arbitration and notify the applicant, FEMA, and the Grantee of the names and identities of the arbitrators selected for the panel.

(g) *Preliminary conference.* The arbitration panel will hold a preliminary conference with the parties and/or representatives of the parties within 10 business days of the panel's receipt of FEMA's response to the request for arbitration. The panel and the parties will discuss the future conduct of the arbitration, including clarification of the disputed issues, request for disqualification of an arbitrator (if applicable), and any other preliminary matters. The date and place of any oral

hearing will be set at the preliminary conference. The preliminary conference will be conducted by telephone.

(h) *Hearing*—(1) *Request for hearing.* The panel will provide the applicant and FEMA with an opportunity to make an oral presentation on the substance of the applicant's claim in person, by telephone conference, or other means during which all the parties may simultaneously hear all other participants. If the applicant or FEMA would like to request an oral hearing, the request must be made no later than the preliminary conference.

(2) *Location of hearing.* If an in-person hearing is authorized, it will be held at a hearing facility of the arbitration panel's choosing.

(3) *Conduct of hearing.* Each party may present its position through oral presentations by individuals designated in advance of the hearing. These presentations may reference documents submitted pursuant to paragraph (e) of this section; the parties may not provide additional paper submissions at the hearing. If the panel deems it appropriate or necessary, it may request additional written materials from either or both parties or seek the advice or expertise of independent scientific or technical subject matter experts.

(4) *Closing of hearing.* The panel will inquire of each party whether it has any further argument. When satisfied that the record is complete, the panel will declare the hearing closed, unless a post-hearing submission of additional information or a memorandum of law is to be provided in accordance with this paragraph. The hearing will be declared closed as of the date set by the panel for the submission of the additional information or the memorandum of law.

(5) *Time limits.* The panel will endeavor to hold the hearing within 60 calendar days of the preliminary conference.

(6) *Postponement.* The arbitration panel may postpone a hearing upon agreement of the parties, or upon request of a party for good cause shown. Within 10 business days of the postponement, the arbitration panel will notify the parties of the rescheduled date of the hearing.

(7) *Record of the hearing.* There will be no recording of the hearing, unless a party specifically requests and arranges for such recording at its own expense.

(8) *Post-hearing submission of additional information.* A party may file with the arbitration panel additional information or a memorandum of law after the hearing upon the arbitration panel's request or upon the request of one of the parties with the panel's consent. The panel will set the time for submission of the additional information or the memorandum of law.

(9) *Reopening of hearing.* The hearing may be reopened on the panel's initiative under compelling circumstances at any time before the decision is made.

(i) *Review by the arbitration panel.* (1) *Determination of timeliness.* Upon notification by FEMA, or on its own initiative, the arbitration panel will determine whether the applicant timely filed a request for arbitration.

(2) *Substantive review.* The arbitration panel will consider all relevant written materials provided by the applicant, the Grantee, and FEMA, as well as oral presentations, if any. If the panel deems it appropriate or necessary, it may request additional written materials from either or both parties or seek the advice or expertise of independent scientific or technical subject matter experts.

(j) *Ex parte communications.* No party and no one acting on behalf of any party will engage in ex parte communications with a member of the arbitration panel. If a party or someone acting on behalf of any party engages in ex parte communications with a member of the arbitration panel, the party that engaged in such communication will provide a summary or a transcript of the entire communication to the other parties.

(k) *Decision*—(1) *Time limits.* The panel will make every effort to issue a written decision within 60 calendar days after the panel declares the hearing closed pursuant to paragraph (h)(4) of this section, or, if a hearing was not requested, within 60 calendar days following the receipt of FEMA's response to the request for arbitration. A decision of the panel may take longer than

60 calendar days if the arbitration involves a highly technical or complex matter.

(2) *Form and content.* The decision of the panel will be in writing and signed by each member of the panel. The panel will issue a reasoned decision that includes a brief and informal discussion of the factual and legal basis for the decision.

(3) *Finality of decision.* A decision of the majority of the panel shall constitute a final decision, binding on all parties. Final decisions are not subject to further administrative review. Final decisions are not subject to judicial review, except as permitted by 9 U.S.C. 10.

(4) *Delivery of decision.* Notice and delivery of the decision will be by facsimile or other electronic means and by regular mail to each party or its authorized representative or counsel.

(l) *Costs.* FEMA will pay the fees associated with the arbitration panel, the costs of any expert retained by the panel, and the arbitration facility costs, if any. The expenses for each party, including attorney's fees, representative fees, copying costs, costs associated with attending any hearing, or any other fees not listed in this paragraph will be paid by the party incurring such costs.

(m) *Guidance.* FEMA may issue separate guidance as necessary to supplement this section.

[FR 44767, Aug. 31, 2009]

**§§ 206.210–206.219 [Reserved]**

## Subpart H—Public Assistance Eligibility

SOURCE: 55 FR 2307, Jan. 23, 1990, unless otherwise noted.

### §206.220 General.

This subpart provides policies and procedures for determinations of eligibility of applicants for public assistance, eligibility of work, and eligibility of costs for assistance under sections 402, 403, 406, 407, 418, 419, 421(d), 502, and 503 of the Stafford Act. Assistance under this subpart must also conform to requirements of 44 CFR part 201, Mitigation Planning, and 44 CFR part 206, subparts G—Public Assistance Project Administration, I—Public Assistance Insurance Requirements, J—Coastal Barrier Resources Act, and M—Minimum Standards. Regulations under 44 CFR part 9—Floodplain Management and 44 CFR part 10—Environmental Considerations, also apply to this assistance.

[67 FR 8854, Feb. 26, 2002]

### §206.221 Definitions.

(a) *Educational institution* means:

(1) Any elementary school as defined by section 801(c) of the Elementary and Secondary Education Act of 1965; or

(2) Any secondary school as defined by section 801(h) of the Elementary and Secondary Education Act of 1965; or

(3) Any institution of higher education as defined by section 1201 of the Higher Education Act of 1965.

(b) *Force account* means an applicant's own labor forces and equipment.

(c) *Immediate threat* means the threat of additional damage or destruction from an event which can reasonably be expected to occur within five years.

(d) *Improved property* means a structure, facility or item of equipment which was built, constructed or manufactured. Land used for agricultural purposes is not improved property.

(e) *Private nonprofit facility* means any private nonprofit educational, utility, emergency, medical, or custodial care facility, including a facility for the aged or disabled, and other facility providing essential governmental type services to the general public, and such facilities on Indian reservations. Further definition is as follows:

(1) *Educational facilities* means classrooms plus related supplies, equipment, machinery, and utilities of an educational institution necessary or appropriate for instructional, administrative, and support purposes, but does not include buildings, structures and related items used primarily for religious purposes or instruction.

(2) *Utility* means buildings, structures, or systems of energy, communication, water supply, sewage collection and treatment, or other similar public service facilities.

(3) *Irrigation facility* means those facilities that provide water for essential services of a governmental nature to

the general public. Irrigation facilities include water for fire suppression, generating and supplying electricity, and drinking water supply; they do not include water for agricultural purposes.

(4) *Emergency facility* means those buildings, structures, equipment, or systems used to provide emergency services, such as fire protection, ambulance, or rescue, to the general public, including the administrative and support facilities essential to the operation of such emergency facilities even if not contiguous.

(5) *Medical facility* means any hospital, outpatient facility, rehabilitation facility, or facility for long term care as such terms are defined in section 645 of the Public Health Service Act (42 U.S.C. 2910) and any similar facility offering diagnosis or treatment of mental or physical injury or disease, includng the administrative and support facilities essential to the operation of such medical facilities even if not contiguous.

(6) *Custodial care facility* means those buildings, structures, or systems including those for essential administration and support, which are used to provide institutional care for persons who require close supervision and some physical constraints on their daily activities for their self-protection, but do not require day-to-day medical care.

(7) *Other essential governmental service facility* means museums, zoos, community centers, libraries, homeless shelters, senior citizen centers, rehabilitation facilities, shelter workshops and facilities which provide health and safety services of a governmental nature. All such facilities must be open to the general public.

(f) *Private nonprofit organization* means any nongovernmental agency or entity that currently has:

(1) An effective ruling letter from the U.S. Internal Revenue Service, granting tax exemption under sections 501(c), (d), or (e) of the Internal Revenue Code of 1954, or

(2) Satisfactory evidence from the State that the nonrevenue producing organization or entity is a nonprofit one organized or doing business under State law.

(g) *Public entity* means an organization formed for a public purpose whose direction and funding are provided by one or more political subdivisions of the State.

(h) *Public facility* means the following facilities owned by a State or local government: any flood control, navigation, irrigation, reclamation, public power, sewage treatment and collection, water supply and distribution, watershed development, or airport facility; any non-Federal aid, street, road, or highway; and any other public building, structure, or system, including those used for educational, recreational, or cultural purposes; or any park.

(i) *Standards* means codes, specifications or standards required for the construction of facilities.

[55 FR 2307, Jan. 23, 1990, as amended at 58 FR 47994, Sept. 14, 1993; 66 FR 22445, May 4, 2001]

### § 206.222 Applicant eligibility.

The following entities are eligible to apply for assistance under the State public assistance grant:

(a) State and local governments.

(b) Private non-profit organizations or institutions which own or operate a private nonprofit facility as defined in § 205.221(e).

(c) Indian tribes or authorized tribal organizations and Alaska Native villages or organizations, but not Alaska Native Corporations, the ownership of which is vested in private individuals.

### § 206.223 General work eligibility.

(a) *General.* To be eligible for financial assistance, an item of work must:

(1) Be required as the result of the emergency or major disaster event;

(2) Be located within the designated area of a major disaster or emergency declaration, except that sheltering and evacuation activities may be located outside the designated area; and

(3) Be the legal responsibility of an eligible applicant.

(b) *Private nonprofit facilities.* To be eligible, all private nonprofit facilities must be owned and operated by an organization meeting the definition of a private nonprofit organization [see § 206.221(f)].

(c) *Public entities.* Facilities belonging to a public entity may be eligible for

assistance when the application is submitted through the State or a political subdivision of the State.

(d) *Facilities serving a rural community or unincorporated town or village.* To be eligible for assistance, a facility not owned by an eligible applicant, as defined in §206.222, must be owned by a private nonprofit organization; and provide an essential governmental service to the general public. Applications for these facilities must be submitted through a State or political subdivision of the State.

(e) *Negligence.* No assistance will be provided to an applicant for damages caused by its own negligence. If negligence by another party results in damages, assistance may be provided, but will be conditioned on agreement by the applicant to cooperate with FEMA in all efforts necessary to recover the cost of such assistance from the negligent party.

[55 FR 2307, Jan. 23, 1990, as amended at 71 FR 40027, July 14, 2006; 74 FR 60214, Nov. 20, 2009]

### §206.224 Debris removal.

(a) *Public interest.* Upon determination that debris removal is in the public interest, the Regional Administrator may provide assistance for the removal of debris and wreckage from publicly and privately owned lands and waters. Such removal is in the public interest when it is necessary to:

(1) Eliminate immediate threats to life, public health, and safety; or

(2) Eliminate immediate threats of significant damage to improved public or private property; or

(3) Ensure economic recovery of the affected community to the benefit of the community-at-large; or

(4) Mitigate the risk to life and property by removing substantially damaged structures and associated appurtenances as needed to convert property acquired through a FEMA hazard mitigation program to uses compatible with open space, recreation, or wetlands management practices. Such removal must be completed within two years of the declaration date, unless the Assistant Administrator for the Disaster Assistance Directorate extends this period.

(b) *Debris removal from private property.* When it is in the public interest for an eligible applicant to remove debris from private property in urban, suburban and rural areas, including large lots, clearance of the living, recreational and working area is eligible except those areas used for crops and livestock or unused areas.

(c) *Assistance to individuals and private organizations.* No assistance will be provided directly to an individual or private organization, or to an eligible applicant for reimbursement of an individual or private organization, for the cost of removing debris from their own property. Exceptions to this are those private nonprofit organizations operating eligible facilities.

[55 FR 2307, Jan. 23, 1990, as amended at 66 FR 33901, June 26, 2001]

### §206.225 Emergency work.

(a) *General.* (1) Emergency protective measures to save lives, to protect public health and safety, and to protect improved property are eligible.

(2) In determining whether emergency work is required, the Regional Administrator may require certification by local State, and/or Federal officials that a threat exists, including identification and evaluation of the threat and recommendations of the emergency work necessary to cope with the threat.

(3) In order to be eligible, emergency protective measures must:

(i) Eliminate or lessen immediate threats to live, public health or safety; or

(ii) Eliminate or lessen immediate threats of significant additional damage to improved public or private property through measures which are cost effective.

(b) *Emergency access.* An access facility that is not publicly owned or is not the direct responsibility of an eligible applicant for repair or maintenance may be eligible for emergency repairs or replacement provided that emergency repair or replacement of the facility economically eliminates the need for temporary housing. The work will be limited to that necessary for the access to remain passable through

events which can be considered an immediate threat. The work must be performed by an eligible applicant and will be subject to cost sharing requirements.

(c) *Emergency communications.* Emergency communications necessary for the purpose of carrying out disaster relief functions may be established and may be made available to State and local government officials as deemed appropriate. Such communications are intended to supplement but not replace normal communications that remain operable after a major disaster. FEMA funding for such communications will be discontinued as soon as the needs have been met.

(d) *Emergency public transportation.* Emergency public transportation to meet emergency needs and to provide transportation to public places and such other places as necessary for the community to resume its normal pattern of life as soon as possible is eligible. Such transportation is intended to supplement but not replace predisaster transportation facilities that remain operable after a major disaster. FEMA funding for such transportation will be discontinued as soon as the needs have been met.

**§ 206.226 Restoration of damaged facilities.**

Work to restore eligible facilities on the basis of the design of such facilities as they existed immediately prior to the disaster and in conformity with the following is eligible:

(a) *Assistance under other Federal agency (OFA) programs.* (1) Generally, disaster assistance will not be made available under the Stafford Act when another Federal agency has specific authority to restore facilities damaged or destroyed by an event which is declared a major disaster.

(2) An exception to the policy described in paragraph (a)(1) of this section exists for public elementary and secondary school facilities which are otherwise eligible for assistance from the Department of Education (ED) under 20 U.S.C. 241–1 and 20 U.S.C. 646. Such facilities are also eligible for assistance from FEMA under the Stafford Act, and grantees shall accept applications from local educational agencies for assistance under the Stafford Act.

(3) The exception does not cover payment of increased current operating expenses or replacement of lost revenues as provided in 20 U.S.C. 241–1(a) and implemented by 34 CFR 219.14. Such assistance shall continue to be granted and administered by the Department of Education.

(b) *Mitigation planning.* In order to receive assistance under this section, the State or Indian Tribal government applying to FEMA as a grantee must have in place a FEMA approved State or Tribal Mitigation Plan, as applicable, in accordance with 44 CFR part 201.

(c) *Private nonprofit facilities.* Eligible private nonprofit facilities may receive funding under the following conditions:

(1) The facility provides critical services, which include power, water (including water provided by an irrigation organization or facility in accordance with § 206.221(e)(3)), sewer services, wastewater treatment, communications, emergency medical care, fire department services, emergency rescue, and nursing homes; or

(2) The private nonprofit organization not falling within the criteria of § 206.226(c)(1) has applied for a disaster loan under section 7(b) of the Small Business Act (15 U.S.C.636(b)) and

(i) The Small Business Administration has declined the organization's application; or

(ii) Has eligible damages greater than the maximum amount of the loan for which it is eligible, in which case the excess damages are eligible for FEMA assistance.

(d) *Standards.* For the costs of Federal, State, and local repair or replacement standards which change the predisaster construction of facility to be eligible, the standards must:

(1) Apply to the type of repair or restoration required;

(Standards may be different for new construction and repair work)

(2) Be appropriate to the predisaster use of the facility;

(3)(i) Be found reasonable, in writing, and formally adopted and implemented by the State or local government on or before the disaster declaration date or be a legal Federal requirement applicable to the type of restoration.

(ii) This paragraph (d) applies to local governments on January 1, 1999 and to States on January 1, 2000. Until the respective applicability dates, the standards must be in writing and formally adopted by the applicant prior to project approval or be a legal Federal or State requirement applicable to the type of restoration.

(4) Apply uniformly to all similar types of facilities within the jurisdiction of owner of the facility; and

(5) For any standard in effect at the time of a disaster, it must have been enforced during the time it was in effect.

(e) *Hazard mitigation.* In approving grant assistance for restoration of facilities, the Regional Administrator may require cost effective hazard mitigation measures not required by applicable standards. The cost of any requirements for hazard mitigation placed on restoration projects by FEMA will be an eligible cost for FEMA assistance.

(f) *Repair vs. replacement.* (1) A facility is considered repairable when disaster damages do not exceed 50 percent of the cost of replacing a facility to its predisaster condition, and it is feasible to repair the facility so that it can perform the function for which it was being used as well as it did immediately prior to the disaster.

(2) If a damaged facility is not repairable in accordance with paragraph (d)(1) of this section, approved restorative work may include replacement of the facility. The applicant may elect to perform repairs to the facility, in lieu of replacement, if such work is in conformity with applicable standards. However, eligible costs shall be limited to the less expensive of repairs or replacement.

(3) An exception to the limitation in paragraph (d)(2) of this section may be allowed for facilities eligible for or on the National Register of Historic Properties. If an applicable standard requires repair in a certain manner, costs associated with that standard will be eligible.

(g) *Relocation.* (1) The Regional Administrator may approve funding for and require restoration of a destroyed facility at a new location when:

(i) The facility is and will be subject to repetitive heavy damage;

(ii) The approval is not barred by other provisions of title 44 CFR; and

(iii) The overall project, including all costs, is cost effective.

(2) When relocation is required by the Regional Administrator, eligible work includes land acquisition and ancillary facilities such as roads and utilities, in addition to work normally eligible as part of a facility reconstruction. Demolition and removal of the old facility is also an eligible cost.

(3) When relocation is required by the Regional Administrator, no future funding for repair or replacement of a facility at the original site will be approved, except those facilities which facilitate an open space use in accordance with 44 CFR part 9.

(4) When relocation is required by the Regional Administrator, and, instead of relocation, the applicant requests approval of an alternate project [see §206.203(d)(2)], eligible costs will be limited to 90 percent of the estimate of restoration at the original location excluding hazard mitigation measures.

(5) If relocation of a facility is not feasible or cost effective, the Regional Administrator shall disapprove Federal funding for the original location when he/she determines in accordance with 44 CFR parts 9, 10, 201, or subpart M of this part 206, that restoration in the original location is not allowed. In such cases, an alternative project may be applied for.

(h) *Equipment and furnishings.* If equipment and furnishings are damaged beyond repair, comparable items are eligible as replacement items.

(i) *Library books and publications.* Replacement of library books and publications is based on an inventory of the quantities of various categories of books or publications damaged or destroyed. Cataloging and other work incidental to replacement are eligible.

(j) *Beaches.* (1) Replacement of sand on an unimproved natural beach is not eligible.

(2) Improved beaches. Work on an improved beach may be eligible under the following conditions:

(i) The beach was constructed by the placement of sand (of proper grain size)

to a designed elevation, width, and slope; and

(ii) A maintenance program involving periodic renourishment of sand must have been established and adhered to by the applicant.

(k) *Restrictions*—(1) *Alternative use facilities.* If a facility was being used for purposes other than those for which it was designed, restoration will only be eligible to the extent necessary to restore the immediate predisaster alternate purpose.

(2) *Inactive facilities.* Facilities that were not in active use at the time of the disaster are not eligible except in those instances where the facilities were only temporarily inoperative for repairs or remodeling, or where active use by the applicant was firmly established in an approved budget or the owner can demonstrate to FEMA's satisfaction an intent to begin use within a reasonable time.

[55 FR 2307, Jan. 23, 1990, as amended at 58 FR 55022, Oct. 25, 1993; 63 FR 5897, Feb. 5, 1998; 66 FR 22445, May 4, 2001; 67 FR 8854, Feb. 26, 2002; 68 FR 61371, Oct. 28, 2003; 69 FR 55097, Sept. 13, 2004; 74 FR 15350, Apr. 3, 2009; 74 FR 47482, Sept. 16, 2009]

### § 206.227 Snow assistance.

Emergency or major disaster declarations based on snow or blizzard conditions will be made only for cases of record or near record snowstorms, as established by official government records. Federal assistance will be provided for all costs eligible under 44 CFR 206.225 for a specified period of time which will be determined by the circumstances of the event.

[62 FR 45330, Aug. 27, 1997]

### § 206.228 Allowable costs.

General policies for determining allowable costs are established in 44 CFR 13.22. Exceptions to those policies as allowed in 44 CFR 13.4 and 13.6 are explained below.

(a) *Eligible direct costs*—(1) *Applicant-owned equipment.* Reimbursement for ownership and operation costs of applicant-owned equipment used to perform eligible work shall be provided in accordance with the following guidelines:

(i) *Rates established under State guidelines.* In those cases where an applicant uses reasonable rates which have been established or approved under State guidelines, in its normal daily operations, reimbursement for applicant-owned equipment which has an hourly rate of $75 or less shall be based on such rates. Reimbursement for equipment which has an hourly rate in excess of $75 shall be determined on a case by case basis by FEMA.

(ii) *Rates established under local guidelines.* Where local guidelines are used to establish equipment rates, reimbursement will be based on those rates or rates in a Schedule of Equipment Rates published by FEMA, whichever is lower. If an applicant certifies that its locally established rates do not reflect actual costs, reimbursement may be based on the FEMA Schedule of Equipment Rates, but the applicant will be expected to provide documentation if requested. If an applicant wishes to claim an equipment rate which exceeds the FEMA Schedule, it must document the basis for that rate and obtain FEMA approval of an alternate rate.

(iii) *No established rates.* The FEMA Schedule of Equipment Rates will be the basis for reimbursement in all cases where an applicant does not have established equipment rates.

(2) *Force Account Labor Costs.* The straight- or regular-time salaries and benefits of a subgrantee's permanently employed personnel are not eligible in calculating the cost of eligible work under sections 403 and 407 of the Stafford Act, 42 U.S.C. 5170b and 5173. For the performance of eligible permanent restoration under section 406 of the Stafford Act, 42 U.S.C. 5172, straight-time salaries and benefits of a subgrantee's permanently employed personnel are eligible.

(3) Administrative and management costs for major disasters and emergencies will be paid in accordance with 44 CFR part 207.

(b) [Reserved]

[55 FR 2307, Jan. 23, 1990, as amended at 58 FR 47996, Sept. 14, 1993; 63 FR 64426, Nov. 20, 1998; 64 FR 55161, Oct. 12, 1999; 72 FR 57875, Oct. 11, 2007]

§§ 206.229–206.249 [Reserved]

## Subpart I—Public Assistance Insurance Requirements

SOURCE: 56 FR 64560, Dec. 11, 1991, unless otherwise noted.

### § 206.250 General.

(a) Sections 311 and 406(d) of the Stafford Act, and the Flood Disaster Protection Act of 1973, Public Law 93–234, set forth certain insurance requirements which apply to disaster assistance provided by FEMA. The requirements of this subpart apply to all assistance provided pursuant to section 406 of the Stafford Act with respect to any major disaster declared by the President after November 23, 1988.

(b) Insurance requirements prescribed in this subpart shall apply equally to private nonprofit (PNP) facilities which receive assistance under section 406 of the Act. PNP organizations shall submit the necessary documentation and assurances required by this subpart to the Grantee.

(c) Actual and anticipated insurance recoveries shall be deducted from otherwise eligible costs, in accordance with this subpart.

(d) The full coverage available under the standard flood insurance policy from the National Flood Insurance Program (NFIP) will be subtracted from otherwise eligible costs for a building and its contents within the special flood hazard area in accordance with § 206.252.

(e) The insurance requirements of this subpart should not be interpreted as a substitute for various hazard mitigation techniques which may be available to reduce the incidence and severity of future damage.

### § 206.251 Definitions.

(a) *Assistance* means any form of a Federal grant under section 406 of the Stafford Act to replace, restore, repair, reconstruct, or construct any facility and/or its contents as a result of a major disaster.

(b) *Building* means a walled and roofed structure, other than a gas, or liquid storage tank, that is principally above ground and affixed to a permanent site, as well as a manufactured home on a permanent foundation.

(c) *Community* means any State or political subdivision thereof, or any Indian tribe or authorized tribal organization, or Alaskan Native Village or authorized native organization which has authority to adopt and enforce floodplain management regulations for the areas within its jurisdiction.

(d) *National Flood Insurance Program* (NFIP) means the program authorized by the National Flood Insurance Act of 1968, as amended, 42 U.S.C. 4001 *et seq.*

(e) *Special flood hazard area* means an area having special flood, mudslide, and/or flood-related erosion hazards, and shown on a Flood Hazard Boundary map (FHBM) or the Flood Insurance Rate Map (FIRM) issued by FEMA as Zone A, AO, A1–30, AE, A99, AH, VO, V1–30 VE, V, M, or E. "Special flood hazard area" is synonymous with "special hazard area", as defined in 44 CFR part 59.

(f) *Standard Flood Insurance Policy* means the flood insurance policy issued by the Federal Insurance Administrator, or by a Write-Your-Own Company pursuant to 44 CFR 62.23.

### § 206.252 Insurance requirements for facilities damaged by flood.

(a) Where an insurable building damaged by flooding is located in a special flood hazard area identified for more than one year by the Administrator, assistance pursuant to section 406 of the Stafford Act shall be reduced. The amount of the reduction shall be the maximum amount of the insurance proceeds which would have been received had the building and its contents been fully covered by a standard flood insurance policy.

(b) The reduction stated above shall not apply to a PNP facility which could not be insured because it was located in a community not participating in the NFIP. However, the provisions of the Flood Disaster Protection Act of 1973 prohibit approval of assistance for the PNP unless the community agrees to participate in the NFIP within six months after the major disaster declaration date, and the required flood insurance is purchased.

(c) Prior to approval of a Federal grant for the restoration of a facility and its contents which were damaged by a flood, the Grantee shall notify the Regional Administrator of any entitlement to an insurance settlement or recovery. The Regional Administrator shall reduce the eligible costs by the amount of insurance proceeds which the grantee receives.

(d) The grantee or subgrantee is required to obtain and maintain flood insurance in the amount of eligible disaster assistance, as a condition of receiving Federal assistance that may be available. This requirement also applies to insurable flood damaged facilities located outside a special flood hazard area when it is reasonably available, adequate, and necessary. However, the Regional Administrator shall not require greater types and amounts of insurance than are certified as reasonable by the State Insurance Commissioner. The requirement to purchase flood insurance is waived when eligible costs for an insurable facility do not exceed $5,000.

**§ 206.253 *Insurance* requirements for facilities damaged by disasters other than flood.**

(a) Prior to approval of a Federal grant for the restoration of a facility and its contents which were damaged by a disaster other than flood, the Grantee shall notify the Regional Administrator of any entitlement to insurance settlement or recovery for such facility and its contents. The Regional Administrator shall reduce the eligible costs by the actual amount of insurance proceeds relating to the eligible costs.

(b)(1) Assistance under section 406 of the Stafford Act will be approved only on the condition that the grantee obtain and maintain such types and amounts of insurance as are reasonable and necessary to protect against future loss to such property from the types of hazard which caused the major disaster. The extent of insurance to be required will be based on the eligible damage that was incurred to the damaged facility as a result of the major disaster. The Regional Administrator shall not require greater types and extent of insurance than are certified as reasonable by the State Insurance Commissioner.

(2) Due to the high cost of insurance, some applicants may request to insure the damaged facilities under a blanket insurance policy covering all their facilities, an insurance pool arrangement, or some combination of these options. Such an arrangement may be accepted for other than flood damages. However, if the same facility is damaged in a similar future disaster, eligible costs will be reduced by the amount of eligible damage sustained on the previous disaster.

(c) The Regional Administrator shall notify the Grantee of the type and amount of insurance required. The grantee may request that the State Insurance Commissioner review the type and extent of insurance required to protect against future loss to a disaster-damaged facility, the Regional Administrator shall not require greater types and extent of insurance than are certified as reasonable by the State Insurance Commissioner.

(d) The requirements of section 311 of the Stafford Act are waived when eligible costs for an insurable facility do not exceed $5,000. The Regional Administrator may establish a higher waiver amount based on hazard mitigation initiatives which reduce the risk of future damages by a disaster similar to the one which resulted in the major disaster declaration which is the basis for the application for disaster assistance.

(e) The Grantee shall provide assurances that the required insurance coverage will be maintained for the anticipated life of the restorative work or the insured facility, whichever is the lesser.

(f) No assistance shall be provided under section 406 of the Stafford Act for any facility for which assistance was provided as a result of a previous major disaster unless all insurance required by FEMA as a condition of the previous assistance has been obtained and maintained.

§§ 206.254–206.339 [Reserved]

## Subpart J—Coastal Barrier Resources Act

SOURCE: 55 FR 2311, Jan. 23, 1990, unless otherwise noted.

### § 206.340 Purpose of subpart.

This subpart implements the Coastal Barrier Resources Act (CBRA) (Pub. L. 97-348) as that statute applies to disaster relief granted to individuals and State and local governments under the Stafford Act. CBRA prohibits new expenditures and new financial assistance within the Coastal Barrier Resources System (CBRS) for all but a few types of activities identified in CBRA. This subpart specifies what actions may and may not be carried out within the CBRS. It establishes procedures for compliance with CBRA in the administration of disaster assistance by FEMA.

### § 206.341 Policy.

It shall be the policy of FEMA to achieve the goals of CBRA in carrying out disaster relief on units of the Coastal Barrier Resources System. It is FEMA's intent that such actions be consistent with the purpose of CBRA to minimize the loss of human life, the wasteful expenditure of Federal revenues, and the damage to fish, wildlife and other natural resources associated with coastal barriers along the Atlantic and Gulf coasts and to consider the means and measures by which the long-term conservation of these fish, wildlife, and other natural resources may be achieved under the Stafford Act.

### § 206.342 Definitions.

Except as otherwise provided in this subpart, the definitions set forth in part 206 of subchapter D are applicable to this subject.

(a) *Consultation* means that process by which FEMA informs the Secretary of the Interior through his/her designated agent of FEMA proposed disaster assistance actions on a designated unit of the Coastal Barrier Resources System and by which the Secretary makes comments to FEMA about the appropriateness of that action. Approval by the Secretary is not required in order that an action be carried out.

(b) *Essential link* means that portion of a road, utility, or other facility originating outside of the system unit but providing access or service through the unit and for which no alternative route is reasonably available.

(c) *Existing facility* on a unit of CBRS established by Public Law 97-348 means a publicly owned or operated facility on which the start of a construction took place prior to October 18, 1982, and for which this fact can be adequately documented. In addition, a legally valid building permit or equivalent documentation, if required, must have been obtained for the construction prior to October 18, 1982. If a facility has been substantially improved or expanded since October 18, 1982, it is not an existing facility. For any other unit added to the CBRS by amendment to Public Law 97-348, the enactment date of such amendment is substituted for October 18, 1982, in this definition.

(d) *Expansion* means changing a facility to increase its capacity or size.

(e) *Facility* means "public facility" as defined in § 206.201. This includes any publicly owned flood control, navigation, irrigation, reclamation, public power, sewage treatment and collection, water supply and distribution, watershed development, or airport facility; and nonfederal-aid street, road, or highway; and any other public building, structure, or system, including those used for educational, recreational, or cultural purposes, or any park.

(f) *Financial assistance* means any form of Federal loan, grant guaranty, insurance, payment rebate, subsidy or any other form of direct or indirect Federal assistance.

(g) *New financial assistance* on a unit of the CBRS established by Public Law 97-348 means an approval by FEMA of a project application or other disaster assistance after October 18, 1982. For any other unit added to the CBRS by amendment to Public Law 97-348, the enactment date such amendment is substituted for October 18, 1982, in this definition.

(h) *Start of construction* for a structure means the first placement of permanent construction, such as the placement of footings or slabs or any work beyond the stage of excavation. Permanent construction for a structure does not include land preparation such as clearing, grading, and placement of fill, nor does it include excavation for a basement, footings, or piers. For a facility which is not a structure, start of construction means the first activity for permanent construction of a substantial part of the facility. Permanent construction for a facility does not include land preparation such as clearing and grubbing but would include excavation and placement of fill such as for a road.

(i) *Structure* means a walled and roofed building, including a gas or liquid storage tank, that is principally above ground, as well as a mobile home.

(j) *Substantial improvement* means any repair, reconstruction or other improvement of a structure or facility, that has been damaged in excess of, or the cost of which equals or exceeds, 50 percent of the market value of the structure or placement cost of the facility (including all "public facilities") as defined in the Stafford Act) either:

(1) Before the repair or improvement is started; or

(2) If the structure or facility has been damaged and is proposed to be restored, before the damage occurred. If a facility is a link in a larger system, the percentage of damage will be based on the relative cost of repairing the damaged facility to the replacement cost of that portion of the system which is operationally dependent on the facility. The term *substantial improvement* does not include any alternation of a structure or facility listed on the National Register of Historic Places or a State Inventory of Historic Places.

(k) *System unit* means any undeveloped coastal barrier, or combination of closely related undeveloped coastal barriers included within the Coastal Barrier Resources System as established by the section 4 of the CBRA, or as modified by the Secretary in accordance with that statute.

### § 206.343 Scope.

(a) The limitations on disaster assistance as set forth in this subpart apply only to FEMA actions taken on a unit of the Coastal Barrier Resources System or any conduit to such unit, including, but not limited to a bridge, causeway, utility, or similar facility.

(b) FEMA assistance having a social program orientation which is unrelated to development is not subject to the requirements of these regulations. This assistance includes:

(1) Individual and Family Grants that are not for acquisition or construction purposes;

(2) Crisis counseling;

(3) Disaster Legal services; and

(4) Disaster unemployment assistance.

### § 206.344 Limitations on Federal expenditures.

Except as provided in §§ 206.345 and 206.346, no new expenditures or financial assistance may be made available under authority of the Stafford Act for any purpose within the Coastal Barrier Resources System, including but not limited to:

(a) Construction, reconstruction, replacement, repair or purchase of any structure, appurtenance, facility or related infrastructure;

(b) Construction, reconstruction, replacement, repair or purchase of any road, airport, boat landing facility, or other facility on, or bridge or causeway to, any System unit; and

(c) Carrying out of any project to prevent the erosion of, or to otherwise stabilize, any inlet, shoreline, or inshore area, except that such assistance and expenditures may be made available on units designated pursuant to Section 4 on maps numbered S01 through S08 for purposes other than encouraging development and, in all units, in cases where an emergency threatens life, land, and property immediately adjacent to that unit.

### § 206.345 Exceptions.

The following types of disaster assistance actions are exceptions to the prohibitions of § 206.344.

(a) After consultation with the Secretary of the Interior, the Regional Administrator may make disaster assistance available within the CBRS for:

(1) Replacement, reconstruction, or repair, but not the expansion, of publicly owned or publicly operated roads, structures, or facilities that are essential links in a larger network or system;

(2) Repair of any facility necessary for the exploration, extraction, or transportation of energy resources which activity can be carried out only on, in, or adjacent to coastal water areas because the use or facility requires access to the coastal water body; and

(3) Restoration of existing channel improvements and related structures, such as jetties, and including the disposal of dredge materials related to such improvements.

(b) After consultation with the Secretary of the Interior, the Regional Administrator may make disaster assistance available within the CBRS for the following types of actions, provided such assistance is consistent with the purposes of CBRA;

(1) Emergency actions essential to the saving of lives and the protection of property and the public health and safety, if such actions are performed pursuant to sections 402, 403, and 502 of the Stafford Act and are limited to actions that are necessary to alleviate the impacts of the event;

(2) Replacement, reconstruction, or repair, but not the expansion, of publicly owned or publicly operated roads, structures, or facilities, except as provided in § 206.347(c)(5);

(3) Repair of air and water navigation aids and devices, and of the access thereto;

(4) Repair of facilities for scientific research, including but not limited to aeronautical, atmospheric, space, geologic, marine, fish and wildlife and other research, development, and applications;

(5) Repair of facilities for the study, management, protection and enhancement of fish and wildlife resources and habitats, including but not limited to, acquisition of fish and wildlife habitats and related lands, stabilization projects for fish and wildlife habitats, and recreational projects; and

(6) Repair of nonstructural projects for shoreline stabilization that are designed to mimic, enhance, or restore natural stabilization systems.

**§ 206.346 Applicability to disaster assistance.**

(a) *Emergency assistance.* The Regional Administrator may approve assistance pursuant to sections 402, 403, or 502 of the Stafford Act, for emergency actions which are essential to the saving of lives and the protection of property and the public health and safety, are necessary to alleviate the emergency, and are in the public interest. Such actions include but are not limited to:

(1) Removal of debris from public property;

(2) Emergency protection measures to prevent loss of life, prevent damage to improved property and protect public health and safety;

(3) Emergency restoration of essential community services such as electricity, water or sewer;

(4) Provision of access to a private residence;

(5) Provision of emergency shelter by means of providing emergency repair of utilities, provision of heat in the season requiring heat, or provision of minimal cooking facilities;

(6) Relocation of individuals or property out of danger, such as moving a mobile home to an area outside of the CBRS (but disaster assistance funds may not be used to relocate facilities back into the CBRS);

(7) Home repairs to private owner-occupied primary residences to make them habitable;

(8) Housing eligible families in existing resources in the CBRS; and

(9) Mortgage and rental payment assistance.

(b) *Permanent restoration assistance.* Subject to the limitations set out below, the Regional Administrator may approve assistance for the repair, reconstruction, or replacement but not the expansion of the following publicly owned or operated facilities and certain private nonprofit facilities.

(1) Roads and bridges;

(2) Drainage structures, dams, levees;

(3) Buildings and equipment;
(4) Utilities (gas, electricity, water, etc.); and
(5) Park and recreational facilities.

**§ 206.347 Requirements.**

(a) *Location determination.* For each disaster assistance action which is proposed on the Atlantic or Gulf Coasts, the Regional Administrator shall:

(1) Review a proposed action's location to determine if the action is on or connected to the CBRS unit and thereby subject to these regulations. The appropriate Department of Interior map identifying units of the CBRS will be the basis of such determination. The CBRS units are also identified on FEMA Flood Insurance Maps (FIRM's) for the convenience of field personnel.

(2) If an action is determined not to be on or connected to a unit of the CBRS, no further requirements of these regulations needs to be met, and the action may be processed under other applicable disaster assistance regulations.

(3) If an action is determined to be on or connected to a unit of the CBRS, it is subject to the consultation and consistency requirements of CBRA as prescribed in §§ 206.348 and 206.349.

(b) *Emergency disaster assistance.* For each emergency disaster assistance action listed in § 206.346(a), the Regional Administrator shall perform the required consultation. CBRA requires that FEMA consult with the Secretary of the Interior before taking any action on a System unit. The purpose of such consultation is to solicit advice on whether the action is or is not one which is permitted by section 6 of CBRA and whether the action is or is not consistent with the purposes of CBRA as defined in section 1 of that statute.

(1) FEMA has conducted advance consultation with the Department of the Interior concerning such emergency actions. The result of the consultation is that the Secretary of the Interior through the Assistance Secretary for Fish and Wildlife and Parks has concurred that the emergency work listed in § 206.346(a) is consistent with the purposes of CBRA and may be approved by FEMA without additional consultation.

(2) *Notification.* As soon as practicable, the Regional Administrator will notify the designated Department of the Interior representative at the regional level of emergency projects that have been approved. Upon request from the Secretary of the Interior, the Director, Office of Environmental Planning and Historic Preservation, Mitigation Directorate will supply reports of all current emergency actions approved on CBRS units. Notification will contain the following information:

(i) Identification of the unit in the CBRS;
(ii) Description of work approved;
(iii) Amount of Federal funding; and
(iv) Additional measures required.

(c) *Permanent restoration assistance.* For each permanent restoration assistance action including but not limited to those listed in § 206.346(b), the Regional Administrator shall meet the requirements set out below.

(1) *Essential links.* For the repair or replacement of publicly owned or operated roads, structures or facilities which are essential links in a larger network or system:

(i) No facility may be expanded beyond its predisaster design.

(ii) Consultation in accordance with § 206.348 shall be accomplished.

(2) *Channel improvements.* For the repair of existing channels, related structures and the disposal of dredged materials:

(i) No channel or related structure may be repaired, reconstructed, or replaced unless funds were appropriated for the construction of such channel or structure before October 18, 1982;

(ii) Expansion of the facility beyond its predisaster design is not permitted;

(iii) Consultation in accordance with § 206.348 shall be accomplished.

(3) *Energy facilities.* For the repair of facilities necessary for the exploration, extraction or transportation of energy resources:

(i) No such facility may be repaired, reconstructed or replaced unless such function can be carried out only in, on, or adjacent to a coastal water area because the use or facility requires access to the coastal water body;

(ii) Consultation in accordance with § 206.348 shall be accomplished.

(4) *Special-purpose facilities.* For the repair of facilities used for the study, management, protection or enhancement of fish and wildlife resources and habitats and related recreational projects; air and water navigation aids and devices and access thereto; and facilities used for scientific research, including but not limited to aeronautical, atmospheric, space, geologic, marine, fish and wildlife and other research, development, and applications; and, nonstructural facilities that are designed to mimic, enhance or restore natural shoreline stabilization systems:

(i) Consultation in accordance with §206.348 shall be accomplished;

(ii) No such facility may be repaired, reconstructed, or replaced unless it is otherwise consistent with the purposes of CBRA in accordance with §206.349.

(5) *Other public facilities.* For the repair, reconstruction, or replacement of publicly owned or operated roads, structures, or facilities that do not fall within the categories identified in paragraphs (c)(1), (2), (3), and (4) of this section:

(i) No such facility may be repaired, reconstructed, or replaced unless it is an "existing facility;"

(ii) Expansion of the facility beyond its predisaster design is not permitted;

(iii) Consultation in accordance with §206.348 shall be accomplished;

(iv) No such facility may be repaired, reconstructed, or replaced unless it is otherwise consistent with the purposes of CBRA in accordance with §206.349.

(6) *Private nonprofit facilities.* For eligible private nonprofit facilities as defined in these regulations and of the type described in paragraphs (c)(1), (2), (3), and (4) of this section:

(i) Consultation in accordance with §206.348 shall be accomplished.

(ii) No such facility may be repaired, reconstructed, or replaced unless it is otherwise consistent with the purposes of CBRA in accordance with §206.349.

(7) *Improved project.* An improved project may not be approved for a facility in the CBRS if such grant is to be combined with other funding, resulting in an expansion of the facility beyond the predisaster design. If a facility is exempt from the expansion prohibitions of CBRA by virtue of falling into one of the categories identified in paragraph (c)(1), (2), (3), or (4) of this section, then an improved project for such facilities is not precluded.

(8) *Alternate project.* A new or enlarged facility may not be constructed on a unit of the CBRS under the provisions of the Stafford Act unless the facility is exempt from the expansion prohibition of CBRA by virtue of falling into one of the categories identified in paragraph (c)(1), (2), (3), or (4) of this section.

**§206.348 Consultation.**

As required by section 6 of the CBRA, the FEMA Regional Administrator will consult with the designated representative of the Department of the Interior (DOI) at the regional level before approving any action involving permanent restoration of a facility or structure on or attached to a unit of the CBRS.

(a) The consultation shall be by written memorandum to the DOI representative and shall contain the following:

(1) Identification of the unit within the CBRS;

(2) Description of the facility and the proposed repair or replacement work; including identification of the facility as an exception under section 6 of CBRA; and full justification of its status as an exception;

(3) Amount of proposal Federal funding;

(4) Additional mitigation measures required; and

(5) A determination of the action's consistency with the purposes of CBRA, if required by these regulations, in accordance with §206.349.

(b) Pursuant to FEMA understanding with DOI, the DOI representative will provide technical information and an opinion whether or not the proposed action meets the criteria for a CBRA exception, and on the consistency of the action with the purposes of CBRA (when such consistency is required). DOI is expected to respond within 12 working days from the date of the FEMA request for consultation. If a response is not received within the time limit, the FEMA Regional Administrator shall contact the DOI representative to determine if the request for consultation was received in a timely

manner. If it was not, an appropriate extension for response will be given. Otherwise, he or she may assume DOI concurrence and proceed with approval of the proposed action.

(c) For those cases in which the regional DOI representative believes that the proposed action should not be taken and the matter cannot be resolved at the regional level, the FEMA Regional Administrator will submit the issue to the Director, Office of Environmental Planning and Historic Preservation, Mitigation Directorate. In coordination with the Office of Chief Counsel (OCC), consultation will be accomplished at the FEMA National Office with the DOI consultation officer. After this consultation, the Director, Office of Environmental Planning and Historic Preservation, Mitigation Directorate, determines whether or not to approve the proposed action.

### § 206.349 Consistency determinations.

Section 6(a)(6) of CBRA requires that certain actions be consistent with the purposes of that statute if the actions are to be carried out on a unit of the CBRA. The purpose of CBRA, as stated in section 2(b) of that statute, is to minimize the loss of human life, wasteful expenditure of Federal revenues, and the damage to fish, wildlife, and other natural resources associated with the coastal barriers along with Atlantic and Gulf coasts. For those actions where a consistency determination is required, the FEMA Regional Administrator shall evaluate the action according to the following procedures, and the evaluation shall be included in the written request for consultation with DOI.

(a) *Impact identification.* FEMA shall identify impacts of the following types that would result from the proposed action:

(1) Risks to human life;

(2) Risks of damage to the facility being repaired or replaced;

(3) Risks of damage to other facilities;

(4) Risks of damage to fish, wildlife, and other natural resources;

(5) Condition of existing development served by the facility and the degree to which its redevelopment would be encouraged; and

(6) Encouragement of new development.

(b) *Mitigation.* FEMA shall modify actions by means of practicable mitigation measures to minimize adverse effects of the types listed in paragraph (a) of this section.

(c) *Conservation.* FEMA shall identify practicable measures that can be incorporated into the proposed action and will conserve natural and wildlife resources.

(d) *Finding.* For those actions required to be consistent with the purposes of CBRA, the above evaluation must result in a finding of consistency with CBRA by the Regional Administrator before funding may be approved for that action.

### §§ 206.350–206.359 [Reserved]

## Subpart K—Community Disaster Loans

SOURCE: 55 FR 2314, Jan. 23, 1990, unless otherwise noted.

### § 206.360 Purpose.

This subpart provides policies and procedures for local governments and State and Federal officials concerning the Community Disaster Loan program under section 417 of the Stafford Act. Sections 206.360 through 206.367 of the subpart do not implement the Community Disaster Loan Act of 2005. (see § 206.370).

[70 FR 60446, Oct. 18, 2005]

### § 206.361 Loan program.

(a) *General.* The Assistant Administrator for the Disaster Assistance Directorate may make a Community Disaster Loan to any local government which has suffered a substantial loss of tax and other revenues as a result of a major disaster and which demonstrates a need for Federal financial assistance in order to perform its governmental functions.

(b) *Amount of loan.* The amount of the loan is based upon need, not to exceed 25 percent of the operating budget of the local government for the fiscal year in which the disaster occurs, but shall not exceed $5 million. The term *fiscal year* as used in this subpart

means the local government's fiscal year.

(c) *Interest rate.* The interest rate is the rate for five year maturities as determined by the Secretary of the Treasury in effect on the date that the Promissory Note is executed. This rate is from the monthly Treasury schedule of certified interest rates which takes into consideration the current average yields on outstanding marketable obligations of the United States, adjusted to the nearest ⅛ percent.

(d) *Time limitation.* The Assistant Administrator for the Disaster Assistance Directorate may approve a loan in either the fiscal year in which the disaster occurred or the fiscal year immediately following that year. Only one loan may be approved under section 417(a) for any local government as the result of a single disaster.

(e) *Term of loan.* The term of the loan is 5 years, unless otherwise extended by the Assistant Administrator for the Disaster Assistance Directorate. The Assistant Administrator for the Disaster Assistance Directorate may consider requests for an extensions of loans based on the local government's financial condition. The total term of any loan under section 417(a) normally may not exceed 10 years from the date the Promissory Note was executed. However, when extenuating circumstances exist and the Community Disaster Loan recipient demonstrates an inability to repay the loan within the initial 10 years, but agrees to repay such loan over an extended period of time, additional time may be provided for loan repayment. (See § 206.367(c).)

(f) *Use of loan funds.* The local government shall use the loaned funds to carry on existing local government functions of a municipal operation character or to expand such functions to meet disaster-related needs. The funds shall not be used to finance capital improvements nor the repair or restoration of damaged public facilities. Neither the loan nor any cancelled portion of the loans may be used as the nonFederal share of any Federal program, including those under the Act.

(g) *Cancellation.* The Assistant Administrator for the Disaster Assistance Directorate shall cancel repayment of all or part of a Community Disaster Loan to the extent that he/she determines that revenues of the local government during the 3 fiscal years following the disaster are insufficient to meet the operating budget of that local government because of disaster-related revenue losses and additional unreimbursed disaster-related municipal operating expenses.

(h) *Relation to other assistance.* Any community disaster loans including cancellations made under this subpart shall not reduce or otherwise affect any commitments, grants, or other assistance under the Act or these regulations.

[55 FR 2314, Jan. 23, 1990, as amended at 66 FR 22445, May 4, 2001]

### § 206.362 Responsibilities.

(a) The local government shall submit the financial information required by FEMA in the application for a Community Disaster Loan and in the application for loan cancellation, if submitted, and comply with the assurances on the application, the terms and conditions of the Promissory Note, and these regulations. The local government shall send all loan application, loan administration, loan cancellation, and loan settlement correspondence through the GAR and the FEMA Regional Office to the FEMA Assistant Administrator for the Disaster Assistance Directorate.

(b) The GAR shall certify on the loan application that the local government can legally assume the proposed indebtedness and that any proceeds will be used and accounted for in compliance with the FEMA-State Agreement for the major disaster. States are encouraged to take appropriate pre-disaster action to resolve any existing State impediments which would preclude a local government from incurring the increased indebtedness associated with a loan in order to avoid protracted delays in processing loan application requests in major disasters or emergencies.

(c) The Regional Administrator or designee shall review each loan application or loan cancellation request received from a local government to ensure that it contains the required documents and transmit the application to the Assistant Administrator for the

Disaster Assistance Directorate. He/she may submit appropriate recommendations to the Assistant Administrator for the Disaster Assistance Directorate.

(d) The Assistant Administrator for the Disaster Assistance Directorate, or a designee, shall execute a Promissory Note with the local government, and the FEMA Finance Center, shall administer the loan until repayment or cancellation is completed and the Promissory Note is discharged.

(e) The Assistant Administrator for the Disaster Assistance Directorate or designee shall approve or disapprove each loan request, taking into consideration the information provided in the local government's request and the recommendations of the GAR and the Regional Administrator. The Assistant Administrator for the Disaster Assistance Directorate or designee shall approve or disapprove a request for loan cancellation in accordance with the criteria for cancellation in these regulations.

(f) The Chief Financial Officer shall establish and maintain a financial account for each outstanding loan and disburse funds against the Promissory Note.

### § 206.363 Eligibility criteria.

(a) *Local government.* (1) The local government must be located within the area designated by the Assistant Administrator for the Disaster Assistance Directorate as eligible for assistance under a major disaster declaration. In addition, State law must not prohibit the local government from incurring the indebtedness resulting from a Federal loan.

(2) Criteria considered by FEMA in determining the eligibility of a local government for a Community Disaster Loan include the loss of tax and other revenues as result of a major disaster, a demonstrated need for financial assistance in order to perform its governmental functions, the maintenance of an annual operating budget, and the responsibility to provide essential municipal operating services to the community. Eligibility for other assistance under the Act does not, by itself, establish entitlement to such a loan.

(b) *Loan eligibility*—(1) *General.* To be eligible, the local government must show that it may suffer or has suffered a substantial loss of tax and other revenues as a result of a major disaster or emergency, must demonstrate a need for financial assistance in order to perform its governmental functions, and must not be in arrears with respect to any payments due on previous loans. Loan eligibility is based on the financial condition of the local government and a review of financial information and supporting documentation accompanying the application.

(2) *Substantial loss of tax and other revenues.* The fiscal year of the disaster or the succeeding fiscal year is the base period for determining whether a local government may suffer or has suffered a substantial loss of revenue. Criteria used in determining whether a local government has or may suffer a substantial loss of tax and other revenue include the following disaster-related factors:

(i) Whether the disaster caused a large enough reduction in cash receipts from normal revenue sources, excluding borrowing, which affects significantly and adversely the level and/or categories of essential municipal services provided prior to the disaster;

(ii) Whether the disaster caused a revenue loss of over 5 percent of total revenue estimated for the fiscal year in which the disaster occurred or for the succeeding fiscal year;

(3) *Demonstrated need for financial assistance.* The local government must demonstrate a need for financial assistance in order to perform its governmental functions. The criteria used in making this determination include the following:

(i) Whether there are sufficient funds to meet current fiscal year operating requirements;

(ii) Whether there is availability of cash or other liquid assets from the prior fiscal year;

(iii) Current financial condition considering projected expenditures for governmental services and availability of other financial resources;

(iv) Ability to obtain financial assistance or needed revenue from State and other Federal agencies for direct program expenditures;

(v) Debt ratio (relationship of annual receipts to debt service);

(vi) Ability to obtain financial assistance or needed revenue from State and other Federal agencies for direct program expenditures;

(vii) Displacement of revenue-producing business due to property destruction;

(viii) Necessity to reduce or eliminate essential municipal services; and

(ix) Danger of municipal insolvency.

[55 FR 2314, Jan. 23, 1990, as amended at 66 FR 22445, May 4, 2001]

**§ 206.364 Loan application.**

(a) *Application.* (1) The local government shall submit an application for a Community Disaster Loan through the GAR. The loan must be justified on the basis of need and shall be based on the actual and projected expenses, as a result of the disaster, for the fiscal year in which the disaster occurred and for the 3 succeeding fiscal years. The loan application shall be prepared by the affected local government and be approved by the GAR. FEMA has determined that a local government, in applying for a loan as a result of having suffered a substantial loss of tax and other revenue as a result of a major disaster, is not required to first seek credit elsewhere (see § 206.367(c)).

(2) The State exercises administrative authority over the local government's application. The State's review should include a determination that the applicant is legally qualified, under State law, to assume the proposed debt, and may include an overall review for accuracy for the submission. The Governor's Authorized Representative may request the Regional Administrator to waive the requirement for a State review if an otherwise eligible applicant is not subject to State administration authority and the State cannot legally participate in the loan application process.

(b) *Financial requirements.* (1) The loan application shall be developed from financial information contained in the local government's annual operating budget (see § 206.364(b)(2)) and shall include a Summary of Revenue Loss and Unreimbursed Disaster-Related Expenses, a Statement of the Applicant's Operating Results—Cash Position, a Debt History, Tax Assessment Data, Financial Projections, Other Information, a Certification, and the Assurances listed on the application.

(i) Copies of the local government's financial reports (Revenue and Expense and Balance Sheet) for the 3 fiscal years immediately prior to the fiscal year of the disaster and the applicant's most recent financial statement must accompany the application. The local government's financial reports to be submitted are those annual (or interim) consolidated and/or individual official annual financial presentations for the General Fund and all other funds maintained by the local government.

(ii) Each application for a Community Disaster Loan must also include:

(A) A statement by the local government identifying each fund (i.e. General Fund, etc.) which is included as its annual Operating budget, and

(B) A copy of the pertinent State statutes, ordinance, or regulations which prescribe the local government's system of budgeting, accounting and financial reporting, including a description of each fund account.

(2) *Operating budget.* For loan application purposes, the operating budget is that document or documents approved by an appropriating body, which contains an estimate of proposed expenditures, other than capital outlays for fixed assets for a stated period of time, and the proposed means of financing the expenditures. For loan cancellation purposes, FEMA interprets the term "operating budget" to mean actual revenues and expenditures of the local government as published in the official financial statements of the local government.

(3) *Operating budget increases.* Budget increases due to increases in the level of, or additions to, municipal services not rendered at the time of the disaster or not directly related to the disaster shall be identified.

(4) *Revenue and assessment information.* The applicant shall provide information concerning its method of tax assessment including assessment dates and the dates payments are due. Tax revenues assessed but not collected, or

other revenues which the local government chooses to forgive, stay, or otherwise not exercise the right to collect, are not a legitimate revenue loss for purposes of evaluating the loan application.

(5) *Estimated disaster-related expense.* Unreimbursed disaster-related expenses of a municipal operating character should be estimated. These are discussed in § 206.366(b).

(c) *Federal review.* (1) The Assistant Administrator for the Disaster Assistance Directorate or designee shall approve a community disaster loan to the extent it is determined that the local government has suffered a substantial loss of tax and other revenues and demonstrates a need for financial assistance to perform its governmental function as the result of the disaster.

(2) *Resubmission of application.* If a loan application is disapproved, in whole or in part, by the Assistant Administrator for the Disaster Assistance Directorate because of inadequacy of information, a revised application may be resubmitted by the local government within sixty days of the date of the disapproval. Decision by the Assistant Administrator for the Disaster Assistance Directorate on the resubmission is final.

(d) *Community disaster loan.* (1) The loan shall not exceed the lesser of:

(i) The amount of projected revenue loss plus the projected unreimbursed disaster-related expenses of a municipal operating character for the fiscal year of the major disaster and the subsequent 3 fiscal years, or

(ii) 25 percent of the local government's annual operating budget for the fiscal year in which the disaster occurred.

(2) *Promissory note.* (i) Upon approval of the loan by the Assistant Administrator for the Disaster Assistance Directorate or designee, he or she, or a designated Loan Officer will execute a Promissory Note with the applicant. The Note must be co-signed by the State (see § 206.364(d)(2)(ii)). The applicant should indicate its funding requirements on the Schedule of Loan Increments on the Note.

(ii) If the State cannot legally cosign the Promissory Note, the local government must pledge collateral security, acceptable to the Assistant Administrator for the Disaster Assistance Directorate, to cover the principal amount of the Note. The pledge should be in the form of a resolution by the local governing body identifying the collateral security.

[55 FR 2314, Jan. 23, 1990, as amended at 74 FR 15351, Apr. 3, 2009]

### § 206.365 Loan administration.

(a) *Funding.* (1) FEMA will disburse funds to the local government when requested, generally in accordance with the Schedule of Loan Increments in the Promissory Note. As funds are disbursed, interest will accrue against each disbursement.

(2) When each incremental disbursement is requested, the local government shall submit a copy of its most recent financial report (if not submitted previously) for consideration by FEMA in determining whether the level and frequency of periodic payments continue to be justified. The local government shall also provide the latest available data on anticipated and actual tax and other revenue collections. Desired adjustments in the disbursement schedule shall be submitted in writing at least 10 days prior to the proposed disbursement date in order to ensure timely receipt of the funds. A sinking fund should be established to amortize the debt.

(b) *Financial management.* (1) Each local government with an approved Community Disaster Loan shall establish necessary accounting records, consistent with local government's financial management system, to account for loan funds received and disbursed and to provide an audit trail.

(2) FEMA auditors, State auditors, the GAR, the Regional Administrator, the Assistant Administrator for the Disaster Assistance Directorate, and the Comptroller General of the United States or their duly authorized representatives shall, for the purpose of audits and examination, have access to any books, documents, papers, and records that pertain to Federal funds, equipments, and supplies received under these regulations.

(c) *Loan servicing.* (1) The applicant annually shall submit to FEMA copies

of its annual financial reports (operating statements, balance sheets, etc.) for the fiscal year of the major disaster, and for each of the 3 subsequent fiscal years.

(2) The Disaster Assistance Directorate, will review the loan periodically. The purpose of the reevaluation is to determine whether projected revenue losses, disaster-related expenses, operating budgets, and other factors have changed sufficiently to warrant adjustment of the scheduled disbursement of the loan proceeds.

(3) The Disaster Assistance Directorate, shall provide each loan recipient with a loan status report on a quarterly basis. The recipient will notify FEMA of any changes of the responsible municipal official who executed the Promissory Note.

(d) *Inactive loans.* If no funds have been disbursed from the Treasury, and if the local government does not anticipate a need for such funds, the note may be cancelled at any time upon a written request through the State and Regional Office to FEMA. However, since only one loan may be approved, cancellation precludes submission of a second loan application request by the same local government for the same disaster.

**§ 206.366 Loan cancellation.**

(a) *Policies.* (1) FEMA shall cancel repayment of all or part of a Community Disaster Loan to the extent that the Assistant Administrator for the Disaster Assistance Directorate determines that revenues of the local government during the full three fiscal year period following the disaster are insufficient, as a result of the disaster, to meet the operating budget for the local government, including additional unreimbursed disaster-related expenses for a municipal operating character. For loan cancellation purposes, FEMA interprets that term *operating budget* to mean actual revenues and expenditures of the local government as published in the official financial statements of the local government.

(2) If the tax and other revenues rates or the tax assessment valuation of property which was not damaged or destroyed by the disaster are reduced during the 3 fiscal years subsequent to the major disaster, the tax and other revenue rates and tax assessment valuation factors applicable to such property in effect at the time of the major disaster shall be used without reduction for purposes of computing revenues received. This may result in decreasing the potential for loan cancellations.

(3) If the local government's fiscal year is changed during the "full 3 year period following the disaster" the actual period will be modified so that the required financial data submitted covers an inclusive 36-month period.

(4) If the local government transfers funds from its operating funds accounts to its capital funds account, utilizes operating funds for other than routine maintenance purposes, or significantly increases expenditures which are not disaster related, except increases due to inflation, the annual operating budget or operating statement expenditures will be reduced accordingly for purposes of evaluating any request for loan cancellation.

(5) It is not the purpose of this loan program to underwrite predisaster budget or actual deficits of the local government. Consequently, such deficits carried forward will reduce any amounts otherwise eligible for loan cancellation.

(b) *Disaster-related expenses of a municipal operation character.* (1) For purpose of this loan, unreimbursed expenses of a municipal operating character are those incurred for general government purposes, such as police and fire protection, trash collection, collection of revenues, maintenance of public facilities, flood and other hazard insurance, and other expenses normally budgeted for the general fund, as defined by the Municipal Finance Officers Association.

(2) Disaster-related expenses do not include expenditures associated with debt service, any major repairs, rebuilding, replacement or reconstruction of public facilities or other capital projects, intragovernmental services, special assessments, and trust and agency fund operations. Disaster expenses which are eligible for reimbursement under project applications or other Federal programs are not eligible for loan cancellation.

(3) Each applicant shall maintain records including documentation necessary to identify expenditures for unreimbursed disaster-related expenses. Examples of such expenses include but are not limited to:

(i) Interest paid on money borrowed to pay amounts FEMA does not advance toward completion of approved Project Applications.

(ii) Unreimbursed costs to local governments for providing usable sites with utilities for mobile homes used to meet disaster temporary housing requirements.

(iii) Unreimbursed costs required for police and fire protection and other community services for mobile home parks established as the result of or for use following a disaster.

(iv) The cost to the applicant of flood insurance required under Public Law 93–234, as amended, and other hazard insurance required under section 311, Public Law 93–288, as amended, as a condition of Federal disaster assistance for the disaster under which the loan is authorized.

(4) The following expenses are not considered to be disaster-related for Community Disaster Loan purposes:

(i) The local government's share for assistance provided under the Act including flexible funding under section 406(c)(1) of the Act.

(ii) Improvements related to the repair or restoration of disaster public facilities approved on Project Applications.

(iii) Otherwise eligible costs for which no Federal reimbursement is requested as a part of the applicant's disaster response commitment, or cost sharing as specified in the FEMA-State Agreement for the disaster.

(iv) Expenses incurred by the local government which are reimbursed on the applicant's project application.

(c) *Cancellation application.* A local government which has drawn loan funds from the Treasury may request cancellation of the principal and related interest by submitting an Application for Loan Cancellation through the Governor's Authorized Representative to the Regional Administrator prior to the expiration date of the loan.

(1) Financial information submitted with the application shall include the following:

(i) Annual Operating Budgets for the fiscal year of the disaster and the 3 subsequent fiscal years;

(ii) Annual Financial Reports (Revenue and Expense and Balance Sheet) for each of the above fiscal years. Such financial records must include copies of the local government's annual financial reports, including operating statements balance sheets and related consolidated and individual presentations for each fund account. In addition, the local government must include an explanatory statement when figures in the Application for Loan Cancellation form differ from those in the supporting financial reports.

(iii) The following additional information concerning annual real estate property taxes pertaining to the community for each of the above fiscal years:

(A) The market value of the tax base (dollars);

(B) The assessment ratio (percent);

(C) The assessed valuation (dollars);

(D) The tax levy rate (mils);

(E) Taxes levied and collected (dollars).

(iv) Audit reports for each of the above fiscal years certifying to the validity of the Operating Statements. The financial statements of the local government shall be examined in accordance with generally accepted auditing standards by independent certified public accountants. The report should not include recommendations concerning loan cancellation or repayment.

(v) Other financial information specified in the Application for Loan Cancellation.

(2) *Narrative justification.* The application may include a narrative presentation to amplify the financial material accompanying the application and to present any extenuating circumstances which the local government wants the Assistant Administrator for the Disaster Assistance Directorate to consider in rendering a decision on the cancellation request.

(d) *Determination.* (1) If, based on a review of the Application for Loan Cancellation and FEMA audit, when determined necessary, the Assistant Administrator for the Disaster Assistance Directorate determines that all or part of the Community Disaster Loan funds should be canceled, the principal amount which is canceled will become a grant, and the related interest will be forgiven. The Assistant Administrator for the Disaster Assistance Directorate's determination concerning loan cancellation will specify that any uncancelled principal and related interest must be repaid immediately and that, if immediate repayment will constitute a financial hardship, the local government must submit for FEMA review and approval, a repayment schedule for settling the indebtedness on timely basis. Such repayments must be made to the Treasurer of the United States and be sent to FEMA, Attention: Chief Financial Officer.

(2) A loan or cancellation of a loan does not reduce or affect other disaster-related grants or other disaster assistance. However, no cancellation may be made that would result in a duplication of benefits to the applicant.

(3) The uncancelled portion of the loan must be repaid in accordance with §206.367.

(4) *Appeals.* If an Application for Loan Cancellation is disapproved, in whole or in part, by the Assistant Administrator for the Disaster Assistance Directorate or designee, the local government may submit any additional information in support of the application within 60 days of the date of disapproval. The decision by the Assistant Administrator for the Disaster Assistance Directorate or designee on the submission is final.

[55 FR 2314, Jan. 23, 1990, as amended at 74 FR 15351, Apr. 3, 2009]

### §206.367 Loan repayment.

(a) *Prepayments.* The local government may make prepayments against loan at any time without any prepayment penalty.

(b) *Repayment.* To the extent not otherwise cancelled, Community Disaster Loan funds become due and payable in accordance with the terms and conditions of the Promissory Note. The note shall include the following provisions:

(1) The term of a loan made under this program is 5 years, unless extended by the Assistant Administrator for the Disaster Assistance Directorate. Interest will accrue on outstanding cash from the actual date of its disbursement by the Treasury.

(2) The interest amount due will be computed separately for each Treasury disbursement as follows: $I=P\times R\times T$, where I=the amount of simple interest, P=the principal amount disbursed; R=the interest rate of the loan; and, T=the outstanding term in years from the date of disbursement to date of repayment, with periods less than 1 year computed on the basis of 365 days/year. If any portion of the loan is cancelled, the interest amount due will be computed on the remaining principal with the shortest outstanding term.

(3) Each payment made against the loan will be applied first to the interest computed to the date of the payment, and then to the principal. Prepayments of scheduled installments, or any portion thereof, may be made at any time and shall be applied to the installments last to become due under the loan and shall not affect the obligation of the borrower to pay the remaining installments.

(4) The Assistant Administrator for the Disaster Assistance Directorate may defer payments of principal and interest until FEMA makes its final determination with respect to any Application for Loan Cancellation which the borrower may submit. However, interest will continue to accrue.

(5) Any costs incurred by the Federal Government in collecting the note shall be added to the unpaid balance of the loan, bear interest at the same rate as the loan, and be immediately due without demand.

(6) In the event of default on this note by the borrower, the FEMA claims collection officer will take action to recover the outstanding principal plus related interest under Federal debt collection authorities, including administrative offset against other Federal funds due the borrower and/or referral to the Department of Justice for judicial enforcement and collection.

(c) *Additional time.* In unusual circumstances involving financial hardship, the local government may request an additional period of time beyond the original 10 year term to repay the indebtedness. Such request may be approved by the Assistant Administrator for the Disaster Assistance Directorate subject to the following conditions:

(1) The local government must submit documented evidence that it has applied for the same credit elsewhere and that such credit is not available at a rate equivalent to the current Treasury rate.

(2) The principal amount shall be the original uncancelled principal plus related interest.

(3) The interest rate shall be the Treasury rate in effect at the time the new Promissory Note is executed but in no case less than the original interest rate.

(4) The term of the new Promissory Note shall be for the settlement period requested by the local government but not greater than 10 years from the date the new note is executed.

**§§ 206.368–206.369 [Reserved]**

**§ 206.370 Purpose and scope.**

(a) *Purpose.* Sections 206.370 through 206.377 provide procedures for local governments and State and Federal officials concerning the Special Community Disaster Loans program under section 417 of the Stafford Act (42 U.S.C. 5184), the Community Disaster Loan Act of 2005, Public Law 109–88, and the Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Hurricane Recovery, 2006, Public Law 109–234.

(b) *Scope.* Sections 206.370 through 206.377 apply only to Special Community Disaster Loans issued under the Community Disaster Loan Act of 2005, Public Law 109–88, and the Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Hurricane Recovery, 2006, Public Law 109–234.

[70 FR 60446, Oct. 18, 2005, as amended at 75 FR 2817, Jan. 19, 2010]

**§ 206.371 Loan program.**

(a) *General.* The Assistant Administrator for the Disaster Assistance Directorate may make a Special Community Disaster Loan to any local government which has suffered a substantial loss of tax and other revenues as a result of a major disaster and which demonstrates a need for Federal financial assistance in order to provide essential services.

(b) *Amount of loan.* The amount of the loan is based upon need, not to exceed 25 percent of the operating budget of the local government for the fiscal year in which the disaster occurs. The term fiscal year as used in this subpart means the local government's fiscal year.

(c) *Interest rate.* The interest rate is the rate for five year maturities as determined by the Secretary of the Treasury in effect on the date that the Promissory Note is executed. This rate is from the monthly Treasury schedule of certified interest rates which takes into consideration the current average yields on outstanding marketable obligations of the United States. If an applicant can demonstrate *unusual circumstances involving financial hardship,* the Assistant Administrator for the Disaster Assistance Directorate may approve a rate equal to the five year maturity rate plus 1 per centum, adjusted to the nearest ⅛ percent, and further reduced by one-half.

(d) *Time limitation.* The Assistant Administrator for the Disaster Assistance Directorate may approve a loan in either the fiscal year in which the disaster occurred or the fiscal year immediately following that year.

(e) *Term of loan.* The term of the loan is 5 years, unless otherwise extended by the Assistant Administrator for the Disaster Assistance Directorate. The Assistant Administrator for the Disaster Assistance Directorate may consider a request for an extension of a loan based on the local government's financial condition. The total term of any loan under section 417(a) of the Stafford Act normally may not exceed 10 years from the date the Promissory Note was executed. However, when extenuating circumstances exist and the recipient demonstrates an inability to repay the loan within the initial 10 years, but agrees to repay such loan

over an extended period of time, additional time may be provided for loan repayment (see §206.377(c)).

(f) *Use of loan funds.* The local government shall use the loaned funds to assist in providing essential services. The funds shall not be used to finance capital improvements nor the repair or restoration of damaged public facilities. Neither the loan nor any cancelled portion of the loans may be used as the non-Federal share of any Federal program, including those under the Stafford Act.

(g) *Relation to other assistance.* Any Special Community Disaster Loans including cancellations of loans made under this subpart shall not reduce or otherwise affect any commitments, grants, or other assistance provided under the authority of the Stafford Act or this part.

(h) *Cancellation.* The Director of the Public Assistance Division shall cancel repayment of all or part of a Special Community Disaster Loan to the extent that he/she determines that revenues of the local government during the three full fiscal years following the disaster are insufficient to meet the operating budget of that local government because of disaster-related revenue losses and additional unreimbursed disaster-related municipal operating expenses.

[70 FR 60446, Oct. 18, 2005, as amended at 75 FR 2817, Jan. 19, 2010]

### §206.372 Responsibilities.

(a) The local government shall submit the financial information required by FEMA in the application for a Community Disaster Loan or other format specified by FEMA and comply with the assurances on the application, the terms and conditions of the Promissory Note, the application for loan cancellation, if submitted, and §§206.370 through 206.377. The local government shall send all loan application, loan administration, loan cancellation, and loan settlement correspondence through the Governor's Authorized Representative (GAR) and the FEMA Regional Office to the Director of the Public Assistance Division.

(b) The GAR shall certify on the loan application that the local government can legally assume the proposed indebtedness and that any proceeds will be used and accounted for in compliance with the FEMA-State Agreement for the major disaster. States are encouraged to take appropriate pre-disaster action to resolve any existing State impediments which would preclude a local government from incurring the increased indebtedness associated with a loan in order to avoid protracted delays in processing loan application requests resulting from major disasters.

(c) The Regional Administrator or designee shall review each loan application or loan cancellation request received from a local government to ensure that it contains the required documents and transmit the application to the Director of the Public Assistance Division. He/she may also submit appropriate recommendations to the Director of the Public Assistance Division.

(d) The Director of the Public Assistance Division or a designee, shall execute a Promissory Note with the local government and shall administer the loan until repayment or cancellation is completed and the Promissory Note is discharged.

(e) The Director of the Public Assistance Division shall approve or disapprove each loan request, taking into consideration the information provided in the local government's request and the recommendations of the GAR and the Regional Administrator. The Director of the Public Assistance Division shall approve or disapprove a request for loan cancellation in accordance with the criteria for cancellation in these regulations.

(f) The FEMA Chief Financial Officer shall establish and maintain a financial account for each outstanding loan and disburse funds against the Promissory Note.

[70 FR 60446, Oct. 18, 2005, as amended at 75 FR 2818, Jan. 19, 2010]

### §206.373 Eligibility criteria.

(a) *Local government.* (1) The local government must be located within the area eligible for assistance under a major disaster declaration. In addition, State law must not prohibit the local government from incurring the indebtedness resulting from a Federal loan.

(2) Criteria considered by FEMA in determining the eligibility of a local government for a Special Community Disaster Loan include the loss of tax and other revenues as result of a major disaster, a demonstrated need for financial assistance in order to perform essential governmental functions, the maintenance of an annual operating budget, and the responsibility to provide essential services to the community. Eligibility for other assistance under the Stafford Act does not, by itself, establish entitlement to such a loan.

(b) *Loan eligibility*—(1) *General.* To be eligible, the local government must show that it may suffer or has suffered a substantial loss of tax and other revenues as a result of a major disaster or emergency, and it must demonstrate a need for financial assistance in order to provide essential municipal services. Loan eligibility is based on the financial condition of the local government and a review of financial information and supporting documentation accompanying the application.

(2) *Substantial loss of tax and other revenues.* The fiscal year of the disaster or the succeeding fiscal year is the base period for determining whether a local government may suffer or has suffered a substantial loss of revenue. Criteria used in determining whether a local government has or may suffer a substantial loss of tax and other revenue include the following disaster-related factors:

(i) Whether the disaster caused a large enough reduction in cash receipts from normal revenue sources, excluding borrowing, which affects significantly and adversely the level and/or categories of essential services provided prior to the disaster;

(ii) Whether the disaster caused a revenue loss of over 5 percent of total revenue estimated for the fiscal year in which the disaster occurred or for the succeeding fiscal year.

(3) *Demonstrated need for financial assistance.* The local government must demonstrate a need for financial assistance in order to perform essential governmental functions. The criteria used in making this determination may include some or all of the following factors:

(i) Whether there are sufficient funds to meet current fiscal year operating requirements;

(ii) Whether there is availability of cash or other liquid assets from the prior fiscal year;

(iii) Current financial condition considering projected expenditures for governmental services and availability of other financial resources;

(iv) Ability to obtain financial assistance or needed revenue from State and other Federal agencies for direct program expenditures;

(v) Debt ratio (relationship of annual receipts to debt service);

(vi) Displacement of revenue-producing business due to property destruction;

(vii) Necessity to reduce or eliminate essential services; and

(viii) Danger of municipal insolvency.

[70 FR 60446, Oct. 18, 2005]

### § 206.374 Loan application.

(a) *Application.* (1) The local government shall submit an application for a Special Community Disaster Loan through the GAR. The loan must be justified on the basis of need and shall be based on the actual and projected expenses, as a result of the disaster, for the fiscal year in which the disaster occurred and for the 3 succeeding fiscal years. The loan application shall be prepared by the affected local government and be approved by the GAR. FEMA has determined that a local government, in applying for a loan as a result of having suffered a substantial loss of tax and other revenue as a result of a major disaster, is not required to first seek credit elsewhere (see § 206.377(c)).

(2) The State exercises administrative authority over the local government's application. The State's review should include a determination that the applicant is legally qualified, under State law, to assume the proposed debt, and may include an overall review for accuracy of the submission. The GAR may request the Regional Administrator to waive the requirement for a State review if an otherwise eligible applicant is not subject to State administration authority and the State

cannot legally participate in the loan application process.

(b) *Financial requirements.* (1) The loan application shall be developed from financial information contained in the local government's annual operating budget (see paragraph (b)(2) of this section) and shall include a Summary of Revenue Loss and Unreimbursed Disaster-Related Expenses, a Statement of the Applicant's Operating Results—Cash Position, and certification and assurances requested by the Assistant Administrator for the Disaster Assistance Directorate.

(i) Copies of the local government's financial reports (Revenue and Expense and Balance Sheet) for the 3 fiscal years immediately prior to the fiscal year of the disaster and the applicant's most recent financial statement must, unless impracticable, accompany the application. The local government's financial reports to be submitted are those annual (or interim) consolidated and/or individual official annual financial presentations for the General Fund and all other funds maintained by the local government.

(ii) Each application for a Special Community Disaster Loan must also include:

(A) A statement by the local government identifying each fund (i.e. General Fund, etc.) which is included as its annual Operating budget, and

(B) A copy of the pertinent State statutes, ordinances, or regulations which prescribe the local government's system of budgeting, accounting and financial reporting, including a description of each fund account.

(2) *Operating budget.* For loan application purposes, the operating budget is that document or documents approved by an appropriating body, which contains an estimate of proposed expenditures, other than capital outlays for fixed assets for a stated period of time, and the proposed means of financing the expenditures. For loan cancellation purposes, FEMA interprets the term "operating budget" to mean actual revenues and expenditures of the local government as published in the official financial statements of the local government.

(3) *Operating budget increases.* Budget increases due to increases in the level of, or additions to, municipal services not rendered at the time of the disaster or not directly related to the disaster shall be identified.

(4) *Revenue and assessment information.* The applicant shall provide information concerning its method of tax assessment including assessment dates and the dates payments are due.

(5) *Estimated disaster-related expense.* Unreimbursed disaster-related expenses of a municipal operating character should be estimated.

(c) *Federal review.* (1) The Assistant Administrator for the Disaster Assistance Directorate or designee shall approve a Special Community Disaster Loan to the extent it is determined that the local government has suffered a substantial loss of tax and other revenues and demonstrates a need for financial assistance as the result of the disaster to provide essential municipal services.

(2) *Resubmission of application.* If a loan application is disapproved, in whole or in part, by the Assistant Administrator for the Disaster Assistance Directorate because of inadequacy of information, a revised application may be submitted by the local government within sixty days of the date of the disapproval. Decision by the Assistant Administrator for the Disaster Assistance Directorate on the resubmission is final.

(d) *Special Community Disaster Loan.* (1) The loan shall not exceed the lesser of:

(i) The amount of projected revenue loss plus the projected unreimbursed disaster-related expenses of a municipal operating character for the fiscal year of the major disaster and the subsequent 3 fiscal years, or

(ii) 25 percent of the local government's annual operating budget for the fiscal year in which the disaster occurred.

(2) *Promissory note.* (i) Upon approval of the loan by the Assistant Administrator for the Disaster Assistance Directorate or designee, he or she, or a designated Loan Officer will execute a Promissory Note with the applicant. The Note must be co-signed by the State (see paragraph (d)(2)(ii) of this section). The applicant should indicate

its funding requirements on the Schedule of Loan Increments on the Note.

(ii) If the State cannot legally cosign the Promissory Note, the local government must pledge collateral security, acceptable to the Assistant Administrator for the Disaster Assistance Directorate, to cover the principal amount of the Note. The pledge should be in the form of a resolution by the local governing body identifying the collateral security.

(e) *Waiver of requirements.* Notwithstanding any other provision of this or other sections promulgated pursuant to Public Law 109–88, the Assistant Administrator for the Disaster Assistance Directorate may, upon the request of an applicant or loan recipient, waive any specific application requirement or financial reporting requirement (see, e.g., § 206.375(a)(2)) upon a finding by the Assistant Administrator for the Disaster Assistance Directorate that the effects of the major disaster prevent the applicant from fulfilling the application requirement and that waiving the requirements would be consistent with the purposes of the Community Disaster Loan Act of 2005.

[70 FR 60446, Oct. 18, 2005, as amended at 75 FR 2818, Jan. 19, 2010]

### § 206.375 Loan administration.

(a) *Funding.* (1) FEMA will disburse funds to the local government when requested, generally in accordance with the Schedule of Loan Increments in the Promissory Note. As funds are disbursed, interest will accrue against each disbursement.

(2) When each incremental disbursement is requested, the local government shall submit a copy of its most recent financial report (if not submitted previously) for consideration by FEMA in determining whether the level and frequency of periodic payments continue to be justified. The local government shall also provide the latest available data on anticipated and actual tax and other revenue collections. Desired adjustments in the disbursement schedule shall be submitted in writing at least 10 days prior to the proposed disbursement date in order to ensure timely receipt of the funds.

(b) *Financial management.* (1) Each local government with an approved Special Community Disaster Loan shall establish necessary accounting records, consistent with local government's financial management system, to account for loan funds received and disbursed and to provide an audit trail.

(2) FEMA auditors, State auditors, the GAR, the Regional Administrator, the Assistant Administrator for the Disaster Assistance Directorate, the Department of Homeland Security Inspector General, and the Comptroller General of the United States or their duly authorized representatives shall, for the purpose of audits and examination, have access to any books, documents, papers, and records that pertain to Federal funds, equipments, and supplies received under §§ 206.370 through 206.377.

(c) *Loan servicing.* (1) The applicant annually shall submit to FEMA copies of its annual financial reports (operating statements, balance sheets, etc.) for the fiscal year of the major disaster, and for each of the 3 subsequent fiscal years.

(2) FEMA will review the loan periodically. The purpose of the reevaluation is to determine whether projected revenue losses, disaster-related expenses, operating budgets, and other factors have changed sufficiently to warrant adjustment of the scheduled disbursement of the loan proceeds.

(3) FEMA shall provide each loan recipient with a loan status report on a quarterly basis. The recipient will notify FEMA of any changes of the responsible municipal official who executed the Promissory Note.

(d) *Inactive loans.* If no funds have been disbursed from the loan program, and if the local government does not anticipate a need for such funds, the note may be cancelled at any time upon a written request through the State and Regional Office to FEMA.

[70 FR 60446, Oct. 18, 2005]

### § 206.376 Loan cancellation.

(a) FEMA shall cancel repayment of all or part of a Special Community Disaster Loan to the extent that the Director of the Public Assistance Division determines that revenues of the local government during the three-full-

fiscal-year period following the disaster are insufficient, as a result of the disaster, to meet the operating budget for the local government, including additional unreimbursed disaster-related expenses of a municipal operating character.

(b) *Definitions.* For loan cancellation purposes,

(1) "Operating budget" means actual revenues and expenditures of the local government as published in the official financial statements of the local government.

(2) "Revenue" means any source of income from taxes, fees, fines, and other sources of income, and will be recognized only as they become susceptible to accrual (measurable and available).

(3) "Three-full-fiscal-year period following the disaster" means either a 36-month period beginning on September 1, 2005, or the 36 months of the applicant's fiscal year as established before the disaster, at the applicant's discretion.

(4) "Operating expenses" means those expenses and expenditures incurred as a result of performing services, including salaries and benefits, contractual services, and commodities. Capital expenditures and debt service payments and capital leases are not considered operating expenses. Under accrual accounting, expenses are recognized as soon as a liability is incurred, regardless of the timing of related cash flows.

(c) *Revenue Calculation procedures.* (1) If the tax rates and other revenues or the tax assessment valuation of property which was not damaged or destroyed by the disaster are reduced during the three full fiscal years subsequent to the major disaster, the tax rates and other revenues and tax assessment valuation factors applicable to such property in effect at the time of the major disaster shall be used without reduction for purposes of computing revenues received.

(2) At the applicant's discretion, the three-full-fiscal-year period following the disaster is either a 36-month period beginning on September 1, 2005 or the 36 months of the applicant's fiscal year as established before the disaster. If the applicant's fiscal year is changed within the 36 months immediately following the disaster, the actual period will be modified so that the required financial data submitted covers an inclusive 36-month period. Should the applicant elect the 36-month period beginning September 1, 2005, FEMA will prorate the revenues and expenses for the partial years based on the applicant's annual financial statements.

(3) If the local government transfers funds from its operating funds accounts to its capital funds account, utilizes operating funds for other than routine maintenance purposes, or significantly increases expenditures which are not disaster related, except increases due to inflation, the annual operating budget or operating statement expenditures will be reduced accordingly for purposes of evaluating any request for loan cancellation.

(4) Notwithstanding paragraph (c)(3) of this section, the amount of property taxes that are transferred to other funds for Debt Service or Pension Obligations funding will not be excluded from the calculation of the operating budget or from expenditures in calculation of the operating deficit, to the extent that the property tax revenues in the General Fund are less than they were pre-disaster. FEMA will consider the impact of the loss of property tax revenue in Debt Service or Pension Funds (non-operating funds) if all of the following conditions are met:

(i) The entity experienced a loss of property tax revenue as a result of the disaster and the assessed value during the three years following the disaster, in the aggregate, is less than the pre-disaster assessed value;

(ii) the entity has a property tax cap limitation on the ability to raise property taxes post-disaster; and

(iii) the property taxes are levied through the General Operating Fund and transfers for obligations mandated by law are made to fund Debt Service or Pension Obligations which result in the entity experiencing a reduction of property tax revenues in the General Fund.

(5) It is not the purpose of this loan program to underwrite pre-disaster budget or actual deficits of the local government. Consequently, such deficits carried forward will reduce any

amounts otherwise eligible for loan cancellation.

(6) The provisions of this section apply to all Special Community Disaster loans issued from the dates of enactment of Public Law 109–88 and Public Law 109–234.

(d) *Disaster-related expenses of a municipal operation character.* (1) For purposes of this loan, unreimbursed expenses of a municipal operating character are those incurred for general government purposes, including but not limited to police and fire protection, trash collection, collection of revenues, maintenance of public facilities, flood and other hazard insurance.

(2) Disaster-related expenses *do not* include expenditures associated with debt service, any major repairs, rebuilding, replacement or reconstruction of public facilities or other capital projects, intragovernmental services, special assessments, and trust and agency fund operations. Disaster expenses which are eligible for reimbursement under project applications or other Federal programs are not eligible for loan cancellation.

(3) Each applicant shall maintain records including documentation necessary to identify expenditures for unreimbursed disaster-related expenses. Examples of such expenses include but are not limited to:

(i) Interest paid on money borrowed to pay amounts FEMA does not advance toward completion of approved Project Applications.

(ii) Unreimbursed costs to local governments for providing usable sites with utilities for mobile homes used to meet disaster temporary housing requirements.

(iii) Unreimbursed costs required for police and fire protection and other community services for mobile home parks established as the result of or for use following a disaster.

(iv) The cost to the applicant of flood insurance required under Public Law 93–234, as amended, and other hazard insurance required under section 311, Public Law 93–288, as amended, as a condition of Federal disaster assistance for the disaster under which the loan is authorized.

(4) The following expenses are not considered to be disaster-related for Special Community Disaster Loan purposes:

(i) The local government's share for assistance provided under the Stafford Act including flexible funding under section 406(c)(1) of the Act (42 U.S.C. 5172).

(ii) Improvements related to the repair or restoration of disaster public facilities approved on Project Applications.

(iii) Otherwise eligible costs for which no Federal reimbursement is requested as a part of the applicant's disaster response commitment, or cost sharing as specified in the FEMA–State Agreement for the disaster.

(iv) Expenses incurred by the local government which are reimbursed on the applicant's Project Application.

(e) *Cancellation application.* A local government which has drawn loan funds from the U.S. Treasury may request cancellation of the principal and related interest by submitting an Application for Loan Cancellation through the Governor's Authorized Representative to the Regional Administrator prior to the expiration date of the loan.

(1) Financial information submitted with the application shall include the following:

(i) Annual Operating Budgets for the fiscal year of the disaster and the three subsequent fiscal years;

(ii) Annual Financial Reports (Revenue and Expense and Balance Sheet) for each of the above fiscal years. Such financial records must include copies of the local government's annual financial reports, including operating statements and balance sheets and related consolidated and individual presentations for each fund account. In addition, the local government must include an explanatory statement when figures in the Application for Loan Cancellation form differ from those in the supporting financial reports.

(iii) The following additional information concerning annual real estate property taxes pertaining to the community for each of the above fiscal years:

(A) The market value of the tax base (dollars);

(B) The assessment ratio (percent);

(C) The assessed valuation (dollars);

(D) The tax levy rate (mils);
(E) Taxes levied and collected (dollars).

(iv) Audit reports for each of the above fiscal years certifying to the validity of the Operating Statements. The financial statements of the local government shall be examined in accordance with generally accepted auditing standards by independent certified public accountants. The report should not include recommendations concerning loan cancellation or repayment.

(v) Other financial information specified in the Application for Loan Cancellation.

(2) *Narrative justification.* The application may include a narrative presentation to supplement the financial material accompanying the application and to present any extenuating circumstances which the local government wants the Director of the Public Assistance Division to consider in rendering a decision on the cancellation request.

(f) *Determination.* (1) The Director of the Public Assistance Division will make a cancellation determination within 60 days of the date the applicant submits all required and requested information, including documentation in support of un-reimbursed disaster related expenses.

(2) If, based on a review of the Application for Loan Cancellation and FEMA audit, the Director of the Public Assistance Division determines that all or part of the Special Community Disaster Loan funds should be canceled, the amount of principal canceled and the related interest will be forgiven. The Director of the Public Assistance Division's determination concerning loan cancellation will specify that any uncancelled principal and related interest must be repaid in accordance with the terms and conditions of the Promissory Note, and that, if repayment will constitute a financial hardship, the local government must submit for FEMA review and approval, a repayment schedule for settling the indebtedness on a timely basis. Such repayments must be made to the Treasurer of the United States and be sent to FEMA, Attention: Office of the Chief Financial Officer.

(3) A loan or cancellation of a loan does not reduce or affect other disaster-related grants or other disaster assistance. However, no cancellation may be made that would result in a duplication of benefits to the applicant.

(4) The uncancelled portion of the loan must be repaid in accordance with § 206.377.

(5) *Appeals.* If an Application for Loan Cancellation is disapproved, in whole or in part, by the Director of the Public Assistance Division, the local government may submit any additional information in support of the application within 60 days of the date of disapproval. The decision by the Assistant Administrator for the Disaster Assistance Directorate on the additional information is final.

[75 FR 2818, Jan. 19, 2010]

### § 206.377 Loan repayment.

(a) *Prepayments.* The local government may make prepayments against loan at any time without any prepayment penalty.

(b) *Repayment.* To the extent not otherwise cancelled, loan funds become due and payable in accordance with the terms and conditions of the Promissory Note. The note shall include the following provisions:

(1) The term of a loan made under this program is 5 years, unless extended by the Assistant Administrator for the Disaster Assistance Directorate. Interest will accrue on outstanding cash from the actual date of its disbursement by FEMA or FEMA's designated Disbursing Agency.

(2) The interest amount due will be computed separately for each Treasury disbursement as follows: $I = P \times R \times T$, where I = the amount of simple interest, P = the principal amount disbursed; R = the interest rate of the loan; and, T = the outstanding term in years from the date of disbursement to date of repayment, with periods less than 1 year computed on the basis of 365 days/year. If any portion of the loan is cancelled, the interest amount due will be computed on the remaining principal with the shortest outstanding term.

(3) Each payment made against the loan will be applied first to the interest computed to the date of the payment,

and then to the principal. Prepayments of scheduled installments, or any portion thereof, may be made at any time and shall be applied to the installments last to become due under the loan and shall not affect the obligation of the borrower to pay the remaining installments.

(4) The Assistant Administrator for the Disaster Assistance Directorate may defer payments of principal and interest until FEMA makes its final determination with respect to any Application for Loan Cancellation which the borrower may submit. However, interest will continue to accrue.

(5) Any costs incurred by the Federal Government in collecting the note shall be added to the unpaid balance of the loan, bear interest at the same rate as the loan, and be immediately due without demand.

(6) In the event of default on this note by the borrower, the FEMA claims collection officer will take action to recover the outstanding principal plus related interest under Federal debt collection authorities, including administrative offset against other Federal funds due the borrower and/or referral to the Department of Justice for judicial enforcement and collection.

(c) *Additional time.* In unusual circumstances involving financial hardship, the local government may request an additional period of time beyond the original 10 year term to repay the indebtedness. Such request may be approved by the Assistant Administrator for the Disaster Assistance Directorate subject to the following conditions:

(1) The local government must submit documented evidence that it has applied for the same credit elsewhere and that such credit is not available at a rate equivalent to the current Treasury rate.

(2) The principal amount shall be the original uncancelled principal plus related interest less any payments made.

(3) The interest rate shall be the Treasury rate in effect at the time the new Promissory Note is executed but in no case less than the original interest rate. A reduced rate may not be applied if was it was not previously applied to the loan.

(4) The term of the new Promissory Note shall be for the settlement period requested by the local government but not greater than 10 years from the date the new note is executed.

[70 FR 60446, Oct. 18, 2005, as amended at 75 FR 2820, Jan. 19, 2010]

§§ 206.378–206.389 [Reserved]

## Subpart L—Fire Suppression Assistance

SOURCE: 55 FR 2316, Jan. 23, 1990, unless otherwise noted.

### § 206.390 General.

When the Assistant Administrator for the Disaster Assistance Directorate determines that a fire or fires threaten such destruction as would constitute a major disaster, assistance may be authorized, including grants, equipment, supplies, and personnel, to any State for the suppression of any fire on publicly or privately owned forest or grassland.

### § 206.391 FEMA-State Agreement.

Federal assistance under section 420 of the Act is provided in accordance with a continuing FEMA-State Agreement for Fire Suppression Assistance (the Agreement) signed by the Governor and the Regional Administrator. The Agreement contains the necessary terms and conditions, consistent with the provisions of applicable laws, Executive Orders, and regulations, as the Assistant Administrator for the Disaster Assistance Directorate may require and specifies the type and extent of Federal assistance. The Governor may designate authorized representatives to execute requests and certifications and otherwise act for the State during fire emergencies. Supplemental agreements shall be executed as required to update the continuing Agreement.

### § 206.392 Request for assistance.

When a Governor determines that fire suppression assistance is warranted, a request for assistance may be initiated. Such request shall specify in detail the factors supporting the request for assistance. In order that all actions in processing a State request are executed as rapidly as possible, the

State may submit a telephone request to the Regional Administrator, promptly followed by a confirming telegram or letter.

[55 FR 2318, Jan. 23, 1990, as amended at 74 FR 15352, Apr. 3, 2009]

### §206.393 Providing assistance.

Following the Assistant Administrator for the Disaster Assistance Directorate's decision on the State request, the Regional Administrator will notify the Governor and the Federal firefighting agency involved. The Regional Administrator may request assistance from Federal agencies if requested by the State. For each fire or fire situation, the State shall prepare a separate Fire Project Application based on Federal Damage Survey Reports and submit it to the Regional Administrator for approval.

### §206.394 Cost eligibility.

(a) *Cost principles.* See 44 CFR 13.22, Allowable Costs, and the associated OMB Circular A–87, Cost Principles for State and Local Governments.

(b) *Program specific eligible costs.* (1) Expenses to provide field camps and meals when made available to the eligible employees in lieu of per diem costs.

(2) Costs for use of publicly owned equipment used on eligible fire suppression work based on reasonable State equipment rates.

(3) Costs to the State for use of U.S. Government-owned equipment based on reasonable costs as billed by the Federal agency and paid by the State. Only direct costs for use of Federal Excess Personal Property (FEPP) vehicles and equipment on loan to State Forestry and local cooperators, can be paid.

(4) Cost of firefighting tools, materials, and supplies expended or lost, to the extent not covered by reasonable insurance.

(5) Replacement value of equipment lost in fire suppression, to the extent not covered by reasonable insurance.

(6) Costs for personal comfort and safety items normally provided by the State under field conditions for firefighter health and safety.

(7) Mobilization and demobilization costs directly relating to the Federal fire suppression assistance approved by the Assistant Administrator for the Disaster Assistance Directorate.

(8) Eligible costs of local governmental firefighting organizations which are reimbursed by the State pursuant to an existing cooperative mutual aid agreement, in suppressing an approved incident fire.

(9) State costs for suppressing fires on Federal land in cases in which the State has a responsibility under a cooperative agreement to perform such action on a nonreimbursable basis. This provision is an exception to normal FEMA policy under the Act and is intended to accommodate only those rare instances that involve State fire suppression of section 420 incident fires involving co-mingled Federal/State and privately owned forest or grassland.

(10) In those instances in which assistance under section 420 of the Act is provided in conjunction with existing Interstate Forest Fire Protection Compacts, eligible costs are reimbursed in accordance with eligibility criteria established in this section.

(c) *Program specific ineligible costs.* (1) Any costs for presuppression, salvaging timber, restoring facilities, seeding and planting operations.

(2) Any costs not incurred during the incident period as determined by the Regional Administrator other than reasonable and directly related mobilization and demobilization costs.

(3) State costs for suppressing a fire on co-mingled Federal land where such costs are reimbursable to the State by a Federal agency under another statute (see 44 CFR part 151).

### §206.395 Grant administration.

(a) Project administration shall be in accordance with 44 CFR part 13, and applicable portions of subpart G, 44 CFR part 206.

(b) In those instances in which reimbursement includes State fire suppression assistance on co-mingled State and Federal lands (§206.394(b)(9)), the Regional Administrator shall coordinate with other Federal programs to preclude any duplication of payments. (See 44 CFR part 151.)

(c) Audits shall be in accordance with the Single Audit Act of 1984, Pub. L. 98–502. (See subpart G of this part.)

(d) A State may appeal a determination by the Regional Administrator on any action related to Federal assistance for fire suppression. Appeal procedures are contained in 44 CFR 206.206.

**§§ 206.396–206.399 [Reserved]**

## Subpart M—Minimum Standards

SOURCE: 67 FR 8852, Feb. 26, 2002, unless otherwise noted.

**§ 206.400 General.**

(a) As a condition of the receipt of any disaster assistance under the Stafford Act, the applicant shall carry out any repair or construction to be financed with the disaster assistance in accordance with applicable standards of safety, decency, and sanitation and in conformity with applicable codes, specifications and standards.

(b) Applicable codes, specifications, and standards shall include any disaster resistant building code that meets the minimum requirements of the National Flood Insurance Program (NFIP) as well as being substantially equivalent to the recommended provisions of the National Earthquake Hazards Reduction Program (NEHRP). In addition, the applicant shall comply with any requirements necessary in regards to Executive Order 11988, Floodplain Management, Executive Order 12699, Seismic Safety of Federal and Federally Assisted or Regulated New Building Construction, and any other applicable Executive orders.

(c) In situations where there are no locally applicable standards of safety, decency and sanitation, or where there are no applicable local codes, specifications and standards governing repair or construction activities, or where the Regional Administrator determines that otherwise applicable codes, specifications, and standards are inadequate, then the Regional Administrator may, after consultation with appropriate State and local officials, require the use of nationally applicable codes, specifications, and standards, as well as safe land use and construction practices in the course of repair or construction activities.

(d) The mitigation planning process that is mandated by section 322 of the Stafford Act and 44 CFR part 201 can assist State and local governments in determining where codes, specifications, and standards are inadequate, and may need to be upgraded.

**§ 206.401 Local standards.**

The cost of repairing or constructing a facility in conformity with minimum codes, specifications and standards may be eligible for reimbursement under section 406 of the Stafford Act, as long as such codes, specifications, and standards meet the criteria that are listed at 44 CFR 206.226(d).

[74 FR 47482, Sept. 16, 2009]

**§ 206.402 Compliance.**

A recipient of disaster assistance under the Stafford Act must document for the Regional Administrator its compliance with this subpart following the completion of any repair or construction activities.

## Subpart N—Hazard Mitigation Grant Program

SOURCE: 55 FR 35537, Aug. 30, 1990, unless otherwise noted.

**§ 206.430 General.**

This subpart provides guidance on the administration of hazard mitigation grants made under the provisions of section 404 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5170c, hereafter Stafford Act, or the Act.

[59 FR 24356, May 11, 1994]

**§ 206.431 Definitions.**

*Activity* means any mitigation measure, project, or action proposed to reduce risk of future damage, hardship, loss or suffering from disasters.

*Applicant* means a State agency, local government, Indian tribal government, or eligible private nonprofit organization, submitting an application to the grantee for assistance under the HMGP.

*Enhanced State Mitigation Plan* is the hazard mitigation plan approved under 44 CFR part 201 as a condition of receiving increased funding under the HMGP.

*Grant application* means the request to FEMA for HMGP funding, as outlined in §206.436, by a State or tribal government that will act as grantee.

*Grant award* means total of Federal and non-Federal contributions to complete the approved scope of work.

*Grantee* means the government to which a grant is awarded and which is accountable for the use of the funds provided. The grantee is the entire legal entity even if only a particular component of the entity is designated in the grant award document. Generally, the State for which the major disaster is declared is the grantee. However, an Indian tribal government may choose to be a grantee, or it may act as a subgrantee under the State. An Indian tribal government acting as a grantee will assume the responsibilities of a "state", under this subpart, for the purposes of administering the grant.

*Indian Tribal government* means any Federally recognized governing body of an Indian or Alaska Native Tribe, band, nation, pueblo, village, or community that the Secretary of Interior acknowledges to exist as an Indian Tribe under the Federally Recognized Indian Tribe List Act of 1994, 25 U.S.C. 479a. This does not include Alaska Native corporations, the ownership of which is vested in private individuals.

*Local Mitigation Plan* is the hazard mitigation plan required of a local government acting as a subgrantee as a condition of receiving a project subgrant under the HMGP as outlined in 44 CFR 201.6.

*Standard State Mitigation Plan* is the hazard mitigation plan approved under 44 CFR part 201, as a condition of receiving Stafford Act assistance as outlined in §201.4.

*State Administrative Plan for the Hazard Mitigation Grant Program* means the plan developed by the State to describe the procedures for administration of the HMGP.

*Subgrant* means an award of financial assistance under a grant by a grantee to an eligible subgrantee.

*Subgrant application* means the request to the grantee for HMGP funding by the eligible subgrantee, as outlined in §206.436.

*Subgrantee* means the government or other legal entity to which a subgrant is awarded and which is accountable to the grantee for the use of the funds provided. Subgrantees can be a State agency, local government, private nonprofit organizations, or Indian tribal government as outlined in §206.433. Indian tribal governments acting as a subgrantee are accountable to the State grantee.

*Tribal Mitigation Plan* is the hazard mitigation plan required of an Indian Tribal government acting as a grantee or subgrantee as a condition of receiving a project grant or subgrant under the HMGP as outlined in 44 CFR 201.7.

[67 FR 8852, Feb. 26, 2002, as amended at 74 FR 47482, Sept. 16, 2009; 74 FR 60214, Nov. 20, 2009]

### §206.432 Federal grant assistance.

(a) *General.* This section describes the extent of Federal funding available under the State's grant, as well as limitations and special procedures applicable to each.

(b) *Amounts of Assistance.* The total Federal contribution of funds is based on the estimated aggregate grant amount to be made under 42 U.S.C. 5170b, 5172, 5173, 5174, 5177, and 5183 of the Stafford Act for the major disaster (less associated administrative costs), and shall be as follows:

(1) *Standard percentages.* Not to exceed 15 percent for the first $2,000,000,000 or less of such amounts; not to exceed 10 percent of the portion of such amounts over $2,000,000,000 and not more than $10,000,000,000; and not to exceed 7.5 percent of the portion of such amounts over $10,000,000,000 and not more than $35,333,000,000.

(2) *Twenty (20) percent.* A State with an approved Enhanced State Mitigation Plan, in effect before the disaster declaration, which meets the requirements outlined in §201.5 of this subchapter shall be eligible for assistance under the HMGP not to exceed 20 percent of such amounts, for amounts not more than $35.333 billion.

(3) The estimates of Federal assistance under this paragraph (b) shall be based on the Regional Administrator's estimate of all eligible costs, actual grants, and appropriate mission assignments.

(c) *Cost sharing.* All mitigation measures approved under the State's grant will be subject to the cost sharing provisions established in the FEMA-State Agreement. FEMA may contribute up to 75 percent of the cost of measures approved for funding under the Hazard Mitigation Grant Program for major disasters declared on or after *June 10,* 1993. FEMA may contribute up to 50 percent of the cost of measures approved for funding under the Hazard Mitigation Grant Program for major disasters declared before June 10, 1993. The nonFederal share may exceed the Federal share. FEMA will not contribute to costs above the Federally approved estimate.

[55 FR 35537, Aug. 30, 1990, as amended at 59 FR 24356, May 11, 1994; 67 FR 8853, Feb. 26, 2002; 67 FR 61515, Oct. 1, 2002; 69 FR 55097, Sept. 13, 2004; 72 FR 61750, Oct. 31, 2007; 74 FR 47482, Sept. 16, 2009]

### § 206.433 State responsibilities.

(a) *Grantee.* The State will be the Grantee to which funds are awarded and will be accountable for the use of those funds. There may be subgrantees within the State government.

(b) *Priorities.* The State will determine priorities for funding. This determination must be made in conformance with § 206.435.

(c) *Hazard Mitigation Officer.* The State must appoint a Hazard Mitigation Officer who serves as the responsible individual for all matters related to the Hazard Mitigation Grant Program.

(d) *Administrative plan.* The State must have an approved administrative plan for the Hazard Mitigation Grant Program in conformance with § 206.437.

[55 FR 35537, Aug. 30, 1990, as amended at 72 FR 61750, Oct. 31, 2007]

### § 206.434 Eligibility.

(a) *Applicants.* The following are eligible to apply for the Hazard Mitigation Program Grant:

(1) State and local governments;

(2) Private nonprofit organizations that own or operate a private nonprofit facility as defined in § 206.221(e). A qualified conservation organization as defined at § 80.3(h) of this chapter is the only private nonprofit organization eligible to apply for acquisition or relocation for open space projects;

(3) Indian tribes or authorized tribal organizations and Alaska Native villages or organizations, but not Alaska native corporations with ownership vested in private individuals.

(b) *Plan requirement.* (1) Local and Indian Tribal government applicants for project subgrants must have an approved local or Tribal Mitigation Plan in accordance with 44 CFR part 201 before receipt of HMGP subgrant funding for projects.

(2) Regional Administrators may grant an exception to this requirement in extraordinary circumstances, such as in a small and impoverished community when justification is provided. In these cases, a plan will be completed within 12 months of the award of the project grant. If a plan is not provided within this timeframe, the project grant will be terminated, and any costs incurred after notice of grant's termination will not be reimbursed by FEMA.

(c) *Minimum project criteria.* To be eligible for the Hazard Mitigation Grant Program, a project must:

(1) Be in conformance with the State Mitigation Plan and Local or Tribal Mitigation Plan approved under 44 CFR part 201; or for Indian Tribal governments acting as grantees, be in conformance with the Tribal Mitigation Plan approved under 44 CFR 201.7;

(2) Have a beneficial impact upon the designated disaster area, whether or not located in the designated area;

(3) Be in conformance with 44 CFR part 9, Floodplain Management and Protection of Wetlands, and 44 CFR *part 10, Environmental Considerations;*

(4) Solve a problem independently or constitute a functional portion of a solution where there is assurance that the project as a whole will be completed. Projects that merely identify or analyze hazards or problems are not eligible;

(5) Be cost-effective and substantially reduce the risk of future damage, hardship, loss, or suffering resulting from a major disaster. The grantee must demonstrate this by documenting that the project;

(i) Addresses a problem that has been repetitive, or a problem that poses a

significant risk to public health and safety if left unsolved,

(ii) Will not cost more than the anticipated value of the reduction in both direct damages and subsequent negative impacts to the area if future disasters were to occur,

(iii) Has been determined to be the most practical, effective, and environmentally sound alternative after consideration of a range of options,

(iv) Contributes, to the extent practicable, to a long-term solution to the problem it is intended to address,

(v) Considers long-term changes to the areas and entities it protects, and has manageable future maintenance and modification requirements.

(d) *Eligible activities*—(1) *Planning.* Up to 7% of the State's HMGP grant may be used to develop State, tribal and/or local mitigation plans to meet the planning criteria outlined in 44 CFR part 201.

(2) *Types of projects.* Projects may be of any nature that will result in protection to public or private property. Activities for which implementation has already been initiated or completed are not eligible for funding. Eligible projects include, but are not limited to:

(i) Structural hazard control or protection projects;

(ii) Construction activities that will result in protection from hazards;

(iii) Retrofitting of facilities;

(iv) Property acquisition or relocation, as defined in paragraph (e) of this section;

(v) Development of State or local mitigation standards;

(vi) Development of comprehensive mitigation programs with implementation as an essential component;

(vii) Development or improvement of warning systems.

(e) *Property acquisitions and relocation requirements.* Property acquisitions and relocation projects for open space proposed for funding pursuant to a major disaster declared on or after December 3, 2007 must be implemented in accordance with part 80 of this chapter. For major disasters declared before December 3, 2007, a project involving property acquisition or the relocation of structures and individuals is eligible for assistance only if the applicant enters into an agreement with the FEMA Regional Administrator that provides assurances that:

(1) The following restrictive covenants shall be conveyed in the deed to any property acquired, accepted, or from which structures are removed (hereafter called in section (d) the property):

(i) The property shall be dedicated and maintained in perpetuity for uses compatible with open space, recreational, or wetlands management practices; and

(ii) No new structure(s) will be built on the property except as indicated below:

(A) A public facility that is open on all sides and functionally related to a designated open space or recreational use;

(B) A rest room; or

(C) A structure that is compatible with open space, recreational, or wetlands management usage and proper floodplain management policies and practices, which the Administrator approves in writing before the construction of the structure begins.

(iii) After completion of the project, no application for additional disaster assistance will be made for any purpose with respect to the property to any Federal entity or source, and no Federal entity or source will provide such assistance.

(2) In general, allowable open space, recreational, and wetland management uses include parks for outdoor recreational activities, nature reserves, cultivation, grazing, camping (except where adequate warning time is not available to allow evacuation), temporary storage in the open of wheeled vehicles which are easily movable (except mobile homes), unimproved, previous parking lots, and buffer zones.

(3) Any structures built on the property according to paragraph (d)(1) of this section, shall be floodproofed or elevated to the Base Flood Elevation plus one foot of freeboard.

(f) *Duplication of programs.* Section 404 funds cannot be used as a substitute or replacement to fund projects or programs that are available under other Federal authorities, except under limited circumstances in which there are

extraordinary threats to lives, public health or safety or improved property.

(g) *Packaging of programs.* Section 404 funds may be packaged or used in combination with other Federal, State, local, or private funding sources when appropriate to develop a comprehensive mitigation solution, though section 404 funds cannot be used as a match for other Federal funds.

[55 FR 35537, Aug. 30, 1990, as amended at 59 FR 24356, May 11, 1994; 67 FR 8853, Feb. 26, 2002; 67 FR 61515, Oct. 1, 2002; 69 FR 55097, Sept. 13, 2004; 72 FR 61750, Oct. 31, 2007; 74 FR 47483, Sept. 16, 2009]

### § 206.435 Project identification and selection criteria.

(a) *Identification.* It is the State's responsibility to identify and select eligible hazard mitigation projects. All funded projects must be consistent with the State Mitigation Plan. Hazard Mitigation projects shall be identified and prioritized through the State, Indian tribal, and local planning process.

(b) *Selection.* The State will establish procedures and priorities for the selection of mitigation measures. At a minimum, the criteria must be consistent with the criteria stated in § 206.434(c) and include:

(1) Measures that best fit within an overall plan for development and/or hazard mitigation in the community, disaster area, or State;

(2) Measures that, if not taken, will have a severe detrimental impact on the applicant, such as potential loss of life, loss of essential services, damage to critical facilities, or economic hardship on the community;

(3) Measures that have the greatest potential impact on reducing future disaster losses;

(c) *Other considerations.* In addition to the selection criteria noted above, consideration should be given to measures that are designed to accomplish multiple objectives including damage reduction, environmental enhancement, and economic recovery, when appropriate.

[55 FR 35537, Aug. 30, 1990, as amended at 66 FR 8853, Feb. 26, 2002; 68 FR 63738, Nov. 10, 2003]

### § 206.436 Application procedures.

(a) *General.* This section describes the procedures to be used by the grantee in submitting an application for HMGP funding. Under the HMGP, the State or Indian tribal government is the grantee and is responsible for processing subgrants to applicants in accordance with 44 CFR part 13 and this part 206. Subgrantees are accountable to the grantee.

(b) *Governor's Authorized Representative.* The Governor's Authorized Representative serves as the grant administrator for all funds provided under the Hazard Mitigation Grant Program. The Governor's Authorized Representative's responsibilities as they pertain to procedures outlined in this section include providing technical advice and assistance to eligible subgrantees, and ensuring that all potential applicants are aware of assistance available and submission of those documents necessary for grant award.

(c) *Hazard mitigation application.* Upon identification of mitigation measures, the State (Governor's Authorized Representative) will submit its Hazard Mitigation Grant Program application to the FEMA Regional Administrator. The application will identify one or more mitigation measures for which funding is requested. The application must include a Standard Form (SF) 424, Application for Federal Assistance, SF 424D, Assurances for Construction Programs, if appropriate, and a narrative statement. The narrative statement will contain any pertinent project management information not included in the State's administrative plan for Hazard Mitigation. The narrative statement will also serve to identify the specific mitigation measures for which funding is requested. Information required for each mitigation measure shall include the following:

(1) Name of the subgrantee, if any;

(2) State or local contact for the measure;

(3) Location of the project;

(4) Description of the measure;

(5) Cost estimate for the measure;

(6) Analysis of the measure's cost-effectiveness and substantial risk reduction, consistent with § 206.434(c);

(7) Work schedule;

(8) Justification for selection;

(9) Alternatives considered;

(10) Environmental information consistent with 44 CFR part 9, Floodplain Management and Protection of Wetlands, and 44 CFR part 10, Environmental Considerations.

(d) *Application submission time limit.* The State's application may be amended as the State identifies and selects local project applications to be funded. The State must submit all local HMGP applications and funding requests for the purpose of identifying new projects to the Regional Administrator within 12 months of the date of disaster declaration.

(e) *Extensions.* The State may request the Regional Administrator to extend the application time limit by 30 to 90 day increments, not to exceed a total of 180 days. The grantee must include a justification in its request.

(f) *FEMA approval.* The application and supplement(s) will be submitted to the FEMA Regional Administrator for approval. FEMA has final approval authority for funding of all projects.

(g) *Indian tribal grantees.* Indian tribal governments may submit a SF 424 directly to the Regional Administrator.

[67 FR 8853, Feb. 26, 2002]

### §206.437 State administrative plan.

(a) *General.* The State shall develop a plan for the administration of the Hazard Mitigation Grant Program.

(b) *Minimum criteria.* At a minimum, the State administrative plan must include the items listed below:

(1) Designation of the State agency will have responsibility for program administration;

(2) Identification of the State Hazard Mitigation Officer responsible for all matters related to the Hazard Mitigation Grant Program.

(3) Determination of staffing requirements and sources of staff necessary for administration of the program;

(4) Establishment of procedures to:

(i) Identify and notify potential applicants (subgrantees) of the availability of the program;

(ii) Ensure that potential applicants are provided information on the application process, program eligibility and key deadlines;

(iii) Determine applicant eligibility;

(iv) Conduct environmental and floodplain management reviews;

(v) Establish priorities for selection of mitigation projects;

(vi) Process requests for advances of funds and reimbursement;

(vii) Monitor and evaluate the progress and completion of the selected projects;

(viii) Review and approve cost overruns;

(ix) Process appeals;

(x) Provide technical assistance as required to subgrantee(s);

(xi) Comply with the administrative and audit requirements of 44 CFR parts 13 and 206;

(xii) Provide quarterly progress reports to the Regional Administrator on approved projects.

(xiii) Determine the percentage or amount of pass-through funds for management costs provided under 44 CFR part 207 that the grantee will make available to subgrantees, and the basis, criteria, or formula for determining the subgrantee percentage or amount.

(c) *Format.* The administrative plan is intended to be a brief but substantive plan documenting the State's process for the administration of the Hazard Mitigation Grant Program and management of the section 404 funds. This administrative plan should become a part of the State's overall emergency response or operations plan as a separate annex or chapter.

(d) *Approval.* The State must submit the administrative plan to the Regional Administrator for approval. Following each major disaster declaration, the State shall prepare any updates, amendments, or plan revisions required to meet current policy guidance or changes in the administration of the Hazard Mitigation Grant Program. Funds shall not be awarded until the State administrative plan is approved by the FEMA Regional Administrator.

[55 FR 35537, Aug. 30, 1990, as amended at 55 FR 52172, Dec. 20, 1990; 72 FR 57875, Oct. 11, 2007; 74 FR 15352, Apr. 3, 2009]

### §206.438 Project management.

(a) *General.* The State serving as grantee has primary responsibility for project management and accountability of funds as indicated in 44 CFR

part 13. The State is responsible for ensuring that subgrantees meet all program and administrative requirements.

(b) *Cost overruns.* During the execution of work on an approved mitigation measure the Governor's Authorized Representative may find that actual project costs are exceeding the approved estimates. Cost overruns which can be met without additional Federal funds, or which can be met by offsetting cost underruns on other projects, need not be submitted to the Regional Administrator for approval, so long as the full scope of work on all affected projects can still be met. For cost overruns which exceed Federal obligated funds and which require additional Federal funds, the Governor's Authorized Representative shall evaluate each cost overrun and shall submit a request with a recommendation to the Regional Administrator for a determination. The applicant's justification for additional costs and other pertinent material shall accompany the request. The Regional Administrator shall notify the Governor's Authorized Representative in writing of the determination and process a supplement, if necessary. All requests that are not justified shall be denied by the Governor's Authorized Representative. In no case will the total amount obligated to the State exceed the funding limits set forth in § 206.432(b). Any such problems or circumstances affecting project costs shall be identified through the quarterly progress reports required in paragraph (c) of this section.

(c) *Progress reports.* The grantee shall submit a quarterly progress report to FEMA indicating the status and completion date for each measure funded. Any problems or circumstances affecting completion dates, scope of work, or project costs which are expected to result in noncompliance with the approved grant conditions shall be described in the report.

(d) *Payment of claims.* The Governor's Authorized Representative shall make a claim to the Regional Administrator for reimbursement of allowable costs for each approved measure. In submitting such claims the Governor's Authorized Representative shall certify that reported costs were incurred in the performance of eligible work, that the approved work was completed and that the mitigation measure is in compliance with the provisions of the FEMA-State Agreement. The Regional Administrator shall determine the eligible amount of reimbursement for each claim and approve payment. If a mitigation measure is not completed, and there is not adequate justification for noncompletion, no Federal funding will be provided for that measure.

(e) *Audit requirements.* Uniform audit requirements as set forth in 44 CFR part 13 apply to all grant assistance provided under this subpart. FEMA may elect to conduct a Federal audit on the disaster assistance grant or on any of the subgrants.

[55 FR 35537, Aug. 30, 1990, as amended at 74 FR 15352, Apr. 3, 2009]

### § 206.439 Allowable costs.

(a) General requirements for determining allowable costs are established in 44 CFR 13.22. Exceptions to those requirements as allowed in 44 CFR 13.4 and 13.6 are explained in paragraph (b) of this section.

(b) Administrative and management costs for major disasters will be paid in accordance with 44 CFR part 207.

(c) *Pre-award costs.* FEMA may fund eligible pre-award planning or project costs at its discretion and as funds are available. Grantees and subgrantees may be reimbursed for eligible pre-award costs for activities directly related to the development of the project or planning proposal. These costs can only be incurred during the open application period of the grant program. Costs associated with implementation of the activity but incurred prior to grant award are not eligible. Therefore, activities where implementation is initiated or completed prior to award are not eligible and will not be reimbursed.

[72 FR 57875, Oct. 11, 2007, as amended at 72 FR 61750, Oct. 31, 2007]

### § 206.440 Appeals.

An eligible applicant, subgrantee, or grantee may appeal any determination previously made related to an application for or the provision of Federal assistance according to the procedures below.

(a) *Format and Content.* The applicant or subgrantee will make the appeal in writing through the grantee to the Regional Administrator. The grantee shall review and evaluate all subgrantee appeals before submission to the Regional Administrator. The grantee may make grantee-related appeals to the Regional Administrator. The appeal shall contain documented justification supporting the appellant's position, specifying the monetary figure in dispute and the provisions in Federal law, regulation, or policy with which the appellant believes the initial action was inconsistent.

(b) *Levels of Appeal.* (1) The Regional Administrator will consider first appeals for hazard mitigation grant program-related decisions under subparts M and N of this part.

(2) The Assistant Administrator for the Mitigation Directorate will consider appeals of the Regional Administrator's decision on any first appeal under paragraph (b)(1) of this section.

(c) *Time Limits.* (1) Appellants must make appeals within 60 days after receipt of a notice of the action that is being appealed.

(2) The grantee will review and forward appeals from an applicant or subgrantee, with a written recommendation, to the Regional Administrator within 60 days of receipt.

(3) Within 90 days following receipt of an appeal, the Regional Administrator (for first appeals) or Assistant Administrator for the Mitigation Directorate (for second appeals) will notify the grantee in writing of the disposition of the appeal or of the need for additional information. A request by the Regional Administrator or Assistant Administrator for the Mitigation Directorate for additional information will include a date by which the information must be provided. Within 90 days following the receipt of the requested additional information or following expiration of the period for providing the information, the Regional Administrator or Assistant Administrator for the Mitigation Directorate will notify the grantee in writing of the disposition of the appeal. If the decision is to grant the appeal, the Regional Administrator will take appropriate implementing action.

(d) *Technical Advice.* In appeals involving highly technical issues, the Regional Administrator or Assistant Administrator for the Mitigation Directorate may, at his or her discretion, submit the appeal to an independent scientific or technical person or group having expertise in the subject matter of the appeal for advice or recommendation. The period for this technical review may be in addition to other allotted time periods. Within 90 days of receipt of the report, the Regional Administrator or Assistant Administrator for the Mitigation Directorate will notify the grantee in writing of the disposition of the appeal.

(e) *Transition.* (1) This rule is effective for all appeals pending on and appeals from decisions issued on or after May 8, 1998, except as provided in paragraph (e)(2) of this section.

(2) Appeals pending from a decision of an Assistant Administrator for the Mitigation Directorate before May 8, 1998 may be appealed to the Administrator in accordance with 44 CFR 206.440 as it existed before May 8, 1998.

(3) The decision of the FEMA official at the next higher appeal level shall be the final administrative decision of FEMA.

## INSTRUCTIONS

Items on the Resource Request form that are not specifically listed are self-explanatory. *Indicate "see attached" in any field for which additional* space or more information is required.

I. Who is requesting assistance? Completed by requestor.

II. What needs to be done? Completed by requestor.

Description of Requested Assistance: Detail of resource shortfalls, statement of deliverable, or simply state problem/need.

Priority: The requestor's priority, which may differ from the priority in BOX III.

Site POC: The person at the delivery site coordinating reception and utilization of the requested resources. 24-hour contact information required.

If for Direct Federal Assistance (DFA), State Approving Official: Signature certifies that:

(1) State and local governments cannot perform, nor contract for the performance of the requested work;
(2) Work is required as a result of the event, not a pre-existing condition; and
(3) The State is providing the required assurances found in 44 CFR, Section 206.208.

III. Action Review/Coordination (OPS Section Use Only): Completed by the Operations Section Chief or Resource Capability Branch Director.

Accept/Reject: Operations Section Chief or Resource Capability Branch Director accepts or rejects the request; provide reason if rejection. If request accepted, coordinates with others, i.e., Branch Directors or Group Supervisors, begins to determine best means of fulfilling request. All involved in coordination should check appropriate box and initial or print their name.

Assigned to: Operations Section Chief or Resource Capability Branch Director assigns tasks origination, may indicate the OFA Action Officer. Operations Section Chief may also indicate the Action Officer if known, or tasked organization may make this assignment. This may be Emergency Support Function, internal FEMA Organization (i.e.; Logistics), or other organization.

Date/Time Assigned: Operations Section Chief or Resource Capability Branch Director provides date and time of when sourcing should begin.

IV. Statement of Work (OPS Section Use Only): Completed by the Operations Section Chief or Resource Capability Branch Director.

OFA Action Officer: Ops Section Chief obtains from OFA if request fulfilled by a MA; 24-hr phone/fax required. Information used in eCAPS.

FEMA Project Manager: Provided by Operations Section Chief; a Region PFT; 24-hr phone/fax required. Information used in eCAPS.

Statement of Work: Description of tasks to be performed. Could be to assess a problem and report back, or could be to proceed with a specific action. If 40-1 or MA, this goes in "justification" tab in eCAPS.

V. Action Taken (OPS Section Use Only): Completed by Operations Section Chief, Resource Capability Branch Director, MA Unit or Logistics.

Resource Request Results: Ops Section Chief, Resource Support Section Chief, MA Unit, or LOG should note what type of document the action resulted in by "checking" the appropriate box i.e., Mutual Aid, Donations, Requisition, Procurement, IA, MA, Other. If "Other" is selected write in appropriate response or state "see below" and give detail description in "Disposition" field. "Disposition" field should note steps taken to complete the Action, and personnel, sub-tasked agencies, contracts and other resources utilized.

TRACKING INFORMATION. Completed by Action Tracker. Required for all requests.

**Recommended changes to the Welcome Mat: (Replace all reference to TYGA boxes as Orange Crates)**

**Let's Get Started!**

Make sure all of your office items are near your work area.

Unpack orange crates and place the empty ones in the designated area.

**UNPACKING (instead of TYGA Boxes/Crates)**

All orange crates must be unpacked by February 4th and placed in the designated area. The crates are rented and must be returned as soon as possible to avoid unnecessary cost.

**MAIL PROCEDURES**

EMHSD will now be incorporated into the Departmental Mail delivery system.

Staff should place their mail in the designated area within the EMHSD Mail Room. Outgoing mail will be picked up between 8:30 a.m. and 9 a.m. and again between 12 p.m. and 1 p.m. daily.

Incoming mail should be directed to PO Box 30634, Lansing, MI 48909 while packages should be addressed to 7150 Harris Drive, Dimondale, MI 48821.

**OFFICE SUPPLIES/PRINTING**

Office supplies, printers, scanners and fax machines are located within EMHSD designated areas for your use. (Refer to floor drawing on reverse side). These areas are designed to support your daily work needs. You will find shredding and recycling bins in these areas as well.

**CONFERENCE ROOMS**

Conference rooms within the division are available and can be reserved online through Outlook using the same process as used previously. Additional building conference rooms will be distributed as soon as they are known to be available.

| | |
|---|---|
| MSP-EMHSD-MI-Ready-Huddle-Room@ | Capacity = 8 |
| MSP-EMHSD-Great-Lakes-Conference-Room@ | Capacity = 10 |
| MSP-EMHSD-Mackinac-Conference-Room@ | Capacity = 8 |
| MSP-EMHSD-Donald-S-Leonard-Conference-Room@ | Capacity = 10 |

MSP-EMHSD-PEM-of-the-Year-Conference-Room@ Capacity = 10

***NOTE: The Donald S. Leonard and PEM of the Year can be combined to accommodate 20.***

**PHONES**

Please find printed instructions for your new phones on your desk. Pam Strobel, Malyssa Suarez and Don Bouffard have been through training and can assist you.

I AM CONCERNED ABOUT THE POST MOVE SUPPORT CENTER, SHOULD WE NEED TO USE THE SEOCD EXTERNAL AFFAIRS ROOM 1A-085 FOR ACTIVATION NEEDS.

**Recommended changes to the Welcome Mat: (Replace all reference to TYGA boxes as Orange Crates)**

**Let's Get Started!**

Make sure all of your office items are near your work area.

Unpack your orange crates and place the empty ones in the designated area.

**UNPACKING (instead of TYGA Boxes/Crates)**

All orange crates must be unpacked by February 4th and placed in the designated area. The crates are rented and must be returned as soon as possible to avoid unnecessary cost.

**MAIL PROCEDURES**

EMHSD will now be incorporated into the Departmental Mail delivery system.

Staff should place their mail in the designated area within the EMHSD Mail Room. Outgoing mail will be picked up between 8:30 a.m. and 9 a.m. and again between 12 p.m. and 1 p.m. daily.

# Water Resource Team: Concept of Operations and Support

**Goal:** Increase the number of households served per day by the Water Resource Teams through scalable resource optimization

**How:** Standardize and Support

1. Standardize the team composition and resource requirements
2. Provide end to end support to the Water Resource Teams

**Concept of Operations and Support**

1. Planning & Prioritization
    a. Plan Components
        i. Team Type: Mission, Resources (Vehicles, Members) Product
        ii. Priority: Wards/Precincts
    b. Accountable: SEOC Recovery Branch Director
    c. Approval: State EM Director
2. Resource Support
    a. Resource Components
        i. Vehicles
        ii. Product
        iii. Personnel
        iv. Lunch
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Logistics, SEOC Warehouse, American Red Cross Volunteer Resource Center
3. Execution
    a. Water Resource Team Daily Distribution
    b. Accountable: MSP
    c. Responsible: MSP Water Resource Commander, American Red Cross OIC
4. Execution Support
    a. Team Replenishment
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Warehouse
5. Reporting
    a. Distribution Reporting
    b. Accountable: MSP Water Resource Commander
    c. Responsible: All Water Resource Teams

**Team Typing**

| | Mission # of Households (HH) | Truck | Truck Driver | Team Members | Chase Vehicle (s) | Chase Driver (s) |
|---|---|---|---|---|---|---|
| Type I | 500 HH | 1 - 24' | 1 | 10-20 | 1+ | 1+ |
| Type II | 400 HH | 1 - 18' | 1 | 8-16 | 1+ | 1+ |
| Type III | 300 HH | 1 16' ft | 1 | 6-9 | 1+ | 1+ |
| Type IV | 200 HH | 1 14' ft | 1 | 4-8 | 1+ | 1+ |
| Type V | 100 HH | 1 ERV | 1 | 2-4 | 1+ | 1+ |

**Distribution Kit per Household**

| | |
|---|---|
| Door Hanger | 1 |
| Water, case | 1 |
| Filter* | 1 |
| Test Kit | 1 |
| Replacement Filters | 1 |

*If filter doesn't fit then distribute

| | |
|---|---|
| Pitcher* | 1 |

# Water Resource Team Plan for Saturday, 01.16.16_V2.0_FINAL

| | | |
|---|---|---|
| **Water Resource Team Commander** | Lt. Paul Pummil | |
| **Red Cross OIC** | Robert Gaskill-Clemons | |
| **Warehouse** | Shawn Scott-Fitzgerald | |

**Plan**

| Agency | Team Types | Mission | Wards |
|---|---|---|---|
| MSP | 10 Type III | 3000 HH | Refer to Target Area Prioritization Map |
| Red Cross | 10 Type V | 1000 HH | Refer to Target Area Prioritization Map |

**Resource Status**

| Team Type & Quantity | Type: Type III Quantity: 10 | | | | |
|---|---|---|---|---|---|
| **Resource** | **Required** | **Confirmed** | **Notes** | **Date** | **Time** |
| 16ft trucks | 10 | [redacted] | | 01.15.16 | 2330 |
| Truck Drivers | 10 | [redacted] | | 01.15.16 | 2330 |
| *Volunteers* | 60-90 | [redacted] | | 01.15.16 | 2330 |
| Chase Vehicle for 6-9 people | 10 | [redacted] | | 01.15.16 | 2330 |
| Chase Vehicle Drivers (volunteers) | 10 | [redacted] | | 01.15.16 | 2330 |
| iPads (2 per team) | 20 | [redacted] | | 01.15.16 | 2330 |
| Product Each | 3000 | [redacted] | | 01.15.16 | 2330 |

| Team Type & Quantity | Type: Type V Quantity: 10 | | | | |
|---|---|---|---|---|---|
| **Resource** | **Required** | **Confirmed** | **Notes** | **Date** | **Time** |
| ERV | 10 | [redacted] | | 01.15.16 | 2330 |
| Truck Drivers | 10 | [redacted] | | 01.15.16 | 2330 |
| Volunteers | 20-40 | [redacted] | | 01.15.16 | 2330 |
| Chase Vehicle for 2-4 people | 10 | [redacted] | | 01.15.16 | 2330 |
| Chase Vehicle Drivers (volunteers) | 10 | [redacted] | | 01.15.16 | 2330 |
| iPads (2 per team) | 20 | [redacted] | | 01.15.16 | 2330 |
| Product Each | 1000 | [redacted] | | 01.15.16 | 2330 |

**Execution:**

| Team | Assembly Area | Hours of Operation | |
|---|---|---|---|
| MSP | LEOC<br>1101 Beach St, Flint | 0900-1700 | |
| ARC | ARC<br>1401 S Grand Traverse St, Flint | 0730-Dusk | |
| Warehouse | 4315 North Clio Road, Flint | 0700-1900 | |

**Critical Task:** Assemble, coordinate, and monitor Water Resource Teams (WRT)
**Tactics:**

1. Assign team leaders, team members, and routes to teams
2. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety briefings
3. Issue boxed lunch if available
4. Issue vest and badge to team members
5. Provide training to new team members
6. Conduct post-deployment debrief with team leaders and members
7. Collect vest and badge from team members

**Sample Script for Team Members:**

*We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.*

***Execution Support:***

**Product Replenishment Process:**

| Team | Replenishment Trigger | Replenishment Location | Process |
|---|---|---|---|
| MSP | 100 Distribution Kits Remaining | Distribution Route: exact location determined by Team Leader | 1. Contact warehouse to request replenishment truck<br>2. Coordinate replenishment location with warehouse<br>3. Exchange replenishment truck with empty truck |
| ARC | 0 Distribution Kits Remaining | Clio Warehouse | Replenish ERV at warehouse |

**Warehouse**

**Tactics:**

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix

**Lunch**

MSP WRTs will be issued lunch prior to team departure if available. If not, WRTs will return to LEOC to receive lunch

**Reporting:**

**Tactics:**

1. All WRTs will utilize ipads as primary reporting method and paper tracking as seconday method if ipads fail

**Target Area Prioritization Map**

1. Situation:

There are 45,000 active water meters in the impacted area
As of 2130 on 01.13.16 17, 276 households have received water filters
**MAP**

2. *Mission Statement:*

Ensure all households within the impacted area have the required resources

3. Execution
   a. Commander's Intent
      i. Distribute filters and additional resources to all impacted households within 5 days. The priority of effort is the Fixed Points of Distribution (PODs).
   b. Concept of Operations
      i. Distribution of resources will be conducted using 4 methods: Fixed PODs, Mobile Distribution Teams, Rapid Response Distributions, and Local Partner Distributions.
      ii. Tasks
         i. Fixed PODs
            1. Red Cross will staff all sites through ~~XXX~~1/14
            2. Red Cross will conduct transition brief with Michigan National Guard on ~~XXX~~1/15
            3. Michigan National Guard will assume staffing responsibility as of ~~XXX~~1/15
         ii. *Mobile Distribution is being conducted via Water ~~Resource~~ Response Teams*
            1. Recovery Branch Support will determine Water ~~Resource~~ Response Team composition, standards, resource requirements, and priority areas for distribution
            2. Michigan State Police will provide command and control (assemble, coordinate, monitor) of Water ~~Resource~~ Response Teams
         iii. Rapid Response Distributions
            1. Local EOC Operations Section Chief/District Coordinator will approve partner requests for distribution support
            2. Local EOC Operations Logistics will execute Rapid Response Distributions
         iv. Local Partner Distributions
            1. Local EOC Operations Section Chief/District Coordinator will approve partner requests for distribution support
            2. **XXX** will execute partner requests for distribution support
   c. Coordinating Instructions
      i. Fixed PODs are located at 5 fire stations.
         i. POD Locations

| | | |
|---|---|---|
| Water Resource Site Fire Station 1 | 310 East Fifth, Flint, MI 48502 | 0900-2100 |
| Water Resource Site Fire Station 3 | 1525 Martin Luther King Ave. Flint, MI 48503 | 0900-2100 |
| Water Resource Site Fire Station 5 | 3402 Western Rd, Flint, MI | 0900-2100 |
| Water Resource Site Fire Station 6 | 716 West Pierson Rd, Flint, MI | 0900-2100 |

| | | |
|---|---|---|
| | 48505 | |
| Water Resource Site Fire Station 8 | 202 East Atherton, Flint, MI 48507 | 0900-2100 |

2. POD Product Composition
    1. **NEED FROM SHAWN**

ii. Mobile Distribution is being conducted via Water ~~Resource~~ Response Teams
    1. **Assembly area**
    2. ***Mission Ready Packets***

iii. Rapid Response Distributions
    1. **NEED PROCESS FROM MICHELLE**

iv. Local Partner Distributions
    1. **NEED PROCESS FROM MICHELLE**

d. Concept of Support
    i. Resourcing support for all distribution methods will be provided via a consolidated logistics pipeline. Replenishment will be conducted automatically and on demand. Reception, Staging, and Onward Integration (RSOI) of material resources will be managed via a warehouse system and RSOI of personnel resources will be managed via a Volunteer Reception Center and XXX (State Employees)
    ii. Tasks
        1. SEOC Logistics Section Chief is accountable for resourcing support for all distribution methods and maintaining end to end visibility of all resources requests
        2. *SEOC Logistics Order Unit~~Support~~ Staff is accountable for maintaining the* Pipeline Report to ensure accurate resource tracking
        3. Red Cross Warehouse Managers will provide warehouse management and are accountable to the SEOC Logistics Section Chief
        ~~3.~~4. SEOC Planning Resources Unit is responsible for tracking resources that are deployed.
        4. Red Cross will manage the Volunteer Reception Center in coordination w/ local EOC
        5. Local EOC Logistics will provide logistics support to the Rapid Response Distributions

    iii. Warehouse System
        1. Currently operating 3 locations with intent to consolidate to single, central location

| Name | Location | Hours of Operation | POC |
|---|---|---|---|
| GCARD | 2727 Lippincott, Flint , MI | | Shawn |
| Clio | 4315 North Clio Road, Flint, MI | Somehow mark this as the final warehouse were | John Foust |

| | | | |
|---|---|---|---|
| | | everything will go??? | |
| Court | 3086 East Court Street | | John Foust |

iv. Volunteer Reception Center
   1. 1 location managed by American Red Cross
   2. The volunteer intake process takes 20-30 minutes.

| Name | Location | Hours of Operation | POC |
|---|---|---|---|
| American Red Cross | 1401 S Grand Traverse<br>Flint, Mi 48503 | 0900-1900 | |

v. Resource Request and Tracking Process
   1. Pipeline Report
   2. ~~https://goo.gl/G31kyJhttps://docs.google.com/spreadsheets/d/1wXVQvQ2IJ6N_ORpo8bvt8IEQJrDxkyoPg_EjZRtNepg/edit?usp=sharing~~
   2. All resource requests and offers of support (people, product, facilities, vehicles, etc) will be entered into MI CIMS as a resource request to the SEOC Logistic Section Chief.
   3. The SEOC Logistic Section Chief will task it out to the State or Volunteer Agency that can fill that request or procure as necessary
   4. All resource requests and offers of support will be tracked and monitored via the Pipeline report (Google docs collaboration document)
   5. Warehouse inventories will be sent to the SEOC Logistic Section Chief daily at 1800 and incorporated into the Pipeline report
   6. *Volunteer Workforce Request for Volunteer Reception Center*
      1. REQUIRED INFORMATION:
         i. Who is the Point Of Contact?
         ii. Who is the supervisor?
         iii. Where do volunteers report?
         iv. What Dates are volunteers needed?
         v. What times are volunteers needed?
         vi. How many volunteers are needed?
         vii. Who is providing transportation for the volunteers?
         viii. Who is providing meals, snacks and beverages?
         ix. Are there any qualifications needed?
         x. IMPORTANT NOTE:
            - *Brief job description is required*
            - The requestor of the volunteers must understand they assume responsibility for the volunteer's safety and the volunteer's actions.
            - The requestor of the volunteers are responsible for managing and providing direction.
            - *48 hour advance notification required for request.*
            - Reasonable expectations of the volunteer workforce

2. POD inventory will be provided to local EOC or SEOC Planning resource unit (this needs to be determined) hourly

Formatted

3. POD distribution report provided to local EOC or SEOC Planning resource unit (this needs to be determined) at 1200 and 1800. (This is a list of equipment that has been taken off the trucks and put in the PODs).
4. Fixed PODs, SEOC Planning resource unit needs to know total staff from each agency for tracking at 1000 each day.
5. Mobile Distribution is being conducted via Water Response Teams, SEOC Planning resource unit needs to know total staff from each agency for tracking at 1000 each day.
6. Mobile Distribution is being conducted via Water Response Teams, SEOC Planning resource unit needs to know amounts that have been distributed for tracking at 1800 each day.
7. Rapid Response Distributions, SEOC Planning resource unit needs to know amounts that have been distributed for tracking at 1800 each day.
8. Local Partner Distributions, SEOC Planning resource unit needs to know amounts that have been distributed for tracking at 1800 each day.
9.

## Strobel, Pamela (MSP)

**From:** Info, Nsf <info@nsf.org>
**Sent:** Tuesday, January 12, 2016 9:13 AM
**To:** MSP-EOC-MDEQ
**Subject:** RE: Flint Water Contamination Response - NSF Filer Verification

Dear Ms. Wolf,
Thank you for contacting NSF International. Dupont does not have certification for water filters with NSF International.
For reference, here are the filters and RO systems that are NSF certified for lead reduction:
Pour Through Water Pitchers
Faucet Mounted Filters
Under Sink Filters
Reverse Osmosis

*If you need additional information or have further questions, please let me know.*
Thank you for your inquiry.

Kind regards,
Mindy Costello RS MS

**Subject:** Flint Water Contamination Response - NSF Filer Verification
**Importance:** High

*Hello,*

I am seeking verification that the following filters are NSF Certified.

***DUPONT***

| Inventory | THD SKU | Description | Model | Retail |
|---|---|---|---|---|
| 6,999 | 1001599556 | Prem Faucet Mount Chrome | WFFM100XCH | 17.16 |
| 498 | 1001599571 | Horizontal Faucet Mt/Chrome | WFFM300XCH | 18.12 |
| 9,999 | 1001599632 | Horizontal Faucet Mt/White | WFFM100XW | 17.58 |
| 15,000 | 1001599633 | HP Faucet Mount Cartridge | WFFMC100X | 8.07 |
| 3,000 | 1001599637 | 3 pk-HP Faucet Mount Cartridge | WFFMC103X | 20.83 |

I need this as soon as possible.

Thank you!
*F/Lt. Jen Wolf*

- MSP/Shift
-

-

11 teams - Red
5-6 teams - BLK/Blue

1/20/16 - 6 crew teams 25-30 - planning
1/21/16 - 40-50 teams planning

- test Kits - Name Shown up -
Corrections - back & forth
- Cut bottles - send to Red Cross for assembly -
back to warehouse - Put Box truck for

- Red Cross - Dave Su

- Jen - Wendy - Kendal - Vendor supplies
- test kits -

~~A~~ Pitchers - Ship 23 cup ~~Ship~~ on Friday -
- Priority offer is the faucet - less than 1%
- not accepting - private instruction - spontaneous -
not to PODs or Warehouse

When they come back - trucks are not cleaned
- Speak w/ ERV Coordinator
→ Ensure - that trash is moved Before
the refill -

→ more warehouse Support Staff ←

- to EOC -
10(5) Penske total
@ Warehouse Empty - parked
20 today - advance loaders
- hand off keys
20 + total amount? Loads staging

30 xtra FPA 8's -
Shot Shots Single hot's household
• run a 2 Shifts 7 team -
12-9/8
Double Shifts -

M. Pulsut needs this! Red Cross - EOC → SPC7 Should be Michelle Kuzera number

7000 homes - yesterday 1/18/16 - reached
10-15000 per day

- all types (3)

1-27-16 - 10:30 Briefing —
Distribution Plan

- not National Guard - Bonnie warehouse)
→ Dave — Ops + logistics
- Electric pallet jacks → going through that ←
- 10 teams 1500 - residents
Filter + water to all c

- order - more supplies
- looking @ a new warehouse - turn into a POD
- local - SEOC
  - Recycling efforts - (Plan for) - volunteer opportunities in Michigan community
- Feeding Sportshouse Volunteer —
- door hanger + providing bags + teams go to door to door
- Genia Holmes — plan for Recycling —
  - press release
- Dave - Spontaneous Volunteers - large groups - hold off on - deploying the teams -
  - Printing will go through (Wendy - logistics)
  - number teams going forward
  - 5-on Friday - Brianna - Jason - Wendy Sat + Sun 10-on 10

- Status update on pallet jacks - need (4) - manual POD
Electric ones for (POD trucks - rented & - electric)

pallet jack
Sunday
- Station 8 - received last night - Borrowed
- Station 6 - down
- Station 5 - down

1/27/16 7:00pm — Distribution Meeting
— POD - has run out of water - each day
- not able get to docks - to unload
- each truck is loaded w/ requested supplies
- only donations on certain days
✓ - trash been taken care of @ Station
- Red Cross - sent out 10 teams -
- Alternate - warehouse - (duplicate ✓ drop out)
- Pitchers - going through to many → alternate = warehouse keeping them
- take out of the POD's -
- Finish the other areas - less than 20
- Over all map -
- Ware house - Home Depot - volunteers
- Peter - the Volunteers

**Incident: 2015-10-01-City of Flint-Water Contamination / Shortage**

Create PDF | Return to List

**Details**

**Record:** 1272
**Person Taking Call:** Mike Doyle
**Message Received From:** Other -
**Person Calling:** Lois Graham
**Organization:** DEQ Contamination Investigations
**Map Label:**
**Address:**
**Lat/Long:** /
**Time of Call:** 02/19/2016 13 45 00
**Phone Number:** 517-284-6530
**Email:**
**Fax:**

**Inquiry:** Lois called on behalf of a resident who lives at 2522 Nolen Drive The woman had her water sampled a couple of times since October and Lois was able to track down the results of her Jan 26 testing, which was worse than the October sample A third sampling was done in February by a "Brian from the DEQ." Lois cannot find those results for the woman, who is apprehensive they may show her water has worsened since the January testing. Lois would like to speak with someone who is coordinating the water sampling in order to track down the results from the February sampling She also stated she believes that lab forms are not being filled out properly. Please contact her today if possible. Thanks

**Reply Needed:** Yes **Deadline:** within 24 hours

**Response Assigned To:** SEOC MGT PIO
